To whom it may concern:

I'm writing to request your permission for using my published paper entitles "An unrecognized function for COPII components in recruiting the viral replication protein BMV 1a to the perinuclear ER" in my dissertation. Am I allowed to use it? If so, do I need to make any statements in the beginning of the chapter? Thank you.

Best,
Jianhui

Dear Jianhui,

Thank you for your request. Permission is granted with no charge.

The acknowledgement should state "reproduced / adapted with permission" and give the source journal name - the acknowledgement should either provide full citation details or refer to the relevant citation in the article reference list - the full citation details should include authors, journal, year, volume, issue and page citation.

Where appearing online or in other electronic media, a link should be provided to the original article (e.g. via DOI).
