Table of Schemes

Chapter I Pseudorotaxanes and rotaxanes

Scheme 1 Three different approaches to the construction of rotaxanes: (a) "clipping"; (b)"threading"; (c)"slipping"……...…….……. 3

Scheme 2 Formation of a pseudorotaxane and rotaxane by statistical threading…… 4

Scheme 3 Syntheses of rotaxanes by chemical conversion routes …….. 5

Scheme 4 Complexation between a guest and a host with four binding sites……. 28

Chapter III [2]Pseudorotaxanes Based on the Dibenzo-24-Crown-8/Paraquat Recognition Motif

Scheme 1 Syntheses of **4**-$2PF_6$, **8b**-$2PF_6$, **8c**-$2PF_6$, and **8e**-$2PF_6$…….……... 52

Chapter V Selectivity Studies Among Two Hosts and Two Guests

Scheme 1 The constructions of a pair of supramolecular polymers and an alternating supramolecular copolymer via selective pairwise complexation …….. 126

Chapter VI A Star-Shaped Supramolecular Polymer: Cooperative Complexation between A Tetraparaquat Salt and A Dibenzo-24-Crown-8 Functionalized Polystyrene Oligomer

Scheme 1 Synthesis of **1**……. 143
