Dear Dr Zhu

Thank you for your e-mail. Please see the below relating to authors reusing their own work published by the RSC.

Author reusing their own work published by the Royal Society of Chemistry:

You do not need to request permission to reuse your own figures, diagrams, etc, that were originally published in a Royal Society of Chemistry publication. However, permission should be requested for use of the whole article or chapter except if reusing it in a thesis. If you are including an article or book chapter published by us in your thesis please ensure that your co-authors are aware of this.

Reuse of material that was published originally by the Royal Society of Chemistry must be accompanied by the appropriate acknowledgement of the publication. The form of the acknowledgement is dependent on the journal in which it was published originally, as detailed in 'Acknowledgements'.

Yours sincerely

Environmental Science:Water Research and Technology Editorial Office

Subject: Copyright Permission - C6EW00031B

Name: Ni Zhu

Message: Dear Claire Darby,

I published an article in Environmental Science: Water Research & Technology in 2016. I would like to request permission to reproduce the content of this article for inclusion in my PhD dissertation, to be submitted at Virginia Polytechnic Institute and State University (Virginia Tech).

The article information is as follows:

E. Garner, N. Zhu, L. Strom, M. Edwards, A. Pruden. A human exposome framework for guiding risk management and holistic assessment of recycled water quality. Environ. Sci.: Water Res Technol., 2016, 2, 580-598.

Thanks.

Ni Zhu
