# Amazing Ways with Line

Lines are like **MAGIC**.  
Both may play tricks on your eyes.

Follow this line with your finger.  
Is it real? Can you pick it up with your finger?

Go from point to point with your finger.  
Did you make a line? Real? Imaginary?

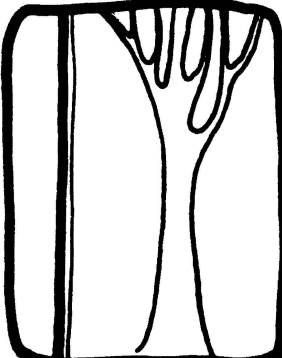

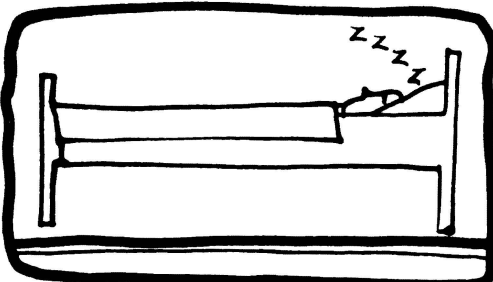

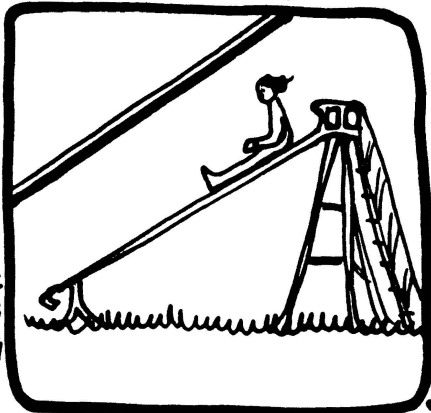

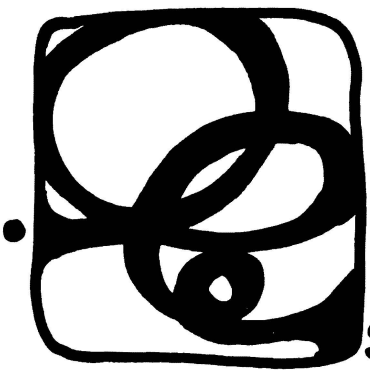

# To HELP YOU SEE AND USE

Look carefully at lines  
in nature, in art, everywhere.

# What Can You Do With Line?

## MAKE A STUCK-UP BASKET

### You will need:

- Snap clothespins (plastic are best)
- Rope that is fairly thick — 8-10 mm (1/3" - 3/8")
- Cardboard larger than lid of margarine container.
- Craft stick or plastic knife for applying glue to rope
- T-pins or large straight pins
- Large margarine container with its own lid
- Waxed paper
- Newspapers for work area
- Bucket of water for rinsing fingers.
- Paper towels
- Scissors to cut rope
- White glue

# THE ROPE BECOMES A LINE THAT FILLS A SPACE

- Cut one end of the rope off to make a blunt end.
- Dip into glue.
- Pin the blunt end into the center of the lid.
- Spread glue along the inside of the rope.
- Wind the rope around the center.
- Press together while winding.
- Hold in place with more pins.
- Keep winding until the lid space is filled.

- Remove pins
- Place plastic container on the base.
- Build the basket by glueing and winding each coil on top of the last one

- When the basket is as deep as you want cut off the extra rope. If you want a handle leave enough for a loop.

- Remove plastic container.
- Make a lid for your **STUCK-UP BASKET** by making another base (steps 1, 2, 3) and glue on a loop for the handle.
