Dear Sir/Madam,

I have submitted my manuscript entitled "IN-SITU GEOTECHNICAL CHARACTERISTICS OF SURFICIAL WETLAND WATERWAY SEDIMENTS" for publication in Journal of Waterway, Port, Coastal and Ocean Engineering on 27-April-2017 and it is accepted for publication on 15 February 2018. The manuscript ID is WWENG-1064R2 and is currently in publication queue.

I am contacting you today to ask about the journal policy on using the manuscript material in my Ph.D. dissertation which will be in manuscript format. I would like to use the full article in my dissertation that will be submitted to Virginia Polytechnic Institute and State University as a partial fulfillment of the requirements for the degree of Doctor of Philosophy. I will refer to Journal on the title page and give a reference.

Thank you for your time,

Best Regards,

Çağdaş Bilici

Dear Cagdas Bilici,

Thank you for your inquiry. As an original author of an ASCE journal article or proceedings paper, you are permitted to reuse your own content (including figures and tables) for another ASCE or non-ASCE publication, provided it does not account for more than 25% of the new work.

A full credit line must be added to the material being reprinted. For reuse in non-ASCE publications, add the words "With permission from ASCE" to your source citation. For Intranet posting, add the following additional notice: "This material may be downloaded for personal use only. Any other use requires prior permission of the American Society of Civil Engineers. This material may be found at [URL/link of abstract in the ASCE Library or Civil Engineering Database]."

Each license is unique, covering only the terms and conditions specified in it. Even if you have obtained a license for certain ASCE copyrighted content, you will need to obtain another license if you plan to reuse that content outside the terms of the existing license. For example: If you already have a license to reuse a figure in a journal, you still need a new license to use the same figure in a magazine. You need separate license for each edition.
For more information on how an author may reuse their own material, please view: http://ascelibrary.org/page/informationforasceauthorsreusingyourownmaterial

Sincerely,

Leslie Connelly
Senior Marketing Coordinator
American Society of Civil Engineers

Each license is unique, covering only the terms and conditions specified in it. Even if you have obtained a license for certain ASCE copyrighted content, you will need to obtain another license if you plan to reuse that content outside the terms of the existing license. For example: If you already have a license to reuse a figure in a journal, you still need a new license to use the same figure in a magazine. You need separate license for each edition.

Authors may post the final draft of their work on open, unrestricted Internet sites or deposit it in an institutional repository when the draft contains a link to the bibliographic record of the published version in the ASCE Library or Civil Engineering Database. "Final draft" means the version submitted to ASCE after peer review and prior to copyediting or other ASCE production activities; it does not include the copyedited version, the page proof, or a PDF of the published version.

For more information on how an author may reuse their own material, please view: http://ascelibrary.org/page/informationforasceauthorsreusingyourownmaterial
Thank you very much for the information!
Have a great week!

Dear Sir/Madam,

I have submitted my manuscript entitled "Quantifying the effect of wave action on seabed surface sediment strength using a portable free fall penetrometer" for publication in proceedings of CPT18 (4th International Symposium on Cone Penetration Testing) on 11-Nov-2017 and it is accepted for publication on 11 March 2018 (under publication) since I registered for the conference.

I am contacting you today to ask about your copyright policy on using the manuscript material in my Ph.D. dissertation which will be in manuscript format. I would like to use the full article in my dissertation that will be submitted to Virginia Polytechnic Institute and State University as a partial fulfillment of the requirements for the degree of Doctor of Philosophy. I will refer to the conference and its proceedings on the title page of the article and give a reference.

Dear Cagdas

as far we are concerned, you may go ahead and include the paper in your thesis with appropriate citation.

Regards,

Federico Pisanò

Dear Sir/Madam,

I have submitted my manuscript entitled "**Performance of a Novel Sediment Sampler as an Add-on Unit for Portable Free Fall Penetrometers: Combining in-situ geotechnical testing with sediment sampling**" for publication in your journal (Journal of Limnology and Oceanography) on 8-March-2018. The manuscript ID is LOM-18-03-0030 and is currently under review.

I am contacting you today to ask about your copyright policy on using the manuscript material in my Ph.D. dissertation which will be in manuscript format. I would like to use the full article in my dissertation that will be submitted to Virginia Polytechnic Institute and State University as a partial fulfillment of the requirements for the degree of Doctor of Philosophy. I will refer to the conference and its proceedings on the title page of the article and give a reference.

The manuscript now is under review and I haven't received any reviewers' comments or suggestions.

Thank you for your time,

Best Regards,

Çağdaş Bilici

Hi Cagdas,

We allow for use in dissertations and thesis, even after publication. Since your paper is still under review there is no problem using the manuscript in your dissertation.

Best,

Rachel

Dear Çağdaş Bilici,

Thank you for your email.

Permission is granted for you to use the material requested for your thesis/dissertation subject to the usual acknowledgements (author, title of material, title of book/journal, ourselves as publisher) and on the understanding that you will reapply for permission if you wish to distribute or publish your thesis/dissertation commercially.

You should also duplicate the copyright notice that appears in the Wiley publication in your use of the Material. Permission is granted solely for use in conjunction with the thesis, and the material may not be posted online separately.

Any third-party material is expressly excluded from this permission. If any material appears within the article with credit to another source, authorisation from that source must be obtained.

Many thanks,

Orla Davies
Rights Assistant
John Wiley & Sons Ltd
