Organization.

The County Extension organization is composed of the six members of the Board of Supervisors, a lady representative from each of the six Districts, also a man representative from each district, a business man, a banker, a News paper man, the Division Superintendent of Instruction of the Public Schools, and the Smith-Hughes teacher of Agriculture. This organization is known as the Agricultural Advisory Council.

The Council is sub-divided into the following committees; Soils and Crops, Livestock, Poultry, Horticulture, Agricultural Education, Agricultural Economics and Marketing, Rural Community and Home Development, and Boys and Girls Club Work.

This is the second year of the existence of the Council. Its policy is to hold two meetings a year. Unfortunately the weather and the roads have been such at the time of each meeting, that many of the members were unable to attend. The members of the Council are giving promise of taking a definite interest in the work of the Council, and will be a great aid in helping to put across an aggressive Five Year Program for the development of Buckingham County's Agriculture.

A County Council for Boys and Girls Club Work, was organized in June. This Council is composed of the President, Secretary, and Club leader of each of the organized clubs in the county. The Chairman of the Club Council is a member of the Agricultural Advisory Council, and chairman of the sub-committee of that Council. Much aid has been given the County Agent in formulating policies for the conduct of Club work in the county, and in putting into effect these policies through the officers and club leaders of the respective Clubs in the County.

A committee known as the Buckingham County Fair Association, assists the County Agent in holding the County Fair and in making recommendations and forming policies governing the conduct of the Fair;

It has been the policy of the County Agent to cooperate with all existing organizations of the farmers of the county. The Tobacco Growers Cooperative Association, the only county wide organization, with its 18 locals, has given the County Agent, to meet with the farmers in all sections of the county. He has held meetings in 16 of the 18 locals during the past year.

Program of Work. Factors considered.

The factors considered in determining the program of work are;

- 1st. That in practically in all sections of the county, tobacco is the determining factor in all other farm operations.
- 2nd. That the use of lime is the limiting factor in the growing of clover and alfalfa.
- 3rd. That the humus content and fertility of the soil has been greatly depleted by past farm practices.
- 4th. That the limited area of open fields and pasture lands greatly restricts the raising of livestock.
- 5th. That under present conditions small flocks of sheep are practical on many farms.
- 6th. That the county has very limited markets for the products raised for human food.
- 7th. That the shipping facilities are very inadequate, so that the individual grower has a very limited outlet for the sale of by-products to supplement the income from his own crop-tobacco.

Program of Work (continued).

8th. That in the majority of cases, too limited a variety of foods is raised for family use.

9th. That on very many farms, not enough feed, (especially legumes) is raised to feed the stock.

10th. That few community centers have been developed through which better farm practices can be introduced.

Project Activities and Results.

Soils; The soil in this county, mostly underlain with a Red clay subsoil, responds readily to soil improvement and does not leech rapidly. Such practices as a heavy application of fertilizer, plowing under stable or green manure crops, and the application of some form of lime, have given excellent results. This has been especially true in the case of tobacco and alfalfa.

Cover crops; The sowing of cover crops was greatly stimulated this year because of the drouth which caused an unusual shortage of roughage. The farmers were induced to sow a cover crop of rye or rye and vetch to furnish fall and early spring pasture, then to be turned under. There are 27 farmers who began this practice this year.

Fertilizer; The heavier application of high grade 13-8-3, or better) commercial fertilizer for tobacco is becoming more universally practiced. The application of as much as a thousand pounds per acre for tobacco is the practice of most of the more successful tobacco growers.

Lime; The use of lime the past year made an increase of 260% over any previous year. The very striking effect of lime in the growing of clover has been proof that this soil needs lime. Thirteen carloads of lime in some form, were used in the county this year as against five cars in any previous year. Eleven farmers using lime for the first time.

Farm Crops; Corn; The growing of cereal crops is a secondary matter with the tobacco grower. Usually planting enough to furnish feed and feed should there be a good crop. Most of the demonstration work in corn was done through club members. Thirty three club members were enrolled, 13 completing their project, producing 515 bushels of corn on 14 acres of ground. Field selection for seed was stressed through circular letters, News paper articles, and demonstrations.

Wheat; There was an unusual infection of stinking smut this year. An investigation showed that, had there been a rainy season during harvest and thrashing, 50% of the wheat would have been unfit for flour, or it would have made a very low grade of flour. Thirty five farmers were induced to use copper carbonate for seed wheat treatment. Copies of a circular letter, giving method of treatment, were sent to 950 farmers. Arrangements were made with the merchants to have copper carbonate sold. Millers were interviewed, and cheerfully cooperated in calling the attention of farmers to the need and treatment of seed wheat.

Rye; There has been so much demand for seed rye for cover crop and winter pasture that five farmers have been induced to sow rye for seed. If the crop outlook is favorable a number of others will reserve a portion of their sowing for seed.

Legumes. Alfalfa; An increasing number of farmers are giving attention

Legumes (continued)

to alfalfa. The prolonged drouth hindered many from making their fall sowing. Because of lack of moisture in the soil it was not advisable to sow the seed. The drouth continued until October 15, too late for fall sowing of alfalfa. Approximately 15 farmers are waiting until spring to carry out their deferred plans.

Soy Beans; A rapidly ^{increasing} number of farmers are sowing soy beans in the place of peas. For the past two years, the County Agent has strongly advocated the use of the bean in place of the pea. Both seasons have been unfavorable for the raising of either, especially the pea. As a result of the high price of peas, many farmers have turned to beans. Twenty seven farmers planted Virginia variety of soy beans for seed. Twenty one were able to cut a seed crop, with widely varying results. One farmer who had never tried raising beans for seed, planted five acres for that purpose. He had originally planned to plant twelve acres. About harvest time he said he wished he had planted the twelve acres as they were the best crop he had on the farm. It is estimated that the acreage in soy beans has increased 150% in the last two years.

Sweet Clover; this crop is slowly gaining favor. The use of it is being recommended in preparation for alfalfa. Two farmers are carrying through this demonstration.

Clover; Because of the prevalence of mildew on clover, alsike has been recommended in place of red clover. Seventeen farmers sowed alsike. The drouth killed most of the spring sowing.

Hairy Vetch; The farmers have been urged to use hairy vetch in place of crimson clover. The experience of most farmers is that they do not succeed in getting a stand of crimson clover in more than one out of four times. Because of this fact a sowing of a bushel of Abruzzi rye and 15 pounds of Hairy Vetch to the acre for a cover and green manure crop has been recommended. A circular letter was addressed to 950 farmers advising the use of vetch and rye for a cover crop, early fall and spring pasture, and green manure crop. Also a combination of 15 # of vetch, 40 # wheat, and one bushel of winter oats for early hay crop as a substitute for the shortage of the hay crop due to drouth. A very encouraging response was given to this recommendation.

Irish Potatoes; The only work attempted was with Club members. The drouth caused almost a total failure. Of 112 1/2 bushels raised by nine Club members, a half of it was raised by one member on fourth acre plot that was heavily mulched.

Tobacco; In making recommendations for tobacco, the chief emphasis has been placed upon the heavier application of high grade commercial fertilizer. Investigation indicated that almost invariably the farmer who does not put on as much as 1000 # of 3-3-3, or its equivalent, to the acre does not raise 1000# of tobacco to the acre. The 31 Club members produced 16416 # on 23 acres, using an average of 800# of 3-3-3 fertilizer to the acre.

Horticulture; Little attention is given to the raising of fruits. There is opportunity and soil and weather conditions are favorable in a portion of county for commercial orcharding. The home orchards have been sadly neglected. Twenty seven method demonstrations in pruning were given. Ten farmers gave serious attention to completing the pruning as instructed. Nine Club members carried their garden projects to

Livestock;

Dairying; Of the four Dairy farms in the county, three were enrolled in a cow-testing association. The fourth is following better-feeding recommendations.

Swine; Work with swine was confined mostly to Club members, except that four adults were assisted in securing pure bred stock. Eight Club members carried through their projects, involving 28 animals, with a total income of \$259.30.

Sheep; Conditions in this county are such that sheep, in small flocks, are the most practicable and profitable livestock. Approximately four days time was given to the treatment of sheep for stomach worms. Eight days to visiting farmers and addressing meetings, advising the raising of sheep. The interest shown early in the summer, indicated that there would be demand for two car loads of breeding ewes. The drought caused a shortage of feed to such an extent that it was not advisable to make the investment this year. Moving picture used in nine meetings.

Poultry; A great deal of emphasis has been placed upon the feeding and housing of the farm flock. The need of culling was emphasized at 14 culling demonstrations. Some phase of poultry management was presented by moving picture at 36 meetings. Twelve demonstrations given in remodeling poultry houses. Ninety eight clubmembers were enrolled.

Rural Engineering; Four surveys for the installation of hydraulic water systems were made. A demonstration for the use of Pyrotel was given by a specialist. Approximately 1500# of the explosive were used with very satisfactory results.

Agricultural Economics. One farm-management and farm-account school was held, with twelve persons in attendance. A model-farm exhibit at the fair received a very great deal of attention. At least 100 people giving it serious study.

Canning; Through the assistance of very competent club leaders seven of the fourteen girls enrolled completed their work successfully. They canned 565 quarts of fruits and vegetables, 31 quarts of preserves, 17 quarts of pickles.

Outlook and Recommendations.

The outlook for another year is encouraging, in that there is evidence of increasing in a constructive, progressive agricultural program for Buckingham county. A program which will result in, (1) Soil improvement through the use of legumes, cover crops, lime, and rotation of crops, together with the intelligent use of commercial fertilizers. (2) The proper relation of tobacco, to the other crops necessary to the maintenance of the farm family and livestock. (3) The carrying of livestock to the full capacity of the farm, so that the roughage may be converted into a marketable product, or used for home consumption. (4) The development of community centers and better home conditions, so that farm life may be more satisfying.

Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Buckingham
Report of J. G. Hamaker County Farm Demonstration Agent
(Name) (Title)
From Dec. 1st 1924 to Nov. 30th 1925.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

County Supervisor

State Extension Director

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

(a) Soils	}	(including diseases and insects)
(b) Farm crops		
(c) Horticulture		
(d) Home gardens		
(e) Beautification of home grounds		
(f) Forestry		
(g) Rodents, predatory animals, and birds.		
(h) Animal husbandry	}	(including diseases and insects)
(i) Dairy husbandry		
(j) Home dairy		
(k) Poultry husbandry		
(l) Home poultry		

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

IV. Program of work, etc.—Continued.

(2) Project activities and results—Continued.

- (i) Rural engineering.
- (j) Rural engineering—home.
- (k) Agricultural economies, including farm management and marketing.
- (l) Home marketing.
- (m) Foods.
- (n) Nutrition.
- (o) Clothing.
- (p) Home management.
- (q) House furnishings.
- (r) Home health and sanitation.
- (s) Community activities.
- (t) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
7. A METHOD demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
8. A RESULT demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-culture, and orchard-management demonstrations.
9. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
10. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
11. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
12. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
13. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
14. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
15. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
16. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
17. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
18. LETTERS WRITTEN should include all single letters on official business.

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. An **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. An **EXTENSION SHOW COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report 1

report <i>J. G. Hamaker</i> (Name)	County Agent (Title)	Twelve (Months of service this year)

FARM-DEMONSTRATION WORK.

SOILS.¹

Report only this year's extension activities and results that are supported by records.

45. Number of method demonstrations given. (See definition 6, page 3.)	45
46. Number of result demonstrations started or under way. (See definition 6, page 3.) 27	46
47. Number of result demonstrations completed or carried through the year. 23	47
48. Number of acres involved in these completed demonstrations. 72	48
49. Number of farms adopting improved practices in the use of commercial fertilizer this year. 19	49
50. Tons involved in preceding question. 12	50
51. Number of farms taking better care of farm manures this year. 5	51
52. Number of farms using lime or limestone for the first time. 11	52
53. Tons of lime or limestone so used. 55	53
54. Number of farms plowing under cover or other green manure crops for the first time. 12	54
55. Acres of cover and green manure crops so plowed under. 68	55
56. Total number of different farms adopting improved practices, relative to the soils work reported on this page. (Include questions 47, 49, 51, 52, and 54 less duplications.) 26	56

[Use space below to include other important data relating to soils.]

Thirteen car loads of lime used in the county this year. Previous to this, five car loads has been the high water mark.

¹ For drainage, irrigation, land clearing, and terracing see "Rural Engineering," page 16.

HORTICULTURE.

115. Number of farms adopting improved practices relative to the horticultural work reported on this page.	10		4		8	
[Use space below to include other important data relating to horticulture.]						

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

FORESTRY.

Report only this year's extension activities and results that are supported by records.

116. Number of method demonstrations given.....	116
117. Number of adult result demonstrations started or under way.....	117
118. Number of adult result demonstrations completed or carried through the year.....	118
119. Number of acres included in these completed demonstrations.....	119
120. Number of junior clubs ¹	120
121. Number of members enrolled.....	(a) Boys..... (b) Girls.....	121
122. Number of members completing.....	(a) Boys..... (b) Girls.....	122
123. Number of acres handled by junior club members.....	123
124. Number of forest or wood-lot plantings made this year.....	124
125. Acres involved in preceding question.....	125
126. Number of farms assisted in wood-lot management this year.....	126
127. Acres involved in preceding question.....	127
128. Number of farms planting windbreaks this year.....	128
129. Number of farms attempting to control white-pine blister rust for first time.....	129
130. Number of acres involved in preceding question.....	130
131. Total number of farms adopting improved practices relative to the forestry work reported on this page.....	131

[Use space below to include other important data relating to forestry.]

RODENTS AND MISCELLANEOUS² INSECT AND ANIMAL PESTS.

Report only this year's extension activities and results that are supported by records.

Item.	(a) Rodents.	(b) Other animal pests. ³	(c) Grass- hoppers.	(d) Other insects. ⁴	
132. Number of method demonstrations given.....					132
133. Number of result demonstrations started or under way.....					133
134. Number of such demonstrations completed or carried through the year.....					134
135. Number of acres in these completed demonstrations.....					135
136. Total number of farms cooperating in control measures this year.....					136
137. Number of acres involved in preceding question.....					137

¹ States which do not organize clubs on a project basis should not report on this question but should report on enrollment and completion.² Do not include work reported under "Crop" and "Livestock" headings.³ Indicate by name.

LIVESTOCK.

Report only this year's extension activities and results that are supported by records.

Item.	(6)	(8)	(9)	(6)	(6)	(7)
	Dairy cattle	Beef cattle	Pigs	Sheep	Poultry	Other

[Use space below to include other important data relating to livestock.]							

* Indicate by name.

8-5148

RURAL ENGINEERING.

Report only this year's extension activities and results that are supported by records.

167. Number of method demonstrations given	10	167
168. Number of result demonstrations started or under way		168
169. Number of result demonstrations completed or carried through the year		169
170. Number of farms installing drainage systems this year		170
171. Acres drained		171
172. Number of farms installing irrigation systems this year		172
173. Acres irrigated		173
174. Number of farms constructing terraces or soil dams this year		174
175. Acres on which soil erosion was so prevented		175
176. Number of dwellings constructed this year according to plans furnished		176
177. Number of dwellings remodeled this year according to plans furnished		177
178. Number of sewage-disposal systems installed this year according to plans furnished		178
179. Number of water systems installed this year according to plans furnished		179
180. Number of heating systems installed this year according to plans furnished		180
181. Number of lighting systems installed this year according to plans furnished		181
182. Number of farms on which buildings other than dwellings were constructed or remodeled this year according to plans furnished	5	182
	(a) Barns	
	(b) Hog houses	
183. Number of buildings involved in preceding question	(c) Poultry houses	183
	(d) Silos	
	(e) Other	
184. Number of farms clearing land of stumps or boulders this year	7	184
185. Acres of land so cleared	19	185
186. Total number of different farms adopting improved practices relative to the rural-engineering work reported on this page	12	186

[Use space below to include other important data relating to rural engineering.]

AGRICULTURAL ECONOMICS—Continued.

Report only this year's extension activities and results that are supported by records.

205. List below this year's results in connection with the cooperative-marketing associations in the county previously organized and with which the extension service counseled or advised. 205

(a) Name of association or group.	(b) Number of members.	Supplies and products handled.	Supplies purchased.		Products sold.	
			(c) Value.	(d) Savings.	(e) Value.	(f) Profits.
Tobacco Growers Cooperative (members)	1261	Tobacco	\$	\$	\$ 27500 ¹	\$ 12865 ²
TOTAL						

206. Total number of different farms adopting improved marketing practices (include entries for questions 204 (b) and 205 (b) less duplications plus other farms not in cooperative associations) 206

COMMUNITY ACTIVITIES AND MISCELLANEOUS.

Report only this year's extension activities and results that are supported by records.

Use this space to include work on any other agricultural project not included in the preceding pages, such as bookkeeping, and similar work, i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.

Item.	(a) Bookkeeping.	(b) ¹	(c) ²
206. Number of method demonstrations given			206
207. Number of adult result demonstrations started or under way			207
208. Number of result demonstrations completed or carried through the year			208
209. Number of units in these completed demonstrations			209
210. Number of junior clubs ²			210
211. Number of members enrolled		(a) Boys (b) Girls	211
212. Number of members completing		(a) Boys (b) Girls	212
213. Number of units involved in junior club work completed.			213
214. Total number of different farms adopting improved practices relative to the miscellaneous work reported on this page.			214
[Use space below to include other important data relating to miscellaneous work.]			

¹ Indicate name over column.² States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME-DEMONSTRATION WORK.

FOODS.

Report only this year's extension activities and results that are supported by records.

FOOD PREPARATION.

215. Number of project clubs or groups ¹	(a) Women.....	} 215
	(b) Juniors.....	
216. Number of members enrolled in food preparation.....	(a) Women.....	} 216

280. Number of individuals making budgets and keeping accounts for the first time.....	(a) Women.....	280
	(b) Girls.....	
281. Total number of different homes adopting improved practices relative to the home-management work reported on this page.....		281
282. List below the number of labor-saving appliances involved in question 277:		282
(a) Hand washing machines.....	(f) Kitchen cabinets.....	
(b) Power washing machines.....	(g) Electric or gasoline irons.....	
(c) Fireless cookers.....	(h).....	
(d) Kitchen sinks.....	(i).....	
(e) Power vacuum cleaners.....	(j).....	

[Use space below to include other important data relating to home management.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOUSE FURNISHINGS.

Report only this year's extension activities and results that are supported by records.

283. Number of project clubs or groups	(a) Women	283
	(b) Juniors	
284. Number of members enrolled in house furnishings	(a) Women	284
	(b) Girls	
	(c) Boys	
285. Number of members completing	(a) Women	285
	(b) Girls	
	(c) Boys	
286. Number of method demonstrations given		286
287. Number of result demonstrations started or under way	(a) Women	287
	(b) Girls	
	(c) Boys	
288. Number of result demonstrations completed or carried through the year	(a) Women	288
	(b) Girls	
	(c) Boys	
289. Number of individuals adopting improved practices in selection and arrangement of furnishings this year	(a) Women	289
	(b) Girls	
	(c) Boys	
290. Number of individuals adopting improved practices in the repairing and remodeling of furnishings this year	(a) Women	290
	(b) Girls	
	(c) Boys	
291. Number of individuals adopting improved practices in wall, woodwork, and floor treatment this year	(a) Women	291
	(b) Girls	
	(c) Boys	
292. Number of rooms involved in questions 289, 290, and 291	(a) Bedrooms	292
	(b) Living rooms	
	(c) Dining rooms	
	(d) Other rooms	
293. Total number of different homes adopting improved practices relative to the house-furnishing work reported on this page		293

[Use space below to include other important data relating to house furnishings.]

* Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME HEALTH—SANITATION.

Report only this year's extension activities and results that are supported by records.

294. Number of project clubs or groups	(a) Women	294
	(b) Juniors	
	(a) Women	
295. Number of members enrolled in home health and sanitation	(b) Girls	295
	(c) Boys	
	(a) Women	
296. Number of members completing	(b) Girls	296
	(c) Boys	
297. Number of method demonstrations given		297
	(a) Women	
298. Number of result demonstrations started or under way	(b) Girls	298
	(c) Boys	
	(a) Women	
299. Number of result demonstrations completed or carried through the year	(b) Girls	299
	(c) Boys	

HEALTH.²

300. Number of homes adopting recommended health practices this year		300
301. Number of individuals adopting recommended practices in—		301
(a) Use of health score card	(f) Care of skin and hair	
(b) Good posture	(g) Home nursing	
(c) Prevention of colds	(h) First aid	
(d) Good elimination	(i) _____	
(e) Care of teeth	(j) _____	

302. Is your health program coordinated with the work of State and county health authorities?	(a) Yes	302
	(b) No	

SANITATION.

303. Number of homes installing sanitary closets or outhouses this year according to plans furnished		303
304. Number of homes screened for the first time		304
305. Number of homes following other methods of controlling flies, mosquitoes, and other insects for the first time		305
306. Total number of different homes adopting improved practices relative to the sanitation work reported on this page		306

[Use space below to include other important data relating to home health and sanitation.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

² It is assumed that this work is conducted in cooperation with State and county health authorities.

RURAL ENGINEERING—HOME.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 16.

307. Number of method demonstrations given.....	307
308. Number of result demonstrations started or under way.....	308
309. Number of result demonstrations completed or carried through the year.....	309
310. Number of dwellings constructed this year according to plans furnished.....	310
311. Number of dwellings remodeled this year according to plans furnished.....	311
312. Number of sewage-disposal systems installed this year according to plans furnished.....	312
313. Number of water systems installed this year according to plans furnished.....	313
314. Number of heating systems installed this year according to plans furnished.....	314
315. Number of lighting systems installed this year according to plans furnished.....	315
316. Number of poultry houses constructed this year according to plans furnished.....	316

342. Total number of different homes adopting improved practices relative to the home-garden work reported on this page		_____	} 342

[Use space below to include other important data relating to home gardens.]

* States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME POULTRY.

Report only this year's extension activities and results that are supported by records.
Do not list information which has been previously reported on pages 14 and 15.

343. Number of project clubs or groups	(a) Women	343
	(b) Juniors	
344. Number of members enrolled in home poultry	(a) Women	344
	(b) Girls	
	(c) Boys	
345. Number of members completing	(a) Women	345
	(b) Girls	
	(c) Boys	
346. Number of method demonstrations given		346
347. Number of result demonstrations started or under way	(a) Women	347
	(b) Girls	
	(c) Boys	
348. Number of result demonstrations completed or carried through the year	(a) Women	348
	(b) Girls	
	(c) Boys	
349. Number of birds in result demonstrations raised or managed by	(a) Women	349
	(b) Girls	
	(c) Boys	
350. Total profit on result demonstrations conducted by	(a) Women	350
	(b) Girls	
	(c) Boys	
351. Number of individuals culling flocks for the first time	(a) Women	351
	(b) Girls	
	(c) Boys	
352. Number of homes culling flocks for the first time		352
353. Number of birds in these flocks		353
354. Number of birds discarded		354
355. Number of homes feeding better-balanced poultry rations for the first time		355
356. Number of individuals assisted in obtaining standard-bred eggs for hatching this year	(a) Women	356
	(b) Girls	
	(c) Boys	
357. Number of homes assisted in obtaining standard-bred cockerels this year		357
358. Number of individuals adopting improved practices in early hatching and chick rearing this year	(a) Women	358
	(b) Girls	
	(c) Boys	
359. Number of homes directly assisted in increasing the family income this year through poultry		359
360. Number of homes controlling poultry insects for the first time		360
361. Total number of different homes adopting improved practices relative to the home-poultry work reported on this page		361

[Use space below to include other important data relating to home poultry.]

HOME DAIRY.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on pages 14 and 15.

362. Number of project clubs or groups ¹	(a) Women	362
	(b) Juniors	
363. Number of members enrolled in home-dairy work	(a) Women	363
	(b) Girls	
	(c) Boys	
364. Number of members completing	(a) Women	364
	(b) Girls	
	(c) Boys	
365. Number of method demonstrations given		365
366. Number of result demonstrations started or under way	(a) Women	366
	(b) Girls	
	(c) Boys	
367. Number of result demonstrations completed or carried through the year	(a) Women	367
	(b) Girls	
	(c) Boys	
368. Number of cows or calves in result demonstrations raised or managed by	(a) Women	368
	(b) Girls	
	(c) Boys	
369. Number of homes feeding better dairy rations for the first time		369
370. Number of homes adopting better practices in the sanitary production and care of milk this year		370
371. Number of homes adopting better practices in butter or cheese making this year		371
372. Number of pounds of butter made		372
373. Number of pounds of cheese made		373
374. Total number of different homes adopting improved practices relative to the home-dairy work reported on this page		374

[Use space below to list other important data relative to home dairying.]

HOME MARKETING.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on pages 17 and 18.

375. Number of method demonstrations given _____ 375

376. List below the cooperative-marketing associations organized during this year upon suggestion and counsel of the Extension Service. _____ 376

(a) Name of association or group.	(b) Number of members.	Products sold.		Supplies purchased.	
		(c) Value.	(d) Profit.	(e) Value.	(f) Savings.
Curb or bazaar markets.		\$	\$	\$	\$
Egg circles.					
TOTAL.					

377. List below this year's results in connection with the cooperative-marketing associations in the county previously organized and with which the Extension Service counseled or advised. _____ 377

(a) Name of association or group.	(b) Number of members.	Products sold.		Supplies purchased.	
		(c) Value.	(d) Profit.	(e) Value.	(f) Savings.
Curb or bazaar markets.		\$	\$	\$	\$
Egg circles.					
TOTAL.					

378. Number of homes standardizing and grading products for markets: _____ 378

(a) Poultry and poultry products. _____ (d) Fruits and vegetables. _____

(b) Canned goods. _____ (e) _____

(c) Dairy products. _____ (f) _____

379. Total number of different homes adopting improved marketing practices (include entries for questions 376 (b) and 377 (b) less duplications plus other homes not in cooperative associations) _____ 379

[Use space below to list the principal products handled in cooperative marketing associations reported above.]

COMMUNITY ACTIVITIES AND MISCELLANEOUS—HOME.

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 18.

Use this page to include work on any other home-economics project not included in the preceding pages, such as recreation, basket making, and similar work, i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.
