

Table of Contents

Abstract.....	ii
Acknowledgments.....	iv
Table of Contents.....	vii
List of Tables.....	x
List of Figures	xii
Introduction	1
Chapter 1. Review of Literature	2
Supplementation of pasture	2
Inadequacies in northern Virginia pasture	3
<i>Phosphorus</i>	
<i>Selenium</i>	
<i>Weaning stress and zinc</i>	
<i>Vitamin A</i>	
Types of supplements available.....	5
Seasonal variation in pasture.....	6
Carbohydrate fractions in pasture.....	7
Digestion of carbohydrate in the horse	11
Feeding-fasting cycle	13
Carbohydrate status in the horse	16
<i>Glucose tolerance</i>	
<i>Glycemic indices</i>	

Fat nutrition	20
<i>Digestion of fat in the horse</i>	
<i>Substitution of energy sources: fat versus hydrolyzable carbohydrate</i>	
<i>Palatability</i>	
<i>Behavior</i>	
<i>Digestibility</i>	
<i>Exercise performance</i>	
Milk composition.....	25
Growth of the foal.....	26
Normal bone growth	29
Developmental orthopedic disease.....	30
<i>Manifestations</i>	
<i>Endocrine effects</i>	
<i>Nutritional influences</i>	
Summary	42
Literature cited	50
Chapter 2. General Materials and Methods.....	63
Chapter 3. Dietary Starch and Sugar Versus Fat and Fiber: Growth and Development of Foals I.....	75
Chapter 4. Dietary Starch and Sugar Versus Fat and Fiber: Growth and Development of Foals II. Comparison of growth in 1994 and 1995 Thoroughbred foals	90
Chapter 5. Dietary Carbohydrates and Fat Influence Radiographic Bone Mineral Content of Growing Foals.....	104
Chapter 6. Dietary Carbohydrates and Fat Influence Milk Composition and Fatty Acid Profile of Mares' Milk.....	130

Chapter 7. Carbohydrate Status in Fat-Adapted Mares During Pregnancy and Lactation	145
Chapter 8. Seasonal Variation of Hydrolyzable Carbohydrates in Pasture: A Comparison of Direct and Indirect Methods of Determination.....	164
Chapter 9. General Discussion	178
Implications	186
Vita.....	188
