County Advisory Board -

The County Advisory Board is composed of the chairman and two members of rural Community Club -

The Board held four (4) meetings during the year - The first meeting was to accept and approve the County Plan of Work by the agent -

The following activities were put over by the Board -

- (1) A Farmers Conference at Owen on July 27th
- (2) Farmers Fair - August 25 -
- (3) Raised \$30.00 and sent 4 delegates to the Hampton Farmers Conference at Hampton Ind. Va June 12-14 -
- (4) A County Fair - Nov. 9th and raised \$130.00 to pay premiums for same -

County Farmers Conference

The County Farmers Conference was held at Union Baptist Church near Brewster on July 27th with an estimated attendance of 150. Pres. A. H. Hagan spoke on "Agriculture the basis of all permanent prosperity." Field Crops, by local farmers and after dinner a fine address on "Cooperative marketing of tobacco" by Hon. Jos. M. Hunt, Director Blackstone, Va.
More interest has been manifested in farming in this community, as evidenced by the number of good farm exhibits coming from this community to the County Fair on Nov. 9th. A large delegation of men and women from this community came to the County ^{Fair} which shows that the Conference influenced lots of people to become interested who had not before.

Hampton Farmers Conference

Fair delegates from the County attended the State Farmers Conference at Hampton, Va. in June. Mr. Egan, one of the delegates, said in the first meeting of his Community Club - "I have seen more than I can tell, I cannot begin to tell you all what I did see and hear at Hampton. I am not going any more, I am going to send my wife and son next year and her is \$1.00 to the next delegate that goes from our club."

Hampton Farmers Conference (Continued)

Mr. Egar went with me to Jerusalem Community Club the next night and told the same story of his trip to Hampton, and pledged \$100 to this club to send a delegate to Hampton next year.

Mr. Egar has already sent his son to the Bay Shore Course at Hampton Inst. and is now waiting for the time to come so his wife can go.

Mr. W. Oliver, another delegate said, "I was surprised to see such a fine body of farmers as I saw at Hampton - all eager for information and knowledge. I did not see but two flies while there, the place ^{was} so clean."

"It has given me a new vision and I shall go again at my own expense."

Mr. N. P. Johnson, another delegate to the Conference, sent his boy to the "Short Course" in August. Mr. Johnson has been attending the Conference regularly for quite a number of years.

4-

County Fair.

On the 23rd of August 18 Farmers went on an outing in the County visiting and visiting 8 different farms. The farmers really enjoyed this trip and was entertained with dinner by the Shamville Community Club. We first stopped at the farm of Mr. Wm Keeton, who is Chairman of the advisory Board. He first took us to his Corn, Cawbees, Soybeans tobacco and watermelon patch. Some of the farmers said "Old Bill has got us beat on crops". We became anxious to leave because we were then one hour behind time - but he said, "Wait men I have one more piece to show you". He took us to his demonstration plot 2 acres and it was the finest we saw in our town. The man said, "We will give it to you 'Bill' on Corn". We then went to "Pop" Wilson, Program and Retroom. There was a tie between them on tobacco. When we got to Moses Egar where dinner was served - he said, "I was afraid you men were not coming on account of the rain - but I knew the Co. agent would be here - because he never disappoints me". He gave agent gave a short talk and was followed by several farmers. At then drove by the farm of Field agent Mr. Reed where we counted 8 stacks of hay.

Relationship to Tobacco Growers Association.

Members of the Community Clubs who are members of the Tobacco locals usually hold meetings before or after the Community Club meeting. When meeting cannot be held jointly then we have separate meetings. The agent trying to be present at the locals to help keep up the morale of the members. There are only 6 locals in the County with a membership of 34. There are lots of men scattered all over the County, who are members of the Tobacco Growers Association, but they are not in a local on account of the distance to attend meetings. Not enough of these scattered men in any Community to form a local.

County Fair

The County Fair was held at the County Training School, Blackstone, Va. on Friday, Nov. 9th ~~and continued~~
by a very large crowd.

There were 313 entries by farmers, 207 by farm women and 20 by club boys -

One hundred and thirty dollars (\$130.00) was raised to pay premiums, besides presents were given by friends to be used in paying premiums -

This was the best fair we have ever had -

The quality and quantity and the interest manifested by every body need this our best fair - Then the whole County was represented - The farmers put up \$70. in cash which shows that they were interested.

Community Clubs

Each Community Club has a "Plan of Work". For example -
 Tom Jones will carry on demonstration in Corn and Beans
 and will white wash his poultry house -

Eddie Bridgforth will carry on demonstration on Cows
 and will paint his home - Each member promises to do
 a few definite things - The agent follows up and
 at end of year ask for results in Community meeting.

Results - Moses Eper in addition to demonstration in
 Wheat with an average yield of 18 bu. painted his
 7 room house - (Shawville Com. Club)

Eddie Bridgforth painted his home of 7 rooms and
 white washed all of his out buildings -
 Joe Hill and Brit Hill white washed all of their
 out buildings - J. C. Oliver, and Lee Eper lined
 sanitary poultry houses - etc.

Project Activities and Results

Corn

Tractor men demonstrated on 40 acres in Corn with a total yield of 1704 bush - making an average yield of 41.57 bush per acre - During late spring and early summer we encountered one of the worst droughts we have ever had in this section - but with intensive cultivation and late rains we were able to reach a fine crop of Corn, making an average of 104 bush above the average yield for the County -

Some of the best yields were Mr. Joe A. Peterson 60 bush - Wm. Keeton 60 bush - In our Farmers Tour on August 23 - we visited both of these plots of Corn and they were about as fine as any Corn in the County -

Mr. Peterson broke his land in January 8 to 10 inches - disked it well and got a no. 1 seed bed - Bought Boone County Shain from Wood of Richmond - Used 300 lbs Boone meal per acre - Rows 3 1/2 ft wide - 18 inches in the strip - Flat and shallow cultivation, after -

Wheat

There were 8 men demonstrating on 38 acres in wheat, with a total yield of 618 tons - averaging 16 tons per acre. The wheat crop was very good for this section. The best yields were Moses types and Joe & Peterson making 18 to and 20 tons per acre respectively.

On the 8th day of Nov. Roger Fitzgerald said - "I had not finished using up my 1922 crop of wheat yet - I have several bbls of flour on hand now?"

Oats

There were 2 demonstrations in oats for seed with an average yield of 16 tons.

Two demonstrations in oat hay with an average yield of 2 tons per acre - These lands were prepared with lawns - resulting waste high mowing an average yield of 2 tons per acre - Mr. Langston Wilson had on exhibit at County Fair one vine that measured 6 ft long -

Tobacco

They were found 40 demonstrations in tobacco, one in
 dark and three in light with an average yield
 of 1000 lbs for dark and 800 lbs for light -
 At planting time it was hard to get a "season" and
 during the months of May and June farmers had to
 have water and sprinkle. This tobacco has very
 day to see. This plants - 100 gpx a light "season" on
 the 17th of June and those who had plants, planted -
 those who did not have plants - ^{not} bought and bopped
 of those who were not fortunate and, this was
 "season" by watering each bed and planted it a
 great 24 fence and we overruled!
 However, the work was made, lunch, lunch and
 they are now meeting it through the association
 and open floor - with prices averaging around
 2.3¢ for dark and 1.0 to 3.0¢ through the
 association being the first advances

Cowpeas

Twelve (12) demonstrations were conducted in Cowpeas for hay with an average yield of $2\frac{1}{2}$ tons per acre.

We had the finest crop of Cowpea hay we have ever made. Nearly all lands that were in wheat and oats were seeded to Cowpeas for hay, seed and soil improvement with fine results.

You can see streaks of Cowpea hay on nearly every farm you see

Clovers

There were 8 demonstrations in Clovers making an average yield of $1\frac{1}{2}$ tons per acre.

The drought in the spring played havoc with

Clover - some fields were so parched up that

you could cut them for - Still three 8

demonstrations made a fine good crop.

Alfalfa

One demonstration in alfalfa with 3 cuttings making an average yield of one ton per cutting or 3 tons per acre during season - Two other men will have demonstrations for 1924 - Owing to the inexperience of getting lime farmers are slow in growing alfalfa as it is almost impossible to grow alfalfa successfully without liming well -

Rye

Four demonstrations were carried on with rye as a winter cover crop and soil improvement.

Rye turned down in April and land put to show.

Hay

Four men have been handling the Durac prairie and Poland China hogs on a demonstration and they are in fine shape - using rye, Crimson Clover and peas as grazing crops and finishing up with Corn. A very few "pine rooters" and "royal backs" are found in the county now. We are looking to put birds and high grade hogs even by our colored farmers and white neighbors who are Government.

Poultry

Fans Culling demonstrations were conducted on four farms, landing 5 birds on each farm - On the first 2 farms there were 4 women - and the next 2 farms there were 5 women - Also showed them how to fight lice and mites - Fans poultry houses have been repaired and 3 built -

Fans women kept an account of eggs and spring chickens sold during the year in keeping to pay the incidental expenses of the farm -

Three of them sold enough to pay for all of the sugar, coffee, soap, oil and all of the small things the house wife is compelled to have -

The fourth woman in addition to buying all of the small things needed in the home, sold enough egg and chickens to show and clothe her four children. They are landing the Grand Rocks and R. D. Reds. Fans Grand Rocks have been placed.

12

Pruning

Pruned farm trees on the farms of farmers near teaching them to take out all dead limbs - Hope that Grass each other and opening up the center to get more sunlight etc -

Farm makes blue Rays -

Fifty boys demonstrated on one acre of corn each, making an average yield of 50 bus. per acre. Alford Johnson made 50 bus. per acre. He had a China blue fellow broke well in May - sickle dragged and got a good seed bed - Planted Boone County Official - used 300 lbs acid phos. - Good plow and flat cultivation - at last cultivation, seeded to cow peas. It was a pleasure to go through his plot - Harvest 50 bus. - Corn 5 bus. peas picked and the vines and leaves go back to the land. These fifty boys were very much interested in their plots, and planning to do better next year -

Pigs

Five boys had five pigs - two boys used their hogs for service, making a pig each now they are ready to butcher and will weigh about 200 lbs each - Two boys carried on a fattening demonstration and

Farm makes club camp (Continued)

Pigs (Continued)

These pigs will weigh around 220 lbs. each -
The fifth boy used his as a sow and litter down
and on the 17th of Sept. he had 7 as fine a pigs as
you would wish to see and had 2 on exhibit at
the County Fair on Nov. 9th and got a prize on them.

State School Course at Hampton Dist.

Six (6) Club boys attended the School Course at
Hampton Dist. and have been telling other boys about
the trip and what they saw ever since - Clarence
Eyes made report to his club the first meeting they
held after school was opened - On our return
trip from Hampton we visited Newport News and
Richmond. We had 2 hours in Petersburg and
spent the time in visiting the W. Normal and Ind.
Dist. to the great delight of these boys -
They say they are going again - They went at
their own expense.

Farm Notes Club Day (Continued)State Fair, Richmond, Va

County boys sent corn to the State Fair & did water in
and received 2 premiums -

Two club boys attended State Fair with local agent.

County Fair

County boys made exhibit of corn at County Fair
Nov-9th Inver (12) boys received premiums
on corn and 5 boys received premiums on
pegs

Office of Cooperative Extension Work,
Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS
SPECIAL EDITION

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, negro agent, etc., reporting on their respective lines of work.

State Virginia County Nottoway
Report of L. E. Oliver County Local Agent
From December 1st to November 30th, 1923.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

NEGRO COUNTY AGENT WORK

Extension Director

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results secured (including assistance rendered by subject-matter specialists). The making of such a report is of great value to the county extension agent and the county people in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support. This blank form covers simply the statistical phases of the report, and should be supplemented by a full report in narrative form.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results secured under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—distinctive features.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.
 - (a) Soils.
 - (b) Farm crops
 - (c) Horticulture (including diseases and insects).
 - (d) Forestry
 - (e) Animal husbandry
 - (f) Dairy husbandry (including diseases and pests).
 - (g) Poultry husbandry
 - (h) Rural engineering.
 - (i) Rodents; predatory animals, and birds.
 - (j) Agricultural economics—including farm management, marketing, etc.
 - (k) Foods and nutrition.
 - (l) Clothing and millinery.
 - (m) Home health and sanitation.
 - (n) Household management and home furnishings.
 - (o) Community activities—other than those included under subject-matter headings.
 - (p) Miscellaneous.
- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments in paragraph form, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if it is desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations may be of methods or of results.
Under method demonstrations include lecture demonstrations, practicums, etc., such as demonstrations of canning methods, home-mixing fertilizers, poultry culling, dross-form making, and the like, all involving short periods of time.
Under result demonstrations include demonstrations in which a substantial period of time is involved, records of results kept, and comparisons made, as in a child-feeding demonstration, corn-culture demonstration, pasture-improvement demonstration, and the like.
5. A DEMONSTRATOR is an adult or junior who, under the direction of the extension service, undertakes to show in his community by example the practical application of an established fact, and who keeps records and reports on the same.
6. A COMMUNITY, for the purpose of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
7. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions in advancing some phase of the local program of extension work.
8. A COMMUNITY CLUB is an organization of men, women, boys, and girls to further community interests and to promote community recreation.
9. AN OFFICE CALL is a visit or a telephone call by a farmer, or other person, seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
10. A DEMONSTRATION MEETING is a meeting held to give, inspect, or further a demonstration.
11. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the extension agent in office in connection with extension work.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.
17. A FARMERS' INSTITUTE is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN EXTENSION OR MOVABLE SCHOOL is an itinerant school usually of two to six days' duration whose practical but systematic instruction is given to persons not resident at the college. A smart course differs from an extension school in that it is held at the college or other educational institution and usually for a longer period of time.
19. RECORDS consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.

4

GENERAL ACTIVITIES.

Report only results of extension activities that are supported by records.

1. List below the names, titles, and periods of service of all county extension agents whose work is included in this report. 1

E. E. Chinn (Name) Local agent (Title) 12 16 44 (Period served)

2. Total number of communities in county where extension work should be conducted (a) Men 15 (b) Women 2 2

3. Number of communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 7 3

4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program (a) Adult work Men 25 Women — (b) Junior work Boys 15 Girls — 4

96. Total number of farms influenced by adult or junior extension work to adopt better practices relative to the growing of these crops (include demonstrations)	—	—	—	4	—	96
97. Acres of these crops involved in question 96	—	—	—	16	—	97
98. Number of farms planting improved or certified seed	—	—	—	—	—	98
99. Number of farms growing improved or certified seed for sale	—	—	—	—	—	99
100. Number of farms treating seed for disease	—	—	—	—	—	100
101. Number of farms spraying or dusting for diseases and insects	—	—	—	—	—	101
102. Number of storage houses constructed this year	—	—	—	—	—	102
103. Total capacity of these storage houses	—	—	—	—	—	103
104. Number of crop improvement associations organized during past year at suggestion of extension service	—	—	—	—	—	104
105. Membership in above associations	—	—	—	—	—	105
[Use space below to include other important data relating to potatoes, cotton, tobacco, and other special crops.]						

^aIndicate crop by name.

†Report yield of cotton in pounds of seed cotton.

Use footnotes on page 7. 8-4275

HORTICULTURE.

Report only results of extension activities that are supported by records.

Item.	(a) Tree fruits.	(b) Bush and small fruits.	(c) Grapes.	(d) Market gardening, truck, and raising crops.	(e) Vegetable gardens.	(f) Flowers, shrubs, and lawn grounds.	
306. Number of adult result demonstrations started or under way	—	—	—	—	—	—	106
307. Number of such adult demonstrations completed or carried through the year	—	—	—	—	—	—	107
308. Acres involved in these completed demonstrations	—	—	—	—	—	—	108
309. Increased yield per acre on demonstrations due to better practices	— bu.	— qts.	— lbs.	— bu.	— bu.	—	109
310. Number of boys' and girls' clubs	—	—	—	—	—	—	110
311. Number members enrolled	—	—	—	—	—	—	111
312. Number of members completing	—	—	—	—	—	—	112
313. Number of acres grown by club members completing	—	—	—	—	—	—	113
314. Total yield of crops grown by club members	— bu.	— qts.	— lbs.	— bu.	— bu.	—	114
315. Total value of crops grown by club members	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	115
316. Total cost of crops grown by club members	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	116
317. Total* number of farms or homes influenced by adult or junior extension work to change practices relative to these crops (include demonstrations)	—	—	—	—	—	—	117
318. Acres involved in question 117	—	—	—	—	—	—	118
319. Number of farms planting selected or improved stock or seed	—	—	—	—	—	—	119
320. Number of farms pruning	—	—	—	—	—	—	120
321. Number of farms thinning	—	—	—	—	—	—	121
322. Number of farms spraying or otherwise treating for diseases and insect pests	—	—	—	—	—	—	122
323. Number of farms following other improved cultural practices	—	—	—	—	—	—	123
[Use space below to include other important data relating to horticulture.]							

LIVE STOCK.

Report only results of extension activities that are supported by records.

Item.	(a)	(b)	(c)	(d)	(e)	(f)	138
	Horses and mules.	Dairy cattle.	Beef cattle.	Sheep.	Pigs.	Poultry.	
138. Number of adult result demonstrations started or under way.	—	—	—	—	4	12	138
139. Number of such adult demonstrations completed or carried through the year.	—	—	—	—	4	12	139
140. Number of animals involved in these completed demonstrations.	—	—	—	—	13	240	140
141. Total profit or saving on demonstrations resulting from better practices.	—	—	—	—	—	—	141
142. Number of boys' and girls' clubs.	—	—	—	—	—	—	142
143. Number of members enrolled	(a) Boys.	—	—	—	5	—	143
	(b) Girls.	—	—	—	—	—	143
144. Number of members completing	(a) Boys.	—	—	—	5	—	144
	(b) Girls.	—	—	—	—	—	144
145. Number of animals involved in club work completed.	—	—	—	—	5	—	145
146. Total value of animals raised by club members.	\$ —	\$ —	\$ —	\$ —	\$ 87.50	—	146
147. Total value of products produced by club members.	\$ —	\$ —	\$ —	\$ —	\$ 30.00	—	147
148. Total cost of such animals and products.	\$ —	\$ —	\$ —	\$ —	\$ 42.75	—	148
149. Total* number of farms influenced by adult or junior extension work to adopt better practices, relative to live-stock production (include demonstrators).	—	—	—	—	4	12	149
150. Number of animals involved in question 149.	—	—	—	—	13	240	150
151. Number of farms assisted in securing pure-bred sires.	—	—	—	—	—	2	151
152. Number of pure-bred sires secured.	—	—	—	—	—	4	152
153. Number of farms assisted in securing pure-bred females.	—	—	—	—	—	—	153
154. Number of pure-bred females secured.	—	—	—	—	—	—	154
155. Number of farms securing pure-bred animals for the first time.	—	—	—	—	—	—	155
156. Number of farms culling flocks or herds.	—	—	—	—	—	4	156
157. Number of stallion, bull, ram, or boar circles, clubs, or associations organized during the year.	—	—	—	—	—	—	157
158. Number of members in preceding circles, clubs, etc.	—	—	—	—	—	—	158

* See footnote on page 7.

6-4073

LIVE STOCK—Continued.

Report only results of extension activities that are supported by records.

Item.	(4) Hares and rabbits.	(5) Dairy cattle.	(6) Beef cattle.	(7) Sheep.	(8) Swine.	(9) Poultry.	
139. Number of breed associations or clubs organized during the year.	—	—	—	—	—	—	139
140. Number of members in these associations or clubs.	—	—	—	—	—	—	140
141. Number of cow-testing associations organized or reorganized during the year.	—	—	—	—	—	—	141
142. Number of members in these associations.	—	—	—	—	—	—	142
143. Number of farms not in associations testing cows for production.	—	—	—	—	—	—	143
144. Number of cows under test by such associations and individual farms.	—	—	—	—	—	—	144
145. Number of homes assisted in the making of butter and cheese.	—	—	—	—	—	—	145
146. Number of farmers feeding better balanced rations.	—	—	—	—	9	12	146
147. Number of farmers controlling insect pests.	—	—	—	—	—	—	147
148. Number of farmers testing animals for tuberculosis.	—	—	—	—	—	—	148
149. Number of animals tested.	—	—	—	—	—	—	149
170. Number of herds accredited this year for the first time.	—	—	—	—	—	—	170
171. Number of farmers vaccinating animals for blackleg.	—	—	—	—	—	—	171
172. Number of animals vaccinated.	—	—	—	—	—	—	172
173. Number of farmers vaccinating animals for cholera.	—	—	—	—	—	—	173
174. Number of animals vaccinated.	—	—	—	—	—	—	174
175. Number of farmers controlling other live-stock diseases.	—	—	—	—	—	—	175
176. Number of animals involved in question 175.	—	—	—	—	—	—	176
[Use space below to include other important data relating to live stock.]							

RURAL ENGINEERING.

Report only results of extension activities that are supported by records.

177. Number of result demonstrations started or under way	—	177
178. Number of such demonstrations completed or carried through the year	—	178
179. Acres or other units involved in those completed demonstrations	—	179
180. Total profit or saving on demonstrations resulting from better practices	—	180
181. Number of farms installing drainage systems	—	181
182. Acres drained	—	182
183. Number of farms installing irrigation systems	—	183
184. Acres irrigated	—	184
185. Number of farms constructing terraces or soil dams	—	185
186. Acres on which soil erosion was so prevented	—	186
187. Number of dwellings constructed according to plans furnished	1	187
188. Number of dwellings remodeled according to plans furnished	4	188
189. Number of sewage disposal systems installed	—	189
190. Number of water systems installed	—	190
191. Number of heating systems installed	—	191
192. Number of lighting systems installed	—	192
193. Number of farms on which buildings other than dwellings were constructed or remodeled according to plans furnished	—	193
	(a) Barns	4
	(b) Hog houses	2
194. Number of buildings involved in preceding question	(c) Poultry houses	4
	(d) Silos	—
	(e) Other	—
		194 ✓
195. Number of farms assisted in the care and operation of machinery (tractors, power sprayers, milking machines, etc.)	—	195
196. Number of farms clearing land	15	196
197. Acres of land so cleared	75	197

[Use space below to include other important data relating to rural engineering.]

RODENTS AND MISCELLANEOUS* INSECT AND ANIMAL PESTS.

Report only results of extension activities that are supported by records.

Item	Rodents	Other animal pests†	Crop-hoppers	Other insects‡	
198. Number of result demonstrations started or under way	—	—	—	—	198
199. Number of such demonstrations completed or carried through the year	—	—	—	—	199
200. Number of acres in these completed demonstrations	—	—	—	—	200
201. Total saving or profit on demonstrations resulting from better practices	—	—	—	—	201
202. Total number of farms adopting control measures	—	—	—	—	202
203. Number of acres involved	—	—	—	—	203
204. Number of pounds of poison bait used	—	—	—	—	204
[Use space below to include other important data relating to rodents and miscellaneous insect and animal pests.]					

AGRICULTURAL ECONOMICS.

Report only results of extension activities that are supported by records.

FARM MANAGEMENT.

205. Number of farm account books distributed	—	205
206. Number of farmers keeping records in such account books throughout the year	—	206
207. Number of farmers assisted in summarizing and interpreting their accounts	—	207 ✓
208. Number of farmers making changes in their business as result of keeping accounts	—	208
209. Number of other farmers adopting cropping, live-stock, or complete farming systems according to recommendations	—	209
210. Number of boys' and girls' farm account clubs	—	210
211. Number of members enrolled—	(a) Boys. —	211
	(b) Girls. —	
212. Number of members completing—	(a) Boys. —	212
	(b) Girls. —	
213. Number of farmers advised relative to loans	—	213
214. Number of farm management and farm account schools held	—	214
215. Number of farmers assisted in keeping cost of production records	—	215
LABOR.		
216. Number of farmers making better use of labor	—	216
217. Number of farmers securing tractors, sprayers, milking machines, or other machinery to economize labor	—	217

* Do not include work reported under "Crop" and "Live Stock" headings.

† Indicate by name.

2-5075

AGRICULTURAL ECONOMICS—Continued.

Report only results of extension activities that are supported by records.

CREDIT.

218. Number of farm loan or other credit associations organized with assistance of extension service _____ 218
219. Membership in above associations _____ 219
220. Number of other farmers assisted in securing credit _____ 220

MARKETING.

221. List below the cooperative marketing associations organized during the year upon suggestion or with counsel of the extension service. _____ 221

Name of association.	Number of members.	Supplies and products handled.	Supplies purchased.		Products sold.	
			Value.	Saving.	Value.	Profit.
<i>Tobacco Producers</i>	<i>34</i>	<i>Tobacco</i>	\$ _____	\$ _____	\$ _____	\$ _____
TOTAL						

222. Number of other cooperative marketing associations in the county with which the extension service counseled or advised _____ 222
223. Number of members in such associations _____ 223
224. Total purchases of supplies by associations included in question 223 (a) Value \$ _____
(b) Saving \$ _____ 224
225. Total sales of products by associations included in question 223 (a) Value \$ _____
(b) Profit \$ _____ 225
226. Number of farmers and housewives assisted by extension service in buying and selling through other channels than cooperative associations _____ 226
227. Total purchases of supplies by farmers and housewives included in question 226 (a) Value \$ _____
(b) Saving \$ _____ 227
228. Total sales of products by farmers and housewives included in question 226 (a) Value \$ _____
(b) Profit \$ _____ 228
229. Number of farms grading or standardizing products _____ 229

[Use space below to include other important information relating to agricultural economics.]

HOME DEMONSTRATION WORK.

FOODS AND NUTRITION.

Report only results of extension activities that are supported by records.

228.1. Number of members enrolled in food and nutrition work 228.1

(a) Women _____	_____
(b) Girls _____	_____

FOOD SELECTION.

Item.	Women.	Girls.	
229. Number of result demonstrations started or under way.			229
231. Number of such demonstrations completed or carried through the year.			231
231.1. Number of method demonstrations.			231.1
232. Total* number of homes influenced by extension service to serve better selected food (include demonstrators).			232
233. Number of homes using more fruits in the diet.			233
234. Number of homes using more green vegetables in the diet.			234
235. Number of homes using more milk and other dairy products in the diet.			235
237. Number of homes using more poultry products in the diet.			237
238. Number of homes using more unrefined cereal products in the diet.			238

[Use space below to include other important data relating to food selection.]

FOOD PREPARATION.

Item.	(a) Breakfasting.		(b) Meal preparation.		(c) School lunches.		(d) Other.....†		
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	
239 (2425). Number of result demonstrations started or under way.									(239 (2425)
240 (2434). Number of such demonstrations completed or carried through the year.									(240 (2434)
245. Number * of homes influenced by home demonstration work to adopt better practices relative to food preparation (include demonstrators).									245
245.1. Number of schools influenced by home demonstration work to adopt better practices relative to food preparation (include demonstrators).									245.1

[Use space below to include other important data relating to food preparation.]

FOODS AND NUTRITION—Continued.

Report only results of extension activities that are supported by records.

CHILD FEEDING AND CARE.

Item.	Women.		Girls.		
217. Number of result demonstrations started or under way					217
218. Number of such demonstrations completed or carried through the year					218
219. Number * of homes influenced by home demonstration work to change practices in child feeding and care (include demonstrators)					219
221. Number of children involved in question 219.					221

[Use space below to include other important data relating to child feeding and care.]

FOOD PRESERVATION.

Item.	(a) Fruits.		(b) Vegetables.		(c) Meats and fish.		(d) Other †		
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	
254 (2584). Number of result demonstrations started or under way									254
255 (2595). Number of such demonstrations completed or carried through the year									(2585) 255 (2595)
256 (260). Total amount preserved	(a) Quarts canned								256 (260)
	(b) Pounds dried								
	(c) Amount brined and cured	qts.	qts.	qts.	qts.	lbs.	lbs.
