Dear Mr. Chaffee,

I am Jongmin Lee, PhD candidate in Virginia Tech. I am writing a historical dissertation about the pollution control technology development at the U.S. Environmental Protection Agency. One chapter of my dissertation deals with catalytic converters and mobile air pollution control and I found your restoration work for 1970 Plymouth Superbird very engaging. I want to use one of your photos in my dissertation and send this attachment to get your permission. I would appreciate if you can respond by August 1st. Thank you for your consideration and please feel free to contact me at jongmin@vt.edu or 540-808-7937.

Best regards,

Jongmin Lee
