Dear Megan

Thank you for your email.

If you wish to reuse your own article (or an amended version of it) in a new publication of which you are the author, editor or co-editor, prior permission is not required (with the usual acknowledgements).

Best wishes

Marion

Subject: copyright help for dissertation

I am a graduate student at Virginia Tech working on my dissertation and one of my chapters is already published in FEMS letters. I need to find out what to do/who to contact regarding copyright rights to allow me to include the manuscript in my dissertation. Any help is appreciated.

Regards,
Megan

Subject: RE: JPN manuscripts

Dear Megan,

Thank you for your email. The standard copyright transfer agreement states that the author can “re-use the final Contribution or parts thereof for any publication authored or edited by the Contributor (excluding journal articles) where such re-used material constitutes less than half of the total material in such publication. In such case, any modifications should be accurately noted.”

So using it in a thesis (as long as it is less than half and it is accurately acknowledged) should be fine.

If you need more formal permission, you can obtain a letter by going to your article on Wiley Online Library (www.wileyonlinelibrary.com/journal/jpn) and clicking on 'Request permissions'.

Best wishes,
Rosie
