Dear Cynthia,

Population data and other statistical information are published on our website and they are public, but we doesn't state that they are allowed to be used by the public.

**They are published on the official website of the State Statistical Office and it's clear that they're widely available and free of charge according to our publishing policy.**

Sincerely,

Kiril

---

To Whom It May Concern:

My name is Cynthia Lintz. I am from Virginia Tech University in the United States. My dissertation "Understanding the Construction of national and regional identity: Perceptions of One Another Along the Bulgarian-Macedonian Border" was recently approved and is currently undergoing review for formatting standards by the University. One of the tables that I used comes directly from your data and I may need permission to display it in my dissertation.

This is what was written and the table that is displayed (p 40):

	Total	Macedonians	Albanians	Turk	Roma	Vlach	Serb	Bosniak	Other
1948	1,967	..	..	..	..	..	..	..	..
1953	2,539	2,009	3	81	336	0	70	..	40
1961	2,844	2,360	1	12	..	..	60	..	411
1971	4,955	4,301	6	16	369	..	118	..	145
1981	8,860	8,243	0	9	297	0	120	..	191

1991	11,271	10,517	0	1	479	1	122	..	151
1994	11,166	10,538	0	0	506	2	65	..	55
2002	14,558	13,758	0	2	668	2	88	1	39

(Table 1: Population of the City of Kriva Palanka Ethnicity. Source: Republic of Macedonia State Statistical Office, 2014.)

In the Reference section of the dissertation I list the reference as (format has changed due to email):

Republic of Macedonia State Statistical Office. (2014). Population of Republic of Macedonia by Ethnic Affiliation, by Settlements, according to the Population Censuses 1948, 1963, 1961, 1971, 1981, 1991, 1994 and 2002. Retrieved from the internet <http://makstat.stat.gov.mk>

Virginia Tech University requires that I ask for permission to use the table, shown above. Typically, this type of material is listed in the "public domain", however, I have been unable to locate this reference on your website. Could you please verify that this table may be used in my dissertation?

Respectfully,  
Cynthia Lintz (Conferred PhD)  
Virginia Tech
