Re: Permission to Copy and Republish Agilent Figures

Dear Ms. Barron:

This is in response to your request seeking consent to copy and republish figures in which Agilent Technologies, Inc. ("Agilent") owns the copyright. Specifically, you have requested to copy and modify the figures identified below (the "Agilent Figures") to be republished in your master's thesis at Virginia Tech entitled, "Effects of Trimethylamine N-Oxide on Mouse Embryonic Stem Cell Properties" (the "Work").

Agilent Figures:

I am pleased to advise that you have Agilent's permission to copy, modify, and republish the Agilent Figures in the Work. This consent extends to the Agilent Figures as used in the Work, and all subsequent editions and derivative works based on the Work, in any and all media of expression now known or later developed, and in all languages, to be published by you and prospective publication by UMI Company throughout the world.

This consent is conditioned upon there being included with the Agilent Figures an appropriate acknowledgement and copyright notice in a form similar to the following:

© Agilent Technologies, Inc.  
 Reproduced with Permission, Courtesy of Agilent Technologies, Inc.

By reproducing and modifying the Agilent Figures, you and UMI Company acknowledge and agree: (1) that the Agilent Figures and the information contained therein are accepted "AS IS"; (2) that Agilent does not make any representations or warranties of any kind with respect to the Agilent Figures and disclaims any responsibility for the content as reproduced by you and/or UMI Company; (3) that Agilent reserves the right to review any use of the Agilent Figures and to terminate this consent and require the Agilent Figures' immediate removal for any reason, including if altered, modified, or portrayed in any way that, in Agilent's opinion, is in poor taste or diminishes the reputation of Agilent or its products; (4) that Agilent will not be liable for any damages, whether special, incidental, consequential, direct, indirect or punitive, resulting from or in connection with the use, copying or disclosure of the Agilent Figures, and (5) to indemnify Agilent for all claims, actions, damages, and expenses (including attorneys' fees) incurred by Agilent as a result of the Agilent Figures being reproduced, modified, or distributed pursuant to this consent.

This limited consent does not grant a license to use any Agilent trademark. Except for the limited consent to use the Agilent Figures referenced herein, this limited consent does not grant a license to use any other Agilent copyrighted work.

Thank you for your interest in Agilent and its products and services.

Sincerely,

A handwritten signature in black ink, appearing to read "Janet Shih Hajek".
