

ACKNOWLEDGEMENTS

I would like to thank my husband, Scott Stadtmueller for his patience and support. I would not have made it through the last few years without him. I would also like to thank my parents Richard and Barbara Savage and my sister Pamela, for their support and for believing that someday, I would graduate.

I thank my advisors, Dr. John E. Kobza, Dr. C. Patrick Koelling for giving me the opportunity to work with them on this very interesting project. Additionally, I thank Dr. Sheldon Jacobson and Dr. Ebru Bish for taking the time to serve on my committee. I also wish to thank Ms. Lovedia Cole for her assistance during my time with the Industrial and System Engineering Department. Lastly, I want to thank all of my friends in the ISE department and Frontier Technology, Inc. for their support and suggestions.
