Dear Katherine Heifferon,

Thank you for your permission request.
It is a pleasure to grant the permission to include the book chapter in your thesis.

Best wishes,
Editor, CWP

Prior to the final submission of this document following my defense I am required to receive copyright permission for each chapter that is already published. Unlike my journal articles, I could not obtain this copyright permission through the your publishers website. Would you be able to provide a written statement of permission for the inclusion of this chapter in my dissertation?
