ANNUAL REPORT

BEDFORD CO. VIRGINIA

December 1st, 1928- November 30th, 1929.

Miss Elisabeth Farrar - Co. Home Dem. Agt.

---

Status of County Extension and Organization;

Board of Supervisors: This is an organization composed of a representative from each of the eight magisterial districts of Bedford County. This organization meets regularly once a month. A three year appropriation for Extension Work in this county was voted upon and carried in 1928, that being the longest period of time for which the appropriation has ever before been made.

Advisory Board: Bedford Co. is divided into 8 magisterial districts. The Advisory Board for Home Demonstration work is composed of 20 women from each of these districts who are appointed by the County Board of Supervisors and the Extension Service. They work in an advisory capacity with the home agent, assisting her in making the plan work for the year and seeing that this plan is executed.

4-H County Council: The Bedford Co. 4-H Council was organized in the spring of 1928, this being the first of its nature in the county. It is composed of an organized group of boys and girls elected from the 4-H Club members. They hold meetings twice a year. The duties of this Council are to make and adopt a county plan of work for the Community Clubs of the county and to check up on the work accomplished by the various clubs.

Chamber of Commerce: With its headquarters in Bedford, this organization has an enrollment of over 100 members. This organization is reaching a number of the country people and is doing splendid work. It works cooperatively with the Extension work in

in the county.

Kiwanis and Rotary Clubs: These Clubs are organizations composed of both town and country people. They hold meetings regularly and are entirely in sympathy with our work. These clubs have expressed themselves as ready to assist us whenever necessary.

About 500 farm men and women from all sections of the county were guests of the Rotary Club this fall. A free theater ticket was issued each one and they saw the farm picture, "Settled Out Of Court."

Personal Report Summary: The 291 days spent in Extension Service this year have been divided into field and office work, 198 given over to field engagements and 95 to office. The days have been distributed as best they could, dividing time with pieces of work that required the most. 67 days were spent in working with poultry projects, 13 with rural home engineering, 49 with foods, 16 with nutrition, 74 with clothing, 11 with home management, 15 with house furnishings, 17 with community activities and 30 miscellaneous.

More time has been given to poultry this year than ever before. It is a growing project in the county and the agents have received numerous calls to assist with the same. Clothing has been the most popular project in the county this year, it being carried by the majority of adult and junior clubs.

Besides the project work and general activities, 526 home visits have been made, 497 individual letters written, 395 office calls attended to, 435 news articles prepared for the press and 9469 miles traveled. Both a Junior and Adult Camp were held with 124 persons in attendance.

Program of Work:

## Women's Work:

A. Advisory Board: This board is to assist with Home Demonstration Work and is composed of women representing each of the 8 magisterial districts of the county. For a number of years 4 delegates from each district made up the council but this was such a large number that it was impossible to get them all together for a meeting, so I have been trying to secure the 2 most representative and influential women from each district in the county to serve. At present the Council is made up of 20 women, which are appointed by the County Board of Supervisors and the Extension Service assist the agent in working up the County wide program of work for the year. For the past year they have been doing unusually good work. The three meetings have been well attended and the members offer suggestions which they are willing to help put across.

At the March meeting they requested more work in Poultry, the County Woman's Camp, A Better Homes program for Better Homes Week, a county wide room improvement contest for girls and more organized work with women. All of which have been accomplished and womens work continues to grow.

The board members and representatives from each home demonstration club decided at their last meeting to make Gardening, both Landscape and Vegetable their major project for 1930.

The Room Improvement Contest was sponsored by the board and its success is due in a great measure to the members. They solicited the prizes, did the first and final scoring of the rooms and were influential in getting the girls to join.

4-

B. Project Activities and Results:

(a) Food Preparation

Onshome demonstration club had work in Food Preparation. They completed the unit, "Dishes for Social Affairs" which comprised the following demonstrations - Cakes and Pies, Salads, Frozen Desserts and a Social. The women enjoyed this work very much and said they learned to prepare and serve quite a number of different dishes given under each demonstration. They report an increase in serving of salads and frozen desserts since taking this unit.

Quite a number of the members of this club entered the Soft Wheat Millers Contest and learned to make more and better breads. Their exhibit of breads held at the ~~stating~~ close of the contest was very creditable. Quick breads, Yeast Breads, and Cakes were displayed. The Yeast Breads as a whole were the best and received the most ribbons.

Ten of the women in this club enrolled in the Sear's , Roebuck Canning Contest, and meats, fruits and vegetables were canned and entered.

(b) Clothing

The Wash Dress Unit in the clothing project was carried by two clubs . Selection of Materials and Patterns Suitable for the Person, Short Cuts to Home Sewing, Alterations of Patterns, Cutting and Fitting comprised the demonstrations given to both clubs. Some lovely dresses were made by the women and they wore them in a contest given at the ~~close~~ of the project. Their good taste was displayed in the selection and making of the dresses. Several of the members said they had learned quite a lot about sewing and now felt more capable of making better, prettier and more suitable dresses for their individual figures.

One woman with a family of two, who had never done much sewing before taking this unit tells me that now she sews most of the time. She says " I learned so many new ideas from the project that I am obliged to try them out." She has indeed made some attractive articles, using dyed sugar and flour sacks; the aprons are very neat and pretty. The children's dresses are nicely made and do credit to a woman that is beginning to sew.

(c) Home Management

This project is not in the form of an organized club, but splendid work has been accomplished throughout the county. 21 power washing machines have been installed, 2 fireless cookers purchased, 10 kitchen sinks installed, 7 kitchen cabinets bought, 4 pressure cookers in use, and 3 ice less refrigerators placed in homes in the county. 49 different homes have adopted improved practices relative to home management.

(c) Beautification of Grounds

27 women carried this project and 23 of them completed. Each member has a beautiful yard and garden as an outcome of their work. More than 400 base plantings, shrubs, evergreens, and trees were set out. Old dilapidated, unsightly out buildings were torn down and moved away, new walks were made and all the 23 yards show marked improvements.

9 valuable prizes solicited by the members and given by merchants and friends were awarded the contestants in this contest. If nothing else had been accomplished this one piece of work would have been worth while. The appearance of the entire village was improved by this work. Tourists passing through stop and ask about the place, sometimes they return to see the lovely flowers there and Big Island is known far and wide for its lovely gardens, in which are growing annuals and perennials in profusion.

(h) Home Poultry

The women in Bedford County are beginning to become interested in poultry. Two clubs carried this last year and seemed to receive quite a good deal of benefit from the same. Demonstrations on Caponizing, Culling, and Selection of Breeding Stock were given as well as lectures on Feeding, Housing, Eradication of Lice and Mites, Care of Baby Chicks, Disease Control, Winter Care, and Marketing.

As a result of this project several new poultry houses have been built, quite a few remodelled, lice and mites eradicated by suggestions given and culling done by women that never culled before. The culls are being sold by the crates.

Caponizing has become very popular and a large number of capons will now be found in the county. One woman who has 55 capons that she caponized herself is selling the largest ones Thanksgiving, for 45 cents per pound on foot. She says there is money in home poultry for the farm woman and that she is delighted with the work. All the women are highly pleased with the project and are asking for more during 1930.

(k) Community Activities

Basketry comprises one of the community activities. Quite a number of trays, baskets, and stands have been made. The outstanding piece of work of this nature was a fernery made by one of the members. She used four broom handles for the legs, a piece of tin roofing for the lining, and oak split for the handle, and two sizes of reed. It is the same size as the manufactured ferneries but very much prettier and better made. It was exhibited at the county, community and Lynchburg Fair, receiving first prize at all three places.

Approximately 50 gifts have been made by one project group, the majority of them being made of colored papers.

7.  
wax bindings, meal sacks, etc. A lovely braided rug has been made by one woman. Old dyed stockings were used in making it. The colors black, rose and blue were used throughout the entire rug.

Fifty-five door-steps were made by women at the county camp. The South Boston Foundry molded these steps into the shape of tulips. Colored laquer was used by the members in painting these tulips in bright colors.

(L) Miscellaneous

Picnics, lawn-parties and suppers were held by four project groups. Quite a large sum of money was realized from each. One group cleared forty dollars from their lawn-party, another group made eighteen- eighty from their supper.

Three poultry clinics were held in different communities in the county. The attendance was small, due to bad roads and rain, but a good deal of interest was displayed by the ones present and the clinics were a real help to the poultry raisers. Mr. Harry Moore conducted these clinics and gave lectures on Feeding, Care of Baby Chicks, Summer Care of Poultry and Poultry Diseases.

C. HOME DEMONSTRATION CLUBS

(a) Forest Bay Workers Club

This club was organized in April 1928 with 10 members which has increased to 20. They hold monthly meetings and their program consists of the following work: Basketry, Foods, Clothing, Yard Improvement and a Community Fair, all of which have been completed.

The president taught the basketry and tSays, lamps, stands and a fernery were made.

<sup>club</sup>  
This/very often holds 2 monthly meetings, so as to complete

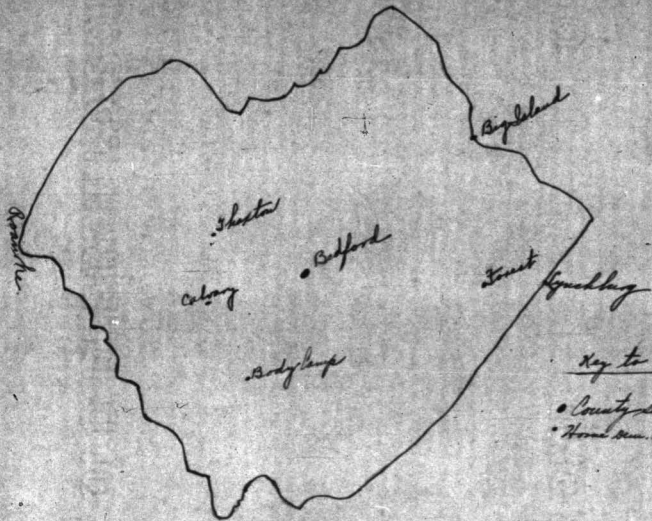

the project carrying in less than four months.

(b) Big Island Garden Club : was organized in 1927 with a membership of 14 which has grown to 22. They hold regular monthly meetings and the following program has been carried out: Lectures and Discussions on Growing Plants and Flowers both wild and cultivated. Plants Diseases and their Control, Bugs, Annuals, Perennials, Christmas Blooms, and a special study of Dahlias, that being their club flower. For their community work they decided to improve both church yards of the town which has been accomplished. They planted a number of shrubs, evergreens and base plantings. This club held a flower show in the spring which was very creditable. Entries were numerous as well as pretty and attractively arranged. This show was quite an improvement over the one held the fall of 1926. A neat little sum was realized from the same which plan to use for community work. Their community work for 1929 will consist of grading and planting the new high school grounds .

(c) Body Camp Club ;was organized in April with an enrollment of 7 members, which has increased to 18. Its a wide awake, enthusiastic club and promises to be very progressive. The members took the Wash Dress Unit as their first work and made quite a number of lovely dresses. The same were worn in competition with the Forest women at the Wash Dress Contest in Bedford.

Both the Gift and Poultry Units are being taken by this club.

This club plans to purchase, remodel and furnish a community house as its community project. The members are most anxious to start a library for this community club house which will be a wonderful piece of work. Monthly meetings are held, making a total of 12 a year.

9.

(d) Salvage Club: The unit plan of work was carried with these women three months before they organized. Finally in September the unit became an organized club. The membership of this club consists entirely of Poultry Raisers, that being their chief interest they asked to be allowed to take poultry work alone. This was granted. They hold monthly meetings and each member is responsible for the program one meeting during the year. The membership has increased from 7 to 12 and they are all very interested workers. Every phase of poultry will be studied by the club during the year.

#### D. CAMPS AND SHORT COURSES FOR WOMEN

(a) Farm Woman's Camp: Camp Rathers is a magic name for the farm women of Bedford and Campbell Counties. Situated in a grove of large Oak trees, away from the noise and traffic, it is an ideal place for rest and recreation. The camp is held jointly each year with Campbell County. This has its advantages as people from both counties learn to know each other, the two agents work together and specialists can be secured for both at the same time.

This year the camp was held for a week and 52 Bedford women attended. One group coming in Monday and staying until Wednesday and another group coming in that day and staying until Sunday. The program was arranged to give the women something interesting, useful and worth while. It consisted of lectures and demonstrations on Foods, given by Mrs. Frances Y. Kline of the Postum Co., Social Hygiene lectures by Mrs. Drewry, a representative of the State Board of Health, and talks on the "Gracious Hostess" by Miss Maude Wallace. The handiwork was painting door-stops which had been molded in the shape of a bowl of tulips.

18.

They were painted bright colors which showed up very attractively. This work was taught by Miss Helen Hicks. Mrs. Hicks from Campbell County gave instructions in basketry. The entire recreational work was in charge of Miss Ella Gardner, of the Children's Bureau in Washington, who handled it excellently. The women enjoyed every minute of her program which was filled with games, stunts and songs. The evenings were especially enjoyed when crowds of visitors came in to help make merry with the old Virginia Reel, Grand March and games of every nature.

The camp closed Sunday afternoon with a special song service and sermon to which many came. The women all went home feeling that they had a wonderful time and voted unanimously for this to be an annual event.

(b) State Homemakers Meeting: Three members of the Advisory Board attended the Homemakers meeting and Institute of Rural Affairs held at Blacksburg in August. 11 women from this county attended different sessions of these meetings and all expressed themselves as having enjoyed each one as well as received a great deal of benefit from the same.

(c) Achievement Day: An Achievement Day was held at the Randolph Macon Academy on July 17. The women from the clubs throughout the county were asked to attend this meeting and be responsible for the program. The morning session was given over to reports, songs, recitations and contests. The members of the clubs that had taken the Wash Dress Unit wore their dresses in parade that being the best way to display them. The dresses were very becoming as well as stylish and nicely made. 6 prizes were given by the Bedford Merchants for the 6 prettiest best made dresses. Miss Settle was present to do the judging. Fortunately the prizes were evenly distributed, three going to each club.

At noon time a bountiful lunch was served on the Academy grounds. It was enjoyed by all.

11.

The afternoon program consisted of a lecture by Miss Settle, awarding of prizes and picture making of the different groups. At that time there were only 3 clubs to participate in these activities but now that the number has increased to 4 we are planning for a larger and better Achievement Day in 1930.

## E. COUNTY-WIDE WORK

(a) Better Homes Report: At the March meeting of the Home Demonstration Advisory Council it was agreed to ask the organizations of the different communities to assist with a "Clean-Up Campaign" during Better Homes Week. This was done and the 4-H Community Clubs and Home Demonstration Clubs of six communities assisted with this campaign.

Clean-Up meetings were held by the three home demonstration clubs and a great deal was accomplished. Several public places, such as churches, mills and store grounds were cleaned by these clubs as well as their own houses and premises. Loads and loads of rubbish, tin cans, etc. were removed. Several fences repaired and white washed, out houses painted and a general clean up of things.

Three 4-H Clubs helped by having Better Homes Programs for their meetings and assisted with cleaning up school grounds.

Miss Ricks, the district agent, and Miss Myra Raegan, a representative of the Soft Wheat Millers Association, met with three clubs during the week and gave demonstrations and lectures. Miss Raegan demonstrated making of Yeast Breads and Bran Muffins to a club of nineteen women. They were particularly interested in this line of work and very successful results have been obtained. Better yeast breads, muffins, and cakes are being made as a result of this meeting.

Miss Ricks met with a Womens Club that is interested in

better homes and home improvement work. Her talk was very much enjoyed as well as far reaching in its results. The women were inspired to make their homes better places in which to live and a beginning has already been made.

(b) Follow up Work in Poultry Improvement Contest:

The follow up work of the County wide Poultry Improvement Contest ( which closed in 1928) has been very gratifying. There is a decided increase in poultry production throughout the county. A great deal more castrating, culling, selection of breeders, etc. has been practiced this year than ever before. More and better houses are being built, better equipment used and improvement shown along every line of poultry raising.

15 Bedford County poultry raisers, with a total of 1612 birds, have had their flocks blood tested and are now selling eggs to various hatcheries, at a price of fifty cents per dozen during winter and spring months.

Poultry Clinics and Institutes have been well attended and much interest manifested by the raisers. Sick chickens were brought in and assistance received for the same.

(c) Follow up Work in Home Water Campaign:

In the County-wide Home Water Supply Campaign which has been running since 1925, is very pleasing to know that 26 water systems have been installed. 10 of them being put in this year, 2 of which are going in at the present time.

The campaign is having its effect in making people realize that inconvenience and other people are requesting help since seeing how their neighbors have been benefited. This is a cooperative piece of work between the county farm and home agents.

13.  
2. GIRLS' WORK

A. 4-H Club Council: On March 10th 1929, a county club council was organized, the first of its kind in Bedford. This council is composed of 9 4-H Club members elected by the members themselves. They compose the officers of the council. The executive committee of this council, with the club leaders met on Dec. 12, and drew up a county plan of work which was submitted and adopted at the spring county council meeting. It consists of the followings:

1. Each club secure its own enrollment. Card to be filled out by member and signed by parent.
2. All 4-H clubs to hold regular monthly meetings.
3. A written plan of work for each club, leading to the solution of community problems.
4. Each club member to conduct a demonstration in one or more projects.
5. Each member keep record on demonstration conducted and turn same into the secretary when called for.
6. Each club to be responsible for collecting and turning in completed records.
7. The club goal to 100% completed records.
8. Each member, if possible, exhibit project at some fair.
9. To have at least four activity or community booths at the county fair.
10. Each club to have one or more delegates at the State Short Course.
11. To have two or more girls at County Short Course from clubs conducting home demonstration projects.
12. Each club to have community picnic.
13. To hold one county rally.
14. To have at least two meetings of the county club council and quarterly meetings of the executive committee.

15. To conduct demonstrations in clothing, canning, bread, poultry, room improvement, corn, tobacco, tomatoes, garden, dairy-calf; pig.

A representative from each 4-H Club attended this meeting and they took a copy of this County Plan of work back to their respective clubs. Each club made its own plans for carrying out this program, which was executed to a large extent. The council has done some splendid work and we hope it will continue to function more and more each year.

#### B. PROJECT ACTIVITIES AND RESULTS:

(a) Food Preparation: I feel somewhat discouraged over this club work. Reports do not come in as they should and so many girls dropped out at the very beginning. 4 project groups were organized with an enrollment of 25. Demonstrations in measuring, mixing, baking and judging were given. Something different being arranged for each meeting. There were 15 completions from the 25 enrolled, only 2 members doing no work. 13 group meetings were held and 3 public demonstrations given by members. The exhibits at the fair were small but the quality was very much better than that of the past year. Several of the girls are now doing all, or a greater part, of the family baking and say they enjoy it. One mother told me that her family had so much better bread to eat since her girl had learned, through the bread club, how to make and bake good bread.

(b) Food Preservation: The enrollment in this project was smaller this year than last. There was a membership of 33 with 25 completions. 33 group meetings were held with the 5 groups during the summer. 17 girls exhibited at the county fair winning a sum of \$35.70. The value of all products preserved amounted to \$593.37 with a cost of \$97.50. I find that

15

quite a number of the girls are doing the family canning. They take a great deal of pride in their work and enjoy doing it.

A little first year member completed her requirements by a large margin, had an excellent exhibit at the fair and helps with the majority of the family canning. She is a wide awake little girl with loads of energy, carrying clothing, bread, canning and calf club work. All of which were completed with splendid records. As soon as she is old enough she wants to attend the state short course, give a demonstration and win a trip to Camp Vail.

(c) Food Nutrition: The Better Foods Clubs of Bedford County were conducted in 2 little one-room schools where the pupils were poorly fed, undernourished, and under weight.

At first these 25 children were very skeptical of the Better Foods Club, not having had any of this work before they were rather afraid to try it. After the first two meetings however, they began to wake up and take an interest in the work. They seemed anxious to eat and drink the things that were for the betterment of their health. Quite a number had been drinking cocoa-cola and coffee stopped this and are now drinking cocoa and milk instead. Many of the members brought milk to school to drink with their lunches, something that had never been done before. Every under weight child gained from 2 to 10 pounds, one little girl gained as much as 14 pounds.

One teacher said that she was very glad to have this club work in her school and that a marked improvement was noticed in both the physical and mental abilities of the pupils. 12 project meetings were held and 30 different homes reached through this work.

(b) Clothing: The Clothing Club work is by far the most popular project in this county. 192 girls were enrolled and 163 completed.

A total of 137 group meetings were held and 639 articles were made, 747 mended, 520 cleaned, and 104 remodeled. This work was conducted in 14 communities. In several clubs the girls were divided into groups and the older girls assisted the younger ones and were responsible for their success. This worked fairly well and was training for the older girls. There were about 38 clothing exhibits at the fairs and a large number of them won prizes. A fashion show was conducted by one of the clothing clubs and pronounced a thrilling success. All the communities turned out to see the show and took so much interest and delight in what the girls were doing. The dresses and aprons worn by the models were lovely and well made. They displayed both style and becomingness.

(d) House Furnishings <sup>Project</sup> Five <sup>the</sup> project groups with an enrollment of 26 took this work which was conducted in the form of a contest. 24 of these girls completed and have nice new rooms to show for their work. Local judges were secured to do the scoring. Miss Settle met these judges the first of June and explained the score sheets. At this meeting they asked her to meet the scoring committee and the contestants the middle of that month which she did. A demonstration in color and color harmony was given, also hints about refinishing and arranging furniture, making and hanging curtains, all of which proved very helpful to the girls. During the last week of June the judges visited and scored the contestants rooms. Bulletins on Floor Finishes, and Refinishing Furniture, Color Cards and helpful material of all nature was given each contestant. I visited the contestants as often as possible during the summer, giving suggestions and help on special problems which arose. As the work progressed interest and enthusiasm increased. It was pleasing to see how the interest of the entire family was centered on this project.

The services of the younger brothers and sisters were solicited and the parents as well as the girls took much pride in what was being accomplished.

The last scoring was made August 25 to 29 and truly marvelous changes had been wrought. Dark, dirty, dingy, fly-specked, unattractive rooms had been made into new, neat, clean, attractive, pretty places to live. One little 12 year old girl tells the following story about how she earned the money to buy the needed things for her room. She says, "My brother gave me fifty cents for feeding his pig when he was away. Mother made two dresses for a lady and gave me the \$2.50 she got for making them because I cooked and kept house while she sewed. There was a show in town and daddy gave us all seventy-five cents to go to the show with but I kept mine for my room and did not go. I picked and sold enough vegetables to make \$1.50. The cost for improving my room was \$5.14 so I had eleven cents left which I put on my savings account." Another little girl improved a tiny dark kitchen by making it several feet larger, adding a nice large window and hanging the door so it would open. Before it had only opened a few inches and required much squirming and squeezing to get through. When she settled with the carpenter he deducted fifty cents from his bill because she was a 4-H Club girl.

Some of the girls were very resourceful in fixing over old furniture and making it look new. A screen was made from tobacco sticks then painted and covered with material that harmonized with the colors in the room. Two planks and four little strips were made into a real neat table which held several books, a vase of flowers and a lamp. Two old yellow oak beds with high head and foot boards were sawed down, repainted and made to resemble four-posters. All fancy carving and superfluous trimmings, that was only dust catchers were removed from all furniture. One of the

15

greatest improvements made was the elimination of fair dolls, enlarged pictures, and calendars from all rooms.

Five prizes which were solicited by the advisory board were given to the five girls doing the best work. I am glad to say this work has proved an incentive to most of the 24 families. They plan to fix over the remainder of their homes so the contrast between the two will not be so great. The fathers and brothers are catching the interest and giving their support and aid to the fixing up. I hope the work may extend from home to home, community to community until every farm home will be improved.

(h) Home Poultry: 35 members in four project groups carried this work during the year. 56 group meetings were held with six public demonstrations given by members. 1336 chickens were raised and 792 of them on hand now. The total expenditures for the groups were \$1853.02 with receipts amounting to \$1945.25. 39 birds were exhibited winning prizes of \$34.00. 3 members won 5 premiums at the state fair.

The poultry members of this county feel very proud of three of their co-workers because they won the Dean Silver Cup, which is given to the County Poultry Judging Team making the highest score in judging poultry at the state fair in Richmond. This team competed with eight others from the state and ranked first. Two of the boys made the highest individual scores which entitled them to go to the National Poultry Show held at Madison Square Garden, N.Y. The same boys gave a poultry demonstration at the State Short Course at Blacksburg and won a trip to the Eastern State Exposition at Springfield, Mass. Winning these honors has done a great deal toward the advancement of club work in this county. The members are beginning to realize what can be accomplished and are working with renewed energy. It has been a great incentive for poultry club members and my enrollment in that project has

increased noticeably.

(k) Community Activities: 75 tea tiles were made by girls from all sections of the county. Colored paper was used to cover the odd shaped beaver-board. It was then lequered and covered with shellac. Odd shapes were used by the girls and a number of attractive tiles were made.

(l) Miscellaneous: Picnics, lawn-parties, wescie-roasts, and receptions were held by 20 groups in the county. The attendance was large at all meetings and everyone seemed to enjoy themselves.

#### D. REPORT OF COUNTY WIDE WORK

(a) County Club Rally: A county club rally was held in Bedford Theater on March 16 with 70 club members from all sections of the county present. Both roads and weather at that time were awful so the attendance was considered very good.

An interesting program was rendered including songs, reports from each 4-H Club, music appreciation, discussion of parliamentary law, by Miss Ricks and a lecture by Mr. Montgomery.

In the afternoon the council was the guest of Dr. W. L. Lyle, president of the Rotary Club, who treated them to ice-cream and cold drinks. The theater manager then gave them a free ticket to the movies which was very much enjoyed.

(b) County-Wide Egg Layin' Contest: This was the first contest of this nature to be held in Bedford County and the third of its kind to be held in the state. The 10 contestants entering

and completing this work were from the five poultry project groups. This contest began the first of January and lasted through April. At the end of each month records showing the number of eggs collected, amount of feed consumed, and number of birds sold were mailed into the office. These records were kept for four months and prizes were offered for the flocks making the largest showing in that length of time. Much interest and enthusiasm was shown by the members, each one working hard to make his or her flock rank the highest each month. Competition was keen and there was very little difference in the winner's scores.

A "Get Together" was arranged for contestants at close of the contest. This was held in the farm agent's office and each one had a fine time playing games, matching poultry cut-outs and working a poultry guessing contest. Miss Hedsden was present to check up the scores and award the prizes, which were donated by the local merchants. The contestants were the guests of one of the drug stores in town and enjoyed delightful refreshments. This contest was a great deal of help as well as fun for the members. A similar contest will be conducted in 1930.

**E. CLUB SHORT COURSES AND CAMPS**

(a) County Short Course: The Bedford County Short Course for club girls was held at Camp Ruthers. This camp is owned by the Lynchburg Y.W.C.A. and was rented us for a sum of \$10.00 for the camp. 52 girls attended this year. The program included food demonstration given by Mrs. H. S. Dodge from the Knox Gelatin Co., health instruction, by Miss Grace McIntyre, from the State Board of Health, handicraft, which was the making of tea tiles, was in charge of Miss Helen Hicks, the district agent. Mrs. Russell Johnson of Salem, taught swimming, games, songs and stunts. Dr. Johnson of Bedford gave the physical examinations to the girls. Dr. Emmon G. Williams visited the camp and was well pleased with everything.

This camp was financed by each girl paying \$2.50 and giving some article of food. Each year this short course serves to increase interest in club work and I find, with few exceptions, that the ones who attend make the best club members and willingly assist with club work at home.

(b) State Short Course: We had the largest delegation at the State Short Course this year ever sent from the county. 23 girls, 30 boys and 5 leaders made up our delegation. We secured the use of school buses to get the majority of club members to Blacksburg, while a few went in private cars and by rail. Bedford County had the third largest delegation attended. Compared with recent years it is quite remarkable and shows an increase of interest in club work.

Three club members were made All Stars, making a total of nine in the county. The banks in Bedford contributed \$30.00 towards the expenses of worthy club members.

#### C. FAIRS AND EXHIBITS

(a) Community Fair: The Forest Home Demonstration Club held its second community fair October 4th and 5th. The first day was given over to decorating the building, accepting interest and arranging the display. On the second day the doors were open to the public at an early hour.

A splendid catalogue was issued with several hundred entries. Some classes having as many as sixteen and eighteen articles in them. The exhibits were numerous and of good quality including clothing, canning, domestic arts, preserves, butter, farm and garden products, poultry, flowers and furniture. Over 300 exhibits were displayed and \$260.00 in prizes and merchandise was given away. \$71.00 was realized from the fair. All the exhibits were very creditable and of good quality, far better than those of the previous year. Over 500 people attended the fair and pronounced a success by all. Many of the non interested ones said the display was a credit to the community and surpassed the county fair exhibit.

(b) County Fair: The Bedford County Fair was held Sept. 24 - 28. The 4-H Club exhibits were extremely good and caused considerable comment.

There were 50 exhibits in clothing, 20 in canning, 8 in bread  
6 in canning, 9 in room improvement and 7 in poultry. These were  
attractively displayed and the quality exceeded that of the pre-  
ceding year. The amount of prizes won was something over \$300.00.

One of the main features of the fair was the two activity  
booths put on by the home demonstration clubs. They consisted of  
demonstrations in packing A One Dish Hot School Lunch and Conven-  
ient kitchen arrangement with correct heights for working surfaces.  
These were well conducted and outstanding work accomplished. Much  
interest was manifested by the crowds that gathered around the  
booths to watch the members in action. The booths rendered help-  
ful suggestions and information to a large number of people. These  
booths gave a great deal of publicity to women's work throughout  
the county. The people really saw and realized that the club mem-  
bers could do creditable work. We hope to have more booths of this  
nature at the 1930 fair. It creates more interest than competitive  
exhibits and is worth more educationally. Each activity booth won  
a \$10.00 prize.

(c) State Fair: Three poultry clubs boys sent 7 exhibits  
to the state fair winning on four of them. Two canning exhibits were  
sent but no premiums won.

COOPERATIVE EXTENSION WORK IN AGRICULTURE AND HOME ECONOMICS

U. S. Department of Agriculture  
and State Agricultural Colleges  
Cooperating

Extension Service,  
Office of Cooperative Extension Work,  
Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

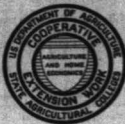

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Bedford  
Report of Elizabeth Jones County Home Demonstration Agent  
(Name) (Title)  
From December 1, 1928 to November 30, 1929.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

HOME DEMONSTRATION WORK

Approved:

Date \_\_\_\_\_  
State or District Supervisor.

Date \_\_\_\_\_  
State Extension Director.

## SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

### NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

#### SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
  - (1) Form of organization—changes and development.
  - (2) Function of local people, committees, or project leaders in developing the program of work.
  - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
  - (1) Factors considered and methods used in determining program of work.
  - (2) Project activities and results.
 

<ol style="list-style-type: none"> <li>(a) Soils</li> <li>(b) Farm crops (Horticulture)</li> <li>(c) Home gardens (Beautification of home grounds)</li> <li>(d) Forestry</li> <li>(e) Rodents, predatory animals, and birds.</li> <li>(f) Animal husbandry (Dairy husbandry)</li> <li>(g) Poultry husbandry (Home poultry)</li> </ol>	} (including diseases and insects).
---	-------------------------------------

3

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

IV. Program of work, etc.—Continued.

(2) Project activities and results—Continued.

- (a) Agricultural engineering.
- (b) Agricultural engineering—home.
- (c) Agricultural economics, including farm management and marketing.
- (d) Home marketing.
- (e) Foods.
- (f) Nutrition.
- (g) Clothing.
- (h) Home management.
- (i) House furnishings.
- (j) Home health and sanitation.
- (k) Community activities.
- (l) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMITTEE, for the purpose of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
  - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
  - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl, under the direct supervision of the extension worker, to point out locally the value of a recommended practice. Such a demonstration involves a substantial period of time, records of results, and comparisons, and is designed to teach others in addition to the person conducting the demonstration. It should not be confused with the adoption of a farm or home practice resulting from a demonstration or other teaching activity, but which is not employed by the extension worker as a means of teaching. Examples: Demonstrating that the application of fertilizer on cotton will result in more profitable yields; that underweight of certain vitamins can be corrected through proper diet; or that the use of certified seed in growing potatoes is a good investment.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

**DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.**

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXENSION ON MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration when practical but systematic instruction is given to persons not resident at the college. AN **EXTENSION SHORT COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

**GENERAL ACTIVITIES.**

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.
- |                         |        |                    |         |                                |  |

<sup>1</sup> The individual entries in this column should not exceed entry for question 2, page 4.

<sup>2</sup> The individual entries in this column should not exceed entry for question 4, page 4.

<sup>3</sup> Boys' and girls' club work should be distributed among the proper subject matter headings and not entered as a separate project.

## FARM-DEMONSTRATION WORK.

## SOILS.\*

Report only this year's extension activities and results that are supported by records.

45. Number of method demonstrations given. (See definition 6, page 3.)	45
46. Number of result demonstrations started or under way. (See definition 6, page 3.)	46
47. Number of result demonstrations completed or carried through the year.	47
48. Number of acres involved in these completed demonstrations.	48
49. Number of farms adopting improved practices in the use of commercial fertilizer this year.	49
50. Tons involved in preceding question.	50
51. Number of farms taking better care of farm manures this year.	51
52. Number of farms using lime or limestone for the first time.	52
53. Tons of lime or limestone so used.	53
54. Number of farms plowing under cover or other green manure crops for the first time.	54
55. Acres of cover and green manure crops so plowed under.	55
55½. Number of farms adopting other improved soils practices this year. (Specify below.)	55½
56. Total number of different farms adopting improved practices, relative to the soils work reported on this page. (Include questions 47, 49, 51, 52, 54, and 55½ less duplications.)	56

\* For drainage, irrigation, land clearing, and terracing see "Agricultural Engineering," page 26.

## HORTICULTURE.

Report only this year's extension activities and results that are supported by records.

	(b) Girls	_____	
	(c) Boys	_____	
341. Number of individuals growing winter gardens for the first time	(a) Women	_____	} 341
	(b) Girls	_____	
	(c) Boys	_____	
342. Total number of different homes adopting improved practices relative to the home-garden work reported on this page		_____	342

[Use space below to include other important data relating to home gardens.]

\* Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

## HOME POULTRY.

Report only this year's extension activities and results that are supported by records.  
Do not list information which has been previously reported on pages 14 and 15.

343. Number of project clubs or groups	(a) Women	3	343
	(b) Juniors	4	
344. Number of members enrolled in home poultry.	(a) Women	45	344
	(b) Girls	16	
	(c) Boys	17	
345. Number of members completing	(a) Women	45	345
	(b) Girls	12	
	(c) Boys	15	
346. Number of method demonstrations given		22	346
347. Number of result demonstrations started or under way	(a) Women	43	347
	(b) Girls	16	
	(c) Boys	17	
348. Number of result demonstrations completed or carried through the year	(a) Women	43	348
	(b) Girls	12	
	(c) Boys	15	
349. Number of birds in result demonstrations raised or managed by	(a) Women	1274	349
	(b) Girls	877	
	(c) Boys	1086	
350. Total profit on result demonstrations conducted by	(a) Women	\$229.18	350
	(b) Girls	\$232.25	
	(c) Boys	\$468.22	
351. Number of individuals culling flocks for the first time	(a) Women	16	351
	(b) Girls	8	
	(c) Boys	6	
352. Number of homes culling flocks for the first time		14	352
353. Number of birds in these flocks		724	353
354. Number of birds discarded		187	354
355. Number of homes feeding better-balanced poultry rations for the first time		32	355
356. Number of individuals assisted in obtaining standard-bred eggs for hatching this year	(a) Women	7	356
	(b) Girls	2	
	(c) Boys	8	
357. Number of homes assisted in obtaining standard-bred cockerels this year		4	357
358. Number of individuals adopting improved practices in early hatching and chick rearing this year	(a) Women	12	358
	(b) Girls	8	
	(c) Boys	10	
359. Number of homes directly assisted in increasing the family income this year through poultry		3	359
360. Number of homes controlling poultry insects for the first time		15	360
361. Total number of different homes adopting improved practices relative to the home-poultry work reported on this page		97	361

[Use space below to include other important data relating to home poultry.]

2 Poultry Institutes or Clinics held, much interest shown. 12/16 birds on certified list. Several hundred copies in County. Standard bred birds are being introduced in homes.

\* Data which do not require data or groups on a project basis should not appear on this section but should report on enrollment and activities.

4 leaders assisted with projects.

## HOME DAIRY.

Report only this year's extension activities and results that are supported by records.  
Do not list information which has been previously reported on pages 14 and 15.

362. Number of project clubs or groups <sup>1</sup> .....	(a) Women .....	362
	(b) Juniors .....	
363. Number of members enrolled in home-dairy work .....	(a) Women .....	363
	(b) Girls .....	
	(c) Boys .....	
364. Number of members completing .....	(a) Women .....	364
	(b) Girls .....	
	(c) Boys .....	
365. Number of method demonstrations given .....		365
366. Number of result demonstrations started or under way .....	(a) Women .....	366
	(b) Girls .....	
	(c) Boys .....	
367. Number of result demonstrations completed or carried through the year .....	(a) Women .....	367
	(b) Girls .....	
	(c) Boys .....	
368. Number of cows or calves in result demonstrations raised or managed by .....	(a) Women .....	368
	(b) Girls .....	
	(c) Boys .....	
369. Number of homes feeding better dairy rations for the first time .....		369
370. Number of homes adopting better practices in the sanitary production and care of milk this year .....		370
371. Number of homes adopting better practices in butter or cheese making this year .....		371
372. Number of pounds of butter made .....		372
373. Number of pounds of cheese made .....		373
374. Total number of different homes adopting improved practices relative to the home-dairy work reported on this page .....		374

[Use space below to list other important data relative to home dairying.]
