Continuous Water Table Elevations and Rainfall Data

List of Figures

Figure A1: Continuous water table elevations and rainfall, 2004.....	94
Figure A2: Continuous water table elevations and rainfall, 2003.....	95
Figure A3: Continuous water table elevations and rainfall, 2002.....	96
Figure A4: Continuous water table elevations and rainfall, 2001.....	97
Figure A5: Continuous water table elevations and rainfall, 2000.....	98

A Appendix

For the purpose of this study, groundwater table elevations were continuously monitored using Global Water Level Loggers installed at observation points MW6, P4, P25, and P3. In addition, rainfall data was collected on-site using a Davis Instruments Weather Station. The following illustrates the results of this monitoring.

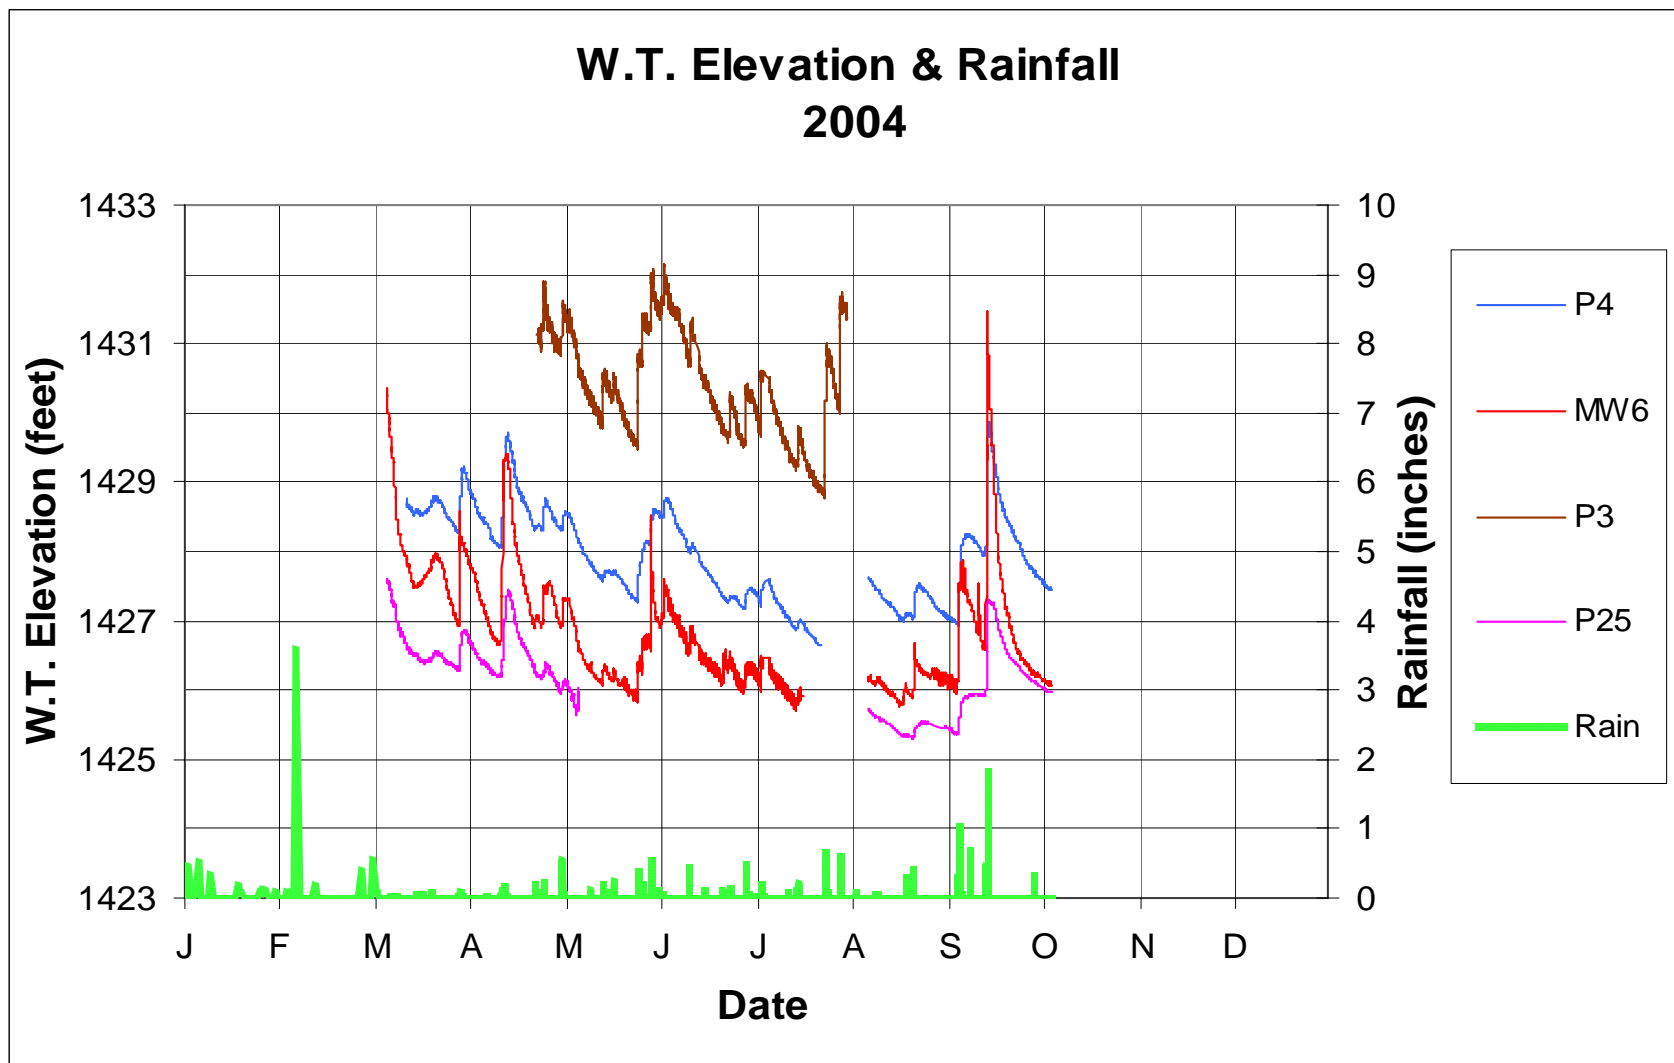

Figure A1 Continuous water table elevations and rainfall, 2004

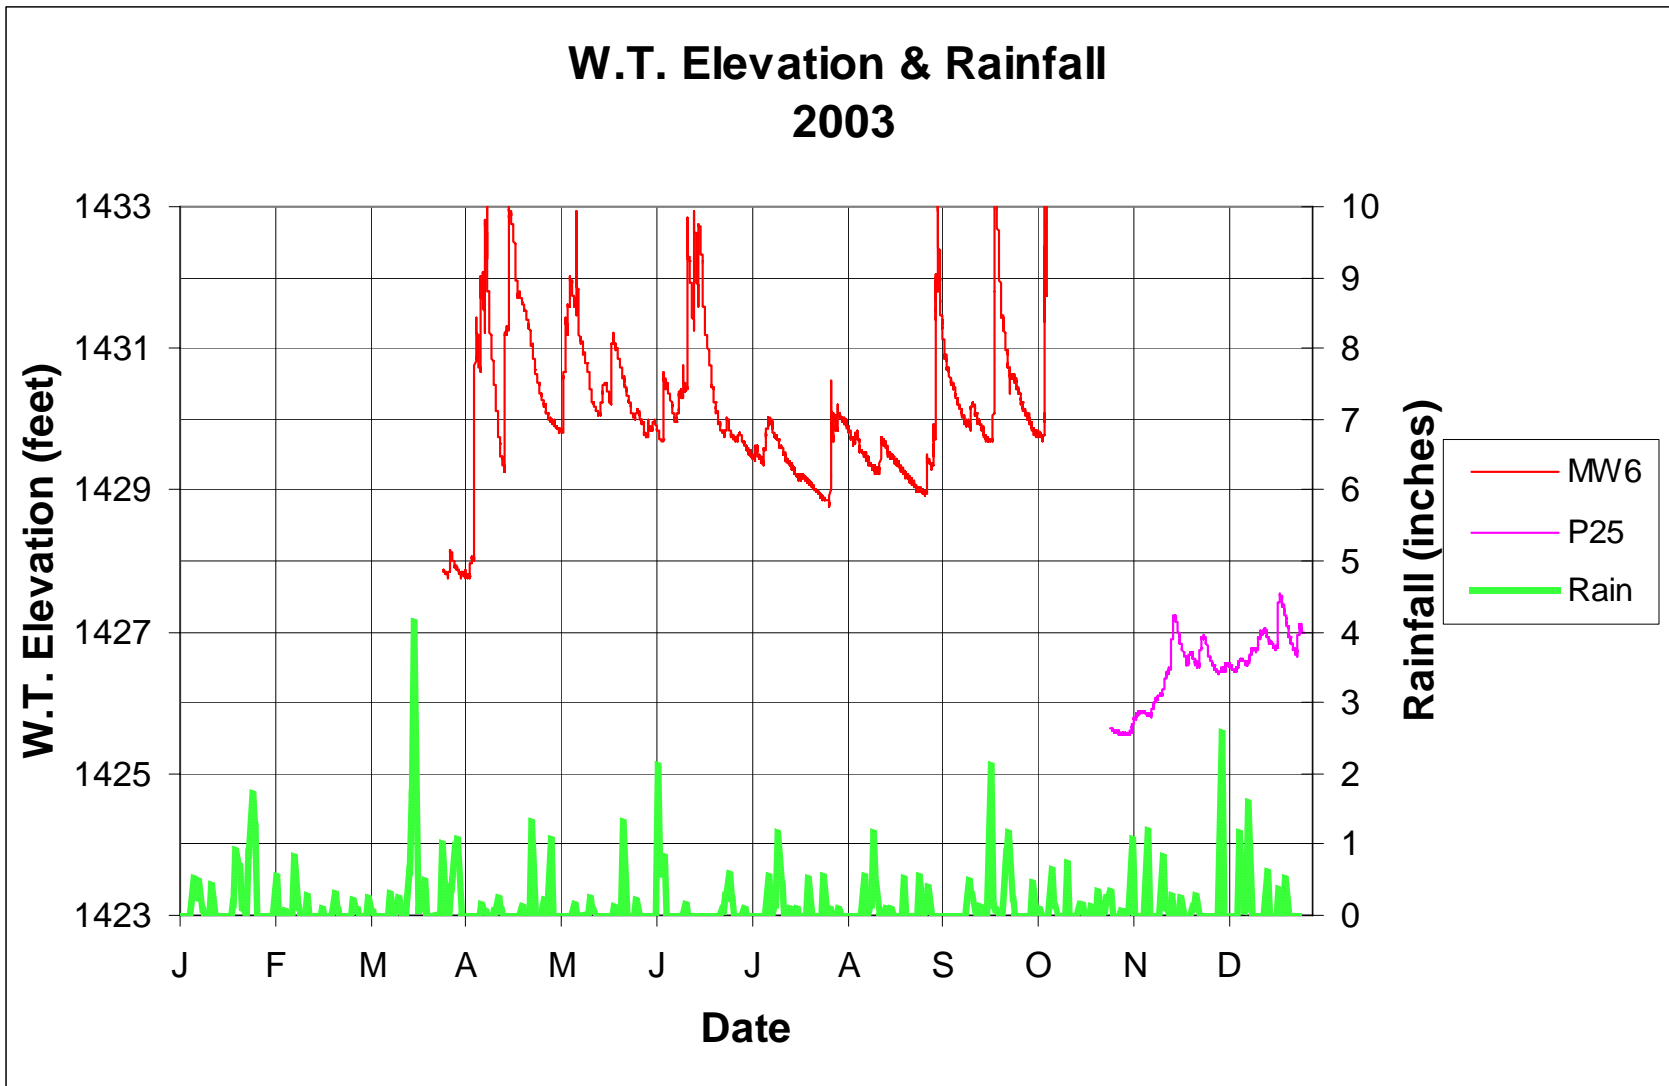

Figure A2 Continuous water table elevations and rainfall, 2003

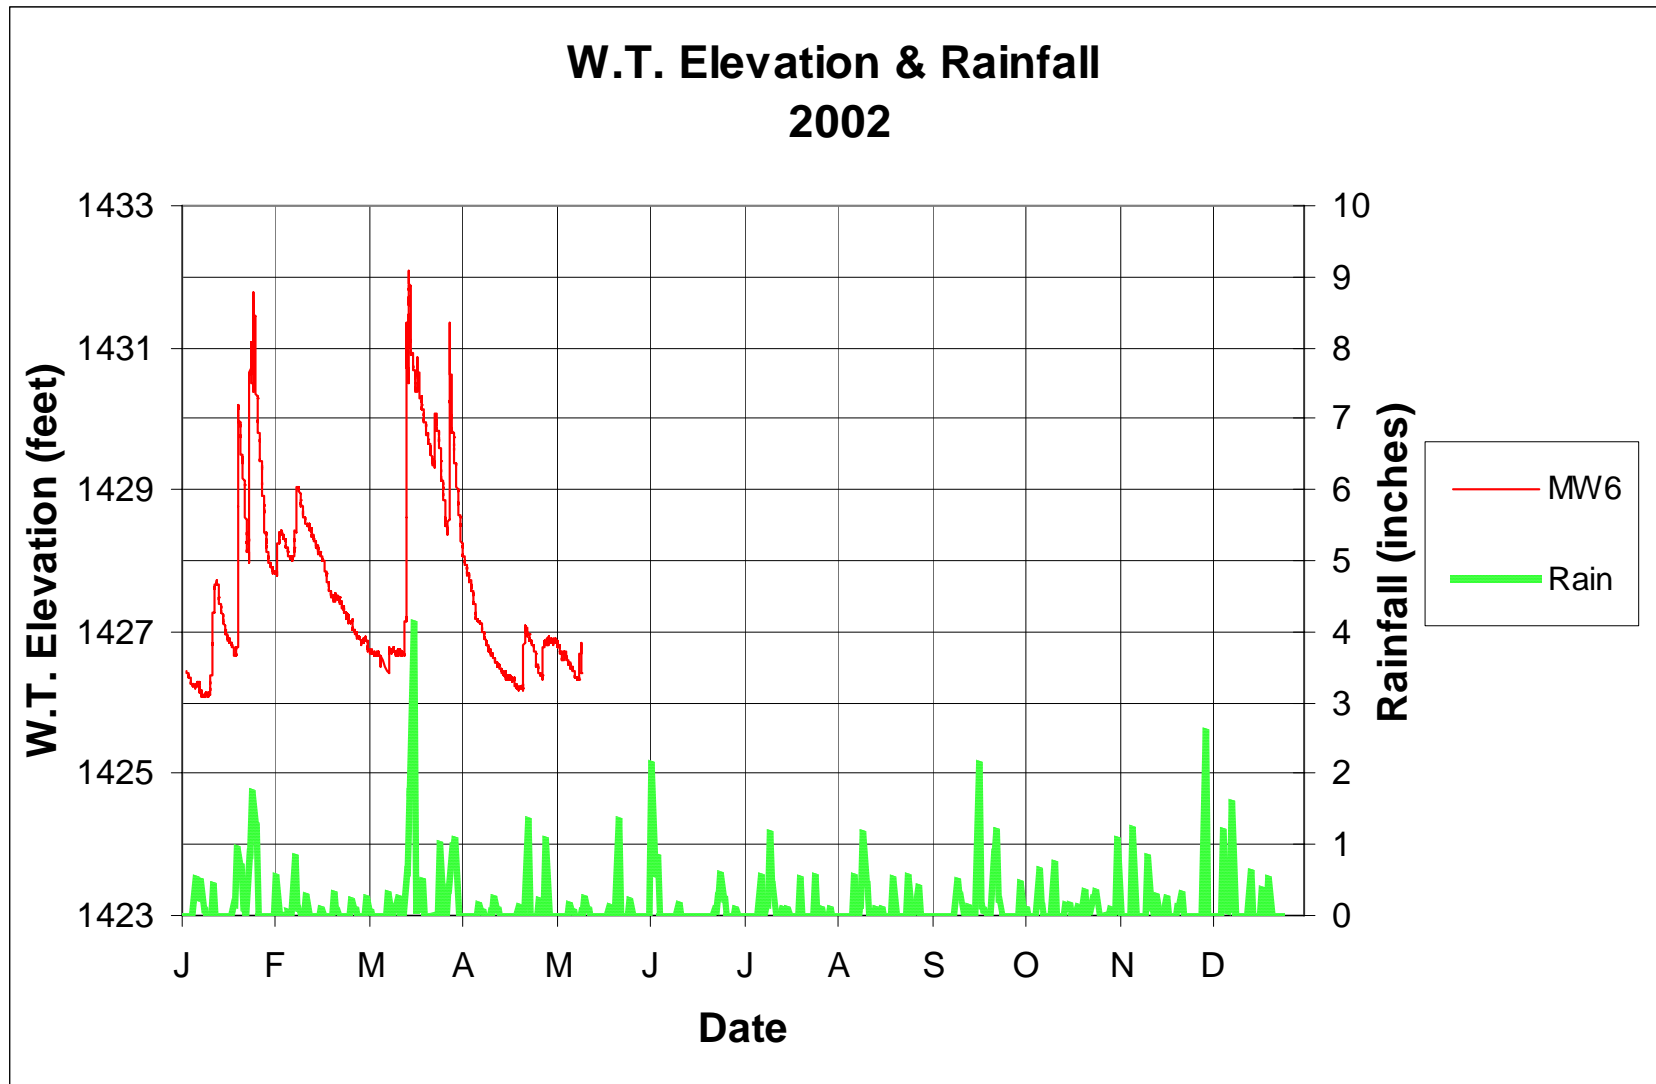

Figure A3 Continuous water table elevations and rainfall, 2002.

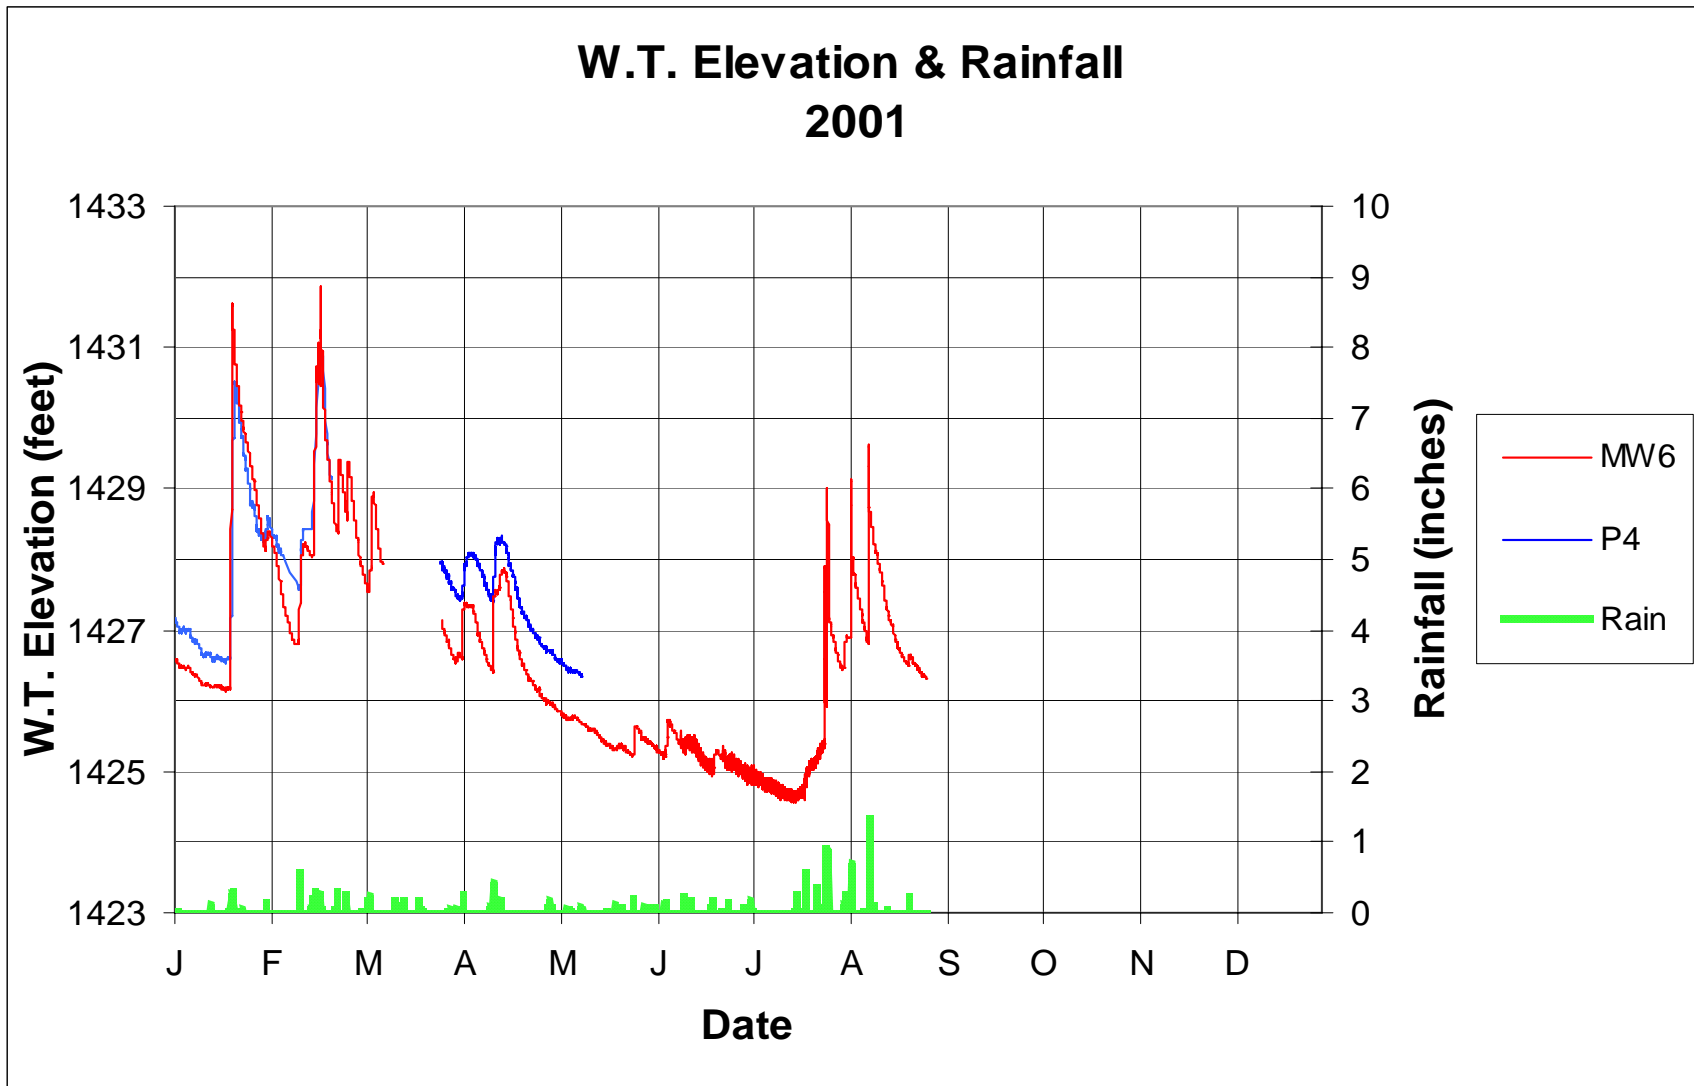

Figure A4 Continuous water table elevations and rainfall, 2001

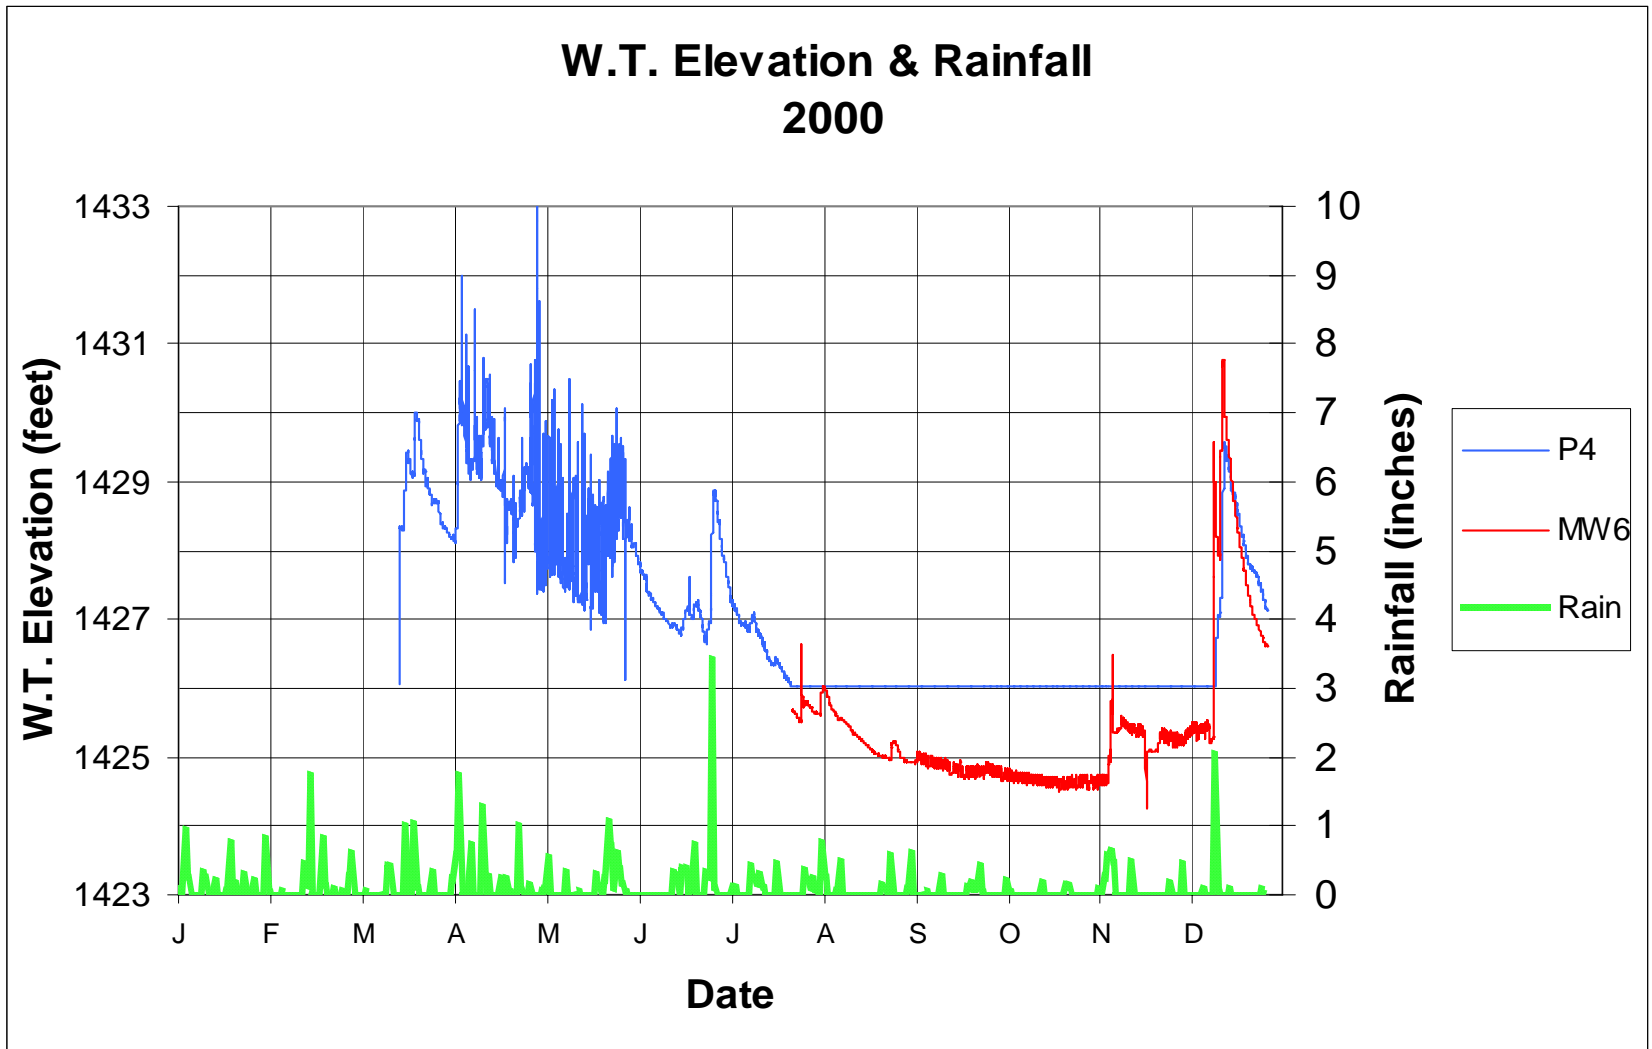

Figure A5 Continuous water table elevations and rainfall, 2000.
