WordPress Site

- Mural theme
- Responsive design
- Search
The Virginia Center for Civil War Studies presented a symposium entitled “Lincoln In Our Time” in honor of the 150th anniversary of the assassination of Abraham Lincoln. An exhibit was set up from March 1, 2015 to April 15, 2015, in Virginia Tech’s Newman Library so students could further explore the story of Lincoln.

The exhibit contained information about Lincoln in the form of text as well as media. In addition, the exhibit showcased many artifacts from Lincoln’s life. This website includes presentations created by Virginia Tech history students explaining the artifacts and how they relate to Lincoln’s life.
