Dear Faik Cuceoglu,

Permission is granted for you to reuse figure 1 from "Hysteresis and Uncertainty in Soil Water-Retention Curve Parameters" in your thesis. A full credit line must be added to the material being reprinted. For reuse in non-ASCE publications, add the words "With permission from ASCE" to your source citation. For Intranet posting, add the following additional notice: "This material may be downloaded for personal use only. Any other use requires prior permission of the American Society of Civil Engineers."

For Intranet posting, add the following additional notice: "This material may be downloaded for personal use only. Any other use requires prior permission of the American Society of Civil Engineers."

Each license is unique, covering only the terms and conditions specified in it. Even if you have obtained a license for certain ASCE copyrighted content, you will need to obtain another license if you plan to reuse that content outside the terms of the existing license. For example: If you already have a license to reuse a figure in a journal, you still need a new license to use the same figure in a magazine. You need separate license for each edition.

Authors may post the final draft of their work on open, unrestricted Internet sites or deposit it in an institutional repository when the draft contains a link to the bibliographic record of the published version in the ASCE Library or Civil Engineering Database. "Final draft" means the version submitted to ASCE after peer review and prior to copyediting or other ASCE production activities; it does not include the copyedited version, the page proof, or a PDF of the published version.

For more information on how an author may reuse their own material, please view: <http://ascelibrary.org/page/informationforasceauthorsreusingyourmaterial>

By clicking "accept" in connection with completing this licensing transaction, you agree that the following terms and conditions apply to this transaction (along with the Billing and Payment terms and conditions established by Copyright Clearance Center, Inc. ("CCC"), at the time that you opened your Rightslink account and that are available at any time at <http://myaccount.copyright.com>).

Limited License

With reference to your request to reuse material on which Springer controls the copyright, permission is granted for the use indicated in your enquiry under the following conditions:

- Licenses are for one-time use only with a maximum distribution equal to the number stated in your request.

- Springer material represents original material which does not carry references to other sources. If the material in question appears with a credit to another source, this permission is not valid and authorization has to be obtained from the original copyright holder.

- This permission

- is non-exclusive

- is only valid if no personal rights, trademarks, or competitive products are infringed.

- explicitly excludes the right for derivatives.

- Springer does not supply original artwork or content.

- According to the format which you have selected, the following conditions apply accordingly:

- **Print and Electronic:** This License include use in electronic form provided it is password protected, on intranet, or CD-Rom/DVD or E-book/E-journal. It may not be republished in electronic open access.

- **Print:** This License excludes use in electronic form.

- **Electronic:** This License only pertains to use in electronic form provided it is password protected, on intranet, or CD-Rom/DVD or E-book/E-journal. It may not be republished in electronic open access.

For any electronic use not mentioned, please contact Springer at permissions.springer@spi-global.com.

- If you are an STM Signatory or your work will be published by an STM Signatory and you are requesting to reuse figures/tables/illustrations or single text extracts, permission is granted according to STM Permissions Guidelines: <http://www.stm-assoc.org/permissions-guidelines/>

For any electronic use not mentioned in the Guidelines, please contact Springer at permissions.springer@spi-global.com. If you request to reuse more content than stipulated in the STM Permissions Guidelines, you will be charged a permission fee for the excess content.

Permission is valid upon payment of the fee as indicated in the licensing process. If permission is granted free of charge on this occasion, that does not prejudice any rights we might have to charge for reproduction of our copyrighted material in the future.

-If your request is for reuse in a Thesis, permission is granted free of charge under the following conditions:

This license is valid for one-time use only for the purpose of defending your thesis and with a maximum of 100 extra copies in paper. If the thesis is going to be published, permission needs to be reobtained.

- is subject to courtesy information to the co-author or corresponding author.

Reservation of Rights

Springer reserves all rights not specifically granted in the combination of (i) the license details provided by you and accepted in the course of this licensing transaction and (ii) these terms and conditions and (iii) CCC's Billing and Payment terms and conditions.

License Contingent on Payment

Terms and Conditions**Permissions Terms & Conditions****Introduction**

The publisher for this copyrighted material is ASTM International ("ASTM"). By clicking "accept" in connection with completing this licensing transaction, you ("Licensee") agree that the following terms and conditions apply to this transaction (along with the Billing and Payment terms and conditions established by Copyright Clearance Center, Inc. ("CCC"), at the time that Licensee opened your CCC account.

Limited License:

ASTM hereby grants to Licensee a non-exclusive license to use this material. Licenses are for one-time use only with a maximum distribution equal to the number that Licensee identified in the licensing process. No emailing of ASTM documents is permitted. Licenses are for reproduction rights only and do not include a copy of the material.

It is the Licensee's responsibility to ensure that the material is original to ASTM's and does not contain the proprietary rights of another person or entity.

Altering/Modifying Material: Not Permitted

Licensee may not alter or modify the material in any manner. Licensee may not translate the material into another language.

Reservation of Rights:

ASTM reserves all rights not specifically granted in the combination of (i) the license details provided by Licensee and accepted in the course of this licensing transaction, (ii) these terms and conditions and (iii) CCC's Billing and Payment terms and conditions.

License Contingent on Payment:

While Licensee may exercise the rights licensed immediately upon issuance of the license at the end of the licensing process for the transaction, provided that Licensee have disclosed complete and accurate details of your proposed use, no license is finally effective unless and until full payment is received from Licensee (either by ASTM or by CCC) as provided in CCC's Billing and Payment terms and conditions. If full payment is not received on a timely basis, then any license preliminarily granted shall be deemed automatically revoked and shall be void as if never granted. Further, in the event that Licensee breach any of these terms and conditions or any of CCC's Billing and Payment terms and conditions, the license is automatically revoked and shall be void as if never granted. Use of materials as described in a revoked license, as well as any use of the materials beyond the scope of an unrevoked license, may constitute copyright infringement and ASTM reserves the right to take any and all action to protect its copyright in the materials.

Copyright Notice:

Licensee must include the following copyright and permission notice in connection with any reproduction of the licensed material: "Reproduced, with permission from [FULL CITATION], copyright ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428."

Disclaimer of Warranty:

Unless specified in this license, all express or implied conditions, representations and warranties, including any implied warranty of merchantability, fitness for a particular purpose or non-infringement are disclaimed, except to the extent that these disclaimers are held to be legally invalid.

Verification:

ASTM has the right to verify compliance with this license, at its expense, and at any time during the course of normal business hours. To do so, ASTM will engage an independent consultant, subject to a confidentiality agreement, to review your use of ASTM's material. Licensee agrees to permit access to its information and computer systems for this purpose. Verification will take place upon no less than 15 days notice, during normal business hours and in a manner that does not interfere unreasonably with Licensee's operations. If verification reveals unlicensed or prohibited use of the ASTM material, Licensee agrees to reimburse ASTM for the costs incurred in verification and reimburse ASTM for any unlicensed/prohibited uses. By invoking this procedure, ASTM does not waive any of its rights to enforce this Agreement or to protect its intellectual property by any other means permitted by law.

Limitation of Liability:

To the extent not prohibited by law, in no event will ASTM and CCC be liable for any loss, damage, lost data or for special, indirect, consequential or punitive damages, however caused regardless of the theory of liability, arising out of or related to the use of ASTM material. In no event will ASTM's and CCC's liability exceed the amount paid by Licensee under this License Agreement.

No Transfer of License:

This license is personal to you and may not be sublicensed, assigned, or transferred by you to any other person without publisher's written permission.

Governing Law, Venue, and Jurisdiction:

This license shall be interpreted and construed in accordance with the laws of the Commonwealth of Pennsylvania. Licensee agrees to submit to jurisdiction and venue in the state and federal courts of Pennsylvania for any dispute which may arise under this license. Licensee also agrees to waive any claim of immunity it may possess.

Integration

ASTM hereby objects to any terms contained in any purchase order, acknowledgment, check endorsement or other writing prepared by Licensee, which terms are inconsistent with these terms and conditions or CCC's Billing and Payment terms and conditions. These terms and conditions, together with CCC's Billing and Payment terms and conditions (which are incorporated herein), comprise the entire agreement between Licensee and ASTM International (and CCC) concerning this licensing transaction. In the event of any conflict between your obligations established by these terms and conditions and those established by CCC's Billing and Payment terms and conditions, these terms and conditions shall control. No modification of this license will be binding, unless in writing and signed by an authorized representative of each party (or, in the case of ASTM, by CCC on ASTM's behalf).

Licensee acknowledges and agrees that the adoption, enactment, reference, or incorporation of any of the ASTM material by any government or agency has not and will not effect, transfer, modify or alter the ASTM Rights in the ASTM materials in any way.

There are additional terms and conditions, established by Copyright Clearance Center, Inc. ("CCC") as the administrator of this licensing service that relate to billing and payment for licenses provided through this service. Those terms and conditions apply to each transaction as if they were restated here. As a user of this service, you agreed to those terms and conditions at the time that you established your account, and you may see them again at any time at <http://myaccount.copyright.com>.
