# A PARTIAL BIBLIOGRAPHY OF THE COTTONTAIL RABBITS

Extension Division  
Virginia Polytechnic Institute

MT-83  
October 1969

A PARTIAL BIBLIOGRAPHY OF THE COTTONTAIL RABBITS

Northeastern biologists interested in rabbit research formed the Cottontail Rabbit Technicians Group in 1961 under the wing of the Northeast Section, The Wildlife Society and the Northeast Association of Game and Fish Commissioners. The group meets biennially and attracts biologists from the south and mid-west who are interested in cottontails. The need for a cottontail bibliography was discussed, and the compilation was undertaken by the Pennsylvania and Virginia Cooperative Wildlife Research Units.

This is a partial bibliography; references to varying hares and European lagomorphs were deleted as were incomplete references and those of questionable accuracy. A bibliography is never complete; it should be updated periodically and any errors noted. If you, the reader, have any comments or references which should be added, please contact a member of the Editorial Staff.

The references are listed alphabetically and are indexed by subject matter. The reader may wish to cut and paste the references onto file cards which then can be arranged by subject matter or any convenient system.

Many of the references listed herein may be obtained from the author, the institution, or agency responsible for printing the work. For those not available from such sources, the reader's nearest librarian can probably assist him through an interlibrary loan.

The Cooperative Extension Service of V.P.I. assists in support of the Virginia Cooperative Wildlife Research Unit. Publication of this bibliography is part of this agency's contribution to the Virginia Unit. Special thanks are due the Extension Service from the Virginia Unit, and also from the Pennsylvania Unit, the Northeast Cottontail Rabbit Technicians Group, and rabbit biologists everywhere. Mr. Glenn R. Dudderar, Wildlife Extension Specialist, and Mr. Gene W. Wood,

Instructor in Wildlife Management, Pennsylvania State University, contributed a keen interest and hours of effort to this publication. Thanks for assistance are extended to V.P.I. graduate students Robert Neely, Gary Valentine, and Jack Raybourne.

Cooperative Extension Service  
October 1969

Issued in furtherance of Cooperative Extension work, Acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. W. E. Skelton, Dean, Extension Division, Cooperative Extension Service, Virginia Polytechnic Institute, Blacksburg, Virginia 24061.

## A PARTIAL BIBLIOGRAPHY OF THE COTTONTAIL RABBITS

Northeastern rabbit biologists formed the Cottontail Rabbit Technicians Group in 1961 under the wing of the Northeast Section, The Wildlife Society and the Northeast Association of Game and Fish Commissioners. The group meets biennially and attracts biologists from the south and mid-west who are interested in cottontails. The need was expressed for a cottontail bibliography and the compilation was undertaken by the Pennsylvania and Virginia Cooperative Wildlife Research Units.

This is a partial bibliography; references to varying hares and European lagomorphs were deleted as were incomplete references and those of questionable accuracy. A bibliography is never complete; it should be updated periodically and any errors noted. If you, the reader, have any comments or references which should be added, please contact a member of the Editorial Staff.

The references are presented alphabetically, however, they are indexed by subject matter. The reader may wish to cut and paste the references onto file cards which then can be arranged by subject matter or any convenient system.

Many of the references listed herein may be obtained from the author, the institution, or agency responsible for printing the work. For those not available from such sources, your nearest librarian can probably assist you through an inter-library loan.

The Cooperative Extension Service of V.P.I. assists in support of the Virginia Cooperative Wildlife Research Unit. Publication of this bibliography is part of this agency's contribution to the Virginia Unit. Special thanks are due the Extension Service from the Virginia Unit, and also from the Pennsylvania Unit, the Northeast Cottontail Rabbit Technicians Group, and rabbit biologists everywhere. Mr. Glenn R. Dudderar, Wildlife Extension Specialist, contributed a keen interest

and hours of effort to this publication. Thanks for assistance are extended to Gene Wood, graduate student of Penn State, and to V.P.I. graduate students Robert Neely, Gary Valentine, and Jack Raybourne.
