Mr. Yamamoto and Mr. Ushi,

Due to copyright laws in the United States I have to ask for permission if I want to present any figures from other people in my own work. I was hoping you would grant me permission to use the two attached figures from your website.

Thanks,

John Ward

Mr. Lee,

I was hoping to use an image you produced in the paper "Use of fibre sheet strip stirrups for internal shear reinforcement of concrete beams". Due to copyright laws in the United States I am required to receive permission from the author before any figure can be reproduced from another person's work.

The figure is attached to this email. Let me know if the use of this figure is acceptable. Your work will be referenced in the paper.

Thanks,
John Ward

Dear Mr. Ward:

Happy New Year!

You may use the image in your paper.
I hope you stay healthy.

With best regards,

Chadon Lee.

Ms. Sloger,

I have a copy of the "Test Method for Individual Strand Tensile Strength of C-Grid Products" and I was hoping to use a figure from this document in my thesis. Due to copyright issues I must ask the owner/writer of the document. I was hoping you could check with people on your end to make sure it is acceptable.

The figure I am would like to use is attached. Please let me know if the use is acceptable.

Thanks,
John Ward

Mr. Sung and Mr Yoon,

I was hoping to use an image you produced in the paper "Flexural Behavior of GFRP Reinforced Concrete Members with CFRP Grid Shear Reinforcements". Due to copyright laws in the United States I am required to receive permission from the author before any figure can be reproduced from another person's work.

The figure is attached to this email. Let me know if the use of this figure is acceptable. Your work will be referenced in the paper.

Thanks,
John Ward
