Subject: permissions for dissertation reprint

To Whom it May Concern:

I am completing a doctoral dissertation at Virginia Polytechnic Institute and State University entitled “Complementary Strategies to Promote Mesenchymal Stem Cell Differentiation for Ligament Tissue Engineering”. I would like your permission to reprint in my dissertation the manuscript in its entirety:

The requested permission extends to any future revisions and editions of my dissertation, including non-exclusive world rights in all languages, and to the prospective publication of my dissertation by UMI Company. These rights will in no way restrict republication of the material in any other form by you or by others authorized by you.

Please let me know if there is anything additional that I would need to do. Thank you very much.

Sincerely,
Robyn D Shaffer
