ANNUAL NARRATIVE REPORT

Dec. 15, 1928

John L. Charity,
Dist. Agent

COUNTY ADVISORY BOARD

The County Organization of these are the County Advisory Board. This organization is made up of one representative from each community in the County. The County Advisory Board hold meetings when necessary to help make plans for Extension work as it applies to the County. The County plans are made in the Advisory Board meetings and the individual members act as leaders in getting the program carried out in their communities.

The County Advisory Board held five meetings this year and the following work was accomplished, County Club boys rally planned for June 14th, County Farmers Conference July 12th, County tour to the Administration August 14th, County Fair September 15th to 22nd, the delegates selected to attend the State Advisory Board meeting, Delegates to attend Farmers Conference at Hampton Inst., County Program of work planned by Advisory Board, Better Home Campaign planned and workers organized in carrying out this campaign, a Fall Flocking Campaign planned, as result of the Advisory Board's efforts each one of the above plans were carried out with success this year. The Fall Flocking Campaign induced eighty three farmers to flock their land in the fall.

Community Clubs

There are five Community Clubs organized in the County. These five Community Clubs have a program of work planned by the people of each community around their needs, two of the five clubs are made up of the or more Churches communities, that is the or more

communities forming one large community club, for example, Oak Union and Neesham River Communities combining forming one club with a definite program of work, Earlyville, Rivanna, Preffit and Union Ridge Communities make up one club with a definite program of work, for example the program of work for Neesham River and Oak Union club consist of first meeting the family population including land owners and tenants, second number families belonging to the club,

This club has thirty nine families belonging to it at present.

They are using improved methods in producing the following crops, corn, wheat, hay, Year round garden, orchards, poultry and improving the egg yield. The Neesham River & Oak Union club sold their apples co-operatively this year, this gave all farmers having less than a car load of apples a chance to sell, other wise these farmers would not have sold as the buyer bought only crops of car load lots.

County Farmers Conference

The annual County Farmers Conference was held this year with the Zion Baptist Church North Garden, Va. July 15th, 1926. The conference program consist of, Year round garden, this subject was led by farmers. Sixteen farmers and farm women stated at this meeting that their gardens were being improved as result of following up the County Farmers Conference. How to make an orchard pay, led by Frank Hottel, special stress placed on pruning and spraying trees in order to produce first class apples, Home conveniences, led by Miss L.A. Jenkins and Mrs. Bessie Dunn Miller. A report of work accomplished in Better Home Campaign given by Mr. Joe Hickey of Free Union. Mr. Hickey

(3)

reported that thirteen farmers white washed their heads after the campaign had over, because they were a shade of their heads and wanted them to look like the ones that entered the campaign. A demonstration was given showing how to cull poultry as a result of this demonstration five other demonstrations have been conducted killing poultry, reaching the number twenty five people.

Hampton Farmers Conference

Three farmers from the County attended the Hampton Farmers conference held there June 19th to 21st. Two of these farmers were sent as delegates from their community clubs to the conference at Hampton. The delegate from Free Union Community made a very favorable report to his club of the things learned at the Hampton conference. The year round garden made a lasting impression on the delegate and he has brought the idea back and put it in practice and others are following his instructions.

County Tour

The farmers of the County conducted a County Tour August 14th, with a total number of fifty farmers, the tour went through four communities. The object of this tour was to see demonstrations conducted in the communities visited and to stimulate interest for better community work. The number of demonstrations visited on this tour was as follows:

Three Home Improvement demonstrations, five orchard demonstrating three soy bean demonstrations and the corn demonstrations. Agood lesson was taught at James Woodyside showing farmers how to treat peach trees for borers with Para-Dielderbenzene. As result of this tour eight farmers

treated their peach trees for borers, Eleven hives have been white washed and the farmers are saving their soy bean seed.

County Fair

The Colored farmers of the County held their County Fair at the Piedmont fair grounds Sept. 18th to 22nd. The quality of exhibits brought to the fair this year showed a decided improvement over previous years. There were three hundred eighty-five farm exhibits, thirty-three garden exhibits, one hundred fifty exhibits of Can goods and two hundred twenty-five farm wagon exhibits. All of these exhibits were good and the farmers coming to see them received a lesson that will help them put over a better farm program another year.

Wheat

Eight farmers in the County conducted demonstrations growing wheat this year, these demonstrations were conducted to show farmers how to increase their wheat yield by preparing good seed bed, using pure seed, treating seed wheat for smut and using a good fertilization method.

These eight farmers used 4-10-4 commercial fertilizer at the rate of three hundred pounds to the acre they also had broadcast their wheat with barn yard manure, as result of the above preparation these eight farmers made an average yield of twenty one bushel of wheat to the acre, twenty nine farmers treated their wheat for smut this fall before seeding as result of these demonstrations. T.H. Brown, Stony Point, Va. produced one hundred forty bushel wheat on five acres of land.

Corn

Since corn is one of the leading grain crops in the county considerable stress is placed on the method of increasing the yield of this crop per acre. Twenty one farmers conducted demonstrations growing corn this year. These farmers used the following methods to grow their corn, First plowing seed land early in the fall, eighteen of these farmers plowed their land in fall and three farmers turned down cover crops for their corn this spring. These farmers thoroughly prepared their seed bed, Used pure seed, tested seed corn for germination before planting, Fertilizing land and cultivating when necessary. The twenty one farmers conducting corn demonstrations made an average increase yield of seventeen bushel corn per acre, This increase is due to following the above methods, Cain Watkins, Millington, Va. produced three hundred twenty bushel corn on four acres land, Robert Sellers, Elmhurst, Va. produced one hundred twenty bushel corn on the same land, the year ago this land produced one half the above amount.

Hay

Eighteen farmers conducted demonstrations growing hay beans and cow peas for hay, These demonstrations were conducted by first preparing a good seed bed, second selecting good seed, Disinfecting seed, Fertilization and planting in due time, The eighteen farmers made an increase yield of one hundred thirty eight tons hay on one hundred thirty eight acres land, an average increase of one ton cured hay per acre. These eighteen demonstrations were conducted in five communities

in the county. As result of the above demonstrations, one hundred eight other farmers seeded soy beans and cotton for May this year.

These farmers have made feed enough for their stock this year. H.N. Southern, Blenheim, Va. produced ten tons of cured soy bean hay on four acres of land, by preparing good seed bed using good seed, inoculating seed, Fertilization and saving hay properly. James Williams, Harryville, Va. produced the tons of cured soy bean hay per acre by following demonstration methods.

Good Summer Gardens

Eleven farmers conducted garden demonstrations in six communities in the county this year. These demonstrations were conducted to stimulate interest in getting farmers over the county to grow a good year round garden. As result of the eleven garden demonstrations, one hundred thirty one farmers produced a good summer garden, keeping something growing all time in all the garden. Fifty seven of these farmers have winter garden. John Vinn, Charlottesville, Va. has been convinced that it pays to grow a good garden. This farmer has been selling vegetables from his garden all this year.

Soil Improvement

The farmers of the County conducted nine soil improvement demonstrations by using lime. The soil improvement demonstrations by sowing down arizans clover and the soil improvement demonstrations by sowing down soy beans. The lime used for conducting the soil improvement demonstrations was ordered in car load lots by the farmers using it.

The crimson clover demonstration was started in the early fall by using Acid Phosphate fertilizer when seeding and top dressing with manure in the early winter. These demonstrations have interested other farmers to the extent that the car loads lime have been purchased and used this year. Sixty one cover crops seeded this fall to be burned down in the spring. The hundred thirty nine farmers carrying barn yard manure direct from stable to land where it is to be used.

LIVE STOCK

To increase the live stock production in the county the following demonstrations were conducted, The family cow demonstration, one hog breeding center demonstration, three hog pasture demonstrations, seven poultry killing demonstrations, five poultry house construction demonstrations and fourteen pure bred Cockerals placed with farmers for breeding. The two farmers conducting demonstrations with the family cow, pastured their cows on improved grass during the summer such as orchard grass and a mixed grass Alfalfa, Timothy and clover. These cows were fed grain during the pasture season. During the winter these cows were fed on dairy feed and grain and clover, Alfalfa and topped hay.

T.E. Brown, near Stony Point produced thirty nine hundred gallons milk from three cows by using the above method of feeding. The breeding center demonstration has been a means of getting a high grade of thrifty hogs in the community. The three farmers conducting hog pasture demonstrations are producing their pork at a profit, Samuel Currier Stony Point says the cost of feeding his hogs was cut down one half by

(8)

using pastures , as a result of the above live stock demonstrations farmers have been induced to make the following improvements , Twenty three improved cow pastures made , nineteen high grade cows purchased , twenty five pure bred or pure bred male at breeding center , 184 pigs raised , 39 pastures made for hogs , 43 farmers culled their poultry , 18 poultry houses built or remodeled and 29 Barred rock cockerels placed with farmers for breeding.

Orchards

Four pruning and spraying demonstrations were conducted by farmers at Grinet , White Hall and Yancy Mills this spring , these farmers conducted the above demonstrations to know the cost of keeping their trees in good condition , cost of producing a high grade of apples and to induce other farmers to take better care of their orchards , these demonstrations interested farmers to the extent that five orchards were pruned for the first time in two years , four orchards were sprayed for the first time in three years . The above demonstrations are responsible for 3237 trees being pruned and sprayed .

County Home Improvement Campaign

Eight communities in the County put on the better Home Improvement Campaign this spring , this campaign was put on by calling the people to gether in the respective communities explaining object of the campaign and then organizing around the improvements to be made . The campaign was started by improving some public concern in each community such as church , church yard or Public Hall etc. giving all the people in the

community a chance to cooperate in making the public improvement. In the County Home Improvement Campaign 6 Churches were improved, these Churches made 84 improvements such as planting shrubbery, painting etc., 250 people helped to improve the Churches, 4 Public Halls improved, these Halls made 27 improvements, 143 people helped work on the Halls. 3 Schools improved, 20 improvements made at Schools, 61 Children and parents helped to make the improvements. 88 families improved their homes, these families made 151 improvements around homes.

An old dilapidated building in Charlottesville, known as the old folks home was remedied by the City and County people, This was a joint piece of work showing the County and City People how they could improve their homes at a small cost and to stimulate interest for better living conditions, 7 County organizations and 19 City organizations helped to make the old folks home a modern home, all the improvements made on the home were donated by the County and City organizations.

The out side of the building was ever haled, building under pinned, front and back porch remedied, building painted, yard leveled, yard fence built, flowers and shrubbery planted, old out buildings taken down, inside of building and furniture ever hauled and painted.

The estimated value of the building before starting to work \$1500.00, Estimated Value after work complete \$3000.00. The improvements made by the colored people of the County and City in the Better Home campaign helped Albemarle County take third prize in the Better Home campaign of United States this year.

Vocifer WorkOrganization

The 4-H club boys have nine clubs organized in the County with a membership of 122 club members, these club members are conducting demonstrations growing corn, raising poultry, fattening pigs and dairy calves. 22 of the club leaders help to make club meetings and demonstrations effective by guiding club meetings and seeing that demonstrations are properly carried out according to instructions. The club boys held a County Rally in which all the club members in County had a chance to come together and discuss methods of improving their club work. Fifty three club members were present at this club rally. Four delegates were sent to the State Short course by the club members. These delegates received information that will help put over effective club work.

Corn

Forty four club boys completed their demonstrations in corn. These club members produced six thousand three hundred eighty four bushel corn on fifty acres land, making an average of 48 bushel corn to the acre. Robert Davendorf produced 100 bushel cobs pure bred corn on five acres land. This crop of corn was produced by plowing the land early in the fall, top dressing with barnyard manure, thoroughly preparing seed bed before planting and cultivating corn when necessary.

Live Stock

Twenty one fat pigs were raised by club members this year, 33490 eleven of these pigs were graded during the summer with out down the feet

cost one half , these pigs were fed on milk and a grain mash during the summer , they were finished on corn, the twenty one pigs weighed 2225 pounds at the end of the fattening season , they brought a total income of \$425.54 , Allesen in this demonstration was that the boys using grazing for their pigs produced cheaper pork . One thousand two hundred ninety four chickens were raised by club members , these chickens were started by securing two or more hens for broodery , The total income from the poultry raised was \$ 1261.00 , Nine communities in county have started to grow barred rock chickens as result of the club demonstrations .

Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent; reporting on their respective lines of work.

State Virginia County Albemarle
Report of B. G. Green County Local Farm Agent.
From Dec. 1, 1927 to Nov. 30, 1928.
(State) (Title)

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

State or District Supervisor.

Date _____ State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

(a) Soils	}	(including diseases and insects).
(b) Farm crops		
(c) Horticulture	}	(including diseases and insects).
(c) Home gardens		
(c) Beautification of home grounds		
(d) Forestry	}	(including diseases and insects).
(e) Rodents, predatory animals, and birds.		
(f) Animal husbandry		
(g) Dairy husbandry	}	(including diseases and insects).
(g) Home dairy		
(g) Poultry husbandry		
(h) Home poultry		

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

IV. Program of work, etc.—Continued.

(2) Project activities and results—Continued.

- (a) Agricultural engineering.
- (b) Agricultural engineering—home.
- (c) Agricultural economies, including farm management and marketing.
- (d) Home marketing.
- (e) Foods.
- (f) Nutrition.
- (g) Clothing.
- (h) Home management.
- (i) House furnishings.
- (j) Home health and sanitation.
- (k) Community activities.
- (l) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
 - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonyms: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
 - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-culture, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. AN **EXTENSION SCHOOL COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE COURSES** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. 1

6. G. Green Local Farm Agent 12 months
(Name.) (Title.) (Months of service this year.)

14. County association, if any, fostering extension work. 11

(a) Name Advisory Board 11

(b) Number of members 33

2. Number of communities in county where extension work should be conducted. 2

3. Number of above communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 3

4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with— 4

(a) Juniors 32

(b) Adults 36

5. Number of clubs carrying on extension work: 5

(a) Junior 9

(b) Adult 5

6. Membership in above clubs: 6

(a) Boys' 85 (c) Men Families 123

(b) Girls' 47 (d) Women _____

7. Number of club members completing: 7

(a) Boys' 84 (c) Men 111

(b) Girls' 46 (d) Women _____

8. Number of members in junior club work for four or more years: 8

(a) Boys _____ 4

(b) Girls _____ R

* Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on page 2 to 8. See any duplications due to the same boy or girl carrying on two or more related or inter-club work.
 * Exclude those boys and girls enrolled in club work as reported under 4(c) and 6(b) who have finished the work undertaken on each portion of 2 to 8 as it was planned to finish during the report year. 8-220

152. Number of bull, boar, ram, or stallion circles, clubs, or associations organized during the year					X X X	
153. Number of members in preceding circles, clubs, etc.					X X X	
154. Number of breed associations or clubs organized during the year					1	
155. Number of members in these associations or clubs						

¹ Indicate by name.² Clubs which do not organize clubs on a project basis should not report on this question but should report on enrollment and completion.

9-228

AGRICULTURAL ENGINEERING.

Report only this year's extension activities and results that are supported by records.

167. Number of method demonstrations given	5	167
168. Number of result demonstrations started or under way		168
169. Number of result demonstrations completed or carried through the year		169
170. Number of farms installing drainage systems this year		170
171. Acres drained		171
172. Number of farms installing irrigation systems this year		172
173. Acres irrigated		173
174. Number of farms constructing terraces or soil dams this year		174
175. Acres on which soil erosion was so prevented		175
176. Number of dwellings constructed this year according to plans furnished		176
177. Number of dwellings remodeled this year according to plans furnished	48	177
178. Number of sewage-disposal systems installed this year according to plans furnished		178
179. Number of water systems installed this year according to plans furnished		179
180. Number of heating systems installed this year according to plans furnished		180
181. Number of lighting systems installed this year according to plans furnished	10	181
181½. Number of farms following suggestions on maintenance and repair of machinery	285	181½
182. Number of farms employing better types of machinery recommended by extension agent	41	182
	(a) Cultivators	21
	(b) Plows	11
	(c) Tractors and gas engines	6
182½. Number of machines involved in question 182	(d) Sprayers	3
	(e) Harvesters and threshers	
	(f) Other	
182. Number of farms on which buildings other than dwellings were constructed or remodeled this year according to plans furnished	19	182
	(a) Barns	2
	(b) Hog houses	2
183. Number of buildings involved in preceding question	(c) Poultry houses	9
	(d) Siles	
	(e) Other	
184. Number of farms clearing land of stumps or boulders this year	5	184
185. Acres of land so cleared	32	185
185½. Number of farms adopting other improved practices for the first time. (Specify below.)		185½
186. Total number of different farms adopting improved practices relative to the agricultural engineering work reported on this page. (Include questions 169, 170, 172, 174, 176, 177, 178, 179, 180, 181, 181½, 182, 184, and 185½ less duplications.)	328	186

AGRICULTURAL ECONOMICS—Continued.

Report only this year's extension activities and results that are supported by records.

205. List below this year's results in connection with the cooperative-marketing associations in the county previously organized and with which the extension service counseled or advised.

Name of association or group.	Number of members.	Supplies and products handled.	Supplies purchased.		Products sold.	
			Q. Value.	Q. Seling.	Q. Value.	Q. Profit.
White West Community Club	10	Barrels Apples	\$ 750 ⁰⁰ / ₁₀₀	\$127 ⁵⁰ / ₁₀₀	\$5,000 ⁰⁰ / ₁₀₀	\$
Barkhallen Community	14	Compass	187 ⁵⁰ / ₁₀₀	93 ⁷⁵ / ₁₀₀		
TOTAL						

206. Total number of different farms adopting improved marketing practices (include entries for questions 204 (b) and 205 (b) less duplications plus other farms not in cooperative associations)
- 38
- 206

COMMUNITY ACTIVITIES AND MISCELLANEOUS.

Report only this year's extension activities and results that are supported by records.

Use this space to include work on any other agricultural project not included in the preceding pages, such as bee-keeping, and similar work, i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.

Date.	Q.		Q.
	Bookings.	Handbook.	
208. Number of method demonstrations given.			208
