9781138001466 | Numerical Methods in Geotechnical Engineering | Edn. 1 | Pack - Book and CD | Origin UK

Dear Soheil:

Thank you for your request. The rights to this book are controlled by the UK office of Taylor & Francis. This means you'll have to obtain permission directly from them. Attached you will find their permission request form to be completed by you and sent to them directly. Their email address is: mpkbookspermissions@tandf.co.uk. Please be aware they also have approximately a 4 week turnaround due to very high demand.

Sincerely,

Diana Taylor

Virginia Tech Mail - RE: Copy right permission for my paper

As I handle only journal permission requests, I am forwarding to my book permission colleague, Diana Taylor, to help you.

Best regards,

Mary Ann Muller – Permissions Coordinator, US Journals Division

My Work Schedule is Tuesday, Wednesday, and Friday.

Find digital versions of our articles on: www.tandfonline.com to use RightsLink, our online permissions web page, for immediate processing of your permission request.

Please Note: Permissions requests for US journals may take up to three weeks for processing due to demand.

Dear Ms. Muller,

The website, you directed me to, shows two of my other papers, not the one I am asking the permission for herein. We have published a paper with the same model but for different laboratory experiments. The title of two papers are close to each other but they are different inside.

The one, I am asking the permission for is: "Simulation of cyclic soil behavior using PM4Sand, a kinematic hardening plasticity model."

it can be found at: <http://www.crcnetbase.com/doi/abs/10.1201/b17017-223>

The one, you showed me at ASCE library is: "Simulation of monotonic and cyclic soil behavior using a kinematic hardening plasticity model"

Best Regards,
Soheil

Dear Sir/Madam,

I am Soheil Kamalzare, PhD student at Virginia Tech. I am writing this email to ask for permission to use a paper of mine that I have published in CRC Press in my dissertation. The paper is:

Kamalzare, S., and Olgun, C. G. (2014). "Simulation of cyclic soil behavior using PM4Sand, a kinematic hardening plasticity model." *8th European Conference on Numerical Methods in Geotechnical Engineering*, June 18-20, Delft, the Netherlands, CRC Press, DOI: 10.1201/b17017-223.

The link to the paper is: <http://www.crcnetbase.com/doi/abs/10.1201/b17017-223>

I contacted Copyright Clearance Center as you suggested but they were not able to find the paper in their records and directed me to you.

PERMISSIONS <permissions@asce.org>
To: Soheil Kamalzare <skamal67@vt.edu>

Mon, Nov 28, 2016 at 10:49 AM

Dear Soheil Kamalzare:

Permission is granted for you to reuse your paper in your Ph.D. dissertations, as long as it makes up less than 25% of your new work.

A full credit line must be added to the material being reprinted. For reuse in non-ASCE publications, add the words "With permission from ASCE" to your source citation. For Intranet posting, add the following additional notice: "This material may be downloaded for personal use only. Any other use requires prior permission of the American Society of Civil Engineers."

12/14/2016

Virginia Tech Mail - Copyright permission for paper re-used in PhD dissertation

PERMISSIONS@asce.org

703-295-6112

E-mail: jfogleson@asce.org

Internet: www.asce.org/pubs | www.ascelibrary.org | <http://ascelibrary.org/page/rightsrequests>

A full credit line must be added to the material being reprinted. For reuse in non-ASCE publications, add the words "With permission from ASCE" to your source citation. For Intranet posting, add the following additional notice: "This material may be downloaded for personal use only. Any other use requires prior permission of the American Society of Civil Engineers."

To view ASCE Terms and Conditions for Permissions Requests: <http://ascelibrary.org/page/asce/termsandconditionsforpermissionsrequests>

Each license is unique, covering only the terms and conditions specified in it. Even if you have obtained a license for certain ASCE copyrighted content, you will need to obtain another license if you plan to reuse that content outside the terms of the existing license. For example: If you already have a license to reuse a figure in a journal, you still need a new license to use the same figure in a magazine. You need separate license for each edition.

Authors may post the final draft of their work on open, unrestricted Internet sites or deposit it in an institutional repository when the draft contains a link to the bibliographic record of the published version in the ASCE Library or Civil Engineering Database. "Final draft" means the version submitted to ASCE after peer review and prior to copyediting or other ASCE production activities; it does not include the copyedited version, the page proof, or a PDF of the published version.

For more information on how an author may reuse their own material, please view: <http://ascelibrary.org/page/informationforasceauthorsreusingyourownmaterial>

<https://mail.google.com/mail/ca/u/0/?ui=2&ik=f1b0b716bf&view=pt&cat=Permissions&search=cat&th=1588d2c8e8d5751d&siml=1588d2c8e8d5751d&siml=158...> 2/3

Soheil

Thank you for contacting Golder with this request. We are happy to provide you with permission to use the results in your PhD dissertation and a future paper, as long as you acknowledge the source appropriately. As well, if you have other questions, feel free to reach out to the author, Ken Been at ken_been@golder.com.

Kind regards,
Tina

How can we help you? Dear Sir/Madam,

I am Soheil Kamalzare, PhD student at Virginia Tech. I am writing this email to ask for your permission to use 26 Triaxial Test results that were performed by Golder Associate Incorporation between the years 1986 to 1988. The test results are available to download for free at your website: http://www.golder.com/cn/en/modules.php?name=Publication&sp_id=200

We have used these results to evaluate the capability of NorSand and Dafalias-Manzari models in predicting soil behavior. Our research will be published in my PhD dissertation and a future paper.

I appreciate your time and consideration.

Best Regards,
Soheil Kamalzare

To: Deepak Rayamajhi <deepak.rayamajhi@gmail.com>

Dear Deepak,

I hope you are doing well. I want to ask your permission to use two of your figures in my PhD dissertation and future papers. The figures are for the centrifuge test configurations with cemented and sandy bases. They are in Page 8 and Page 10 of your 2014 report (UCD/CGMDR-14/01).

I appreciate your help and consideration.

Best Regards,
Soheil
