Published Journal Article

Policies for sharing published journal articles differ for subscription and gold open access articles:

Subscription articles

- If you are an author, please share a link to your article rather than the full-text. Millions of researchers have access to the formal publications on ScienceDirect, and so links will help your users to find, access, cite, and use the best available version.
- If you are an author, you may also share your Published Journal Article (PJA) privately with known students or colleagues for their personal use.
- Theses and dissertations which contain embedded PJAs as part of the formal submission can be posted publicly by the awarding institution with DOI links back to the formal publications on ScienceDirect.
- If you are affiliated with a library that subscribes to ScienceDirect, you have additional private sharing rights for others’ research accessed under that agreement. This includes use for classroom teaching and internal training at the institution (including use in course packs and courseware programs), and inclusion of the article for grant funding purposes.
- Otherwise sharing is by agreement only.
- The Published Journal Article cannot be shared publicly, for example on ResearchGate or Academia.edu, to ensure the sustainability of peer-reviewed research in journal publications.
