INTRODUCTION

Set forth in this report are the results of Agricultural Extension work in Augusta County for 1927 after fifteen years of extension work. The very successful farms in this county is an evidence of the results that this work has brought.

As this is the first year J. C. Colnar the County Agent has had full charge of work in the County, I have been somewhat handicapped but very successful with some projects. Our Advisory Council adapted a plan to try to work with the boys on the farm from 18 to 30. We have this organization with 50 good members, which we call the Young Men's Business and Athletic Association. These boys meet twice a month; with a program and business meeting, afterwards they enjoy some kind of athletics. To put this across as it should be it will take more time than I have, as large as Augusta County is.

During the year we have tried to follow our Five Year Program as close as possible, with good success with Livestock, Poultry and Club Work. We also have a Civic Organization of 250 members that has worked very nicely at Fishersville through the year. The Farmers Union Locals have made a changer for the better and have saved the farmers a great-deal of money on binder twine, fertilizer and seeds and are in good shape to do better next year.

There are now in Augusta County twenty-five definite communities. Due to the size of this county it has been very difficult to cover all phases of work as it should have been done. However, as will be set forth herein, some outstanding success has been accomplished.

Fifty-four leading farmers selected from the different majesterial districts of the county, including the Board of Supervisors and the Superintendent of Schools, compose the Augusta County Agricultural Advisory Council. This organization meets on the call of the Chairman, usually from one to two times each year, depending on the need. From this Advisory Council committees have been selected for the different projects that are carried on in the county, such as Livestock, Agronomy, Dairying, Poultry, Horticulture, and Publicity.

Augusta County has several very active farm organization which cooperate splendidly with the County Agent. It is through these organizations that much of the work has been done. The main organizations are: The Augusta County Cooperative and Educational Union; The Farmers Cooperative Stores; The Augusta County Short-Horn Breeders Association; The Cow-Teating Association; Augusta County Horticultural Society; Livestock Shipping Association; The Poultry Association and the Young Men's Business and Athletic Association. We have also the organized 4-H Clubs throughout the County.

PLAN OF WORK FOR AUGUSTA COUNTY
FOR 1927.

GOALS

ACHIEVEMENTS

CLUB WORK

To have seventy-one club members which will be organized into ten 4-H Clubs.

The seventy-one will be divided in the following projects:

Baby Beef-----	8	-----	10
Dairy Calf-----	14	-----	14
Pig-----	17	-----	17
Poultry-----	20	-----	20
Sheep-----	2	-----	2
Corn-----	2	-----	2

Six boys never finished their work.

1. To have Poultry Club members raise only standard bred birds. This was done.
2. To have Dairy Club members raise only pure bred calves. This was done.
3. To hold Livestock Judging Contest at our County Fair from which the team to represent the County at the State Fair will be selected. This was done.
4. To train one demonstration team to compete for the camp Vail Trip. This was done.
5. To hold one County Club Camp . This was not done.
6. To hold a Club day at our County Fair at which organized Clubs will have floats. The different Clubs competing against each other. Club Day: 6 Floats.

GOALS

ACHIEVEMENTS

SHEEP

1. To do everything possible in the standardization of the sheep industry of the County, which will be carried on by holding fifteen demonstrations in docking and castrating lambs..
2. To hold fifteen demonstrations in treatment for stomach worms.
3. To publish timely news items on care and feeding of sheep.

12 demonstrations held.
720 docked and castrated.

11 were held.

In Weekly Farm Page 12.

SWINE

1. To have three members in the ton litter contest.
2. To have four demonstrations in profitable feeding and pasturing of hogs.
3. To advise the feeding of balanced rations as against straight corn feeding for finishing hogs for market.

This was not finished.

16 demonstrations completed.

This was done.

BEEF CATTLE

1. To stress better care of purebred sires.
2. To stress the importance of a better finish on beef cattle before placing on market.
3. To help all I can in the feeding problems of beef cattle.

This was done.

This was done.

This was done.

GOALS

BEEF CATTLE (cont'd)

ACHIEVEMENTS

4. To urge all pure bred breeders to trim all pure bred bull calves that are not good ones.
This was done.
5. To rid Augusta County of Scrub Sires as far as possible.
Replaced 36 with pure bred sires.
6. To advise better care of calves and stock cattle and proper feeding to get an earlier finish for the market.
Several carloads of Yearlings were fed.

POULTRY

1. To hold thirty culling demonstrations.
37 demonstrations held.
4320 birds culled.
2. To encourage standard bred flocks.
This was done.
3. To encourage better housing and feeding methods.
This was done.
4. To encourage a more orderly grading and marketing of eggs.
This was done.
5. To investigate better markets.
This was done.

DAIRY

1. To continue the active functioning of the Cow-Testing Association.
This was done with 8 new members.
2. To stress the importance of feeding as much home grown feed as possible.
This was done and less feed will be bought this year.
3. To stress the importance of Legume hay for every dairy farm.
This was done.

GOALS

DAIRY (Cont'd)

ACHIEVEMENTS

- | | |
|---|-----------------------------|
| 4. To stress the importance of a higher quality product. | This was done. |
| 5. To stress better care of pure bred sires. | This was done. |
| 6. To urge pure bred breeders to veal all P. B. males that are not good ones. | This was done. |
| 7. To aid pure bred breeders to find a market for their good bulls. | Sold 15 bulls for breeders. |
| 8. To urge breeders to grow their calves better. | This was done. |

AGRICULTURE

- | | |
|--|--|
| 1. To have three demonstrations in pasture improvement | Six. |
| 2. To have five demonstrations in growing soybeans for hay. | Three. |
| 3. To have five demonstrations in growing soybeans for seed. | None. |
| 4. To have six demonstrations in selecting seed corn in the field. | Six. |
| 5. To help all certified seed growers that have been started in this County. | This was done with a better market for seed. |
| 6. To have two demonstrations in the breeding and head selection of wheat. | Three. |
| 7. To put a Lime Campaign sometime during the year. | This was done. |

<u>GOALS</u>	<u>AGENCY (Cont'd)</u>	<u>ACHIEVEMENTS</u>
8. To stress the importance of Lime as an aid in getting crops of Sweet Clover, Red Clover and Alfalfa.		This was done.
9. To have three demonstrations in the relative value of Grim Alfalfa and common North Western Green Alfalfa.		Three.
10. To hold five demonstrations in the relative value of Bearded Barley and Beardless Barley.		This was completed, runs about the same.
11. To hold several demonstrations of small grains following soybeans, to determine if soybeans do reduce the yield of small grain crops that follow immediately after.		This was done showing a 5 bu. loss.
12. To urge that the farmers that are growing crops on rolling land subject to erosion, sow barley instead of corn.		This was done with good results.

HORTICULTURE.

1. To organize inspection rings for State and Federal inspection of fruits.		
2. To send out the Spray Service to fruit growers.		This was done.
3. To do what I can to aid the cedar cutting campaign and follow up work of cutting the young cedars.		Excellent results.
4. To hold four demonstrations in pruning.		Four.
5. To urge better methods of fertilization and tillage.		This was done.

GOALS

AGRICULTURAL ECONOMICS

ACHIEVEMENTS

- | | |
|---|----------------|
| 1. To urge better methods in Farm Management. | This was done. |
| 2. To encourage keeping Farm Accounts. | This was done. |

ORGANIZATION

- | | |
|--|---------------------------------------|
| 1. To assist the Farmers Union in every way possible from an educational standpoint. | This was done. |
| 2. To assist all pure bred breeder's Associations in every way possible. | This was done. |
| 3. To assist the Augusta County Livestock Shipping Association in every way possible. | This was done. |
| 4. To put on a Farm Crop exhibit at the County Fair and make it educational. | Very successful. |
| 5. To make a County Farm Crop Exhibit at the State Fair. | This was done very extensively. |
| 6. Help encourage Poultry Association in every way possible. | This was done. |
| 7. To help in every way possible with the Young Men's Business and Athletic Association. | This is completed and has 50 members. |
| 8. To have Four Community Fairs in the County during the year. | Three were held. |

PUBLICITY

- | | |
|---|----------------|
| 1. To have a page of Farm News in the Staunton News Leader each week. | This was done. |
| 2. To send out such circular letters as is necessary to carry on my work. | This was done. |

CLUB WORK

The past year in our Club Work we have been very successful, probably not as many members starting but a larger percent finishing. This work is carried through in conjunction with the County Agent and Home Demonstration Agent. We have twelve (12) clubs a total of about 304 member, seventy-one (71) of those working with me. Sixty-five (65) finishing their projects. Some of the most important things we have done are winning at the State Fair two (2) Champions, Herford and Angus, and Grand Champion Baby Beef. Champion Junior Heifer in open class and Junior and Grand Champion in Dairy Club Class.

Augusta Livestock Judging Team had High-man and second place in judging, only losing by the close margin of nine (9) points. We gave training to nine (9) boys in this work. Also had Poultry Judging Team in fourth place at State Fair.

Some actual results in money was made. Profit on projects \$1851.04, prizes won at State Fair and County Fair \$1054.95. Total won by Club Boys' and Girls \$2905.99, including two (2) scholarships of \$200.00 a piece to V. P. I. One boy in Poultry made a profit of \$204.75 on 100 hens.

Our County Rally Picnic was well represented, Centerville having the greatest number of members out. We held it at Crafen Park, which is nicely situated for such use.

Our Club Work on record shows for itself. I have only mentioned a few points of interest.

LIVESTOCK

SHEEP Better Rams and Ewes. Retaining Best Ewe Lambs. Docking and Castrating treatment for stomach worms has been encouraged with a lot of good work done. Twelve (12) demonstrations were given, docking and castrating 720 lambs, probably did not have the attendance that we should have had owing to all lambs with order selling well. Probably up until this time our farmers have not kept good enough Ewe lambs to replenish their herds.

SWINE The hog industry is increasing in the County. With cholera popping up now and then, we find many hog infected badly with worms, which must be eliminated to make pork more profitable. Some work has been done along this line but still have a large field. We have sixteen (16) more farmers growing pasture crops for their hogs this year. At the present price of hogs, such mere meat will be stored and used on farms than usual. I have helped to place thirteen (13) Bears and three (3) Pure Bred Sows in the County this year.

BEEF CATTLE This is still one of our major projects. With the scarcity of feeders more farmers are looking for good cows to raise calves. Through this office there has been placed over 200 good-grade and Pure Bred females on farms in the County. Besides twenty-six (26) registered Sires many good-grade calves from Pure Bred Sires have been sold for \$50.00 and over. About the usual amount being fed at 9¢ per pound. We will see good results of this work for years to come.

- 3 -

DAIRYING

This is one project everyone seems to be interested in. It is one available source the farmer can cash a profit every month. With better sires and cows predominating, still with grade cows bringing from \$180.00 to \$175.00, our farmers are selling some cows they ought to keep.

Augusta County being well adapted to dairying, we feel that much progress can be made along this line. We are trying to have a County-wide Tubercular Test which would give us a larger field for expansion; also and increase in demand for cows raised in this section.

We have two (2) large herds owned by the State that have paid for themselves and are now making a profit.

Our Cow-Tester is doing good work along the line of production and efficiency having cows and herds that stand well with the State in production. We have foreign buyers every few days wanting dairy cows out of this section. We have six or eight men devoting their activities and feed to producing dairy heifers for the home market.

POULTRY

The farm flock poultry has increased and improved in the last year. The farmer has found that culling pays and often calls the County Agent to help them out. We have culled 27 flocks, 4320 head disposing of around 1400, at these demonstrations we had an attendance of 144 farmers. Instructions have been given in repairing thirteen (13) and building six (6) new houses during the year.

Blood testing is still popular among a great number of our breeders. Eggs are bringing a margin of 15 cents that have been tested.

Hatcheries are doing well with two (2) new commercial up-to-date incubators. The grade of eggs sold are much improved over last years.

AGRONOMY

Augusta is one of the leading Counties in Agriculture. We have had some very interesting work during the year. We tried four (4) projects with bearded and beardless barley with a yield of about the same. Probably beardless a little earlier and more acceptable to late frost.

Stinking Smut is still a problem, practically everyone treating where smut has been. A lot of farmers are not treating in neighborhoods where they have had no smut. We have not found any smut where wheat was treated properly, but have found plenty in neighboring fields that were not treated. About 2000 pounds of Copper Carbonate was used on around 14,000 acres.

Wheat following soybeans was not successful again this year, probably a loss of five (5) bushels per acre. A very light crop of soybeans as other crops of legumes are heavy.

The pasture plots treated last year with lime and Phosphate showed more improvement this year, also test run this year improved about 30%.

Augusta has one of the largest Clover Seed crops this year than it has had for five (5) years and a good clover sod for next year.

HORTICULTURE

Horticulture in general has had a little slump this year due to the late frost killing most fruit in low places. Apples still bringing a good price, some fruit men made more money than they did last year. All apples selling good.

The Spray Service has been kept up-to-date and has proved a great benefit to most fruit growers.

Five (5) demonstrations were held in pruning with a good attendance, especially by the boys of the Agricultural Schools.

Most of our fruit growers follow an approved method in the care of their orchard.

Proper methods in fertilizing and tillage have been stressed.

HORTICULTURE

Horticulture in general has had a little slump this year due to the late frost killing most fruit in low places. Apples still bringing a good price, some fruit men made more money than they did last year. All apples selling good.

The Spray Service has been kept up-to-date and has proved a great benefit to most fruit growers.

Five (5) demonstrations were held in pruning with a good attendance, especially by the boys of the Agricultural Schools.

Most of our fruit growers follow an approved method in the care of their orchards.

Proper methods in fertilizing and tillage have been stressed.

AGRICULTURAL ECONOMICS

Some farmers are keeping accounts but not as many as ought to. We have one farmer running a three (3) year account, finishing next year. We hope to derive some real benefit for the County with this.

Also in the Young Men's Association four (4) have started in farm accounts. Farm accounts are easy to get farmers to start but hard to get them to finish. Twelve (12) started, but I have not the record of how many will finish.

ORGANIZATIONS

FARMERS UNION

The Augusta County Farmers Union has a membership of about 400 paid members. Not quite as many as they had last year but more loyal members. This organization has started buying direct through their Local and County Organization, doing a business of about \$90,000.00 the last year with a very large saving to the farmers with a better organization feeling among the Locals.

About 200 farmers made the trip to Washington on the Farmers Tour last June, reaching there in time to see Lindbergh making his first trip to the Capitol.

The Farmers Union Locals made exhibits at County Fair, being the best exhibits they ever made as farm crops were better this year at that time. Also from this the County Agent made the exhibit at State Fair in the Valley Exhibit.

FARMERS UNION STORES

This organization is not as healthy as it might be. The Locals buying through its County organization has its disadvantage to the stores, as they have to have an overhead expense. The store has been closed in Staunton leaving Crimora and Waynesboro running, doing a business of around \$180,000.00 the last year. Crimora is putting in a mixing fertilizer plant and Waynesboro has a mixing feed plant which is an advantage to Augusta Farmers.

The Manager of the Farmers stores has been acting as Broker for the Locals which has been very satisfactory.

ANGUSTA COUNTY LIVESTOCK
MARKETING ASSOCIATION

Our Livestock Shipping Association has held its own during the year, having two (2) shippers now we feel that they can do service to more farmers. During the year we shipped 821 head of cattle, 831 calves, 7775 lambs, 3064 hogs, a total of 12491. Netting the farmers a total sum of approximatley \$2155000.00. This has made the farmers more clear money than any one project. This is an increase over last year of 322 head and \$11398.85.

HORTICULTURAL SOCIETY

This society is composed of the leading fruit growers of the County. They hold their meetings regularly with a very good attendance, and are organized with State growers, with their Secretary here. One of its projects is to get better freight rates. The Inspection Ring has not had the work to do here this year as last year. Some orchards are improving while others have had an off year.

SHORTHORN BREEDERS ASSOCIATION

This organization meets annually to help stimulate the sale and production of Shorthorn Cattle in Augusta County. Owing to trend of farmers to dairy it has been handicapped, but at the present price of beef cattle more farmers are taking better care of their cattle. Several of the Breeders of this Association have changed to dairying.

GUERNSEY BREEDERS ASSOCIATION

This organization is working well, gaining more breeders and better attendance. Some very fine individuals have been bought in the County

this year. The County has helped to sell twelve (12) Guernsey Bulls to Augusta Dairymen. A large field in this work to do.

COW-TESTING ASSOCIATION

Due to the good work of our Cow-Tester this Association has increased eight (8) new members. We sold 27 cull cows, bought some better bulls, getting good markets for their produce, growing more food on farms and are very successful in operating. They are planning to form a Sales Agency in their Association to promote sales and products.

POULTRY ASSOCIATION

The Poultry Association has stimulated the better care of poultry and eggs. Here economical production helped with marketing and established the Poultry Department again in our County Fair, which made a good show this year.

YOUNG MEN'S BUSINESS AND ATHLETIC ASSOCIATION

Augusta is the only County on record that through the County agent has organized the Young Farm Men from 18 to 30 in a self help organization. To keep farm records, help prevent waste, labor and time on crops and livestock that is not profitable in this County. With enough time this could be made a one man's job with a good profit.

COUNTY WORKERS

The County Workers have been a great advantage to the people working along the same line. They keep each one familiar with the work the others are doing, and not work in competition with others that are doing similar

work . Their meetings have been carried through the year.

CIVIC LEAGUES

Among the various Civic Leagues the County Agent has put across a lot of good work in have closer fellowship with County and Towns than ever before in this county for greater work and better town and county.

PUBLICITY

It is believed by the agent that publicity is one of the best means of distributing information and news to the greatest number of farms in the least possible time. The Staunton News Leader has co-operated to the fullest extent in this work, having given over to the agent one full page each Saturday for farm news. Also space for any other items of special interest at any time. In this way many farmers have read certain articles in the farm page and come to the agent's office for further information. This has also been one of the best means by which the agent and his work could become acquainted with the farmers of the County as a whole.

Circulars letters were used to some extent but do not appear to get as good results as might have been expected.

COOPERATIVE EXTENSION WORK IN AGRICULTURE AND HOME ECONOMICS

U. S. Department of Agriculture

Office of Cooperative Extension Work,
Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Augusta
Report of J. C. Corner County County Agent Agent.
From Dec. 1, 1926 to Dec. 1, 1927, 1927.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

READ DEFINITIONS, PAGES 3 AND 4

COUNTY AGENT WORK

Approved:

Date _____ State or District Supervisor.

Date _____ State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

<ol style="list-style-type: none"> (a) Soils (b) Farm crops (Horticulture) (c) Home gardens (Beautification of home grounds) (d) Forestry (e) Rodents, predatory animals, and birds. (f) Animal husbandry (g) Dairy husbandry (Home dairy) (h) Poultry husbandry (Home poultry) 	} (including diseases and insects).
---	-------------------------------------

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

IV. Program of work, etc.—Continued.

(2) Project activities and results—Continued.

- (c) Rural engineering.
- (d) Rural engineering—home.
- (e) Agricultural economics, including farm management and marketing.
- (f) Home marketing.
- (g) Foods.
- (h) Nutrition.
- (i) Clothing.
- (j) Home management.
- (k) House furnishings.
- (l) Home health and sanitation.
- (m) Community activities.
- (n) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COUNTY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
 - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
 - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-culture, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

4

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. AN **EXTENSION SMOKE COURSE** differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **REPORTS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. 1

J. C. Comer (Name) *County Agent* (Title) *12* (Months of service this year)

14. County association, if any, fostering extension work. 14

(a) Name _____

(b) Number of members _____

2. Number of communities in county where extension work should be conducted. *25* 2

3. Number of above communities in which the extension program has been cooperatively worked out by extension agents and people concerned. *15* 3

4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with— 4

(a) Juniors *12*

(b) Adults *56*

5. Number of clubs carrying on extension work: 5

(a) Junior *12*

(b) Adult *20*

6. Membership in above clubs: 6

(a) Boys' *65* (c) Men *1220*

(b) Girls' *6* (d) Women _____

7. Number of club members completing: 7

(a) Boys' *54* (c) Men _____

(b) Girls' *6* (d) Women _____

8. Number of members in junior club work for four or more years: 8

(a) Boys _____ *12*

(b) Girls _____ *4*

¹ Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on pages 8 to 21, less any duplications due to the same boy or girl carrying on two or more subject-matter lines of work.
² Include those boys and girls enrolled in club work, as reported under 6(a) and 6(b) who have finished the work undertaken at such portion of it as it was planned to finish during the report year.

The rest of club members are under supervision of Miss Lindamood.

GENERAL ACTIVITIES—Continued.

9. Number of junior teams trained	(a) Judging	9	}	9
	(b) Demonstration	4		
10. Number entering college this year who may have been club members		4		10
11. Total number of farm visits ¹ made in conducting extension work		1078		11
12. Number of different farms visited		787		12
13. Total number of home ² visits made in conducting extension work		62		13
14. Number of different homes visited		58		14
15. Number of calls ³ relating to extension work	(a) Office	2454	}	15
	(b) Telephone	1051		
16. Number of days agent spent in office		58 1/2		16
17. Number of days agent spent in field		289		17
17 1/2. Number of news articles prepared for press ⁴		22		17 1/2
18. Number of individual letters written		1214		18
18 1/2. Number of bulletins distributed				18 1/2
19. Number of fairs at which extension exhibits were made	(a) Community	2	}	19
	(b) County	1		
	(1) Number	42	}	20
20. Training meetings held for local leaders	(2) Leaders in attendance	12		
	(a) Junior work		}	20
	(b) Adult work			
	(1) Number		}	21
	(2) Leaders in attendance			
21. Method and result demonstration meetings ² held (do not include meetings reported in number 20)	(a) Number	48	}	21
	(b) Attendance	1046		
22. Farmers' institutes held	(a) Number		}	22
	(b) Number of sessions			
	(c) Attendance			
23. Extension schools ² and short courses held	(a) Number		}	23
	(b) Attendance			
	(1) Number		}	24
24. Encampments held	(2) Attendance by club members	(a) Boys		
	(3) Total attendance	(b) Girls		
	(a) Junior			
	(1) Number		}	24
(b) Farm women	(2) Attendance by club members			
	(3) Total attendance			
25. Other extension meetings attended and not previously reported	(a) Number	114	}	25
	(b) Attendance	11529		
26. Number of meetings at which were shown	(a) Lantern slides		}	26
	(b) Motion pictures			
	(c) Charts			

¹ Do not count the same visit as both a farm visit and a home visit.² See definition on page 1.³ Include county and State press, agricultural journals, and home magazines. Do not count items relating to notices of meetings only.

PROGRAM SUMMARY

List below information on each project of the program of work for the year. If an assistant agent has been employed during the year, include his or her time with that of the agent. This page should not be filled out until the questions on the following pages have been answered.

Title of project	Number of extension activities performed	Number of farm families benefited	Days of extension work performed	Days spent on other projects	
	00	00	00	00	
Illustrative entry: Poultry	22	9	4	12	27
27. Soils (page 7)	20	1	5	24	28
28. Farm crops (pages 8, 9, 10, 11)	24		9	24	29
29. Horticulture (page 12)—home gardens (page 27) (Beautification of home grounds (page 26))					30
30. Forestry (page 13)				2	31
31. Rodents, predatory animals, and birds (page 13)	28	9	5	40	32
32. Animal husbandry (pages 14, 15, columns a, c, d, f)	13	1	6	13	33
33. Dairy husbandry (pages 14, 15, column a)—home dairy (page 28)	36	9	1	36	34
