

Effects of environmental variables along a soil and climatic gradient in Zambia

Conservation Farming

Field days

Goals

Grain yield along the climatic gradient

Acknowledgement

Financial:

1. SANREM-CRSP (USAID)
2. Cornell University
 - Mario Einaudi Summer Travel Grant
 - Richard Bradfield Award
 - Presbyterian Church- Ithaca
 - Institute for African Development
3. Norman Borlaug-LEAP Fellowship

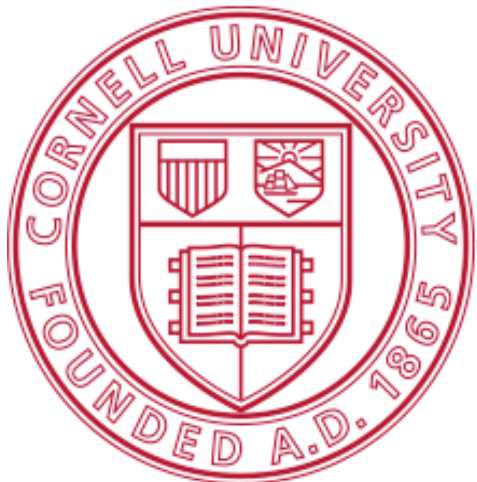

Collaborators:

Zambia:

- COMACO/WCS Stakeholders (Lundazi and Mambwe)
- Agriculture Support Program - SIDA (Mpika)
- Conservation Farming Unit (CFU- Mumbwa)
- World Agro-forestry (ICRAF) Msekera Research Station
- University of Zambia

Drs. Johannes Lehmann, Peter Hobbs, Stephen DeGloria (Cornell University); and Dr. Robert Delve (TSBF-CIAT).
