COPYRIGHT TRANSFER AGREEMENT

In order for SIAM to include your paper in the 2018 SIAM International Conference on Data Mining proceedings, the following Copyright Transfer Agreement must be completed during the final paper upload process.

Title of Paper: STAPLE: Spatio-Temporal Precursor Learning for Event Forecasting

Paper ID Number: 131

Copyright to this paper is hereby irrevocably assigned to SIAM for publication in the 2018 SIAM International Conference on Data Mining, May 3-5, 2018, at the San Diego Marriott Mission Valley, San Diego, California, USA. SIAM has sole use for distribution in all forms and media, such as microfilm and anthologies, except that the author(s) or, in the case of a "work made for hire," the employer will retain:

The right to use all or part of the content of the paper in future works of the author(s), including author's teaching, technical collaborations, conference presentations, lectures, or other scholarly works and professional activities as well as to the extent the fair use provisions of the U.S. Copyright Act permit. If the copyright is granted to SIAM, then the proper notice of the SIAM's copyright should be provided.

The right to post the final draft of the paper on noncommercial pre-print servers like arXiv.org.

The right to post the final version of the paper on the author's personal web site and on the web server of the author's institution, provided the proper notice of the SIAM's copyright is included and that no separate or additional fees are collected for access to or distribution of the paper.

The right to refuse permission to third parties to republish all or part of the paper or translation thereof.

It is affirmed neither this paper nor portions of it have been published elsewhere and a copyright transfer agreement has not been signed permitting the publication of a similar paper in a journal or elsewhere. For multi-author works, the signing author agrees to notify all co-authors of his/her action.

Transfer of Copyright to the Publisher

SIAM strongly recommends this option. This transfer of copyright provides SIAM the legal basis not only to publish and to distribute the work, but also to pursue infringements of copyright (such as plagiarism and other forms of unauthorized use) and to grant permissions for the legitimate uses of the work by third parties. This option should not be selected if the work was prepared by a government office or employee as part of his or her official duties.

The Author hereby irrevocably assigns, conveys and transfers the copyright to the Work to SIAM. SIAM shall have sole rights of distribution and/or publication of the work in all forms and media, throughout the world, except for those rights given to the Author above.

The Author DOES NOT assign, convey and transfer the copyright to the Work to SIAM. Please list in whose name the copyright should appear here:

Alternate Copyright

If you do not select either of the options above, an alternate copyright is required. Check below to submit an alternative copyright. Send proposed text for alternate copyright to erle@siam.org using the subject line "SIAM -SDM18 - Alternate Copyright - LAST NAME."

I am submitting an alternative copyright.

Authors must ensure that their Work meets the requirements as stated in section 8.2.1 of the IEEE PSPB Operations Manual, including provisions covering originality, authorship, author responsibilities and author misconduct. More information on IEEE's publishing policies may be found at http://www.ieee.org/publications_standards/publications/rights/authorrightrresponsibilities.html Authors are advised especially of IEEE PSPB Operations Manual section 8.2.1.B12: "It is the responsibility of the authors, not the IEEE, to determine whether disclosure of their material requires the prior consent of other parties and, if so, to obtain it." Authors are also advised of IEEE PSPB Operations Manual section 8.1.1B: "Statements and opinions given in work published by the IEEE are the expression of the authors."

RETAINED RIGHTS/TERMS AND CONDITIONS

- Authors/employers retain all proprietary rights in any process, procedure, or article of manufacture described in the Work.
- Authors/employers may reproduce or authorize others to reproduce the Work, material extracted verbatim from the Work, or derivative works for the author's personal use or for company use, provided that the source and the IEEE copyright notice are indicated, the copies are not used in any way that implies IEEE endorsement of a product or service of any employer, and the copies themselves are not offered for sale.
- Although authors are permitted to re-use all or portions of the Work in other works, this does not include granting third-party requests for reprinting, republishing, or other types of re-use. The IEEE Intellectual Property Rights office must handle all such third-party requests.

AUTHOR ONLINE USE

- **Personal Servers.** Authors and/or their employers shall have the right to post the accepted version of IEEE-copyrighted articles on their own personal servers or the servers of their institutions or employers without permission from IEEE, provided that the posted version includes a prominently displayed IEEE copyright notice and, when published, a full citation to the original IEEE publication, including a link to the article abstract in IEEE Xplore. Authors shall not post the final, published versions of their papers.
- **Classroom or Internal Training Use.** An author is expressly permitted to post any portion of the accepted version of his/her own IEEE-copyrighted articles on the author's personal web site or the servers of the author's institution or company in connection with the author's teaching, training, or work responsibilities, provided that the appropriate copyright, credit, and reuse notices appear prominently with the posted material.
