

Agroforestry and Sustainable Vegetable Production in Southeast Asian Watersheds

NLU kick-off workshop (May 12, 2005)

Environmental & socio-economic impacts

(Research framework and planning)

Nguyen Van Loi

Dang Thanh Ha

Tran Van My

Objectives

*Assess the short and long-term environmental
and socio-economic impacts of integrated
vegetable-agroforestry systems*

(SWAT) model

SWAT training

Identify data to be collected

data collection

Analysis of satellite images;
gathering modeling inputs

Apply SWAT model, Analyze outputs

With VAF case studies

Without VAF case studies

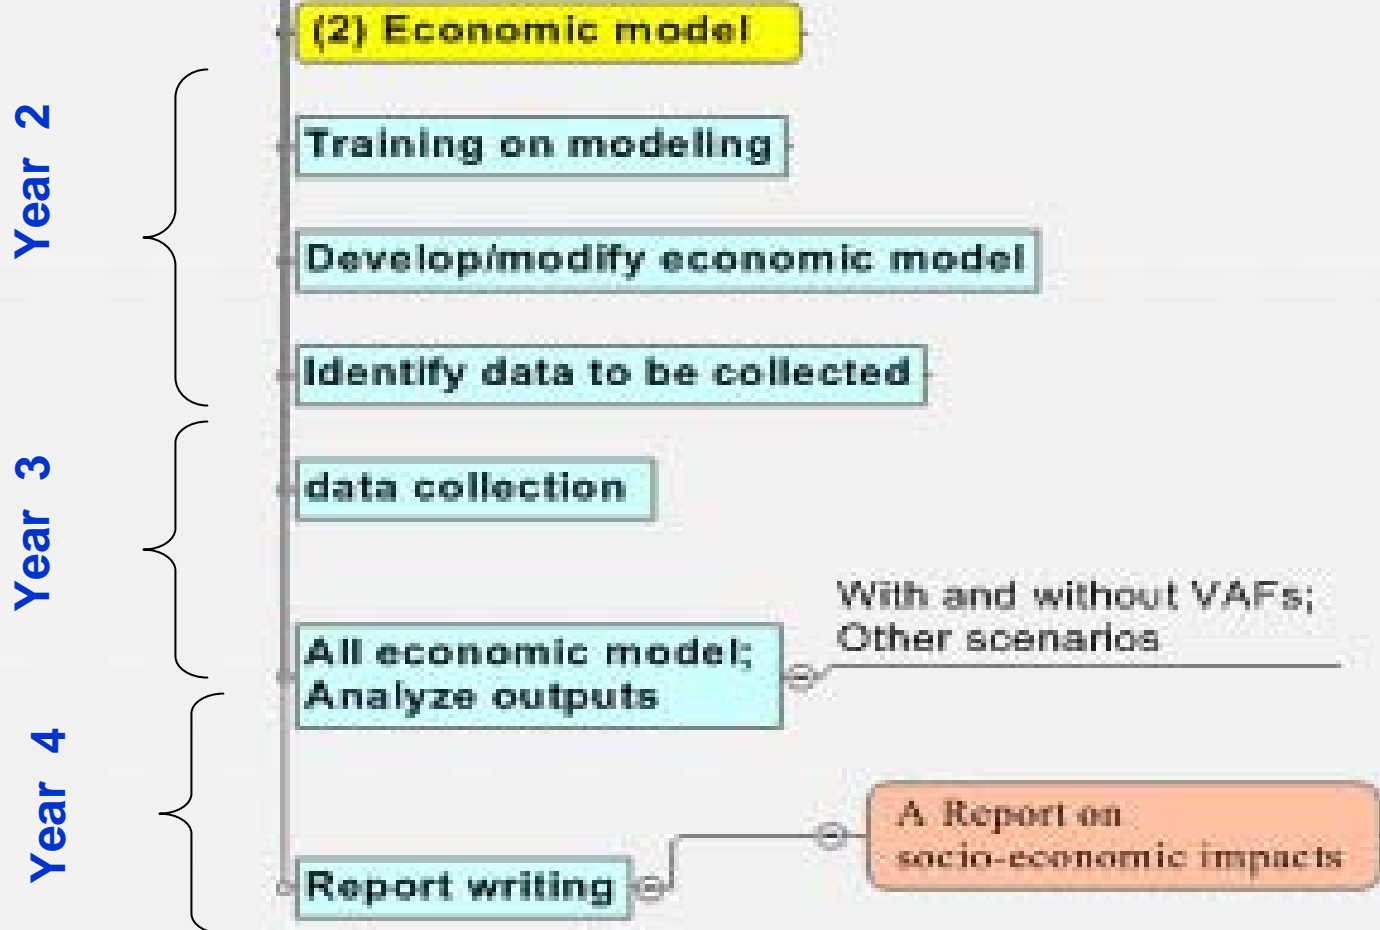

Year 2

Year 3

Year 4

Environmental & socio-economic impacts

Thank you!
