Dear all,

My PhD dissertation is under review with the graduate school. I would like to request your permission to use pictures with you in them, to be precise Figures 5.4 and 5.7. Can you please let me know it is OK if I use these pictures in my dissertation?

Figures 5.4 AAL-PIP solar panel tower. Joseph is securing the panels at the top of the tower and Dr. Bob Clauer is working in the electronics box pit.

Figure 5.7 The team with completely assembled AAL-PIP system. From left to right: Dr. Bob Clauer, Kshitija Deshpande, Joseph Macon and Dr. Hyomin Kim.

You should be able to access my dissertation at:

Thank you,  
Kshitija

Kshitija,

You have my permission to use these pictures in your dissertation so that the graduate school may publish it. It looks great! I am looking forward to reading it. :)
