Organizations - Adults

Our organization consists of one County Advisory Board, ten Community Clubs and one County Conference. Through them the work is kept alive by taking up for consideration such subjects as are most helpful to the people in their respective communities.

Upon these various activities with the assistance of influential leaders a program of work is developed and executed in a manner aiming to appeal to the wisdom of other organizations such as fraternal societies, churches and associations whose cooperation is often sought and obtained.

4

The Community Club discusses crops, soil improvement, home supplies and seed conveniences and plants to accomplish better results.

The Advisory Board acts as a guide to possible different phases of Extension work, decides upon Time and Place for holding County Conference, fairs, and any other important matter bearing upon the work.

Through the influence of our Community Club, in one instance, 79 tons of lime were purchased cooperatively at a saving of \$374.19.

At a time when the Board of Supervisors were considering the advisability of discontinuing the appropriation for the work, the Pres. of our Advisory Board appeared before them and outlined his Board's work. The appropriation was then made without further hesitation.

### Program of Work

As has been stated, methods are employed in the development of the program and its execution as are consistent with the environments of those with whom I work. The various activities in which they are engaged and that indicate most favorable results.

Cooperation of other organizations and influential individuals is generally sought and frequently received. Community cooperation is the primary purpose, cooperation of the masses of the territory and the general welfare is the final purpose.

6

## Junior Organizations

There are (5-) five Junior organizations. In their meetings they discuss their project work and social activities, functioning as a rule upon the same principle as adult organizations.

Three (3) of these organizations sent representatives to the Boys Short Course which was held at Hampton Inst. August

28-31, 1923

Corn Dem. - Adults -

Six (6) corn demonstrations were carried. Projects consisting of from one to five acres each on medium soil. Special attention was given for the purpose of increasing the yield. A total of 715 bushels was produced - an average increase of 15 bushels to the acre over ordinary methods of cultivation.

One demonstrator said: "On a plot which had previously produced only 20 bushels to the acre I sowed seed in the fall for soil improvement, applied 600 lbs 4-8-4-200 lbs to the acre when planting 400 lbs at second plowing and 200 lbs soda to acre preceding March cultivation. rows  $4\frac{1}{2}$  ft apart, hill 18 inches on the row. Forty (40) bushels to the acre was the result."

8

## Corn Dem. - Juniors

Fifteen demonstrations consist-  
ing of 23 acres of poor to medium  
soil, yielded 843 bushels, or an  
average increase of 10 bushels to the  
acre, over ordinary methods.

"My four acre plot yielded 160 bush-  
els of good corn," said J. Carlton  
Fisher "and this was done by thor-  
ough preparation of the seed bed and  
planting good seed. I did not plant  
pure bred seed, but I shall next  
time."

I put 400 lbs 10% fertilizer to the  
acre when planting, 400 lbs second  
plowing, 200 lbs top dressing before last  
plowing. Rows  $4\frac{1}{2}$  ft apart and hills  
20 inches apart. This was on medium soil.

I shall do better next time because  
I shall plant pure bred seed."

Peanut Dem. - Adults -

One (1) demonstration was carried in peanuts with a 2 acre plot which yielded 130 bushels or an average increase of 25 bushels to the acre over ordinary methods of cultivation and manuring.

This was poor land which was seeded with rock in 1921, compared 1922, for soil improvement.

400 lbs of 2-8-4 to the acre were applied along with 400 lbs lime and 200 lbs land plaster which produced the above result.

Peanut Dem. - Juniors

Demonstrators 9. Total acreage 9.  
Yield 485 bushels. Knowing the condition of this land, this was a very satisfactory increase according to the method employed. As a rule, club boys do not get fertile soil for their plots. This is therefore a very good yield for the quality of land.

Cotton Dem. - adults

There are (9) nine cotton demonstrations this year consisting of 26 acres with an average increased yield of 255 lbs to the acre due to better practices, on demonstration methods.  
(Samples should be given.)

Cotton Dem. - Juniors

Two demonstrations <sup>who were there:</sup> in cotton yielded 1800 lbs on 2 acres. There is a very satisfactory increase.

Russell McClemmy said: "My plot was poor but I covered it with pea meal, vines and turned them under deep with a double plow. This was done early in the season and they had time to decay before disking. I had my rows 3 1/2 feet apart and sowed 400 lbs 4-8-4 in drill, left a stand of one and two stalks in hill about 8 inches apart.

Sowed 200 lbs top dressing on this acre and got 1000 lbs good cotton. This is better than paper ever done on the same land."

Soy bean Dem. - adults

We have only one (1) adult demonstrator in Soy beans. He experimented in an endeavor to find out whether a greater profit could be realized by giving corn rows one foot more width and planting the beans in the balk than by planting beans in the row with the corn.

This demonstrator states that there is a decided advantage planting in the balk by at least 20% that there was a better growth of corn and beans. This crop is especially beneficial to farmers in the matter of hog raising. Most of them plant abundant acreage each year.

172  
Soy bean Semi-Juneis

One Club boy demonstrated  
on 1/2 acre using 20 lbs 4-8-4  
realizing there from, approximately  
1,000 lbs hay on half the plot  
and 3 bushels of beans on the  
other half.

It is found that soy beans  
when cut for hay is an excellent  
feed for horses and cattle, when  
care is taken in harvesting.

### Pruning

We have been instrumental in having three (3) orchards pruned in three different communities, consisting of 156 trees. Little attention has been given to care of orchards since the prohibition law.

The agent brought to the attention of a meeting held with the Rosewood Community Club, the improved quality of apples grown in Mr. P. H. D. 12 orchard after three successive years of careful pruning, and the necessity of growing fruit for canning purposes, for exhibit and for sale.

Mutual agreement was reached to begin better care of orchards. It was noticed that an improved quality of apples were exhibited at the last County Fair, and trees are being purchased in greater quantities for transplanting.

## Poultry Culling

Three Culling demonstrations have been held in three different communities with about 15 persons present at each demonstration.

Later on nine (9) other flocks were reported culled with decided increase in egg production following the cull. The breed is gradually improving and eggs are of better quality.

For instance, when culling, a half dozen birds or more, of a particular type and showing improved breed are separated from the flock, all given the same opportunity for exercise and food. The egg production and quality is then compared.  
(with what result?)

### Poultry houses

Poultry houses all over the County, here and there are built upon an improved system, but only three have been built upon purely demonstration plans through the agents direct influence.

The open front is more in evidence than other styles. More attention has been given in an endeavor to eradicate lice and mites. It has been shown that it is entirely impossible to receive profit from chickens infected with lice and mites.

A house was built under the agents supervision for Mr. Joe Porter. After it was finished he said: "I am so pleased with it I shall white wash it and keep it clean; surround it with a lot for the chickens to range, as it is a present for my wife, and I expect to see 500 chickens raised from there next season."

## Boys' Short Course

Carried (7) seven boys to the Short Course which was held at the Hampton Institute August 28-31, four of whom took part in corn judging and testing, and all of them received valuable instruction during the course.

Through the influence of the school faculty, periodical lectures on agricultural subjects were given by experts for the special benefit of the boys.

On the way to the picnic which was given at Shell Banks Farm, the boys were taken <sup>to</sup> ~~to~~ the school Faculty, over Langley field and viewed with awe mixed with great pleasure, the proflanders of the air.

The District agent spared no pains in making it pleasant for the boys.

Boys' Short Course Con'd

John M. Bowers Franklin is  
one of our delegation to the  
Short Course - While crossing  
the James from New Port News  
to Smithfield on our return trip  
from Hampton Inst. - said:  
"I have visited Hampton Inst.,  
and attended the Boys' Short Course,  
and with greater pleasure than  
any place I have ever been  
before, and if I live I shall  
certainly return again as soon as  
my father can spare me to get  
an education for my self so  
that I can be of some good ser-  
vice in the world."

I have good reason to be-  
lieve this boy was absolutely  
sincere.

## County Conference

The regular Annual County Farmers Conference was held Aug. 2 with an attendance of 125 persons.

Different plans of farm management were discussed. Committees for the fastening of the work appointed and officers elected for the ensuing year.

District Agent Thos. B. Patterson was present and addressed the meeting on the subject of farm waste. Local agent of Surry County St. H. Herbert George addressed the Conference in the interest of cooperative marketing. A farmer who attended this Conference remarked as follows: "I shall hereafter take better care of my farm tools and not leave them out in the weather, as I have been doing" This farmer has housed his tools as a result of the District Agent's address on farm waste.

## County Fair

A County Agricultural exhibit was held Nov. 8 with an estimated attendance of 200. The object of the exhibit is to educate the people in progressive farming and to encourage friendly competition in farm products.

A public collection is the only financial feature and this is for the purpose of paying prize winners. The urge patronage of the Fair for the purpose of contributing toward a creditable exhibit; stimulating farm production and as a social aspect and general rural uplift.

Entries this year were not numerous, but the quality was decidedly improved.

Total entries 215. Total amount awarded prize winners \$262.50

## Meetings

Held 68 meetings viz. - Community, Committee, Advisory Board and other public meetings. In these meetings many phases of Extension work have been discussed and worked out. Agricultural and other signs of rural improvement are some of the direct results of these meetings, the actions of which have been transmitted to others by interested attendants.

~~The agent has delivered 66 addresses in the interest of the work.~~ Following is a recommendation of the Advisory Board: "That Community Clubs work jointly with School Leagues in fostering school work, and with all other organizations that are assisting in rural uplift." Ebenezer Community Club assisted School Leagues in raising \$75.00 to help complete school building, and \$40.00 for their extension.

Miscellaneous

Whitewashed 8 farm homes not including in every case, the dwellings some of which were painted. A total of 33 out buildings whitewashed representing 4 communities with a total attendance of 22 at the demonstrations.

Vaccinated 145 hogs in 4 different communities at the same time treated them for lice. The object is to teach and advise the farmer to do this work for himself. One farmer, Jno. E. Johnson has since done a good bit of the work in his community.

Distributed 200 lbs barium carbonate to 100 persons for killing rats. 4000 rats reported killed.

Miscellaneous Can'd.

Made 69 visits to 28 different schools in the interest of school and club work. Rendered special assistance to individuals as follows: helped 11 in marketing products, 5 - home conveniences, 8, meat curing, 15, sanitation.

My object is to create through meetings and otherwise such interest that will inspire people to do this needed and neglected work, for themselves and to correctly instruct them in matters pertaining to the general work.

In instances of help as referred to above assistance was of the kind as follows: grading peanuts to secure better price, explaining marketing conditions of growers' associations and liability for failure to deliver, install water supply demonstration in salting meat, cleaning and liming pines, etc.

Extension Director.

**SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.**

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results secured (including assistance rendered by subject-matter specialists). The making of such a report is of great value to the county extension agent and the county people in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support. This blank form covers simply the statistical phases of the report, and should be supplemented by a full report in narrative form.

**NARRATIVE SUMMARY.**

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results secured under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

**SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.**

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
  - (1) Form of organization—distinctive features.
  - (2) Function of local people, committees, or project leaders in developing the program of work.
  - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed and results achieved.
  - (1) Factors considered and methods used in determining program of work.
  - (2) Project activities and results.
    - (a) Soils.
    - (b) Farm crops
    - (c) Horticulture (including diseases and insects).
    - (d) Forestry
    - (e) Animal husbandry
    - (f) Dairy husbandry (including diseases and pests).
    - (g) Poultry husbandry
    - (h) Rural engineering.
    - (i) Rodents, predatory animals, and birds.
    - (j) Agricultural economics—including farm management, marketing, etc.
    - (k) Foods and nutrition.
    - (l) Clothing and millinery.
    - (m) Home health and sanitation.
    - (n) Household management and home furnishings.
    - (o) Community activities—other than those included under subject-matter headings.
    - (p) Miscellaneous.
- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments in paragraph form, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

### STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if it is desired. The statistical summary will grow naturally out of the field and office records.

#### DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations may be of methods or of results.  
Under method demonstrations include lecture demonstrations, practicums, etc., such as demonstrations of canning methods, home-mixing fertilizers, poultry culture, dress-form making, and the like, all involving short periods of time.  
Under result demonstrations include demonstrations in which a substantial period of time is involved, records of results kept, and comparisons made, as in a child-feeding demonstration, corn-culture demonstration, pasture-improvement demonstration, and the like.
5. A DEMONSTRATOR is an adult or junior who, under the direction of the extension service, undertakes to show in his community by example the practical application of an established fact, and who keeps records and reports on the same.
6. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
7. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions in advancing some phase of the local program of extension work.
8. A COMMUNITY CLUB is an organization of men, women, boys, and girls to further community interests and to promote community recreation.
9. AN OFFICE CALL is a visit or a telephone call by a farmer, or other person, seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
10. A DEMONSTRATION MEETING is a meeting held to give, inspect, or further a demonstration.
11. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the extension agent in office in connection with extension work.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.
17. A FARMERS' INSTITUTE is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home economics problems are discussed, usually by outside speakers employed for the purpose.
18. AN EXTENSION OR MOVABLE SCHOOL is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. A smart course differs from an extension school in that it is held at the college or other educational institution and usually for a longer period of time.
19. RECORDS consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.

## GENERAL ACTIVITIES.

Report only results of extension activities that are supported by records.

1. List below the names, titles, and periods of service of all county extension agents whose work is included in this report.

W. B. Diles
Local agt.

### PROGRAM SUMMARY.

List below information on each project of the program of work for the year. (If an assistant agent has been employed during the year, include his or her time with that of the agent.)

Title of project.	Number of communities participating.	Voluntary leaders.		Days specialists helped.	Days agent worked (office and field).	Number of methods* demonstrated.	Number of results† demonstrated.	Meetings at demonstrations.		Other meetings in relation to projects.		Meetings for training extension workers.
		Number assisting.	Days assistance rendered.					Number.	Attendance.	Number.	Attendance.	
(Illustrative entry)												
Poultry	6	7	13	2	16	3	4	8	104	3	78	
g Poultry	10	2	1		4	2	1	3	75	2	30	✓
Corn	7	2	1		87	3	27	5	19	1	22	✓
f Beans to B.	6	1	1		57	2	10	6	24	3	60	✓
Cotton	9				66	3	11	2	8	2	15	✓

\* See definition on page 3.

† Miscellaneous includes emergency and other work which can not be anticipated in advance.

8-570

## CEREALS.

Report only results of extension activities that are supported by records.

Item	(1) Corn	(2) Wheat	(3) Oats	(4) Rye	(5) Sorgh.	(6) Other*
22. Number of adult result demonstrations started or under way	6					
23. Number of such adult demonstrations completed or carried through the year	5					
24. Acres involved in these completed demonstrations	43				✓	
25. Increased yield per acre on demonstrations due to better practices	10 bu					
26. Number of boys' and girls' clubs	5		✓			
27. Number of members enrolled	(a) Boys 45 (b) Girls 1					
28. Number of members completing	(a) Boys 30 (b) Girls					
29. Number of acres grown by club members completing	34					
30. Total yield of cereals grown by club members	150 bu					
31. Total value of cereals grown by club members	\$15.00	\$	\$	\$	\$	\$
32. Total cost of cereals grown by club members	\$1.50	\$	\$	\$	\$	\$
33. Total number of farms influenced by adult or junior extension work to adopt better practices relative to the growing of cereals (include demonstrators)	500					
34. Acres of cereals involved in question 33	1250					
35. Number of farms planting selected or improved seed	500					
36. Number of farms growing selected or improved seed for sale	4					
37. Number of farms testing seed for germination	1					
38. Number of farms treating seed grain for smut						
[Use space below to include other important data relating to cereals.]						
On the 500 farms which aggregate 1250 acres arranged 33 1/3% are planted to cotton, which is not here treated as a cereal.						

\* Estimate crop by name. † See footnote on page 7.

**POTATOES, COTTON, TOBACCO, AND OTHER SPECIAL CROPS.**

Report only results of extension activities that are supported by records.

Item	(1)	(2)	(3)	(4)	(5)
	Sweet potatoes	Sweet potatoes	Cotton	Tobacco	Other*
85. Number of adult result demonstrations started or under way	1		9		
86. Number of such adult demonstrations completed or carried through the year	1		9		
87. Acres involved in these completed demonstrations	2		26		
88. Increased yield per acre on demonstrations due to better practices	38 bu.	bu.	257 lbs.	lbs.	
89. Number of boys' and girls' clubs			2		
90. Number of members enrolled	(a) Boys		2		
	(b) Girls				
91. Number of members completing work	(a) Boys		2		
	(b) Girls				
92. Number of acres grown by club members completing	✓		2		
93. Total yield of crops grown by club members	bu.	bu.	1800 lbs.	lbs.	
94. Total value of crops grown by club members	\$	\$	\$163.00	\$	
95. Total cost of crops grown by club members	\$	\$	\$28.00	\$	
96. Total number of farms influenced by adult or junior extension work to adopt better practices relative to the growing of these crops (include demonstrators)	500		500		
97. Acres of these crops involved in question 96			1250		
98. Number of farms planting improved or certified seed			500		
99. Number of farms growing improved or certified seed for sale					
100. Number of farms treating seed for disease					
101. Number of farms spraying or dusting for diseases and insects					
102. Number of storage houses constructed this year					
103. Total capacity of these storage houses					
104. Number of crop improvement associations organized during past year at suggestion of extension service					
105. Membership in above associations					

[Use space below to include other important data relating to potatoes, cotton, tobacco, and other special crops.]

*all of our farmers plant both Irish and sweet potatoes for home use - few for sale.*

\*Include crop by name.

†Report yield of cotton in pounds of seed cotton.

‡See footnote on page 7. 2-4775

## HORTICULTURE.

Report only results of extension activities that are supported by records.

Item.	(a)	(b)	(c)	(d)	(e)	(f)
	Tree fruits.	Bush and small fruits.	Grapes.	Market gardening, truck, and nursery crops.	Vegetable gardens.	Flower, shrub, and home grounds.
106. Number of adult result demonstrations started or under way.						106
107. Number of such adult demonstrations completed or carried through the year.						107
108. Acres involved in those completed demonstrations.						108
109. Increased yield per acre on demonstrations due to better practices.	bu.	qts.	lbs.	bu.	bu.	109
110. Number of boys' and girls' clubs.						110
111. Number members enrolled	(a) Boys.					111
	(b) Girls.					
112. Number of members completing	(a) Boys.					112
	(b) Girls.					
113. Number of acres grown by club members completing.						113
114. Total yield of crops grown by club members.	bu.	qts.	lbs.	bu.	bu.	114
115. Total value of crops grown by club members.	\$	\$	\$	\$	\$	115
116. Total cost of crops grown by club members.	\$	\$	\$	\$	\$	116
117. Total* number of farms or homes influenced by adult or junior extension work to change practices relative to these crops (include demonstrators).						117
118. Acres involved in question 117.						118
119. Number of farms planting selected or improved stock or seed.						119
120. Number of farms pruning.						120
121. Number of farms thinning.						121
122. Number of farms spraying or otherwise treating for diseases and insect pests.						122
123. Number of farms following other improved cultural practices.						123
[Use space below to include other important data relating to horticulture.]						

## LIVE STOCK.

\* Report only results of extension activities that are supported by records.

Item.	(A) Horse and mules.	(B) Dairy cattle.	(C) Beef cattle.	(D) Sheep.	(E) Swine.	(F) Poultry.
138. Number of adult result demonstrations started or under way.....					2	138
139. Number of such adult demonstrations completed or carried through the year.....						139
140. Number of animals involved in these completed demonstrations.....						140
141. Total profit or saving on demonstrations resulting from better practices.....						141
142. Number of boys' and girls' clubs.....						142
143. Number of members enrolled.....					7	143
(a) Boys.....						
(b) Girls.....						
144. Number of members completing.....					1	144
(a) Boys.....						
(b) Girls.....						
145. Number of animals involved in club work completed.....					2	145
146. Total value of animals raised by club members.....	\$	\$	\$	\$	\$ 58.00	146
147. Total value of products produced by club members.....	\$	\$	\$	\$	\$	147
148. Total cost of such animals and products.....	\$	\$	\$	\$	\$ 30.00	148
149. Total* number of farms influenced by adult or junior extension work to adopt better practices, relative to live-stock production (include demonstrators).....					57X	149
150. Number of animals involved in question 149.....					400X	150
151. Number of farms assisted in securing pure-bred sires.....					6 47 ✓	151
152. Number of pure-bred sires secured.....					6	152 ✓
153. Number of farms assisted in securing pure-bred females.....					2 47	153
154. Number of pure-bred females secured.....					2	154
155. Number of farms securing pure-bred animals for the first time.....					13	155
156. Number of farms culling flocks or herds.....					12	156
157. Number of stallion, bull, ram, or boar circles, clubs, or associations organized during the year.....						157
158. Number of members in preceding circles, clubs, etc.....						158

\* See footnote on page 7.

6-4070

## LIVE STOCK—Continued.

Report only results of extension activities that are supported by records.

Item.	(4) Horse and mules.	(5) Dairy cattle.	(6) Beef cattle.	(8) Sheep.	(9) Pigs.	(7) Poultry.
159. Number of breed associations or clubs organized during the year.						159
160. Number of members in these associations or clubs.						160
161. Number of cow-testing associations organized or recognized during the year.						161
162. Number of members in these associations.						162
163. Number of farms not in associations testing cows for production.						163
164. Number of cows under test by such associations and individual farms.						164
165. Number of homes assisted in the making of butter and cheese.						165
166. Number of farmers feeding better balanced rations.					50	166
167. Number of farmers controlling insect pests.						167
168. Number of farmers testing animals for tuberculosis.						168
169. Number of animals tested.						169
170. Number of herds accredited this year for the first time.						170
171. Number of farmers vaccinating animals for blackleg.						171
172. Number of animals vaccinated.						172
173. Number of farmers vaccinating animals for cholera.					10	173
174. Number of animals vaccinated.					174	174
175. Number of farmers controlling other live-stock diseases.						175
176. Number of animals involved in question 175.						176
[Use space below to include other important data relating to live stock.]						

*Live stock diseases are not so prevalent for the 3 years since I think the better information obtained through Extension Service, 43 farms on which Redoubt and junior demonstrations were conducted. The diseases have been controlled*

## RURAL ENGINEERING.

Report only results of extension activities that are supported by records.

177. Number of result demonstrations started or under way	177	
178. Number of such demonstrations completed or carried through the year	178	
179. Acres or other units involved in these completed demonstrations	179	
180. Total profit or saving on demonstrations resulting from better practices	180	
181. Number of farms installing drainage systems	181	
182. Acres drained	182	
183. Number of farms installing irrigation systems	183	
184. Acres irrigated	184	
185. Number of farms constructing terraces or soil dams	185	
186. Acres on which soil erosion was so prevented	186	
187. Number of dwellings constructed according to plans furnished	187	
188. Number of dwellings remodeled according to plans furnished	188	
189. Number of sewage disposal systems installed	189	
190. Number of water systems installed	190	
191. Number of heating systems installed	191	
192. Number of lighting systems installed	192	
193. Number of farms on which buildings other than dwellings were constructed or remodeled according to plans furnished	193	
	3	
	(a) Barns	1
	(b) Hog houses	2
	(c) Poultry houses	2
	(d) Silos	
	(e) Other	3
194. Number of buildings involved in preceding question	194	
195. Number of farms assisted in the care and operation of machinery (tractors, power sprayers, milking machines, etc.)	195	
196. Number of farms clearing land	196	
197. Acres of land so cleared	197	

[Use space below to include other important data relating to rural engineering.]

## RODENTS AND MISCELLANEOUS\* INSECT AND ANIMAL PESTS.

Report only results of extension activities that are supported by records.

Item	Rodents	Other animal pests <sup>1</sup>	Grasshoppers	Other insects <sup>1</sup>	
198. Number of result demonstrations started or under way					198
199. Number of such demonstrations completed or carried through the year					199
200. Number of acres in these completed demonstrations					200
201. Total saving or profit on demonstrations resulting from better practices	\$	\$	\$	\$	201
202. Total number of farms adopting control measures					202
203. Number of acres involved					203
204. Number of pounds of poison bait used		(200)			204
[Use space below to include other important data relating to rodents and miscellaneous insect and animal pests.]					
<i>Poisoned baits had a decided effect in the eradication of rats. Approximately 7000 were killed by the State used.</i>					

## AGRICULTURAL ECONOMICS.

Report only results of extension activities that are supported by records.

## FARM MANAGEMENT.

205. Number of farm account books distributed					205
206. Number of farmers keeping records in such account books throughout the year					206
207. Number of farmers assisted in summarizing and interpreting their accounts					207 ✓
208. Number of farmers making changes in their business as result of keeping accounts					208
209. Number of other farmers adopting cropping, live-stock, or complete farming systems according to recommendations					209
210. Number of boys' and girls' farm account clubs					210
211. Number of members enrolled	(a) Boys				211
	(b) Girls				
212. Number of members completing	(a) Boys				212
	(b) Girls				
213. Number of farmers advised relative to loans					213
214. Number of farm management and farm account schools held					214
215. Number of farmers assisted in keeping cost of production records					215
LABOR.					
216. Number of farmers making better use of labor					216
217. Number of farmers securing tractors, spayers, milking machines, or other machinery to economize labor					217

\* Do not include work reported under "Crop" and "Live Stock" headings.

† Indicate by name.

## HOME DEMONSTRATION WORK.

### FOODS AND NUTRITION.

Report only results of extension activities that are supported by reports.

230.1. Number of members enrolled in food and nutrition work 230.1

	(a) Women	
	(b) Girls	

#### FOOD SELECTION.

Item.	Women.	Girls.	
230. Number of result demonstrations started or under way.			230
231. Number of such demonstrations completed or carried through the year.			231
231.1. Number of method demonstrations.			231.1
232. Total* number of homes influenced by extension service to serve better selected food (include demonstrators).			232
233. Number of homes using more fruits in the diet.			233
234. Number of homes using more green vegetables in the diet.			234
235. Number of homes using more milk and other dairy products in the diet.			235
237. Number of homes using more poultry products in the diet.			237
238. Number of homes using more unrefined cereal products in the diet.			238

[Use space below to include other important data relating to food selection.]

#### FOOD PREPARATION.

Item.	(a) Breadmaking.		(b) Meal preparation.		(c) School lunches.		(d) Other.....†	
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.
239 (2425). Number of result demonstrations started or under way.								239 (2425)
240 (2438). Number of such demonstrations completed or carried through the year.								240 (2438)
245. Number * of homes influenced by home demonstration work to adopt better practices relative to food preparation (include demonstrators).								245
245.1. Number of schools influenced by home demonstration work to adopt better practices relative to food preparation (include demonstrators).								245.1

[Use space below to include other important data relating to food preparation.]

\* See footnote on page 7.

† Indicate by name.

## FOODS AND NUTRITION—Continued.

Report only results of extension activities that are supported by records.

## CHILD FEEDING AND CARE.

Item.	Women.		Girls.	
247. Number of result demonstrations started or under way.				247
248. Number of such demonstrations completed or carried through the year.				248
249. Number * of homes influenced by home demonstration work to change practices in child feeding and care (include demonstrators).				249
251. Number of children involved in question 250.				251

[Use space below to include other important data relating to child feeding and care.]

## FOOD PRESERVATION.

Item.	(a) Fruits.		(b) Vegetables.		(c) Meats and fish.		(d) Other †		
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	
254 (254b). Number of result demonstrations started or under way.									254 (254b)
255 (255b). Number of such demonstrations completed or carried through the year.									
256 (260). Total amount preserved	(a) Quarts canned								256 (260)
	(b) Pounds dried								
	(c) Amount brined and cured	qts.	qts.	qts.	qts.	lbs.	lbs.		
	(d) Other								

Item.	Women.	Girls.	
260.1. Number of quarts of jelly.			260.1
260.2. Number of quarts of preserves.			260.2
260.3. Number of quarts of pickles.			260.3
260.4. Number of quarts of fruit juices.			260.4
260.5. Number of quarts of vinegar.			260.5
261. Total value of products prepared by club members.	\$	\$	261
262. Total cost of products prepared by club members.	\$	\$	262
263. Total * number of homes influenced by home demonstration work to adopt better practices relative to food preservation (include demonstrators).			263

[Use space below to include other important data relating to food preservation.]

### CLOTHING.

Report of results of extension activities that are supported by records.

267.1. Number of members enrolled 267.1  
 { Women \_\_\_\_\_  
 { Girls \_\_\_\_\_

Item.	CLOTHING.						Military.		Other.		
	Selection.		Construction and remodeling.		Renovation.		Women.	Girls.	Women.	Girls.	
	Women.	Girls.	Women.	Girls.	Women.	Girls.					
267 (2715). Number of result demonstrations started or under way.											267 (2715)
268 (2725). Number of such demonstrations completed or carried through the year.											268 (2725)
273. Number of garments and hats made by club members completing.											273
274. Number of other articles made by club members completing.											274
275. Total value of garments, hats, and other articles made by club members.	\$	\$	\$	\$	\$	\$	\$	\$	\$	\$	275
276. Total cost of garments, hats, and other articles made by club members.	\$	\$	\$	\$	\$	\$	\$	\$	\$	\$	276
277. Number * of homes influenced by home demonstration work to improve practices relative to clothing (include demonstrations).											277
280. Number of dress forms made according to instructions.											280

[Use space below to include other important data relating to clothing work.]

† Indicate by name.

### HOUSEHOLD MANAGEMENT AND HOME FURNISHINGS.

Report only results of extension activities that are supported by records.

288.1. Number of club members enrolled in household management and home furnishings (a) Women \_\_\_\_\_  
(b) Girls \_\_\_\_\_ **288.1.**

Item.	(a) Budget and accounts.		(b) Equipment.		(c) Kitchen arrangement.		(d) Work planning.		(e) Furnishing and decorating.		
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	
	289 (2025). Number of repair demonstrations started or under way.										
290 (2034). Number of such demonstrations completed or carried through the year.											290 (2034)
294. Number of household furnishings made or refinished by club members completing.											294
297. Total * number of homes influenced by home demonstration work to change practices relative to home management and furnishings (include demonstrators).											297

301. Number of homes installing new equipment other than heat, light, water, and sewage systems (see Rural Engineering, page 24) **301**

302. New equipment involved in question 301:

- |                                  |                                     |
|----------------------------------|-------------------------------------|
| (a) Hand washing machines _____  | (g) Kitchen cabinets _____          |
| (b) Power washing machines _____ | (h) Wheel trays _____               |
| (c) Fireless cookers _____       | (i) Iceless refrigerators _____     |
| (d) Pressure cookers _____       | (j) Electric or gasoline iron _____ |
| (e) Hand sweepers _____          | (k) _____                           |
| (f) Power vacuum cleaners _____  | (l) _____                           |

[Use space below to include other important data relating to household management and home furnishings.]

## HOME HEALTH AND SANITATION.

Report only results of extension activities that are supported by records.

281. Number of members enrolled	(a) Women	281.1
	(b) Girls	
281. Number of result demonstrations started or under way		281
282. Number of such demonstrations completed or carried through the year		282
283. Number of homes given instruction in home nursing and first aid		283
285. Total * number of homes influenced by extension service to adopt better sanitary practices		285
286. Number of houses installing sanitary closets or outhouses		286
287. Number of homes screened		287
288. Number of homes following other methods of controlling flies, mosquitoes, and other insects		288

[Use space below to include other important data relating to home health and sanitation.]

## RURAL ENGINEERING.

Report only results of extension activities that are supported by records.

177. Number of result demonstrations started or under way	177
178. Number of such demonstrations completed or carried through the year	178
187. Number of dwellings constructed according to plans furnished	187
188. Number of dwellings remodeled according to plans furnished	188
189. Number of sewage-disposal systems installed	189
190. Number of water systems installed	190
191. Number of heating systems installed	191
192. Number of lighting systems installed	192

[Use space below to include other important data relating to rural engineering.]

## HORTICULTURE.

Report only results of extension activities that are supported by records.

106.1. Number of members enrolled in horticulture (a) Women \_\_\_\_\_ (b) Girls \_\_\_\_\_ 106.1

Item.	(a)		(b)		(c)		(d)		
	Tree fruits.		Bush and small fruits.		Crops.		Market gardening and raising crops.		
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	
106 (111a). Number of demonstrations started or under way.									106 (111a)
107 (112b). Number of demonstrations completed or carried through the year.									107 (112b)
114. Total yield grown by club members.	bu.	bu.	bu.	bu.	bu.	bu.	bu.	bu.	114
115. Total value of crops grown by club members.	\$	\$	\$	\$	\$	\$	\$	\$	115
115.1. Number selecting and saving seed and stock.									115.1
122. Number spraying or otherwise treating for diseases or insect pests.									122

Item.	(a) 1		(a) 2		(c) 1		(c) 2		
	Part-year garden.		All-year round garden.		Flowers, shrubs.		Planting to a plan.		
	Women.	Girls.	Women.	Girls.	Women.	Girls.	Women.	Girls.	
106 (111a). Number of demonstrations started or under way.									106 (111a)
107 (112b). Number of demonstrations completed or carried through the year.									107 (112b)
114. Total yield grown by club members.	bu.	bu.	bu.	bu.	bu.	bu.	bu.	bu.	114
115. Total value of crops grown by club members.	\$	\$	\$	\$	\$	\$	\$	\$	115
115.1. Number selecting and saving seed and stock.									115.1
122. Number spraying or otherwise treating for diseases or insect pests.									122

[Use space below to include other important data relating to horticulture.]
