Permission is granted by the Bentley Institute Press and Haestad Press. If you'd like, please send me the work when it is finished and I can forward it to the authors as I am sure they would be interested in your findings.

Thanks,

Jeff

Subject: Copyright information - permission to use some figures in Haestad Book

Hi Jeff,

My name is Siva Selvanathan, a PhD student at Virginia Tech working on HECRAS floodway modeling. I'd like to use some of the figures in Floodplain Modeling using HECRAS, First edition in my dissertation document. The figures in question here are Figures 2.25, 10.1, 10.2, 10.3, 10.4 and 10.5. These figures are related to the theoretical aspects of HECRAS modeling. I had previously requested to use the same in one of my manuscript submissions to a journal (see attached email conversation). This request is for using the same figures in my dissertation.

Proper credits will be provided to the publisher and the authors as before. I'd appreciate if you can please reply to this email granting me permission to do so.

Thank you,
Siva Selvanathan

Dear Mr. Siva Selvanathan,

Thank you very much for your publication in Journal of Flood Engineering (JFE) Vol. 1, No. 1. entitled "**An algorithmic approach to iterative floodway modeling using HEC-RAS and GIS**" by **Sivasankkar Selvanathan and Randel L. Dymond**. I will grant you a permission as Editor in Chief for inclusion of the submitted manuscript in your dissertation.

Best Wishes

Saeid

Dr. Eslamian,

I would like to include my manuscript for the JFE journal as a separate chapter in my dissertation document. In order to do that, I need a permission email from you stating that you give me permission (as a publisher) to include the submitted article in my dissertation. Please reply to this email stating so. I'll turn this as a proof of copyright to the Graduate School.

Thanks you,
Siva Selvanathan
