

Introduction

AdvanceVT began in 2003 as a comprehensive program to promote and enhance the careers of women in academic science and engineering at Virginia Tech through institutional transformation. Programs target graduate students preparing for faculty careers, new faculty just starting out, senior faculty preparing for leadership roles, search committees, department heads, and senior administrators. While grant funding expired in August 2010, high impact initiatives continue with support from university partners, and have been expanded to include faculty in all disciplines.

"The new work-life policies at VT, such as modified duties, have been hugely instrumental in our getting our top candidates in recent years."
 - Faculty survey respondent

Flexibility and work-life balance are not just issues for women or for pre-tenure faculty; men and senior faculty need them too. Both men and women are taking advantage of work-life policies in increasing numbers.

"[The stop-the-clock policy] was one of the reasons I chose VT because eventually I would like to start a family and knowing that I had the flexibility to do that made me feel that work-life was actually valued here."
