Y. Yang
Department of Dairy Science
Virginia Tech
Blacksburg, VA 24061

Dear Mr. Yang:

The *Journal of Dairy Science* grants you nonexclusive permission to print the author version (pre-typeset, final author manuscript) of the article listed below in your dissertation, provided that appropriate credit is given to the original publication in the journal. Authors typically use a statement along the lines of "Used by permission of the *Journal of Dairy Science*" and include citation information, such as year, volume, and digital object identifier (DOI).

The journal acknowledges that your dissertation may be deposited into a non-commercial repository and requires that links to the original journal articles are included and that the articles will not be sold or displayed separately from the dissertation.

Y. Yang, G. Ferreira, C. L. Teets, B. A. Corl, W. E. Thomason, C. A. Griffey. 2017. Effects of feeding hulless barley on production performance, milk fatty acid composition, and nutrient digestibility of lactating dairy cows. *J.Dairy Sci.* 100:3576–3583. <http://dx.doi.org/10.3168/jds.2016-12241>.

Y. Yang, G. Ferreira, C. L. Teets, B. A. Corl, W. E. Thomason, C. A. Griffey. 2018. Effects of feeding hulled and hull-less barley with low- and high-forage diets on lactation performance, nutrient digestibility, and milk fatty acid composition of lactating dairy cows. *J.Dairy Sci.* 101:3036–3043. <http://dx.doi.org/10.3168/jds.2017-14082>.

Sincerely,

Susan Pollock
