To whom it may concern,

My name is Sakiko Okumoto, an assistant professor at Virginia Tech.  
My student is currently preparing her dissertation, and we wish to include some of the materials we published in Frontiers last year.

[Glutamate receptor homologs in plants: functions and evolutionary origins.](#)

Price MB, Jelesko J, **Okumoto S.**

Front Plant Sci. 2012 Oct 30;3:235. doi: 10.3389/fpls.2012.00235.

I would like to ask you for permission to include the content of the above publication. Obviously the publication will be cited as necessary, and will not be used for any other purposes.

All the best,  
Sakiko Okumoto

Dear Prof Okumoto

Thank you for your email.

Under the Frontiers Terms and Conditions, authors retain the copyright to their work. All Frontiers articles are Open Access and distributed under the terms of the Creative Commons Attribution License, (CC-BY 3,0), which permits the use, distribution and reproduction of material from published articles, provided the original authors and source are credited, and subject to any copyright notices concerning any third-party content.

Hence, you and your student are free to cite your article in the dissertation - as long as the original article is correctly cited. Please follow the following example: "Figure/Table/Results as originally published in Weiss SA and Faber DS (2010) Field effects in the CNS play functional roles Front. Neural Circuits 4:15. doi: 10.3389/fncir.2010.00015".

Please do not hesitate to [contact us](#) should you need any assistance.

Kind regards,

Despoina Evangelakou, PhD  
Editorial Assistant
