

ANNUAL NARRATIVE REPORT
of
FAREWELL COUNTY
Nell Bramham
Home Demonstration Agent

County Extension Organization

A county council for home demonstration work was formed the first of May. This council, composed of men and women, is supporting the work and advising the agent. The council raised money for the club fair held in Fawcett at the court house September 22nd. Especially has the council been of great value in helping put across the poultry program for the year.

Tabulation of Clubs representing all projects being conducted

There are now nine 4-H clubs in the county with a subdivision of 6 poultry clubs, 6 sewing clubs, 1 cooking club, 1 garden club, 2 canning clubs, and 3 bread clubs. Several children who are not in organized clubs are doing regular club work. These clubs were organized in the fall and have a membership of 123.

Sewing Club Work

The 6 sewing clubs have a membership of 41, and 366 garments and articles have been made. Three of these clubs had good exhibits at community fairs and 5 of them exhibited at the club fair in September. Several sewing club articles and garments were exhibited at community fairs held late in the fall, and put on by different sections of the county cooperating.

Cooking Club Work

All work was completed with one cooking club. Equipment for this was purchased by the county school board in conjunction with the county board of supervisors. This equipment may be moved to any school in the county at the discretion of the home demonstration agent. These girls learned the preparation of foods suitable for breakfasts, good service, and relative food problems. On May 30th the club served a breakfast to the patrons. One member of the club won first prize on a story at the State fair. Several members did splendid bread work through the summer months, and one of these won a free trip to Hancoke to the district bread judging contest, as a member of the Fawcett County team.

Garden Club Work

There are 10 members doing garden club work. Their gardens range from 1/2 to 1/20 acre, and have been well cultivated from 5 to 6 times. The greatest improvement in any phase of the work was undoubtedly along the garden club-line. At the club fair garden products made an especially good showing. At the State fair a number of prizes were won of which the following may be mentioned: basket, third and fourth, onions first, Irish potatoes second, onions third, stringed beans third. The club members have realized a noteworthy financial return from their gardens. One girl had

sold, early in the fall, vegetables from her plot amounting to \$91. Another had sold \$84. worth. Since reports were turned in both girls have sold several bushels of potatoes, and yet have more to sell. In addition their gardens primarily supplied the family table with vegetables during the summer and early fall.

Poultry Work

Junior. The 6 poultry clubs in the county have a membership of 51. These boys and girls are doing first and second year work. Two hundred dozen purebred eggs were purchased for hatching purposes. Some of the members bought day old chicks. The clubs have 10 new poultry houses, 3 remodeled, and 35 brood coops, to their credit, in addition to the exhibition coops of which club members made 15. Exhibits made at the club fair attracted considerable attention in the county. Birds winning first places were sent to the State and Petersburg fairs. Several prizes were won, but no first place. One boy, a second year club member, has realized a profit of \$260.76; another a profit of \$146.07, this fall from club poultry.

Adult. Fiftyone women are enrolled in poultry work. All of these have been taught culling, and the majority of them have been valuable leaders and spreaders of this phase of the poultry work in their various communities. About 75% feed standard rations; 5 belong to the State egg laying contest, 15 new houses have been built, 3 remodeled, and plans furnished for a number to be built early in the coming spring. Through the better housing and feeding campaign, 249 people took active part in the poultry program for the year; 895 were reached personally by the agent. These spread the news to their neighbors in all parts of the county. The number of people reached in this way is by no means small. Through demonstrations, publicity articles, addresses, etc. it is estimated that within the last two months around 800 flocks have changed to a feed of corn, wheat and oats for scratch, and wheat bran and middlings with corn meal and meat scrap for dry mash. Previously, corn was the chief constituent of poultry feed in this county.

The Farmers' National Bank extended splendid cooperation by supplying all club members and others interested with one or more settings of pure bred eggs, with the understanding that in the fall they would return one of the best pullets for each setting of eggs distributed. This resulted in the distribution of about 600 settings of eggs and will mean quite an improvement in the county flocks. The bank held a poultry show at the time of the club fair and the birds brought in were sold for breeding purposes.

Bread Work

There are 27 girls enrolled in bread work. These worked on 3 months demonstration, in making quick breads such as muffins and biscuits. There were 10 bread judging demonstration teams. These competed in the county contest, and the best three individuals judges went to Roanoke to the district bread judging contest to compete with teams from other Southwest Virginia counties. They won fifth. Seven bread club girls attended the State short course where they had additional training in bread work. At least four of these have almost entirely taken over the home baking.

Canning Work

There are 2 canning clubs with 16 members. They canned 175.5 quarts fruits, 215.5 quarts vegetables, 5 quarts meat, 33 quarts jelly, 136 quarts preserves, 59.5 quarts pickles, 4 quarts fruit juice, at a cost of \$50.72, and a profit of \$129.03. As the season was not very good in this county, the girls did not do as well with their canning as they would have done otherwise. Several members exhibited at the county fair. Some of the containers were admired deservedly by those who attended the fair.

Rally Day

On Saturday, June 9th, the 4-H Clubs gathered at Baswell for their annual club rally. One hundred club members were present and about 200 adults. The program, consisting of contests and speeches, was very interesting and showed improvement in all lines of work. At the close of the program all the lunches were put together a'la picnic on the court house lawn. The W. C. T. U., the Civic League, and the Business Men's Club cooperated to make the day successful by furnishing a supplement to the lunch in the way of ice cream for refreshments. They also furnished a moving picture as part of the day's program and in addition helped out on the transportation question. In the afternoon the clubs got together and elected officers for the coming year.

Rat Killing Campaign

One of the most important phases of demonstration work completed this year was the county-wide rat killing campaign which was held in January. This campaign resulted in 5,016 rats and mice being turned in for prizes. An estimate of those killed and not turned in may be placed at 8,000. Tagewell County came out second in the State in number of rat tails actually turned in for counting. More rats than mice were killed. Authorities say that each rat does from \$1.00 to \$5.00 worth of damage in a year. The common rat multiplies from 6 to 10 times per year. The litter varies from 10 to 20, the average being 10. Counting half the rats and mice killed as rats, and taking the lowest number per litter, and the lowest time that a rat produces young in a year, and counting the damage done at \$1.00, the lowest estimate, we have a saving of \$85,000, on rats alone. This is an estimate based on one half the number killed as rats, and seems enormous but a much larger number of rats were killed than this estimate accounts for. If we allow 25 cents for each mouse killed, and estimate that only one half of those killed would have multiplied, we have a saving of \$18,750.. Thus using the lowest estimate possible, we have a total saving of \$103,750. Counting the dead rats and mice, without allowing for an increase whatsoever, at \$1.00 for rats and 25 cents for mice, both lowest estimates, we have a saving to the county of over \$2,940., which amounts to more than twice the salary paid for home demonstration work.

Poultry Culling Campaign

During the month of November with the aid of a poultry specialist from Blacksburg, demonstrations in culling were given in 7 different communities. Follow up work was carried on by the home demonstration agent in which 12 demonstrations were given in different communities, 200 homes being reached by those present and 895 individuals were likewise reached. At least 10 articles on culling were published in the local paper. This has a circulation of 1,700. Calculating on the basis that 75 per cent of the people who take the paper read it, 1,275 people have been reached by publicity on culling. This means only heads of families. Allowing for the average family a membership of 4, then 5,100 people have been reached through publicity on culling. This is a conservative estimate, as it becomes more evident every day that the farmers of this county are seeking eagerly through the publicity that reaches them to put into practice the knowledge they gain in better flock management. In demonstrations where entire flocks were handled, conditions between these were found; a flock of 34 hens from which 30 were culled; a flock of 30 hens from which 4 were culled. The former had never culled; the latter had culled thoroughly for two years and in that time had also learned the value of a balanced ration.

Delegates to State Short Course

Nine girls from the various clubs attended the State short course at Blacksburg lasting from July 30th to August 4th. These returned with accounts of happy days spent there and with inspiration fitting them to be better leaders in their respective communities.

Delegates to District Bread Judging Contest

Three girls from the bread clubs in the county attended the district bread judging contest held at Roanoke in the early part of September. There they competed with other teams from Southwest counties of Virginia. The girls pronounced this the best thing they had ever known in their lives. They never will finish telling about the good things they had to eat, the wonderful things they saw, the big hotel they stayed in, etc. - It was a real worthwhile experience for the girls to meet the leaders and the other bread club girls from the different counties there represented, and to have the chance to work with them the time they spent in Roanoke.

Club Fair

The second annual 4-H club fair was held at Tasewell court house September 22nd. Quite a large crowd attended in order that they might see what the boys and girls had been doing along agricultural and home economics lines during the past year. Exhibits were made in each project; namely sewing, canning, cooking, poultry (junior and adult) garden, and bread. A demonstration on bread judging was given by one of the bread judging teams; a demonstration on culling was given on the court house lawn by Mr. Dean, assistant poultry specialist from Blacksburg. Premium money was raised by the home demonstration council. Marked improvement was shown especially in the garden and poultry club products. The best exhibits from this fair were sent to Richmond to the State fair where several prizes were won.

Since July, work has been started in 4 new communities. So far very good results have been obtained and the cooperation has been very loyal. In one of these communities, 3 men not formerly connected with our work in any active way have been of help in spreading the poultry program in their neighborhood and have taken active part in demonstrations.

One of the clubs in the county recently gave a box supper for the purpose of buying a sewing machine for use, not only of the sewing club members, but for any one in the community desiring to do better sewing. At this box supper enough money was raised to buy the machine, to put up curtains in the school house, and to buy materials for making towels to be used by sewing club members to aid them to keep clean hands so as not to soil their sewing any more than possible. As the school house is the community house for that neighborhood, serving as a place for all gatherings, the club has now in mind a plan for raising money to furnish the school house with lights so that the people will not have to carry the same from their homes on all occasions.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results secured (including assistance rendered by subject-matter specialists). The making of such a report is of great value to the county extension agent and the county people in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support. This blank form covers simply the statistical phases of the report, and should be supplemented by a full report in narrative form.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results secured under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—distinctive features.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.
 - (a) Soils.
 - (b) Farm crops
 - (c) Horticulture (including diseases and insects).
 - (d) Forestry
 - (e) Animal husbandry
 - (f) Dairy husbandry (including diseases and pests).
 - (g) Poultry husbandry
 - (h) Rural engineering.
 - (i) Rodents, predatory animals, and birds.
 - (j) Agricultural economics—including farm management marketing, etc.
 - (k) Foods and nutrition.
 - (l) Clothing and millinery.
 - (m) Home health and sanitation.
 - (n) Household management and home furnishings.
 - (o) Community activities—other than those included under subject-matter headings.
 - (p) Miscellaneous.
- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments in paragraph form, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if it is desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations may be of methods or of results.
Under method demonstrations include lecture demonstrations, practicums, etc., such as demonstrations of canning methods, home-mixing fertilizers, poultry culling, dress-form making, and the like, all involving short periods of time.
Under result demonstrations include demonstrations in which a substantial period of time is involved, records of results kept, and comparisons made, as in a child-feeding demonstration, corn-culture demonstration, pasture-improvement demonstration, and the like.
5. A DEMONSTRATOR is an adult or junior who, under the direction of the extension service, undertakes to show in his community by example the practical application of an established fact, and who keeps records and reports on the same.
6. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
7. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions in advancing some phase of the local program of extension work.
8. A COMMUNITY CLUB is an organization of men, women, boys, and girls to further community interests and to promote community recreation.
9. AN OFFICE CALL is a visit or a telephone call by a farmer, or other person, seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
10. A DEMONSTRATION MEETING is a meeting held to give, inspect, or further a demonstration.
11. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the extension agent in office in connection with extension work.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.
17. A FARMERS' INSTITUTE is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN EXTENSION OR MOVABLE SCHOOL is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. A SMOOT COURSE differs from an extension school in that it is held at the college or other educational institution and usually for a longer period of time.
19. RECORDS consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.

GENERAL ACTIVITIES.

Report only results of extension activities that are supported by funds.

1. List below the names, titles, and periods of service of all county extension agents whose work is included in this report. 12

Mrs. C. Brownham County Home Dem. Agt. 5-1921/10
(Name) (Title) (Period of service.)

2. Total number of communities in county where extension work should be conducted (a) Men 20
(b) Women 20

3. Number of communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 14

4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program

(a) Adult work Men _____ Women _____
 (b) Junior work Boys 40 Girls 27

5. What is the name of the county organization cooperating in extension work? County Council for Home Administration work
