

List of Figures

<u>Figure</u>		<u>Page</u>
3.1	Installation of soil collection system.....	39
3.2	Anterior (a) and posterior (b) view of the runoff flume.....	40
3.3	Sediment collection box.....	41
3.4	Design specifications of the runoff flume.....	42
3.5	Design specifications of the sediment collection box.....	43
3.6	Rainfall (a) observed from a high intensity storm on September 10, 1996 and the resulting soil erosion (b) quantified on September 16.....	44
4.1	Seasonal soil erosion quantified in 1996 (a) and 1997 (b) resulting from five conservation tillage flue-cured tobacco production systems and conventional tillage.....	86
4.2	Weighted average clay, silt and sand composition of collected soil erosion in 1996 (a) and 1997 (b) resulting from five conservation tillage flue-cured tobacco production systems and conventional tillage...	88
4.3	Weighted average very coarse (vc), coarse (c), medium (med), fine, and very fine (vf) sand composition of collected soil erosion in 1996 (a) and 1997 (b) resulting from five conservation tillage flue-cured tobacco production systems and conventional tillage.....	90
4.4	Flue-cured tobacco yield of five conservation tillage production systems and conventional tillage in 1995 (a), 1996 (b) and 1997 (c).	92
4.5	Flue-cured tobacco value of five conservation tillage production systems and conventional tillage in 1995 (a), 1996 (b) and 1997 (c)..	94
4.6	Cover crop residue of five conservation tillage flue-cured tobacco production systems and a conventional tillage production system remaining on the soil surface following layby cultivation in 1996 (a) and 1997 (b).	96
5.1	Yield of eight Virginia dark-fired tobacco conservation tillage production systems and conventional tillage in 1996 (a) and 1997 (b).....	125

5.2	Row cultivation effect on conservation tillage produced Virginia dark-fired tobacco yield (a) and value (b).	127
5.3	Tobacco value of eight Virginia dark-fired tobacco conservation tillage production systems and conventional tillage in 1996 (a) and 1997 (b).	129
5.4	Soil nitrate levels of eight Virginia dark-fired tobacco conservation tillage production systems and conventional tillage in 1996 (a) and 1997 (b).	131
5.5	Row cultivation effect on soil nitrate (a), plant lodging (b) and ground sucker occurrence (c) in 1997.	133
5.6	Total alkaloid content of eight Virginia dark-fired tobacco conservation tillage production systems and conventional tillage in 1996 (a) and 1997 (b).	135
