COUNTY AGENT WORK

NARRATIVE SUMMARY OF WORK DONE IN HALIFAX

COUNTY FROM DECEMBER I, 1925 TO DECEMBER I, 1926.

CARL BRIDGES, COUNTY AGENT

*South Boston, Pa*

**TABLE OF CONTENTS**

**I- Agricultural Advisory Board Organised.**

**II- Boys and Girls 4-H Clubs Organised.**

**III- Cereals.**

**IV- Legumes and Forage Crops.**

**V- Cotton.**

**VI- Horticulture.**

**VII- Livestock.**

**VIII- Marketing.**

## I-Agricultural Advisory Board Organized

For the month of December 1924 I was assistant county agent in Halifax County, but began to get the Extension work in shape to organize an Agricultural Advisory Board. I first began by going to the County Supervisors and asking them to suggest a few men in their districts that would make good members of such a board. Most of the Supervisors did this. I then went of each of the suggested men and told them of my plan of organizing such a board and ask them what they thought of it. This was done without asking anyone to serve. I then made up my mind as to who I thought would make the best members. When these men were asked to serve very few that I asked to serve refused.

The Board is composed of two or three leading farmers from each magisterial district, the president of the county unit of the Tri-State Tobacco Association, The superintendent of schools in this county, the Smith-Hughes Agricultural teacher at Turbeville School, the Director of the above mentioned tobacco association and a few leading business men.

On March 11, 1925 I called these people together along with the District Agricultural Agent and the Assistant State Club Agent and we organized the Board. Mr. J. S. Hasting of Scottsburg, Va. was elected president and Carl Bridges, County Agent was elected secretary.

On March 21, 1925 the president called the Board of Agriculture together for the purpose of working out a program of agriculture for the county. The District Agricultural Agent and the Assistant State Club Agent were again asked to serve on this work. On that day we were successful in working out a right good program of agriculture for the county.

## II-Club Work

Prior to the year 1925 there had been some club work done among the boys of the county, but there had never been any organized clubs. I set out to organize some 4H clubs. I first went to some twenty five school houses and talked club work to them. At each school I left card for them to fill out and return to me if they wanted to join such a club. As the work was entirely new to the teacher and students I did not get very many card back so I made the second visit and was successful in organizing fourteen clubs which is as many as I can well handle with the inexperienced club leaders. My next job was to get club leaders for these clubs. There was not an experienced leader to be found so the Home Agent and went to work to make some leaders out of the material that we had to work with. I am proud to say that some of them have made excellent leaders. Some of course as is always the case not worth very much.

The membership in the clubs was about 259. This included the members who were carrying my projects and the Home Agents too for they were all organized together. The larger part of these club members are making good members and doing good work.

During the latter part of June the Home

During the latter part of June the Home Demonstration Agent and I decided to give the club members and parents of the county a picnic. We planned this and sent out notices to all of them asking that they and their parents be present on the 26 of June for a day of pleasure and a club program. When the day came there was about three hundred club members and their parents present. The State boy's club agent, the State girl's club agent, and the District Agricultural were also present. In the forenoon we had a program consisting of songs, yells, talks and demonstrations. At noon we all spread our dinner together and picniced together. Immediately after noon we went swimming. After we swam awhile we all came back to the grounds for an afternoon of play. All present both old and young seemed to enjoy it immensely.

During the summer money was raised to send some club members to Blacksburg to the State Club Short Course. Others paid their own way and there was eighteen boys and girls who attended the course in all. One leader attended it and was delighted with the work the boys and girls were doing. She has come back home and resolved to make her club one of the best in the county and I believe is going to do it.

### III-Cereals

My work with our cereals has been largely with the boys and younger people. I had a great many demonstrations however with adults but the weather was so extremely dry that there was not many who met with the results that I had hoped that they would. The average for the boys corn club work was around thirty bushels per acre. This is above the average but with favorable seasons we would have been able to double this yield easily as the estimated yield of corn in this county this year was about 35%. The men who started the demonstrations were very enthusiastic, and carried them out in most cases but the yields were not very satisfactory.

One man who had a boy in the corn club told me that he did not think that seventy bushels of corn could be grown on his farm on one acre when his boy entered the club, but since his boy had raised fifty five bushels this year that he did not doubt if one hundred bushels could be produced on one acre.

### IV- Legumes and Forage Crops

I set out to do some real work on soy beans in the spring and believe that I have had fair results. I secured about 60 demonstrations. Most of these people used improved seed, prepared their land well and inoculated their seed. I had them to inoculate their seed because very few had grown beans before. Practically every man who followed my instructions was successful. There will be probably 1000 farmers who will plant beans for the first time next year from seeing these demonstrations.

Mr. J. S. Hastings of Scottsburg, Va. who is one of our best farmers and who has grown beans for several years planted about sixteen acres of Laredo soy beans. From ten acres of these beans he harvested around 150 bushels. A harvester was used and the vines went back to the land for the purpose of improving it. On six acres of them that he harvested he told me that he was satisfied that he got fifteen tons of hay.

Mr. O. B. Sneed of South Boston, Va. planted three acres of Laredo soy beans and harvested 33 bushels for seed and he thinks that his hay is worth \$60 for feed after it was thrashed. He is very enthusiastic over beans and intends to plant more next year.

Coming to the very dry season I did not get as much alfalfa sowed as I hoped to. I was successful in getting five or six demonstrations in and am glad to say that it is doing well.

I decided this fall that it would be a good thing if the farmers of this county would begin sowing vetch with oats or oats and wheat to cut in the spring for hay. The hay crop here is very short so I set out to get this new crop introduced, there had been only a few acres sowed here. I went right after this and was successful in getting about 3000 to four hundred acres sowed. It is up ninety in most every case and the farmers think that they are going to be tickled to death with it.

#### V-Cotton

This county has just begun to raise cotton and I am thoroughly convinced that it will be a very good supplementary crop. I have done my best to help those who have begun to raise this crop. There are about twenty seven men who have conducted demonstrations for me this year with this crop. Practically every man who followed my instructions has me t with good success with this crop this year. Last year there was not so much success with this crop. The people had begun to raise this crop, but had gotten the very latest variety of cotton that they could get. Naturally it was too late for this climate. I have been successful in getting a great many people to secure Eriose cotton seed this year. I believe that it is the very best variety of cotton that we can raise in this section of the country. Many of the farmers are going to pick around a bale to the acre from their crops this year. This is every good yield for this section. In fact the average per acre here is going to be long ways above that of the cotton countries proper.

Mr. Henry Goode of South Boston, Va. told me that he was going to sell around \$225 dollars worth of cotton off of two acres. He is a man who has followed my instructions to the dot. On these two acres of cotton he planted for an experiment he tells me that he has not had an expense of more than \$100.00. He thinks very well of it and is going to increase his acreage next year.

Mr. E. H. Talloh of Alton, Va. planted five acres and followed my instruction from the time he began to prepare the land to the time he sent it to the gin and he told me recently that he was going to get around five bales from the five acres. He is delighted with the results and thinks that it is going to be worth a great deal to this county as a supplementary crop.

The thing that I have been trying to drive home all the time and am still doing the same thing is that an early variety of seed must be planted, they must be planted early, and that the cultivation must be fast in order to get the weed developed so its fruit will mature and open before frost.

The Trice cotton has proven to be far superior to the other varieties and is growing in popularity in leaps and bounds. The demand for seed of this variety is great but I believe that we are going to have enough to supply the demand in this county. I am very proud of the fact that we have them too.

#### VI- Horticulture

This is not a horticulture county, but I have tried to get as many farmers as possible to keep good home orchard. Many are taking interest in it any are beginning to follow improved methods. During the year I have given about fifteen demonstrations in pruning trees and treating them for borers. I have also given several demonstrations in pruning grapes. In several instances I have suggested to people that their vineyard could be greatly improved by pruning and showed them how to do it and their vineyard has been completely made into a new vineyard.

I remember recently being at Mr. E. B. Smith's and Mrs. Smith said to me, "Look what a nice vineyard I have since you showed my people how to prune it and it was most dead before they did this last spring."

#### VII- Livestock

Through two demonstrations in one community I was probably worth several thousand dollars to one community. These demonstrations were in vaccinating for black leg. An epidemic of this disease broke out and I went up there and taught Mr. Baxter Wilson to vaccinate and he vaccinated his herd and then vaccinated a great many more cattle for people who had only had a few cows and did not feel like paying a veterinarian to go up there and do the work. He in turn taught other people how to vaccinate and a great many people in that community are now able to do this work themselves.

I have done some culling of poultry. Probably culled ten or twelve flocks. Most of the people at these culling demonstrations have promised to go home and cull their flocks. In addition to this I have a great many people to feed their poultry a balanced ration. The ones who are doing this are getting good results.

I had thirty nine fattening pig club members. Most of them did well and made a profit on their pigs. One boy started his demonstration April 1 with a Barco Jersey pig that weighed twenty five pounds. When it was weighed out at the fair it weighed 456 pounds and was sold at a thirteen cents per pound. It brought they boy \$59.76. He made a profit of \$31. 28. Another boy had an eight months old pig of the same breed that weighed 400 pounds and brought \$52.09. Some others had just as good records with other breeds.

#### VIII- Marketing

I have done some work on marketing. Particularly with the tobacco association. I have not tried to make the farmers believe that the Tri-State Tobacco association is a panacea for all ills but have tried to show them where there could be a saving in marketing and that the price can be increased to some extent by feeding the tobacco to the market as it is demanded.

and State Agricultural Colleges  
Cooperating

Extension Service,  
Office of Cooperative Extension Work,  
Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Halifax  
Report of Carl Bridges County Farm Dem Agent.  
From Dec. 1, 1924 to Nov. 27, 1925.  
(Name) (Title)

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

## SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

### NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

#### SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
  - (1) Form of organization—changes and development.
  - (2) Function of local people, committees, or project leaders in developing the program of work.
  - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
  - (1) Factors considered and methods used in determining program of work.
  - (2) Project activities and results.
 

<ol style="list-style-type: none"> <li>(a) Soils</li> <li>(b) Farm crops</li> <li>(c) Home gardens</li> <li>(d) Forestry</li> <li>(e) Rodents, precatory animals, and birds.</li> <li>(f) Animal husbandry</li> <li>(g) Dairy husbandry</li> <li>(h) Home dairy</li> <li>(i) Poultry husbandry</li> <li>(j) Home poultry</li> </ol>	} (including diseases and insects).
---	-------------------------------------

3

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

IV. Program of work, etc.—Continued.

(2) Project activities and results—Continued.

- (i) Rural engineering.
- (j) Rural engineering—home.
- (k) Agricultural economics, including farm management and marketing.
- (l) Home marketing.
- (m) Foods.
- (n) Nutrition.
- (o) Clothing.
- (p) Home management.
- (q) House furnishings.
- (r) Home health and sanitation.
- (s) Community activities.
- (t) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS work includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COUNTY, for the purpose of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the total program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations contemplated in this report are of two kinds, method demonstrations and result demonstrations.
7. A METHOD DEMONSTRATION is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
8. A RESULT DEMONSTRATION is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-culture, and orchard-management demonstrations.
9. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
10. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
11. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
12. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
13. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
14. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
15. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
16. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
17. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
18. LETTERS WRITTEN should include all single letters on official business.

4

**DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.**

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. An **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. An **EXTENSION SUMMER COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

**GENERAL ACTIVITIES.**

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report 1

<i>Carl Bridges</i> <small>(Name)</small>	<i>Farm Rem. agt</i> <small>(Title)</small>	<i>11 26 - 17</i> <small>(Months of service this year)</small>
--	--	---

2. Number of communities in county where extension work should be conducted 40 2

3. Number of above communities in which the extension program has been cooperatively worked out by extension agents and people concerned 18 3

4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with— 4

(a) Juniors	20
(b) Adults	25

5. Number of clubs carrying on extension work: 5

(a) Junior	14
(b) Adult	1

6. Membership in above clubs:

(a) Boys	107	(c) Men	26
(b) Girls	4	(d) Women	25

7. Number of club members completing: 7

(a) Boys	92	(c) Men	
(b) Girls	4	(d) Women	

8. Number of members in junior club work for four or more years: 8

(a) Boys	
(b) Girls	

## GENERAL ACTIVITIES—Continued.

9. Number of junior judging or demonstration teams trained		✓	9	
10. Number entering college this year who have been club members		✓	10	
11. Total number of farm visits <sup>1</sup> made in conducting extension work		861	11	
12. Number of different farms visited		480	12	
13. Total number of home <sup>1</sup> visits made in conducting extension work		3	13	
14. Number of different homes visited		3	14	
15. Number of calls <sup>2</sup> relating to extension work	(a) Office	70	15	
	(b) Telephone	14		
16. Number of days agent spent in office		47	16	
17. Number of days agent spent in field		286	17	
18. Number of individual letters written			18	
19. Number of fairs at which extension exhibits were made	(a) Community		19	
	(b) County	1		
20. Training meetings <sup>3</sup> held for local leaders	(a) Number		20	
	(b) Leaders in attendance			
21. Method and result demonstration meetings <sup>3</sup> held (do not include meetings reported in number 20)	(a) Number	11	21	
	(b) Attendance	74		
22. Farmers' institutes <sup>3</sup> held	(a) Number	1	22	
	(b) Attendance	10		
23. Extension schools <sup>3</sup> and short courses held	(a) Number		23	
	(b) Attendance			
24. Junior club encampments held:	(a) Number	1	24	
	(b) Attendance by club members	(1) Boys		14
		(2) Girls		
(c) Total attendance		14		
25. Other extension meetings attended and not previously reported	(a) Number	56	25	
	(b) Attendance			
26. Number of meetings at which were shown	(a) Lantern slides		26	
	(b) Motion pictures			
	(c) Charts			

[Use space below to include other important data.]

Held a County Club Rally Day that was very successful.

<sup>1</sup> Do not count the same visit as both a farm visit and a home visit.  
<sup>2</sup> See definition on page 3.

## FARM-DEMONSTRATION WORK.

SOILS.<sup>1</sup>

Report only this year's extension activities and results that are supported by records.

45. Number of method demonstrations given. (See definition 6, page 3.)	12	45
46. Number of result demonstrations started or under way. (See definition 6, page 3.)	72	46
47. Number of result demonstrations completed or carried through the year.	201	47
48. Number of acres involved in these completed demonstrations.	200	48
49. Number of farms adopting improved practices in the use of commercial fertilizer this year.		49
50. Tons involved in preceding question.		50
51. Number of farms taking better care of farm manures this year.	19	51
52. Number of farms using lime or limestone for the first time.	120	52
53. Tons of lime or limestone so used.	60	53
54. Number of farms plowing under cover or other green manure crops for the first time.	1500	54
55. Acres of cover and green manure crops so plowed under.	247	55
56. Total number of different farms adopting improved practices, relative to the soils work reported on this page. (Include questions 47, 49, 51, 52, and 54 less duplications.)	200	56

[Use space below to include other important data relating to soils.]

<sup>1</sup> For drainage, irrigation, land clearing, and terracing see "Rural Engineering," page 12.

CEREALS<sup>1</sup>

Report only this year's extension activities and results that are supported by records.

Item	(6) Corn	(7) Wheat	(8) Oats	(9) Rye	(10) Barley	(11) Other <sup>2</sup>

115. Number of farms adopting improved practices relative to the horticultural work reported on this page.	25							115
[Use space below to include other important data relating to horticulture.]								

<sup>1</sup> States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

## FORESTRY.

Report only this year's extension activities and results that are supported by records.

116. Number of method demonstrations given.....	116
117. Number of adult result demonstrations started or under way.....	117
118. Number of adult result demonstrations completed or carried through the year.....	118
119. Number of acres included in these completed demonstrations.....	119
120. Number of junior clubs <sup>1</sup> .....	120
121. Number of members enrolled.....	121
(a) Boys.....	
(b) Girls.....	
122. Number of members completing.....	122
(a) Boys.....	
(b) Girls.....	
123. Number of acres handled by junior club members.....	123
124. Number of forest or wood-lot plantings made this year.....	124
125. Acres involved in preceding question.....	125
126. Number of farms assisted in wood-lot management this year.....	126
127. Acres involved in preceding question.....	127
128. Number of farms planting windbreaks this year.....	128
129. Number of farms attempting to control white-pine blister rust for first time.....	129
130. Number of acres involved in preceding question.....	130
131. Total number of farms adopting improved practices relative to the forestry work reported on this page.....	131

[Use space below to include other important data relating to forestry.]

RODENTS AND MISCELLANEOUS<sup>2</sup> INSECT AND ANIMAL PESTS.

Report only this year's extension activities and results that are supported by records.

Item.	(a) Rabbits.	(b) Other animal pests. <sup>3</sup>	(c) Crup- Suggers.	(d) Other insects. <sup>4</sup>	
132. Number of method demonstrations given.....					132
133. Number of result demonstrations started or under way.....					133
134. Number of such demonstrations completed or carried through the year.....					134
135. Number of acres in these completed demonstrations.....					135
136. Total number of farms cooperating in control measures this year.....					136
137. Number of acres involved in preceding question.....					137

<sup>1</sup> States which do not organize clubs as a project should not report for this question but should report on enrollment and completion.<sup>2</sup> Do not include work reported under "Crup" and "Livestock" headings.<sup>3</sup> Includes by name.

## LIVESTOCK.

Report only this year's extension activities and results that are supported by records.

Item.	90	91	92	93	94	95
	Dairy cattle	Beef cattle	Swine	Sheep	Poultry	Other

## RURAL ENGINEERING.

Report only this year's extension activities and results that are supported by records.

167. Number of method demonstrations given	.....	2	167
168. Number of result demonstrations started or under way	.....	2	168
169. Number of result demonstrations completed or carried through the year	.....	2	169
170. Number of farms installing drainage systems this year	.....		170
171. Acres drained	.....		171
172. Number of farms installing irrigation systems this year	.....		172
173. Acres irrigated	.....		173
174. Number of farms constructing terraces or soil dams this year	.....	2	174
175. Acres on which soil erosion was so prevented	.....		175
176. Number of dwellings constructed this year according to plans furnished	.....		176
177. Number of dwellings remodeled this year according to plans furnished	.....		177
178. Number of sewage-disposal systems installed this year according to plans furnished	.....		178
179. Number of water systems installed this year according to plans furnished	.....		179
180. Number of heating systems installed this year according to plans furnished	.....		180
181. Number of lighting systems installed this year according to plans furnished	.....		181
182. Number of farms on which buildings other than dwellings were constructed or remodeled this year according to plans furnished	.....	20	182
	(a) Barns	.....	
	(b) Hog houses	.....	
183. Number of buildings involved in preceding question	(c) Poultry houses	20	183
	(d) Silos	.....	
	(e) Other	.....	
184. Number of farms clearing land of stumps or boulders this year	.....		184
185. Acres of land so cleared	.....		185
186. Total number of different farms adopting improved practices relative to the rural-engineering work reported on this page	.....	24	186

[Use space below to include other important data relating to rural engineering.]

## AGRICULTURAL ECONOMICS—Continued.

Report only this year's extension activities and results that are supported by records.

205. List below this year's results in connection with the cooperative-marketing associations in the county previously organized and with which the extension service counseled or advised. 205

(a) Name of association or group.	(b) Number of members.	Supplies and products handled.	Supplies purchased.		Products sold.	
			(c) Value.	(d) Barrel.	(e) Value.	(f) Tons.
<i>N. S. State Tobacco</i>	<i>6,000</i>	<i>2,000,000</i>			<i>1,000,000/12,000</i>	
<i>I believe that the farmers have received \$10,000 more by the association being organized.</i>						
TOTAL						

206. Total number of different farms adopting improved marketing practices (include entries for questions 204 (b) and 205 (b) less duplications plus other farms not in cooperative associations) 206

## COMMUNITY ACTIVITIES AND MISCELLANEOUS.

Report only this year's extension activities and results that are supported by records.

Use this space to include work on any other agricultural project not included in the preceding pages, such as bee-keeping, and similar work, i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.

Item.	(a)	(b)	(c)
	Bushings.		
206. Number of method demonstrations given		<i>1</i>	206
207. Number of adult result demonstrations started or under way			207
208. Number of result demonstrations completed or carried through the year			208
209. Number of units in these completed demonstrations			209
210. Number of junior clubs <sup>1</sup>			210
211. Number of members enrolled	(a) Boys (b) Girls	<i>15</i>	211
212. Number of members completing	(a) Boys (b) Girls	<i>12</i>	212
213. Number of units involved in junior club work completed			213
214. Total number of different farms adopting improved practices relative to the miscellaneous work reported on this page			214
[Use space below to include other important data relating to miscellaneous work.]			

<sup>1</sup> Indicate name over column.<sup>2</sup> Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

## HOME-DEMONSTRATION WORK.

## FOODS.

Report only this year's extension activities and results that are supported by records.

## FOOD PREPARATION.

- |   |                  |     |
|---|------------------|-----|
| 215. Number of project clubs or groups <sup>1</sup> .....   | (a) Women.....   | 215 |

	(c) Boys.....	
245. Number of individuals balancing family meals according to approved methods for the first time.....	(a) Women.....	245
	(b) Girls.....	
	(c) Boys.....	
246. Number of individuals preparing better school lunches for the first time.....	(a) Women.....	246
	(b) Girls.....	
	(c) Boys.....	
247. Number of schools induced to serve a hot dish or school lunch for the first time.....		247
248. Number of children involved in preceding question.....		248
249. Number of homes carrying out improved practices in child feeding for the first time.....		249
250. Number of children involved in preceding question.....		250
251. Total number of different homes adopting improved practices relative to the nutrition work reported on this page.....		251

[Use space below to include other important data relating to nutrition.]

<sup>1</sup> States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

## CLOTHING.

Report only this year's extension activities and results that are supported by records.

252. Number of project clubs or groups <sup>1</sup>	(a) Women	252
	(b) Juniors	
253. Number of members enrolled in clothing work	(a) Women	253
	(b) Girls	
	(c) Boys	
254. Number of members completing	(a) Women	254
	(b) Girls	
	(c) Boys	
255. Number of method demonstrations given		255
256. Number of result demonstrations started or under way	(a) Women	256
	(b) Girls	
	(c) Boys	
257. Number of result demonstrations completed or carried through the year	(a) Women	257
	(b) Girls	
	(c) Boys	
258. Number of individuals adopting improved practices in selection and construction	(a) Women	258
	(b) Girls	
	(c) Boys	
259. Number of individuals adopting improved practices in renovation and remodeling	(a) Women	259
	(b) Girls	
	(c) Boys	
260. Number of individuals adopting improved practices in millinery	(a) Women	260
	(b) Girls	
261. Number of individuals adopting improved practices in costume designing	(a) Women	261
	(b) Girls	
262. Number of individuals adopting improved practices in infant wardrobe planning	(a) Women	262
	(b) Girls	
263. Number of individuals adopting improved practices in children's wardrobe planning	(a) Women	263
	(b) Girls	
264. Number of individuals adopting improved practices in adult wardrobe planning	(a) Women	264
	(b) Girls	
265. Total number of different homes adopting improved practices relative to the clothing work reported on this page		265
266. Number of dress forms made this year by	(a) Women	266
	(b) Girls	
267. Number of dresses and coats made this year by	(a) Women	267
	(b) Girls	
268. Number of undergarments made this year by	(a) Women	268
	(b) Girls	
269. Number of hats made this year by	(a) Women	269
	(b) Girls	

[Use space below to include other important data relating to clothing.]

<sup>1</sup> States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

## HOME MANAGEMENT.

Report only this year's extension activities and results that are supported by records.

270. Number of project clubs or groups <sup>1</sup> .....	(a) Women.....	} 270
	(b) Juniors.....	
271. Number of members enrolled in home management.....	(a) Women.....	} 271
	(b) Girls.....	
	(c) Boys.....

	(b) Girls.....	
280. Number of individuals making budgets and keeping accounts for the first time.....	(a) Women.....	} 280
	(b) Girls.....	
281. Total number of different homes adopting improved practices relative to the home-management work reported on this page.....		281
282. List below the number of labor-saving appliances involved in question 277:		282
(a) Hand washing machines.....	(f) Kitchen cabinets.....	
(b) Power washing machines.....	(g) Electric or gasoline irons.....	
(c) Fireless cookers.....	(h).....	
(d) Kitchen sinks.....	(i).....	
(e) Power vacuum cleaners.....	(j).....	

[Use space below to include other important data relating to home management.]

<sup>1</sup> States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

## HOUSE FURNISHINGS.

Report only this year's extension activities and results that are supported by records.

283. Number of project clubs or groups <sup>1</sup> .....	(a) Women .....	} 283
	(b) Juniors .....	
284. Number of members enrolled in house furnishings .....	(a) Women .....	} 284
	(b) Girls .....	
	(c) Boys .....	
285. Number of members completing .....	(a) Women .....	} 285
	(b) Girls .....	
	(c) Boys .....	
286. Number of method demonstrations given .....		286.
287. Number of result demonstrations started or under way .....	(a) Women .....	} 287
	(b) Girls .....	
	(c) Boys .....	
288. Number of result demonstrations completed or carried through the year .....	(a) Women .....	} 288
	(b) Girls .....	
	(c) Boys .....	
289. Number of individuals adopting improved practices in selection and arrangement of furnishings this year .....	(a) Women .....	} 289
	(b) Girls .....	
	(c) Boys .....	
290. Number of individuals adopting improved practices in the repairing and remodeling of furnishings this year .....	(a) Women .....	} 290
	(b) Girls .....	
	(c) Boys .....	
291. Number of individuals adopting improved practices in wall, woodwork, and floor treatment this year .....	(a) Women .....	} 291
	(b) Girls .....	
	(c) Boys .....	
292. Number of rooms involved in questions 289, 290, and 291 .....	(a) Bedrooms .....	} 292
	(b) Living rooms .....	
	(c) Dining rooms .....	
	(d) Other rooms .....	
293. Total number of different homes adopting improved practices relative to the house-furnishing work reported on this page .....		293

[Use space below to include other important data relating to house furnishings.]

<sup>1</sup> Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on work done and completed.

## HOME HEALTH—SANITATION.

Report only this year's extension activities and results that are supported by records.

294. Number of project clubs or groups <sup>1</sup> .....	(a) Women.....	294
	(b) Juniors.....	
295. Number of members enrolled in home health and sanitation.....	(a) Women.....	295
	(b) Girls.....	
	(c) Boys.....	
296. Number of members completing.....	(a) Women.....	296
	(b) Girls.....	
	(c) Boys.....	
297. Number of method demonstrations given.....		297
298. Number of result demonstrations started or under way.....	(a) Women.....	298
	(b) Girls.....	
	(c) Boys.....	
299. Number of result demonstrations completed or carried through the year.....	(a) Women.....	299
	(b) Girls.....	
	(c) Boys.....	

HEALTH.<sup>2</sup>

300. Number of homes adopting recommended health practices this year.....		300
301. Number of individuals adopting recommended practices in—		301
(a) Use of health score card.....	(f) Care of skin and hair.....	
(b) Good posture.....	(g) Home nursing.....	
(c) Prevention of colds.....	(h) First aid.....	
(d) Good elimination.....	(i).....	
(e) Care of teeth.....	(j).....	

302. Is your health program coordinated with the work of State and county health authorities?.....	(a) Yes.....	302
	(b) No.....	

## SANITATION.

303. Number of homes installing sanitary closets or outhouses this year according to plans furnished.....		303
304. Number of homes screened for the first time.....		304
305. Number of homes following other methods of controlling flies, mosquitoes, and other insects for the first time.....		305
306. Total number of different homes adopting improved practices relative to the sanitation work reported on this page.....		306

[Use space below to include other important data relating to home health and sanitation.]

<sup>1</sup> States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

<sup>2</sup> It is assumed that this work is conducted in cooperation with State and county health authorities.

## RURAL ENGINEERING—HOME

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 15.

307. Number of method demonstrations given.....	307
308. Number of result demonstrations started or under way.....	308
309. Number of result demonstrations completed or carried through the year.....	309
310. Number of dwellings constructed this year according to plans furnished.....	310
311. Number of dwellings remodeled this year according to plans furnished.....	311
312. Number of sewage-disposal systems installed this year according to plans furnished.....	312
313. Number of water systems installed this year according to plans furnished.....	313
314. Number of heating systems installed this year according to plans furnished.....	314
315. Number of lighting systems installed this year according to plans furnished.....	315
316. Number of poultry houses constructed this year according to plans furnished.....	316
317. Total number of different homes adopting improved practices relative to the rural-engineering work reported on this page.....	317

[Use space below to include other important data relating to rural engineering.]
