

## List of Tables

Table 2-1: Values of Peak and Residual Interface Friction Angles between the Respective Materials.....	55
Table 3-1: Solutions for Freestanding Tube.....	59
Table 4-1: Tube with Apron Attached; Constant $h_{int} = 0.2$ .....	66
Table 5-1: Tube with Apron Attached; Constant Area, Initial $h_{int} = 0.2$ .....	80
Table 5-2: Tube with Apron Attached; Constant Area, $L = 2.0$ m, Initial $h_{int} = 0.2$ .....	81
Table 5-3: Tube with Apron Attached; Constant Area, Initial $h_{int} = 0.31903$ .....	86
Table 5-4: Tube with Apron Attached; Constant Area, $L = 2.0$ m, Initial $h_{int} = 0.31903$ .....	86
Table 7-1: Location of Drain and Critical Headwater Height.....	92
