Biography

I-Chung Lai was born at Taipei, Taiwan in 1966. He received his B.A. in Physics in National Cheng-Kung University in 1988. After serving two years in the artillery unit for the obligatory military service, he came to United States in 1991 for graduate study. He joined the CLEO experiment in 1994 and was stationed at Ithaca, New York from 1994-1999. During that period, he also served as the speaker of the Pan-American overseas Taiwanese student organization (Taiwanese Collegian) in 1995-1997, the vice-president of the North America Taiwan Study Conference in 1998, and the chairman of the student affairs committee of “World United for Formosa Independence-USA” from 1998-1999. He received his Ph.D degree in Physics from Virginia Polytechnic Institute and State University in June 1999. He is expected to be the director of Taiwan Democratic Progress Party Mission office in the U.S.
