NARRATIVE REPORT
CHARLOTTE COUNTY VIRGINIA
HORACE E. MCSWAIN
COUNTY AGENT
1924

COUNTY AGENT WORK

STATUS OF COUNTY EXTENSION

ORGANIZATION

Farm Demonstration Work in Charlotte County receives the support of the Board of Supervisors, who grant an appropriation out of the County Funds to cover one half of the County Agent's salary.

The Advisory Board has been enlarged during the year and now includes, in addition to the fifteen men who formerly composed it, twenty nine other leading farmers, County Officials, bankers and other business men. These forty four men now serve in an official way, helping the County Agent to formulate a general policy for the County as a whole and special plans to fit the needs of the various communities.

The Agent cooperates with all of the local agencies whose purpose is the improvement of Agricultural conditions; such as the Superintendent of the Charlotte Sub-Experiment Station, the Smith-Hughes Instructor in the County High School, the County Sanitary Officer, and the Negro Local Agent.

PLAN OF WORK FOR CHARLOTTE COUNTY VIRGINIA
HORACE E. MCSWAIN
AGENT.

CLUB WORK.

Goal 150 members. 12 Clubs. 4 Projects.

Fig	35 members.
Corn	30 members.
Tobacco	15 members.
Poultry	70 members.

ADULT CROPS.

Corn	20 demonstrations.	
Br. Tob.	8	"
Dr. "	8	"
Cowpeas	10	"
Soy B.	25	"
" "	3	"

for hay.
for seed.

SOIL FERTILITY.

Lime, Good Seed, Rotations 20 dem.
Terracing & Draining 20 dem.

LIVESTOCK.

Replace 10 scrub Dairy Bulls.
" 10 " Boars.
" 20 Mongrel Flocks of Poultry.

ORGANIZATIONS.

2 Ton litter contest, feeding demonstrations.
Work with 40 Tobacco Growers Association Locals.

SPECIAL.

Cooperative buying seeds and Fertilizers.

Live at Home in Charlotte County
Take Boys and Girls to State Short
Course.
Help new growers with cotton production.
Organize County Department of Agriculture.
Club Fair and Adult Corn Show.

Many items in the Plan of Work as outlined above, have been accomplished or have progressed satisfactorily during the year. Some, for reasons of expediency have been revised or omitted. Some have been partial failures because of unusually adverse weather conditions. A late wet spring, a dry summer, and an early frost have lowered our crop averages, generally.

PROJECTS

SOILS.

Soil projects have progressed satisfactorily. More farmers are using systematic rotations. More lime is being used and an increased interest in lime is evidenced by the purchase, by a group of fifteen farmers, of a lime storage house at Cullen. More farmers are becoming alarmed at the results of soil erosion on their farms and are terracing their fields and taking steps to reclaim many acres of badly washed land. During the year forty four thousand two hundred feet of terrace were laid out personally by the Agent or with the assistance of Extension Specialists. It is impossible to comply with all the requests for this type of work.

FERTILIZERS

Only six car loads of fertilizers were bought cooperatively by farmers this year, as local dealers met cooperative prices and handled it to the satisfaction of the farmers. They were also in a position to extend credit to many farmers who were unable to make the cash payments required in cooperative purchase.

CORN

Owing to adverse weather conditions, our average yield per acre was reduced from twenty nine bushels last year to seventeen bushels this year, and most of that was badly damaged by early frost. Much late corn was completely destroyed by high water on lowlands.

TOBACCO

Tobacco has for generations been the cash crop in this section and the sole aim in growing other crops has been to enable the growers to produce tobacco. The propaganda of the Live At Home Campaign which has been featured continuously for five years, is bearing fruit, and an increasing number of farmers now realize that tobacco can be grown at a profit only when farm supplies are produced at home at a minimum cost. Our average yield of tobacco this year is six hundred and seventy five pounds per acre.

COTTON

Cotton growing is in the nature of an experiment in this County. About twenty acres were planted last year and six hundred acres this year. Owing to unfortunate weather conditions approximately one half of this acreage was abandoned. Most of those who planted it this year will try again next year, and some others plan to plant a small acreage.

HAY CROPS

Our farmers have for several years found that summer legume crops of doubtful value to them because of drouths which usually occur in late summer, and because of the high price of seed. They are turning to the clovers and grasses for their hay supply, as these can be incorporated more successfully into tobacco rotations and can be supplemented if necessary by emergency crops of peas or beans. In nineteen twenty three the average yield per acre of all hay crops was .6 tons. In nineteen twenty four the average was 1.35 tons. This increase was due to the clover and grass lots which had been limed and properly seeded.

GOOD SEED

An effort is being made to induce one or two painstaking men in each community, to produce enough seed of the various farm crops to supply the needs of their own communities. Work along this line is necessarily slow, as not every man is suited to this work. Three farmers

are now growing certified wheat, three farmers and three club boys are growing certified corn, one farmer soy beans, and one, cats.

DAIRY

Charlotte is not essentially a livestock or dairy County. However the limited number of dairy farms are successful. Four of the five dairy herds are Federal Accredited. One Dairyman disposed of fifteen grade cows and replaced them with twelve registered Guernseys.

POULTRY

A marked improvement in the character of the farm flock is attributable to Poultry Club Work. Many mongrel flocks have been replaced by standard bred fowls after the parents have observed the comparison afforded by the club children's birds.

CLUB WORK

There are one hundred and twenty one club members enrolled in eight organized clubs, with four projects. Corn, Pig, Tobacco and Poultry. Twenty two members and one leader attended the State Short Course at Blacksburg. The Club Fair date proved to be a rainy disagreeable day, and many club members were unable to bring their exhibits. One pig club member won first at the State Fair, at Petersburg and at the County Club Fair. A

friend of club work had volunteered to duplicate any premiums he should win on this pig, and so his winnings were fifty two dollars. One hundred thirty one dollars were won in premiums by club members this year.

ORGANIZATION

The Agent has spent considerable time in attending meetings of the forty Tobacco Growers Locals in the County. Some locals meet weekly, others semi-monthly, while others meet monthly or not at all, depending upon local leadership. It is through these local meetings that much timely information is gotten to the people. The County Tobacco Growers Association meets monthly and is composed of delegates from the locals.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Charlotte
Report of Horace E. McSwain County Agricultural Agent.
(Name) (Title)
From December 1st 1923 to November 30th, 1924.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

State or District Supervisor.

State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

<ol style="list-style-type: none"> (a) Soils (b) Farm crops (c) Home gardens (d) Forestry (e) Rodents, predatory animals, and birds. (f) Animal husbandry (g) Dairy husbandry (h) Home dairy (k) Poultry husbandry 	} (including diseases and insects). } (including diseases and insects).
---	--

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

IV. Program of work, etc.—Continued.

(3) Project activities and results—Continued.

- (a) Rural engineering.
- (b) Rural engineering—home.
- (c) Agricultural economics, including farm management and marketing.
- (d) Home marketing.
- (e) Foods.
- (f) Nutrition.
- (g) Clothing.
- (h) Home management.
- (i) Home furnishings.
- (j) Home health and sanitation.
- (k) Community activities.
- (l) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
 - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
 - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-culture, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

4

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

17. A **FARMERS' INSTITUTE** is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN **EXTENSION OR MOVABLE SCHOOL** is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. An extension school differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
19. **RECORDS** consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
20. **FARM OR HOME PRACTICE ADOPTED** is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. 1

Horace C. McSwain County Agent 13
(Name.) (Title.) (Months of service this year.)

2. Number of communities in county where extension work should be conducted. 24 2

3. Number of communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 20 3

4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with— 4

(a) Junior 3 (1) Boys 3

(b) Adult 16 (2) Girls _____

(1) Men 16

166. Total number of different farms adopting improved practices relative to the livestock work reported on pages 14 and 15 _____	4		12		15		166
[Use space below to include other important data relating to livestock.]							

¹ Estimate by count.

RURAL ENGINEERING.

Report only this year's extension activities and results that are supported by records.

167. Number of method demonstrations given	_____	167
168. Number of result demonstrations started or under way	_____ 5	168
169. Number of result demonstrations completed or carried through the year	_____ 9	169
170. Number of farms installing drainage systems this year	_____	170
171. Acres drained	_____	171
172. Number of farms installing irrigation systems this year	_____	172
173. Acres irrigated	_____	173
174. Number of farms constructing terraces or soil dams this year	_____ 9	174
175. Acres on which soil erosion was so prevented	_____ 85	175
176. Number of dwellings constructed this year according to plans furnished	_____ 1	176
177. Number of dwellings remodeled this year according to plans furnished	_____	177
178. Number of sewage-disposal systems installed this year according to plans furnished	_____	178
179. Number of water systems installed this year according to plans furnished	_____ 2	179
180. Number of heating systems installed this year according to plans furnished	_____	180
181. Number of lighting systems installed this year according to plans furnished	_____	181
182. Number of farms on which buildings other than dwellings were constructed or remodeled this year according to plans furnished	_____	182
	(a) Barns _____ 1	
	(b) Hog houses _____	
	(c) Poultry houses _____ 9	
	(d) Silos _____	
	(e) Other _____	
183. Number of buildings involved in preceding question	_____	183
184. Number of farms clearing land of stumps or boulders this year	_____ 8	184
185. Acres of land so cleared	_____ 20	185
186. Total number of different farms adopting improved practices relative to the rural-engineering work reported on this page	_____ 14	186

[Use space below to include other important data relating to rural engineering.]

AGRICULTURAL ECONOMICS—Continued.

Report only this year's extension activities and results that are supported by records.

205. List below this year's results in connection with the cooperative-marketing associations in the county previously organized and with which the extension service counseled or advised.

(a) Name of association or group.	(b) Number of members.	Supplies and products handled.	Supplies purchased.		Products sold.	
			(c) Value.	(d) Quantity.	(e) Value.	(f) Quantity.
Tobacco Growers Cooperative Marketing Association	2820	Tobacco	\$	\$	\$	\$
					10,000 bush	
Total	2820				10,000 bush	

[Use space below to include other important information relating to agricultural economics.]

MISCELLANEOUS.

Report only this year's extension activities and results that are supported by records.

Use this space to include work on any other agricultural project not included in the preceding pages, such as beekeeping, and similar work, i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.

Item.	(a)	(b) ¹	(c) ¹
	Beekeeping.		
206. Number of method demonstrations given			206
207. Number of adult result demonstrations started or under way			207
208. Number of result demonstrations completed or carried through the year			208
209. Number of units in these completed demonstrations			209
210. Number of junior clubs ²			210
211. Number of members enrolled	(a) Boys		211
	(b) Girls		
212. Number of members completing	(a) Boys		212
	(b) Girls		
213. Number of units involved in junior club work completed			213
214. Total number of different farms adopting improved practices relative to the miscellaneous work reported on this page			214
[Use space below to include other important data relating to miscellaneous work.]			

¹ Indicate name over column.² Units which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME-DEMONSTRATION WORK.

FOODS.

Report only this year's extension activities and results that are supported by records.

FOOD PREPARATION.

215. Number of project clubs or groups	(a) Women	215
	(b) Juniors	
216. Number of members enrolled in food preparation	(a) Women	216
	(b) Girls	
	(c) Boys	
217. Number of members completing	(a) Women	217
	(b) Girls	
	(c) Boys	
218. Number of method demonstrations given		218
219. Number of result demonstrations started or under way	(a) Women	219
	(b) Girls	
	(c) Boys	
220. Number of result demonstrations completed or carried through the year	(a) Women	220
	(b) Girls	
	(c) Boys	
221. Number of individuals adopting improved practices in bread making this year	(a) Women	221
	(b) Girls	
	(c) Boys	
222. Number of individuals adopting improved practices in meat cookery this year	(a) Women	222
	(b) Girls	
	(c) Boys	
223. Number of individuals adopting improved practices in vegetable cookery this year	(a) Women	223
	(b) Girls	
	(c) Boys	
224. Number of individuals adopting improved practices in preparation of dairy-product dishes this year	(a) Women	224
	(b) Girls	
	(c) Boys	
225. Number of individuals adopting improved practices in meal preparation and service this year	(a) Women	225
	(b) Girls	
	(c) Boys	
226. Number of homes budgeting the family food supply for the first time		226
227. Total number of different homes adopting improved practices relative to the food-preparation work reported on this page		227

[Use space below to include other important data relating to food preparation.]

* Homes which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

FOODS—Continued.

Report only this year's extension activities and results that are supported by records.

FOOD PRESERVATION.

228. Number of project clubs or groups ¹	(a) Women.....	228
	(b) Juniors.....

249. Number of homes carrying out improved practices in child feeding for the first time.....		249
250. Number of children involved in preceding question.....		250
251. Total number of different homes adopting improved practices relative to the nutrition work reported on this page.....		251

[Use space below to include other important data relating to nutrition.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

CLOTHING.

Report only this year's extension activities and results that are supported by records.

252. Number of project clubs or groups	(a) Women	} 252
	(b) Juniors	
253. Number of members enrolled in clothing work	(a) Women	} 253
	(b) Girls	
	(c) Boys	
254. Number of members completing	(a) Women	} 254
	(b) Girls	
	(c) Boys	
255. Number of method demonstrations given		255
256. Number of result demonstrations started or under way	(a) Women	} 256
	(b) Girls	
	(c) Boys	
257. Number of result demonstrations completed or carried through the year	(a) Women	} 257
	(b) Girls	
	(c) Boys	
258. Number of individuals adopting improved practices in selection and construction	(a) Women	} 258
	(b) Girls	
	(c) Boys	
259. Number of individuals adopting improved practices in renovation and remodeling	(a) Women	} 259
	(b) Girls	
	(c) Boys	
260. Number of individuals adopting improved practices in millinery	(a) Women	} 260
	(b) Girls	
261. Number of individuals adopting improved practices in costume designing	(a) Women	} 261
	(b) Girls	
262. Number of individuals adopting improved practices in infant wardrobe planning	(a) Women	} 262
	(b) Girls	
263. Number of individuals adopting improved practices in children's wardrobe planning	(a) Women	} 263
	(b) Girls	
264. Number of individuals adopting improved practices in adult wardrobe planning	(a) Women	} 264
	(b) Girls	
265. Total number of different homes adopting improved practices relative to the clothing work reported on this page		265
266. Number of dress forms made this year by	(a) Women	} 266
	(b) Girls	
267. Number of dresses and coats made this year by	(a) Women	} 267
	(b) Girls	
268. Number of undergarments made this year by	(a) Women	} 268
	(b) Girls	
269. Number of hats made this year by	(a) Women	} 269
	(b) Girls	

[Use space below to include other important data relating to clothing.]

* States which do not operate clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME MANAGEMENT.

Report only this year's extension activities and results that are supported by records.

270. Number of project clubs or groups ¹	(a) Women	} 270
	(b) Juniors	
271. Number of members enrolled in home management	(a) Women	} 271
	(b) Girls	
	(c) Boys	
272. Number of members completing	(a) Women	} 272
	(b) Girls	
	(c) Boys	
273. Number of method demonstrations given		273
274. Number of result demonstrations started or under way	(a) Women	} 274
	(b) Girls	
275. Number of result demonstrations completed or carried through the year	(a) Women	} 275
	(b) Girls	
276. Number of individuals following a systematized plan of household work for the first time	(a) Women	} 276
	(b) Girls	
277. Number of homes obtaining additional labor-saving equipment this year		277
278. Number of kitchens planned and rearranged for convenience this year		278

	(c) Boys.....	
292. Number of rooms involved in questions 289, 290, and 291.....	(a) Bedrooms.....	292
	(b) Living rooms.....	
	(c) Dining rooms.....	
	(d) Other rooms.....	
293. Total number of different homes adopting improved practices relative to the house-furnishing work reported on this page.....		293

[Use space below to include other important data relating to house furnishings.]

¹ States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME HEALTH—SANITATION

Report only this year's extension activities and results that are supported by records.

284. Number of project clubs or groups ¹	(a) Women	284
	(b) Juniors	
285. Number of members enrolled in home health and sanitation	(a) Women	285
	(b) Girls	
	(c) Boys	
286. Number of members completing	(a) Women	286
	(b) Girls	
	(c) Boys	
287. Number of method demonstrations given		287
288. Number of result demonstrations started or under way	(a) Women	288
	(b) Girls	
	(c) Boys	
289. Number of result demonstrations completed or carried through the year	(a) Women	289
	(b) Girls	
	(c) Boys	

HEALTH²

290. Number of homes adopting recommended health practices this year		290
291. Number of individuals adopting recommended practices in—		291
(a) Use of health score card	(f) Care of skin and hair	
(b) Good posture	(g) Home nursing	
(c) Prevention of colds	(h) First aid	
(d) Good elimination	(i)	
(e) Care of teeth	(j)	

292. Is your health program coordinated with the work of State and county health authorities?	(a) Yes	292
	(b) No	

SANITATION

293. Number of homes installing sanitary closets or outhouses this year according to plans furnished		293
294. Number of homes screened for the first time		294
295. Number of homes following other methods of controlling flies, mosquitoes, and other insects for the first time		295
296. Total number of different homes adopting improved practices relative to the sanitation work reported on this page		296

[Use space below to include other important data relating to home health and sanitation.]

¹ Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

² It is assumed that this work is conducted in cooperation with State and county health authorities.

RURAL ENGINEERING—HOME

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 15.

307. Number of method demonstrations given.....	307
308. Number of result demonstrations started or under way.....	308
309. Number of result demonstrations completed or carried through the year.....	309
310. Number of dwellings constructed this year according to plans furnished.....	310
311. Number of dwellings remodeled this year according to plans furnished.....	311
312. Number of sewage-disposal systems installed this year according to plans furnished.....	312
313. Number of water systems installed this year according to plans furnished.....	313
314. Number of heating systems installed this year according to plans furnished.....	314
315. Number of lighting systems installed this year according to plans furnished.....	315
316. Number of poultry houses constructed this year according to plans furnished.....	316
317. Total number of different homes adopting improved practices relative to the rural-engineering work reported on this page.....	317

[Use space below to include other important data relating to rural engineering.]

BEAUTIFICATION OF HOME GROUNDS

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 12.

318. Number of project clubs or groups ¹	(a) Women.....	} 318
	(b) Juniors.....

	(b) Girls.....	
	(c) Boys.....	
323. Number of result demonstrations completed or carried through the year.....	(a) Women.....	} 323
	(b) Girls.....	
	(c) Boys.....	
324. Number of home grounds planted this year according to a landscape plan.....		324
325. Number of school and community grounds planted this year according to a landscape plan.....		325
326. Number of homes painted or whitewashed this year as a result of instruction in beautification.....		326
327. Total number of different homes beautifying home grounds this year.....		327

[Use space below to include other important data relating to beautification of home grounds.]

¹ Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME GARDENS

Report only this year's extension activities and results that are supported by records.

Do not list information which has been previously reported on page 12.

328. Number of project clubs or groups ¹	(a) Women	328
	(b) Juniors	
329. Number of members enrolled in home gardens	(a) Women	329
	(b) Girls	
	(c) Boys	
330. Number of members completing	(a) Women	330
	(b) Girls	
	(c) Boys	
331. Number of method demonstrations given	(a) Women	331
	(b) Girls	
	(c) Boys	
332. Number of result demonstrations started or under way	(a) Women	332
	(b) Girls	
	(c) Boys	
333. Number of result demonstrations completed or carried through the year	(a) Women	333
	(b) Girls	
	(c) Boys	
334. Number of gardens involved in result demonstrations	(a) Women	334
	(b) Girls	
	(c) Boys	
335. Number of individuals adopting improved practices in growing fruit trees this year	(a) Women	335
	(b) Girls	
	(c) Boys	
336. Number of individuals adopting improved practices in growing bush and small fruits this year	(a) Women	336
	(b) Girls	
	(c) Boys	
337. Number of individuals adopting improved practices in growing grapes this year	(a) Women	337
	(b) Girls	
	(c) Boys	
338. Number of individuals adopting improved practices in growing vegetables this year	(a) Women	338
	(b) Girls	
	(c) Boys	
339. Number of individuals saving improved stock or seed for the first time	(a) Women	339
	(b) Girls	
	(c) Boys	
340. Number of homes spraying or otherwise treating garden crops for diseases and insect pests for the first time	(a) Women	340
	(b) Girls	
	(c) Boys	
341. Number of individuals growing winter gardens for the first time	(a) Women	341
	(b) Girls	
	(c) Boys	
342. Total number of different homes adopting improved practices relative to the home-garden work reported on this page		342

[Use space below to include other important data relating to home gardens.]

¹ Clubs which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME POULTRY.

Report only this year's extension activities and results that are supported by records.
Do not list information which has been previously reported on pages 14 and 15.

343. Number of project clubs or groups	(a) Women	343
	(b) Junior	
344. Number of members enrolled in home poultry	(a) Women	344
	(b) Girls	
	(c) Boys	
345. Number of members completing	(a) Women	345
	(b) Girls	
	(c) Boys	
346. Number of method demonstrations given		346
347. Number of result demonstrations started or under way	(a) Women	347
	(b) Girls	
	(c) Boys	
348. Number of result demonstrations completed or carried through the year	(a) Women	348
	(b) Girls	
	(c) Boys	
349. Number of birds in result demonstrations raised or managed by	(a) Women	349
	(b) Girls	
	(c) Boys	
350. Total profit on result demonstrations conducted by	(a) Women	350
	(b) Girls	
	(c) Boys	
351. Number of individuals culling flocks for the first time	(a) Women	351
	(b) Girls	
	(c) Boys	
352. Number of homes culling flocks for the first time		352
353. Number of birds in these flocks		353
354. Number of birds discarded		354
355. Number of homes feeding better-balanced poultry rations for the first time		355
356. Number of individuals assisted in obtaining standard-bred eggs for hatching this year	(a) Women	356
	(b) Girls	
	(c) Boys	
357. Number of homes assisted in obtaining standard-bred cockerets this year		357
358. Number of individuals adopting improved practices in early hatching and chick rearing this year	(a) Women	358
	(b) Girls	
	(c) Boys	
359. Number of homes directly assisted in increasing the family income this year through poultry		359
360. Number of homes controlling poultry insects for the first time		360
361. Total number of different homes adopting improved practices relative to the home-poultry work reported on this page		361

[Use space below to include other important data relating to home poultry.]

* States which do not organize clubs or groups on a project basis should not report on this question but should report on enrollment and completion.

HOME DAIRY.

Report only this year's extension activities and results that are supported by records.
Do not list information which has been previously reported on pages 14 and 15.

362. Number of project clubs or groups ¹	(a) Women.....	362
	(b) Juniors.....	
363. Number of members enrolled in home-dairy work	(a) Women.....	363
	(b) Girls.....	
	(c) Boys.....
