

# CUT-OUTS

## To Help You in Arranging Your Bedroom, Living Room, and Dining Room

### HOW TO USE CUT-OUTS IN ARRANGEMENT

#### Make Your Plan on Paper

Before re-arranging your room, measure the size of the floor space and draw it on a piece of paper 1/4" to a foot. Cut the furniture which you already have in your room according to the size and place it where you think it will work best. Now, plan for future additions. These cut-outs can be shifted until you are sure that you are satisfied with the arrangement.

Try out the planned arrangement in your bedroom. Ask yourself these questions:

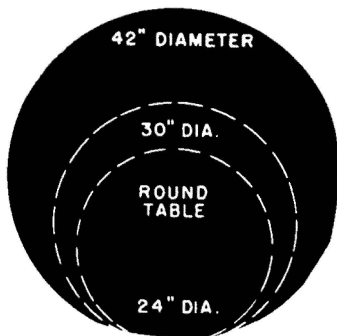

Is the arrangement satisfactory? Is the dresser placed so that the light falls on you rather than the mirror? Is the chest of drawers near your closet? Are the paths of travel open? Are all the pieces of furniture arranged parallel with the lines of the wall? What other furnishings do you need to make the room comfortable and attractive? List them.
