Hi Todd, yep ..you can reuse the figure . Lemme know if you need anything else

Thanks
Vidur

Hi Vidur,

I'm in the process of writing my thesis documenting my continued work on the SNeuPI instrument, and I was wondering if I could have your permission to reuse your image showing a SIMION particle trajectory simulation for the SNeuPI ionization chamber (Figure 2.5 in your thesis).

Thanks, hope you're doing well!
