

The Application of Mineral Processing Techniques to the Scrap Recycling Industry

Scott Carl Koermer

Thesis submitted to the faculty of the
Virginia Polytechnic Institute and State University
in partial fulfillment of the requirements for the degree of

Master of Science
in
Mining and Minerals Engineering

Gerald H. Luttrell, Chair
Gregory T. Adel
Michael J. Mankosa

September 2, 2015
Blacksburg, Virginia

Keywords: Recycling, Metal, Circuit Analysis, Tree Analysis

Mr. Scott Koermer
Virginia Polytechnic Institute and State University
Blacksburg, VA

Scott,

Thank you again for your contributed article "Gauging yield and recovery," which was published in the September/October issue of *Recycling Today Global Edition* magazine.

Please be assured that you have our company's permission to use your drafted article, or the article in any other form, as part of a submitted thesis.

Should you need to access the published version of the article, it can be found here:
<http://www.recyclingtodayglobal.com/article/rtge0915-shredded-scrap-separation-performance>

and starting on page 34 of the digital edition of the magazine, which can be found here:
<http://www.recyclingtodayglobal.com/fileuploads/digital-editions/rtge/digital/20150910/index.html> .

Please let me know if you need any additional proof of permission from Recycling Today Media Group or its parent company GIE Media, and best of luck in organizing a successful thesis!

Respectfully Yours,

Brian Taylor,
Editor,
Recycling Today Media Group
