Project

- Social Interactome (SI) is an anonymous, social media support system for recovering addicts.
- Turn SI's desktop version into a mobile version

Responsive Web Design

- Most changes are through CSS
 - Change design based on screen size
 - Change formatting
 - Declare what is visible

Current Desktop Version

Home Make a Friend! 

Welcome to The Social Interactome

Nickname or Email address:

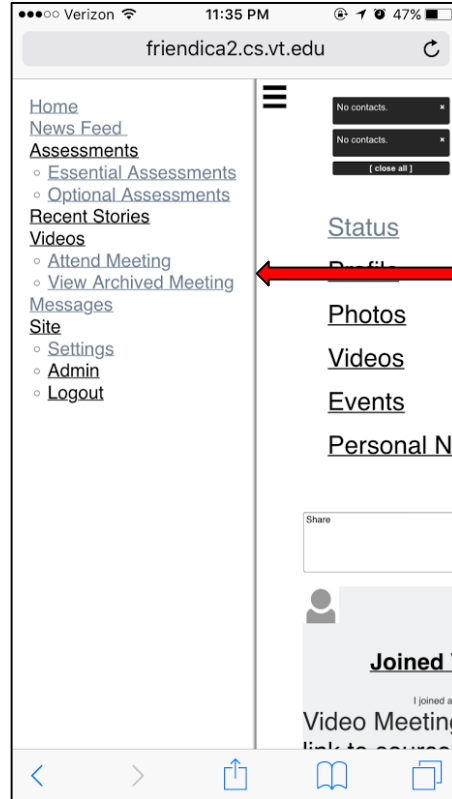

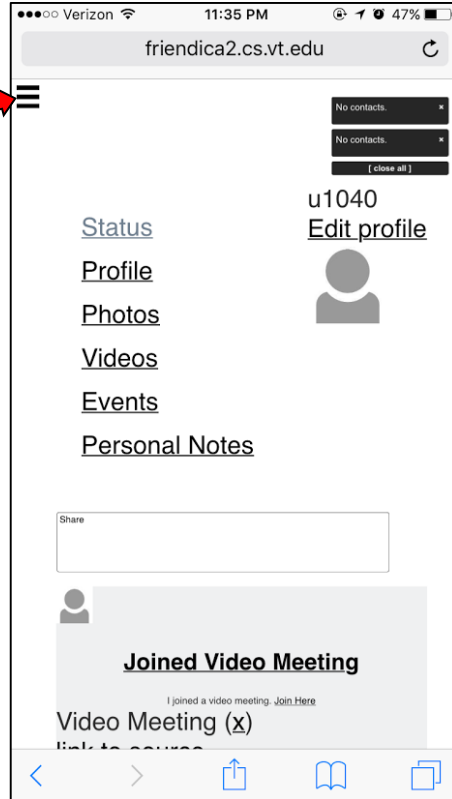

Password:

[Password Reset](#)

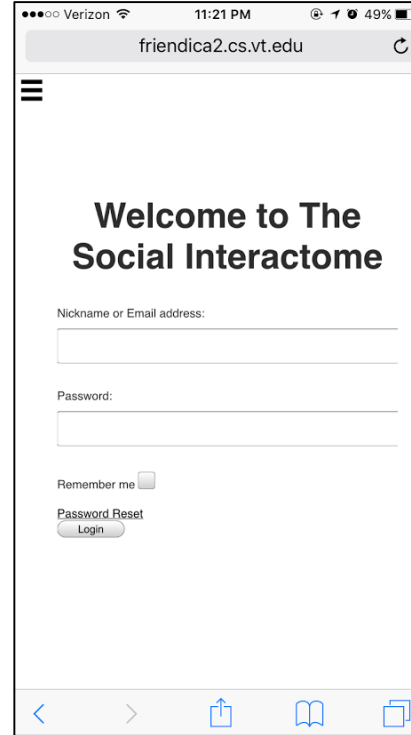

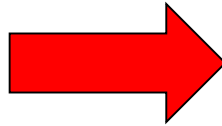

Navigation

- Use of a “hamburger,” push-drawer menu
- Allows for hidden navigation

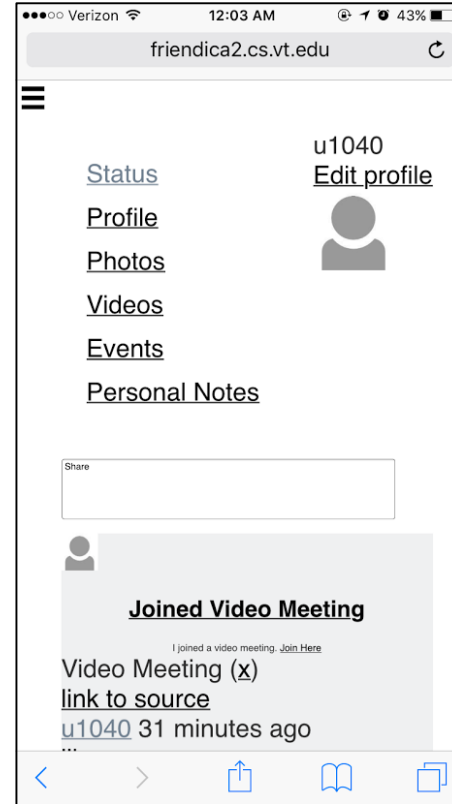

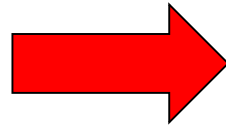

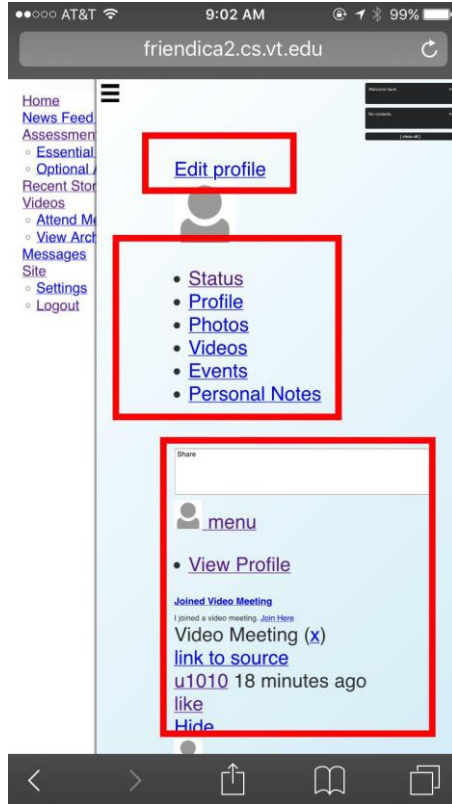

- “Hamburger” push-drawer menu enlarged to show all navigation content

Formatting

Reformatting Home Page

Other CSS Changes

- Formatted text to match
- Centered the headings
- Eliminated unnecessary navigation content and information
- Enlarged font sizes to be more readable

Remaining Known Issues
