Girls of club age in county -----	1,807

IV. STATUS OF COUNTY EXTENSION ORGANIZATIONS

Accomack County is located on the Del-Mar-Va Peninsula. It is forty-five miles in length and averages eight miles in width.

The County is bound on the west by the Chesapeake Bay. On the east by the Atlantic Ocean and State of Maryland joins the County on the north. Northampton County on the south.

The chief source of income for the people comes from fish, oysters, clams, potatoes, strawberries and other trucking crops.

1. Board of Supervisors-

Accomack County Board of Supervisors is elected from the magisterial districts of the county, to-wit: Metompkin, Lee, Pungoteague, Chincoteague and Atlantic. This board meets monthly and has the management of the financial and general affairs of the county.

The first appropriation made by the Board for Home Demonstration work took effect October 1929. Up to the present time it has been in progress two years and one month. During this time the Board has cheerfully given its support to the work. Home visits are made to the members of the Board every two months. Wives of three members are regular attendants at the home demonstration club meetings. These members keep in

H

touch with extension work through their wives. On talking to the Board members one finds they know much about the activities and benefits of the home demonstration work.

At the September meeting the Board cut salaries of all county employees ten per-cent - from janitor to Judge - which of course included extension work and stated the cut had to come in order to reduce taxes.

The County Board of Supervisors, apparently are strong supporters of home demonstration work. With the exception of one member they are truly in sympathy with the work and have offered to assist in any way possible individually or as a Board.

2-COUNTY ORGANIZATION

a. (1) County Advisory Board

Accomack County Advisory Board for home demonstration work is composed of eight extension committees. These committees include fifty-five outstanding women from the five magisterial districts. They were chosen because they had ability for leadership.

The aim and purpose of this board are to assist and advise the agent in planning a program and carrying out the work. Each committee finds the needs of their respective communities and assist in meeting them. The board meets three times a year, February, June and November. These meetings produce a county wide interest and

do much to blot out sectionalism or "neighborhoodism".

The board decide on the major project for the adults and sponsors all leaders meetings, arrange places, gives publicity on the meetings and assists in getting materials and supplies.

Futher information regarding this board will be found under V. Program of Work (2) Woman's Work.

b. (2) 4-H Club Council.

Accomack County 4-H Club Council is made up of the club officers and leaders of the 4-H clubs.

The duties of the council is to sponser club and county activities, assist the county and home demonstration agents wherever possible in carrying on club work. Enrolling members , distributing and getting in club records. The president of the Council presides at all county meetings.

Three meetings are held each year. One in January just after all clubs have elected new officers. At this meeting goals for the year's work are made.

One in August at which time the County Picnic and Rally is held. The most important meeting of the year is the annual Achievement Program held in November. The success of this meeting depends a great deal on the plans made in advance by the council members.

The local papers gives splendid publicity to 4-H club programs. Leading men and women of the Eastern Shore appear on the 4-H Council programs, and many people other than 4-H club members always attend these meetings.

Following is the type of publicity news papers give to the 4-H club council:

4-H CLUB OFFICERS

Reading left to right, front row: Myrre Somers, Vivian Davis, Ethelyn Droughton; Back row: Pop Phillips, Aaron Byrd, Jr., Fulton Ayres and Francis Ruediger.

COUNCIL OF 4-H CLUBS AT ACCOMAC NEXT FR!

All County Chapters To Be Represented and Make Reports

The achievement program sponsored by the 4-H club council will be held November 21 in the Accomac high school auditorium at 1 P. M.

The president of the 4-H club council, Roy Broughton of the Central club will preside and give the address of welcome. Invocation will be given by the Rev. Charles Stewart, pastor of Holy Trinity Episcopal church of Onancock.

A roll call of the club will be made by Mrs. Myrtle Wilkerson Littlejohn of New Church. The following clubs will answer to the roll call and give reports of their year's activities: Belle Haven, Painter, Kellier, Craddockville, Functoneague, Harborton, Central, Oakville, Onancock, Onley, Accomac, Parkside, Wachs-

prague, Shalom, Temperanceville, Saxis, Rosford, New Church, Chincoteague, Greenbackville and Quinsby.

The treasurer's report will be read by G. Walter Mapp, Jr. A report of the Jamesstown camp will be made by James Byrd of the Central club and Durand Parson, New Church, will make a report of the state short course.

A summary of the various projects will be given by club members as follows:

- Crop—William Shrieves—Onancock club.
- Livestock—Spencer Wise—Central.
- Poultry—Fred Bunting—Temperanceville.
- Garden—Edward Ball—Accomac club.
- Clothing—Charlotte Sprague—Parkside.

The membership of the council consists of the officers and leaders of all local clubs.

An invitation to be present is extended to all 4-H club members, parents and friends.

4-H CLUBS OBSERVE ACHIEVEMENT DAY

Francis Ruediger Elected President of County 4-H Club For 1931-32

The conclusion of another successful year of 4-H accomplishment was observed for Accomac county last Saturday at Dayly Memorial Hall of Accomac High School. The program consisted of music, talks, reports, club songs and yells.

The opening announcements were made by the president, Roy Broughton. Harry Mears, Secretary of Eastern Shore Agricultural Fair Association, awarded prize checks and congratulated the winners. He said the association was pleased with the splendid exhibits of 4-H Clubs and promised continued support from the association. Ernest Ruediger gave an excellent talk on loyalty. W. O. Strong talked on objectives of 4-H club work. Bettie Lou Taylor sang a Dairy Club song. "Building a Home for You" was sung by Onancock Club. Special saxophone music was rendered by Prof. John Darin.

Miss Katje Patrieque recognized all 4-H club members in gather around their radio Saturday, November 7th, from 12:30 to 1:30 to listen to the National 4-H Achievement program. Mrs. Hoover will greet the 4-H club members over the radio on that date. Miss Patrieque stated that 845,000 boys and girls are members of 4-H clubs throughout the United States and that Accomac County should have 1,000 members during 1932.

Many excellent reports were turned in to Mr. H. M. Nichols and recognition was given to same. About 17 clubs were represented.

The following officers were elected for 1932 County 4-H Council: President—Francis Ruediger; Vice President—Vivian Davis; Secretary and Treasurer—Ethelyn Droughton; Reporter—Fulton Ayres; Song Leader—Myrre Somers; Cheer Leader—Pop Phillips.

5

3. OTHER ORGANIZATIONS

(1) Accomack County Woman's Club.

This club was most active in getting home demonstration work established in the county. It has a membership of two hundred women and they voted one hundred per-cent in favor of securing a home demonstration agent. When an appropriation was first asked for by the district agent, a committee from the woman's club was appointed to accompany her to call on the board of supervisors.

During the twenty-five months the agent has been in the county the woman's Club has taken an active interest in the work and been a loyal supporter to the agent. The president of the woman's club gave an address at the 4-H club Rally, July 17, 1931. She stressed the importance of girls and boys taking advantage of opportunities offered them in present age.

When the year book for the club was made out, the agent was asked by the president to arrange for a 4-H Club program at the March meeting. The program given by the Club members was even better than had been anticipated. Since the meeting many of the women present have remarked to the agent that they had no idea the girls were receiving such splendid training thru their club work, and they appreciate club work more than ever.

A copy of the program given will be found on the next page.

Summary of Club Activities.

(2) Community Leagues.

All leagues in the county were most active in securing a home demonstration agent. Each league has a home making committee to assist in home demonstration work.

At the regular league meetings reports of the Home Demonstration group meetings are given. Announcements are made as to place and demonstration for following meeting during that month. The Home Demonstration Agent meets with each league when program of work for year is outlined and assists the home makers group in making out program.

Each league gives one meeting over to 4-H Club work. At this meeting 4-H club girls have charge of the program. A demonstration of the appropriately dressed girl is to be given at the league meetings during February. 4-H club girls are also going to prepare and serve the refreshments at this meeting.

**Central Community
Organization Tuesday**

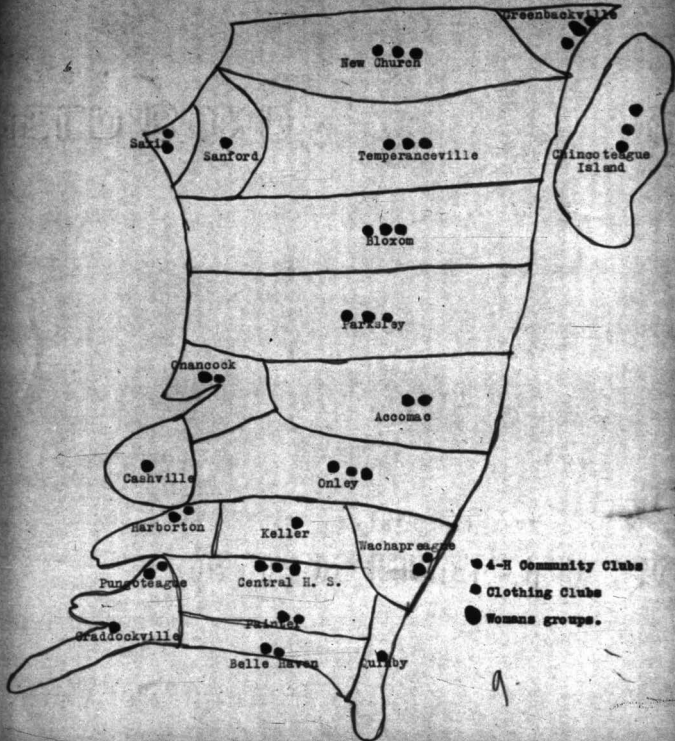

School 4-H Club to Put On An
Interesting Pro-
gram

The next regular meeting of the Central Community Organization will be held at Central High school on Tuesday evening, April 7.

The fifty students of the Central 4-H club will furnish the entertainment.

The public is cordially invited to be present.

V. PROGRAM OF WORK

(2) Woman's Work.

a. The Advisory Board sponsored a "Livable Living Room Campaign" in the county during 1931 which was an outstanding success.

Four hundred and eighteen living rooms have had some improvement as a result of this campaign. Six demonstrations were given in each of the eight home demonstration clubs. They were given in the following order:

- (1) Selection and arrangement of furniture.
- (2) Color in the home.
- (3) Walls and woodwork.
- (4) Windows and their treatment.
- (5) Floors and floor finishes.
- (6) Accessories and pictures.

Good publicity was given all meetings by announcements in newspaper articles, community leagues, church, other organizations and by word of mouth. This increased attendance at group meetings.

The board decided to put on a Living room exhibit at Eastern Shore Fair to demonstrate what had been done in the living room campaign. This fair is a homecoming event for people in this section and about twelve thousand people attend. A committee from each group acted as hosts on alternate days during this event.

11

The furnishings for this room came from homes of club women and had been renovated as result of demonstration meetings.

Following is the type of newspaper publicity given this exhibit and a picture of part of the room:

The Accomack county living room exhibit shown in the International Building at the State fair and arranged by the county ladies, with Miss K. ... home demonstration agent, was an answer to "How can we show what has been done in our living rooms?"

The major project in home demonstration clubs of the county for 1931 was home furniture and home management. Demonstrations were given in refecting and upholstering furniture, making slip covers, making chairs, picture selections, arrangement of flowers and flower containers, selection of covers for walls and doors,

demolishing poor style in refecting and upholstering furniture, making slip covers, making chairs, picture selections, arrangement of flowers and flower containers, selection of covers for walls and doors, and choosing other accessories. This has stimulated interest in refecting old furniture. One aim of the exhibit was to show simple furnishings that any one with old furniture, a little money and some taste could make.

The articles shown in this room were of the colonial or early American period. The only modern piece was a radio and of course the electric lights that shed the light on the

quiet old desk was a whale oil lamp electrified. This room was an outstanding exhibit in this building. To a visitor of the fair, this living room, with its many varied homelike elements, was certainly inviting. G. H. Club girls of the county were the charming hostesses which added to the attraction of this exhibit. Thursday afternoon they enjoyed a little tea party, serving tea from the old Dutch tea table.

The Extension Department from Blackburg has asked Miss Frazier and the club members to have a similar exhibit from Accomack County at the State fair at Richmond.

The advisory board also gave a demonstration in Virginia hospitality when a group of thirty home demonstration club women and their agent, Miss Rose Bryan, passed through the Del-Mar-Va peninsula on an educational tour and summer vacation.

*7 of Durham
N.C.*

They were met by a reception committee from the board as soon as they arrived in Accomack County and escorted to Hotel Wachapreague which is located on a beach of the Atlantic Ocean. After a few minutes rest they boarded a boat for Cedar Island where after taking a swim they were served a sea food dinner. The moonlight was lovely and the sea very calm that night when these happy women returned to their hotel and expressed gratitude to the Accomack Advisory Board who had given them this surprise party.

This is a picture of the North Carolina group with the Accomack Home Demonstration Agent inviting them to "stay over" for this party.

13

V. PROGRAM OF WORK 1-9-3-1-

(2) Woman's Work.

b.

- 1- Increase influence of Home Demonstration Work.
- 2- House furnishings.
- 3- Livable Living Room Campaign.
- 4- Observe Better Homes week.
- 5- Regular Advisory Board meetings.
- 6- Achievement Day for Adults.
- 7- Organize one new Home Demonstration club.
- 8- Work in co-operation with woman's clubs and community leagues.
- 9- Improve type of publicity.
- 10- Make educational tours to other parts of United States.

House furnishings was chosen for 1931 major project because Home Demonstration Work was new in the county and this subject is something that appeals to every normal woman. Much money has been spent by the people of this section, in more prosperous years, for house furnishing. Many homes indicate that a study in the selection of these articles would have made many changes. Too, there were many valuable pieces of furniture tucked away in attics waiting to be resurrected. Valuable old chairs that needed a bit of making over and new bottoms of cane or flag.

After checking over all projects offered in home demonstration work, house furnishing was thought to be the best for Accomack county for 1931. However, foods and nutrition have been chosen for 1932.

2. Women's Work.

Project and Results. Food Preservation.

The interest in food preservation was noteworthy throughout the nation this year because of the decline of farm income. Since Accomack county is strictly agricultural, this was especially true here. The largest attendance at meetings during the year were those on food preservation.

The "need for winter" was what stimulated the desire to can and the home demonstration agent was the one all flocked to for best methods in canning. This also gave an opportunity to introduce a labor saving device, the steam pressure cooker, to the women. All non-acid vegetables and meats were canned by the steam pressure method. Not one woman in the home demonstration group had ever canned in steam pressure until these demonstrations. The only steam pressure cooker I found in the county belonged to a vocational agriculture teacher's wife.

The sealer and tin cans were also new. There are several canning factories in the county and the women made the statement that they did not know tin cans could be sealed out side of a factory. Many are now canning in tin.

A check up was made as to results of these canning demonstrations and one leader, Mrs W. E.

Broughton reported that a neighborhood group met at her home next day after attending a canning demonstration, and 212 $\frac{1}{2}$ cans of corn were canned that day. Many similar reports came in regarding the food preservation demonstrations. Up to this time "keeping" corn and other nonacid vegetables had not been successful.

Another home demonstration club member, Mrs V. S. Burton decided to can sweet potatoes for market, since thousand of barrels were wasting in fields because of no market for them. She added sugar and put potatoes through a ricer and is putting this product on the market for potato pies. This is a delicious product and she plans to operate on a bigger scale next year if results are satisfactory this year.

During July and August every mail was full of requests for canning bulletins. It is obvious that more canning has been done in Accomack county than in any previous year. Women got a better insight into the program of extension work as well as better methods of canning. One hot July day while the agent was giving a canning demonstration in one of the homes, a club member said "I did not know a home demonstration agent would really work like this; when I go home and tell my husband that you are encouraging us to work and enjoy it, he will not fuss anymore when I ask him for the car to attend the meetings!"

Mrs Sallie Doughty sent 12 jars of canned fruit to the State fair and won seven blue ribbons and two

red ones. She got orders for strawberry preserves and fig preserves as result of winning these prizes. Her pantry is the most nearly perfect pantry on the Eastern Shore. She did not can these products for exhibit. She merely picked one of the kind from the shelves and the ones left in the pantry were as good as those on the exhibit shelves at State fair.

There were 116,600 jars canned by women in home demonstration group. The pantry shelves of Accomack county are well-filled with canned fruits, vegetables, chicken, jam, jellies, preserves, marmalade and fruit juices. This measure of thrift has proven that Eastern Shore people can live at home. This also proves the efficiency of home demonstration work.

Following is the type of circular ^{letter} sent to home makers. Also type of newspaper publicity secured for these demonstration.

ASK HOME-MAKERS TO SEE DEMONSTRATIONS

Have Open Event At Pungoteague School Saturday
August 15

Homemakers of Accomack county will have an opportunity to attend a canning demonstration at Pungoteague school house on Saturday, August 15. Miss Katy Patridge, home economics agent, has secured the services of Miss Gladys Kimbrough from Shell Bros., Company, Muncie, Indiana.

(Continued on page 8)

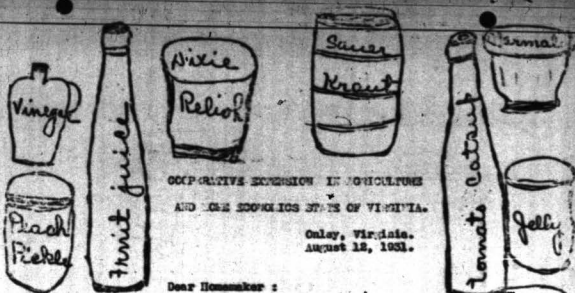

(Continued from page 1)

who is an expert in food preservation, for this demonstration. For the convenience of the busy women two demonstrations will be given; one from 8:30 to 11:00 A. M. and one from 1:30 to 4:30 P. M.—the demonstrations will be similar.

Food preservation is a measure of thrift that is being stressed since Miss Patridge came to take charge of the home demonstration clubs a few months ago. Pantry shelves filled with fruits, vegetables, preserves, marmalades, jams, jellies and other food foods for the winter is the goal the clubs are reaching for now. The best scientific methods and latest labor saving devices are will be seen at these demonstrations. Research and

practical experience have demonstrated that non-acid food products, like beans, corn, peas, fish and meats can not be safely canned by processing in boiling water, but must be sterilized under pressure with approved time and temperature. The College Laboratories and Home Economics Research Dept. of Washington are being brought to the homemakers through the extension programs today and the alert housewife will take advantage of the opportunities given her.

17.

CO-OPERATIVE EXTENSION IN AGRICULTURE
AND HOME ECONOMICS STATE OF VIRGINIA.

Onlay, Virginia.
August 12, 1931.

Dear Homemaker :

If you are interested in any of these foods going into winter quarters in your pantry so that your winter menu will be a pleasure to plan, palatable and well balanced as well as economical you will want to attend a demonstration in canning. That is what I have planned for you Saturday, Aug. 15th at Pamunkey school house. I selected this place because it is spacious, clean and has windows on all sides. There will be two demonstrations given: one Saturday - 9 to 11 a. m. and one 2:30 to 4:30 p. m. The demonstrations will be similar - the two are being given so that more ladies may attend.

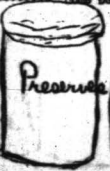

Miss Kimbrough, from Bull Run, Virginia, Lunice, Indiana, who is an expert in food preservation will be there to give the demonstrations. She has also a store in store for you. I had to promise that fifty women could attend her demonstration before I could get her to Accomac. I sincerely trust she will not be disappointed.

May we have the pleasure of seeing you at one or both of the demonstrations ?

- * Home Canning spells - -
- * MEAT, FOWL and
- * CONSERVES

Sincerely yours,
K. B. Bridge, Ext.

Livable Living Room Campaign.

At the winter meeting of the Advisory Board they decided to sponsor their first campaign for "livable living rooms". A committee was appointed, one from each community to work out plans and details for the campaign. The committees in each community enrolled women in this campaign. There were about five hundred enrolled.

One or more improvement was made with or without cost or money. News sheets were mailed the women giving ideas and suggestions on improvements. Many interesting reports of improvements have been given from the women. One family re-seated ²seventeen chairs, an old hand carved mantle was scraped and re-finished.

Leaders Training Meetings.

Three leaders training meetings were held in the major project. A total of fifty-seven women attended these meetings.

Leaders training meetings were a real success. Two women attending the training meeting assisted in the demonstration. They managed their part beautifully. Four clubs, New Church, Pungoteague, Greenbackville and Temperanceville had 100% attendance at all three meetings. These leaders training meetings gives momentum to extension activities that keeps them going in places where the agent can not be present.

These local assisted in arousing interest and

forwarding the home demonstration programs by (1) making arrangements for leaders training meetings, (2) keeping records of clubs, (3) enrolling club members, (4) and giving publicity by passing on to others the instructions they had received.

Community Activities .

Better homes week was observed in three districts by the Home Demonstration clubs. Pungoteague district club meeting came during Better homes week. The meeting was held in Arcadia Theater, at Painter. Demonstration on windows and their treatment was given and a moving picture "home is what you make it" secured from the department of Agriculture was shown. Musical numbers were also on the program. One hundred and fifteen women attended the meeting.

Onley Home Demonstration Club held their "Better Homes" program in the Bijou Theater, The moving picture "Home is what you make it" was shown. Addresses were made by the Methodist Minister of the town and chairman of the county clean up campaign. Seventy-five attended the program.

Temperanceville Club co-operated with the school field-day, assisted the educational committee and bicycle parade.

Community picnics; achievement day, club rally, and similar activities were sponsored by home demonstration

group. The agent had charge of organized play at picnics.

The eight home demonstration groups set as a goal to do something specified for the community during 1932.

Following newspaper article is typical of how Home Demonstration Groups in community activities.

BETTER HOMES WEEK APRIL 26 TO MAY 2

Clean-Up Chairmen For Various Towns Appointed By Clubs

April 26 to May 2nd is Better Homes Week as planned by "Better Homes in America." This educational organization "was started by Mrs. William Brown Maloney in 1922, with the cooperation of Herbert Hoover, who was then Secretary of Commerce, and in December 1923, was incorporated to act as a center of information on all matters relating to home improvement, to encourage thrift for home ownership and to help make accessible to all American families homes of beauty, comfort and convenience. The development of family cooperation, wholesomeness in home life and the building of character are essential features of the movement."

The Accomack County people have cooperated with this work for several years and are showing renewed interest this year.

The County Woman's Club, the local ministers, Community Leagues, Chamber of Commerce, Home Demonstration Committees, merchants, filling stations, grocers, dentists and agricultural agents are all cooperating and backing this movement.

The following members of the Accomack County Woman's Club will act as chairmen, appointing and calling their local clean-up committees: Accomack—Mrs. Edige, Fletcher and Mrs. L. N. Davis; Belle Haven—Mrs. S. S. Kellam; Blossom—Mrs. C. D. Nelson; Chincoteague—Mrs. George Bromley; Cradockville—Mrs. E. A. Finney; Greenbackville—Mrs. E. C. Morris; Harzey—Mrs. Joseph Taylor; Hallwood—Mrs. S. C. Hall; Harborton—Mrs. O. L. Hutchinson; Keller—Mrs. Stanley Ames; Motts—Mrs. G. T. Wesselt; Madout Town—Mrs. Elmer Littleton; New Church—Mrs. H. E. Kelley; Onancock—Mrs. Grayson Buggs, chairman and Mrs. H. W. Bundick, vice chairman; Onley—Mrs. V. S. Burton, chairman and Mrs. F. P. Evans, vice chairman; Parkley—Mrs. J. A. Byrd, chairman and Mrs. Ira Hurd, vice chairman; Palatka—Mrs. Garland Kellam; Pungapoague—Mrs. Alvin Taylor; Tadmor—Mrs. D. C. Wesselt; Temperanceville—Mrs. E. C. Matthews; Wachapreague—Mrs. John R. Brittingham.

Join with your local committee in the good work and help make your town and homes more beautiful, more comfortable and more convenient. The planting of flowers and shrubs is one way in which to participate.

Miss Lawrence and her leaders have appointed the following ladies from the various Home Demonstration Clubs to serve on the local clean-up campaign committees: New Church—Mrs. A. W. Wilkerson; Greenbackville—Mrs. Marvin Arduin; Temperanceville—Mrs. H. W. Diaz; Parkley—Mrs. V. S. Detrick; Blossom—Mrs. Harold Gray Onley; Mrs. Jay Lane; Chincoteague—Mrs. Lida Diskaroot; Madout—Mrs. W. R. Broughton; Keller—Mrs. Anderson Richardson; Belle Haven—Mrs. Hyatt Doerr; Cradockville—Mrs. E. E. Custis; Pungapoague—Mrs. Chas. Taylor; Palatka—Mrs. W. T. Gladstone; Wachapreague—Mrs. C. C. Harmon; Motts—Mrs. W. E. Waters; Harborton—R. R. Custis; Onancock—Mrs. W. E. Moore.

"THE DOINGS OF JOHNNIE AND SARAH"

THERE is no doubt but what the spacious auditorium of the Parkley high school will not be able to accommodate the crowds that will flock there on Friday night of next week for the annual county school "spelling bee." It is also fairly certain that big crowds will flock to the Capeville high school on February 26 and 27, for the annual concert of the Capeville high school orchestra. And then a few weeks later, thousands will fill the Keller Park grounds for the annual Accomack county school exhibit. Add to these three special events, the regular meetings of Parent-Teacher organizations, community leagues, junior leagues, school plays, 4-H Club and demonstration activities, etc. and it will be readily discernible that schools command the attention and interest of parents and "grow-ups" on the Eastern Shore. That thought should be encouraging to superintendents Henry A. Wise and George Oliver, and their corps of teachers.

Schools rush into every phase of community life. The class-room has a larger sphere than the four walls of the school building. The school teacher plays to a "full house" and the "doings of Johnnie and Sarah" are of vital interest to everyone.

21

3. GIRLS WORK.

c. Project Activities.

b. Clothing.

b. There are twenty-one clothing project groups in the county. Reports show that 1268 garments have been made by 4-H Club girls.

There have been demonstration teams trained in the following: care and selection of hosiery; selecting laces for underwear; cleaning and storing clothes; and care of coats.

Vivian Davis of New Church won first in clothing and represented Accomack County at State Short Course. This trip caused her to take new interest in club work. She won \$18.00 at Keller fair on clothing exhibit and took \$10.00 of the money to buy her high school class ring. She used the other buying school books required in school work. She has attended every club meeting during the year, Club Rally, Achievement Day, heard the National Radio program and was influential in getting fair exhibits from her community. Her record book was best sent in from clothing clubs of the county. She gave an excellent report of her trip at Short Course at community league meeting. At Achievement Day Vivian was elected vice-president of the 4-H Council. Her mother states that Vivian has made all of her school clothes this year, and she attributes Vivian's interest in her personal appearance as result of stimulus gained at club meetings.

MHN

3. GIRLS WORK

d. Two leaders training meetings have been held with State Clothing Specialist. Ten leaders attended each meeting. One leaders training meeting was held without Specialist with an attendance of twelve.

Beginning September 1st several changes have been made. The new leaders seem to get a better vision of what 4-H Club work can do for the girls, and the opportunities for service on behalf of the leaders. Lack of good leaders has been the greatest handicap in clothing project this year. An attempt is being made to hold project meetings outside of school with leaders conducting the meetings.

With twenty-one 4-H clubs in the county it is impossible for the agent to get to all the meetings and do other work required of her. Beginning January 1st five meetings are going to be held each month without agent being present. These leaders are going to be trained in passing on to the club members the information and technique which will be given them at the leaders meeting January 1st. Local leaders have assisted in giving instruction in construction process in clothing; enrolling club members; keeping records of the club; arousing general interest in extension work and giving publicity to 4-H accomplishments.

3. GIRLS WORK.

g. Due to the distance and expense to State Short Course only three girls attended from Accomack County this year. Several more would have gone if the home demonstration agent could have attended. Excellent reports were given by those who attended. These have stimulated interest in the short course and one from each club is expected to attend next year. There was no county short course held.

Dorothy Pardee, who attended was voted an all star. This came as a surprise to herself and her parents. Dorothy is an outstanding member in New Church 4-H club. She had charge of a recent 4-H program given at community league.

At the meetings during November the girls voted to raise enough money during the year to send a representative from their club to the state short course next year with all expenses paid. It is hoped that this will stimulate interest in keeping better record books because the record books is to count 75% in scoring the member who attends. Plans for conducting a three day short course for the county have been discussed and many of the leaders think a county short course could be made a success.

VII a. Fairs and Exhibits.

(b) Quality and not quantity was stressed in 4-H building at Eastern Shore Fair by clothing club girls. Judging was no easy job because of excellent workmanship in clothing work. Twenty-six girls won prizes at this fair.

The 4-H building was decorated in club colors and received favorable comment from visitors. A dress revue was staged in front of the grand stand Thursday evening before several thousand people. A reception was held in 4-H building immediately after the revue. 4-Y girls were hostesses and answered questions regarding 4-H work. Wednesday of the fair week was 4-H day. Each member was admitted free at the gates. Demonstrations were given each day by the girls. The exhibits at fairs aid in putting 4-H work before the public. Since much knowledge is gained by seeing, and many people go to fairs who know nothing of extension work, (a wonderful opportunity to advertise 4-H work.)

Following is an editorial written during fair week:

AIMING THE FARMER

Among the many schemes which have been projected in the past few years by politicians and others in real or pretended efforts to aid the farmers of the country, very few have borne of any practical benefit. In fact, some of them have been productive of more harm than good.

But there is one species of government aid, at least, which has on the whole been really helpful. It is the agricultural extension service, whereby farm and home demonstration agents, trained for their important duties, have gone among the farmers, their wives and daughters, and taught them how to help themselves.

The various field and home projects and demonstrations carried on by these faithful workers, often under the most discouraging circumstances, have materially raised the efficiency of farming and rural home-making.

Especially effective work has been done with the boys' and girls' clubs; work which will exert a tremendous influence upon the rural life of the future. This training of farm boys and girls for community leadership is perhaps the most important activity for the betterment of agriculture today.

San Jose, California, June 27, 1931

25

VII. Fairs and Exhibits.

Women took part in two fairs- Eastern Shore Fair and State fair. A living room exhibit was shown as a result of work done in house furnishing project.

Leaders from each group acted as hostesses in the exhibit at Eastern Shore fair. The room was furnished with articles from homes of demonstration club members.

This same exhibit was one of the twelve in extension building at State fair at Richmond. One leader and home demonstration had charge of this exhibit. This was first exhibit of womens work from Accomack County to be on display at the State fair. Splendid co-operation was given in getting this exhibit together.

A picture of this exhibit was sent under County Council work.

Following is a clipping from a farm paper concerning the exhibit at the State fair;

AGRICULTURE, UNIVERSITY

EXTENSION SERVICE

Onley, Virginia,
July 7, 1931.

July 17th is ACCOMACK'S 4-H CLUB RALLY - At Experiment Station, Onley, Virginia. The program will begin promptly at 10:30 A. M. on the lawn.

The day will include such interesting features as the following: The awarding of a prize to the club that has the largest percentage of attendance; recognition of best yells and best song from each club.

STYLE REVUE: Each girl must bring their outfit neatly pressed with statement of cost. Also record book. After judging wormanship the dress will be worn in a revue and scored as to color harmony etc.

The speakers of the day will be Mrs. Chas. R. Waters, Mr. J. H. Quisenberry, Dr. W. J. King and Mr. W. O. Strong.

The social feature will be in charge of W. J. Francis, formal physical director of the C. & O. Railroad.

Everyone will be expected to bring a picnic lunch and free lemonade will be served all during the day. Come and bring someone with you.

Looking forward to the 17th, we are

Sincerely yours,

Katje Patridge Home Dem. Agent.
H. M. Nichols Asst. County Agent.

V.

(S) Club Rally:

One of the outstanding events of Accomack's 4-H club program was the Rally staged July 17th, at the Eastern Shore Experiment Station in Onley. There was a large attendance of members, parents and leaders. The Rally was called to order by Doratha Pardee and club pledge led by Austin Mears. Welcome address was given by extension agents. Mrs. Chas. Waters, president of the womans' club of Accomack county gave an excellent talk on "Opportunities offered to boys and girls of to-day". Essential qualities of leadership was discussed by Mr. J. H. Quisenberry, District Agent of this section. The clothing club exhibit was judged by Mrs. J. Land and Isabel Custus a former club member and All Star. Awards were made to the winners and a demonstration on the selection and care of hosiery were given by two girls. After this came a report of the Jamestown Camp. A picnic lunch and 'pink' lemonade was served on the lawn and the afternoon was given over to games, songs and other social features.

On the following page a picture of the winners and part of the revue will be seen-

Winners in clothing contest and part of the dress
revue-

V. GIRLS' WORK : (g)

(c) District Camp: Sixteen 4-H club girls attended the District Camp held at Jansstown with two local leaders. There were thirty-six girls and boys who attended this camp from Accomack county. Many more had planned to attend but due to the expense of attending the camp and low price of potatoes only this number went. This camp was the outstanding event in the summer for these boys and girls. They made contact with 4-H club members from other counties of Virginia. Accomack home demonstration agent gave talks each day to three different groups on "Every Day Courtesies" Following is a picture of a group during one of these talks. On the closing day of the camp a demonstration was given by members of these groups on the "Courteious Thingsto at Mealtine".

Other pictures of the camp will be found on the following page-

Cooperating - Extension Service.

Onley, Virginia.

August 17, 1931.

Dear Club Member:

Re: Keller Fair August 24 - 29

Our Agricultural Fair begins Monday August 24th at Keller Fair Grounds. As you know there has been an increasing interest taken in the 4-H Exhibits, not only by the patrons of the fair but by the fair officials also. Each year better conditions have existed and the prize values have increased.

This added interest and increased prize values should induce every club member to exhibit their project.

You will remember that one of the articles in our Club Council states that each 4-H club member should make an exhibit at Keller County Fair.

Now get together your garden vegetables; melons; corn samples; poultry; eggs; pigs; dresses etc.

Exhibits will be received at the Fair grounds on Saturday August 22 and on Monday 24th until 12:00 P. M. Poultry and livestock should not be brought in until Monday the 24th.

A main gate ticket and a grandstand ticket for club day, Wednesday, August 26th will be given to each exhibitor.

If we can help you select your project or give advice concerning same, don't fail to call on us.

Hoping to see you at Keller Fair with a good exhibit, we are

Sincerely yours,

Katy Patridge Home Demonstration Agent

H. M. Nichols Asst. County Agent.

Part of the group who attended Achievement Day October 31st-

VI. PLAN OF WORK

*****1-9-5-1*****

GOALS

ACCOMPLISHMENTS

- | | |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| 1- Short Courses and Camps:
Have high standards for:
delegates to attend the:
District Camp and State:
Short Course. Have all :
Clubs represented. : | Outstanding members from fourteen
out of twenty-one clubs attended
District Camp. Three attended State
Short Course. |
| 2- County Rally Day to be :
held during the summer-
Place to be decided by :
committee. : | Rally Day held July 17th at Eastern
Shore Experiment Station. |
| 3- Each 4-H club to hold :
a meeting each month :
: | During school months every club held
a meeting each month. During summer
months several did not hold meetings. |
| 4- Exhibit at Eastern Shore:
Fair and State Fair : | Excellent exhibits at E. S. fair.
None at state fair. |
| 5- Goals set for 100% com-
pletions of all projects: | Out of 317 enrolled in club work
290 sent in record books. |
| 6- Organize two new Clubs: | Two new clubs organized. One on
Tangier Island and one at Sanford. |
| 7- One public program given:
by each club during the :
year : | Public programs have been given by
60% of clubs during the year. |
| 8- An active leader foresch:
4-H club : | Each club has a leader. |
| 9- An active 4-H club coun-
cil : | A 4-H club Council which has been
very active. |
| 10- Hold county 4-H Achiev-
ement Day in Fall : | Achievement Day held October 31st. |

VIII.

SUMMARY

A greater number of people received the benefits of home demonstration work in Accomack county during 1931 than in any previous year because food preservation demonstrations reached homes that had not been reached in the house furnishing demonstrations. All types of homes have responded to the extension programs. Too, there has been many underprivileged homes reach thru co-operating with the Associated Charities. It is interesting to check up on all types of homes that the home demonstration work has reached. The woman who has leisure, money and an inheritance of valuable antique furniture was just as eager to attend the demonstrations in refinishing furniture as the woman who came to canning demonstrations because necessity demanded that she store food for winter months.

The per-centage of completions in girls clothing clubs has been satisfactory. Due to the small number of girls enrolled in these clubs close contact has been made with them. The agent has visited in about seventy-five percent of these homes- there she finds all classes- ranging from the daughters of the wealthiest and most aristocratic to the daughter of the poor old fisherman who just drifted here from somewhere- or nowhere.

Appreciation and understanding of home demonstration work is increasing with every home demonstration or 4-H club meeting.

325

VIII.

SUMMARY

"Are you satisfied?"-

No! I am not satisfied. First there is no office for the home demonstration agent. There is a small room in the home home of the county agent that is officially the office. There is a desk and chair in this office the home demonstration may occupy if no one happens to be using it at the time she arrives. The county agent, 4-H club agent, their stenographer, home demonstration agent's desk, filing cabinets and all bulletins and farm papers since "1492" occupy this one room which is about 14x16 feet. It would add dignity to extension work in this county if better offices could be provided. Most of my office and telephone calls come to the place where I board which is not the appropriate way things should be done. One goal for 1932 is to get an office somewhere somehow.

Another great need is the improvement of the type of club meetings which are held jointly with the boys during the school hours. Obviously, this must be done if the continued co-operation of teachers is expected. The forty minutes of this time taken from the school hours can do much for the success of 4-H club work if the proper kind of program is rendered.

Club work is not reaching as many girls as it should. However, judging from the number of new members enrolled this will be satisfactory next year. Club work should extend its activities into a wider range of interest. Girls of

than this year's program has given. Girls of this county need to know more about the value of money and to earn more money from club projects. The programs have been too loosely organized and supervised. The club members do not depend upon their own initiative and judgement in carrying on their projects. There is need of something to stimulate the club members to realize the importance of doing all that is required in the club project work. The 4-H clubs of the Eastern Shore need to develop thrift habits. There is need of more interest and co-operation on the parents part. Every girl who is outstanding in club work here this year has a mother back of her encouraging and helping in every way possible. It is hoped that more systematic instruction can be given this year thru the effective leadership of the clubs. Much time is going to be spent this year with the leaders giving them well-defined objectives of club work and a vision of the possibilities of what club work can do for the girls in this section of the country.

As long as people^{are}/~~ix~~ satisfied there is no advancement - the first step has already been taken for improvement-"to be conscious there is a need for improvement-" the next steps will be reported in 1932.

12. GOALS FOR 1932 ----- 4-H Clubs:

- (1) Increase club enrollment 50%
- (2) Major project Home Improvement (Girl's bedroom)
- (3) Hold meetings in homes with assistance of local leaders
- (4) More meetings to be held by local leaders without agent
- (5) Club Rally and Achievement Day
- (6) Work toward raising standards of club meetings
- (7) Each club hold special program for parents and leagues
- (8) Improve the keeping of record books -better records
- (9) Club Day at county Fair more and better exhibits
- (10) Secure more prizes for club work. Have representatives at Camps and State Short Course-

GOALS FOR HOME DEMONSTRATION GROUPS:

Home demonstration groups have chosen for their major project for 1932 Foods and Nutrition. This will be carried on as outlined by the Extension Division of the State and the Specialist in Foods and Nutrition. Local leaders will be called on to give many demonstrations when the agent busy at other meetings. Along with this project other club activities, home beautification, house furnishing, rural engineering, clothing for the family, health and sanitation, self improvement and community work will be part of the program. The home demonstration agent is going to assist in every way possible to get ~~more~~ more women interested in making homes more comfortable, more beautiful and more attractive and happier for the families; themselves better mothers and homemakers and happier in their own lives; the communities better places to live with a people united solidly in minds and hearts, marching forward to better things.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT

The annual report should be a summary, with analysis and interpretations, for presentation to the people of the county, the State, and the Nation of the extension activities in each county for the year and the results obtained by the county extension agent, assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support of extension work.

Separate statistical and narrative reports are desired from each leader of a line of work, such as county agricultural agent, home demonstration agent, boys' and girls' club agent, and negro agent, regardless of title. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more agents are employed in a county, each a leader of a line of work, statistics should not be duplicated.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

NARRATIVE SUMMARY

The narrative report should summarize and interpret the outstanding results accomplished and the extension methods used, under appropriate subheadings, for each project. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with necessary data from the statistical summary. Use an interesting style of writing, giving major accomplishments first under each project. Give extension methods fully relating to outstanding results only, and where practicable illustrate with photographs, maps, diagrams, blue prints, or copies of charts and other forms used. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented. Each agent should adapt the outline to the situation and the work to be reported.

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work; listing goals set up, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

<ol style="list-style-type: none">(a) Cereals.(b) Legumes and forage crops.(c) Potatoes, Irish.(d) Cotton.(e) Tobacco and other special crops.(f) Home gardens and home beautification.(g) Market garden and truck crops.(h) Fruits.(i) Forestry.(j) Rodents and miscellaneous insects.(k) Agricultural engineering and home engineering.(l) Poultry.	<ol style="list-style-type: none">(m) Dairy.(n) Other livestock.(o) Farm management.(p) Marketing, farm and home.(q) Foods and nutrition.(r) Child training and care.(s) Sewing.(t) Home management.(u) Home furnishings.(v) Home health and sanitation.(w) Community activities.(x) Miscellaneous.
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------
- V. Outlook and recommendations, including suggestive program of work for next year.
- VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting:

DEFINITIONS OF TERMS USED IN THIS REPORT

1. A program of work is a statement of the specific lines of extension work to be undertaken by the extension agent during a year or a period of years.

2. A plan of work is a definite outline of procedure for carrying out the different phases of the program of work. Such a plan provides specifically for the means to be used and the methods of using them. It also shows what, how much, when, and where the work is to be done.

3. A community is a more or less well-defined group of rural people with common interests and problems. Such a group may include those within a township, trade area, or similar limits. For the purpose of this report a community is one of the several units into which a county is divided for conducting organized extension work.

4. A project leader, local leader, or committeeman is a person who, because of special interest and fitness, is selected to serve as a leader in advancing some phase of the local extension program. A project leader may be either an organization or a subject-matter leader.

5. Demonstrations as contemplated in this report are of two kinds—method demonstrations and result demonstrations.

A method demonstration is a demonstration given by an extension worker or other trained leader for the purpose of showing how to carry out a practice. Examples: Demonstrations of how to can fruits and vegetables, mix spray materials, and cull poultry.

A result demonstration is a demonstration conducted by a farmer, home maker, boy, or girl under the direct supervision of the extension worker, to show locally the value of a recommended practice. Such a demonstration involves a substantial period of time and records of results and comparisons, and is designed to teach others in addition to the person conducting the demonstration. Examples: Demonstrating that the application of fertilizer to cotton will result in more profitable yields, that underweight of certain children can be corrected through proper diet, or that the use of certified seed in growing potatoes is a good investment.

The adoption of a farm or home practice resulting from a demonstration or other teaching activity employed by the extension worker as a means of teaching is not in itself a demonstration.

6. A result demonstrator is an adult, boy, or girl who conducts a result demonstration as defined above.

7. A cooperator is a farmer or home maker who agrees to adopt certain recommended practices upon the solicitation of an extension worker. The work is not directly supervised by the extension agent and records are not required, but reports on the success of the practices may be obtained.

8. A 4-H Club is an organized group of boys and/or girls with the objectives of demonstrating improved practices in agriculture or home economics, and of providing desirable training for the members.

9. 4-H Club members enrolled are those boys and girls who actually start the work outlined for the year.

10. 4-H Club members completing are those boys and girls who satisfactorily finish the work outlined for the year.

11. A demonstration meeting is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.

12. A training meeting is a meeting at which project leaders, local leaders, or committeemen are trained to carry on extension activities in their respective communities.

13. An office call is a call in person by an individual or group seeking agricultural or home-economics information, as a result of which some definite assistance or information is given. A telephone call differs from an office call in that the assistance or information is given or received by means of the telephone. Telephone calls may be either incoming or outgoing.

14. A farm or home visit is a call by the agent at a farm or home at which some definite information relating to extension work is given or obtained.

15. Days in office should include time spent by the county extension agent in his office, extension conferences, and any other work directly related to office administration.

16. Days in field should include all days spent on official duty other than those spent in office.

17. Letters written should include all original letters on official business. (Duplicated letters should not be included.)

18. An extension school is a school usually of two to six days' duration, arranged by the extension service, where practical instruction is given to persons not resident at the college. An extension short course differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time.

19. Records consist of definite information on file in the county office that will enable the agent to verify the data on extension work included in this report.

GENERAL ACTIVITIES

Report Only This Year's Activities and Results that can be Verified

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.

Marion M. Lawrence County H.D.A. (Dec. 1st - ~~June 31st~~)
(Name) (Title) (Months of service this year)
 Katya L. Pettridge County H.D.A. (June 1st - Nov. 30th)
(Name) (Title) (Months of service this year)

2. County extension organization or association.

(a) Name Advisory Board

(b) Number of members (1) Men _____ (2) Women 55

3. Number of communities in county where extension work should be conducted 10

4. Number of above communities in which the extension program has been cooperatively worked out by extension agents and local committees 10

5. Number of different voluntary county or community local leaders or committeemen actively engaged in forwarding the extension program.

(a) Adult work (1) Men _____ (2) Women 55

(b) 4-H Club work (1) Men _____ (2) Women 26
 (3) Older club boys 4
 (4) Older club girls _____

6. Number of clubs or other groups organized to carry on adult home demonstration work 8

Home Demonstration Clubs

7. Members in above clubs or groups 807

8. Number of 4-H Clubs 21

9. Number of different 4-H Club members enrolled (a) Boys' _____ (b) Girls' 317

10. Number of different 4-H Club members completing (a) Boys' _____ (b) Girls' 240

11. Number of members enrolled in 4-H Club work for:

10 Year 11 Year 12 Year 13 Year 14 Year 15 Year 16 Year

(a) Boys _____
 (b) Girls 83 ~~83~~ 234

12. Number of 4-H Club members according to age.

	Age	10	11	12	13	14	15	16	17	18	19	20
Boys												
Girls		42	50	56	10	40	24	17	8	8		

* Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the present enrollments reported on pages 8 to 20, less any duplications due to the same boy or girl carrying on two or more subject-matter lines of work.

PROGRAM SUMMARY

List below information on each subdivision of the program of work. Include under each heading all of the work done with men, women, boys, and girls. If an assistant agent has been employed include his or her time with that of the agent. This page should not be filled out until the questions on the following pages have been answered. Estimate where records are not available.

Line of work	Number of communities or other units participating	Number of leaders or assistants	Days spent in field with line of work	Days spent directed in line of work	Number of meetings held in relation to line of work	Number of survey studies published	Number of different advisory letters issued	Number of films or home visits made	Number of office calls received
	(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	(i)
26. Cereals (page 5)								1	28
29. Legumes and forage crops (pages 9, 10)									29
35. Potatoes, Irish (page 11)									40
41. Cotton (page 11)									41
43. Tobacco and other special crops (page 11)									42
43. Home gardens and home beautification (page 12)	8	8		12	8			8	43
44. Market garden and truck crops (page 12)									44
46. Fruits (page 12)									45
46. Forestry (page 12)									46
47. Rodents and miscellaneous insects (page 12)									47
48. Agricultural engineering (page 14)									48
49. Poultry (page 15)									49
50. Dairy (page 15)									50
51. Other livestock (page 15)									51

63. Organization—extension association and committees	10	70	6	24	25	60	2	16	8

* Days do not check because several projects may be included in one day.

(The totals for these columns do not necessarily check with the information given on pages 4, 5, and 6, since one meeting, farm visit, circular letter, etc., may relate to two or more lines of subject matter.)

† Under "building the extension program" include all work incident to the collection of accounts and total data as a basis for determining programs, the conducting of program surveys, and the outlining of county, district, and community programs. Do not include work related to the execution of programs, as this should be reported under the projects shown.

‡ Under "organization" include all work incident to maintaining extension associations, agricultural councils, home demonstration councils, advisory committees, project committees, community committees, and the like not reported under building the extension program.
