

Design and Fabrication of a Mask Projection Microstereolithography System
for the Characterization and Processing of Novel Photopolymer Resins

Philip Michael Lambert

Thesis submitted to the faculty of the Virginia Polytechnic Institute and State University
in partial fulfillment of the requirements for the degree of

Master of Science
In
Mechanical Engineering

Christopher B. Williams
Timothy E. Long
Lissett R. Bickford

June 26th, 2014
Blacksburg, VA

Keywords: Mask Projection Microstereolithography, Stereolithography, Vat
Polymerization, Tissue Scaffolds, Novel Photopolymer
