Hello Brittany,

we feel honoured and happy about your request. We certainly don't have any objections.

I am curious about your theses. Maybe you want to share the link?

Many good wishes and good luck!

Maggie Schauer

Dear Dr. Schauer,

I have been reading and citing your work for several years now, and I prominently featured and referenced the following graph from your work in my Master's thesis, cited as shown:
<image.png>

Before my thesis is published in the ETD database, I wanted to ensure that I have obtained your permission for me to reproduce this graph for my thesis.

Do you permit me to reproduce your graph as shown?

Sincerely,
-Brittany Nackley
