Document the North Cross School Camp

- Film 360 degree video of the camp
 - Record and integrate spatial audio
- Present students' perspective

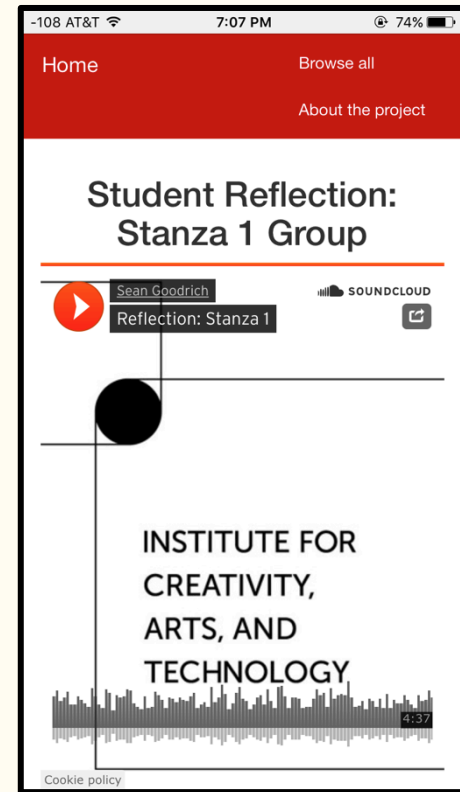

During the North Cross School Camp

- Indoors in the multipurpose room
- Syncing video and audio
- Outdoors in the courtyard
 - Children and chaos

After the North Cross School Camp

- Selected and stitched footage
- Merged spatial audio with 360-degree video
- Selected student materials and developed accompanying website to display them

Project by the Numbers

- 3 early alarm clocks
- 3 major software applications
- 3 dimensional Unity sphere
- 104 GB of GoPro footage
- 1.37 GB of audio

Final Exhibit

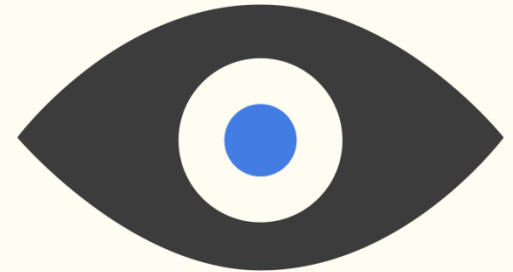

- 324 MB of video, 34 MB of audio, 3 iPads, 1 Oculus Rift

Adobe®
Creative Cloud™

unity

Lessons Learned

- Open-endedness as a strength and a weakness
 - “Keep an open mind, but not so open that your brain falls out.” - Claudio D’Amato, VT ASPECT Program
- Challenges with 360-degree video
 - Spatial audio
 - Stitching/software
 - The future of VR
- Future Virginia Tech 360 video efforts
 - TLOS (Technology-enhanced Learning and Online Services)
