4. Agronomy.
5. Soil Conservation.
6. Home Gardens.
7. Small Fruits.
8. Growing Certified Seeds.
9. Commercial Vegetables.
10. Reforestation.
11. Summary.

This is a brief summary of the activities and accomplishments of extension work in Dickenson County for the year beginning December 1, 1939 and ending November 30, 1940.

4-H CLUB WORK:

The agent has organized in Dickenson County two 4-H Clubs consisting of one hundred and four boys and girls. The Clintwood 4-H Club contains sixty-seven members and the Trunkor's 4-H Club at West Dante contains thirty-seven members.

The Agent and 4-H Club leaders have met with these clubs semi-monthly holding training meetings, demonstration meetings, and socials. The Agent has visited a number of these projects assisting the members in caring for their projects and keeping good records.

AREA DEMONSTRATION FARMS:

We have at present nine area demonstration farms lying within the drainage of the Clinch River Watershed. The Agent has assisted these farmers in working out better crop plans for their farms, stressing the use of lime and phosphate, winter cover crops, and reforestating - planting locusts, shortleaf and white pines for soil erosion.

The Agent has held field tour meetings on these farms, stressing the use of better pastures, certified seeds, and seeding more legumes, such as alfalfa, winter vetch, crimson clover and rye.

UNIT DEMONSTRATION FARMS:

We have at present fifty-six unit demonstration farms in different communities in the county consisting of the different types of soil on various slopes. The agent has worked with these demonstrators, visiting said farms from time to time during the summer and fall months, working with the farmer in getting a sounder crop rotation plan, holding field tour meetings showing the results of the use of phosphate and lime, cutting and weighing clippings of treated and untreated acres, showing the increase of meadows and pastures where phosphate was applied with lime and without lime. Showing the demonstrator the increased length of grazing season where phosphate has been applied. Also, the increase of livestock for the farm since the farm was set up as a demonstration farm.

AGRONOMY:

The Agent has visited and made crop plans, testing the acidity of the soil of more than two hundred farms in the county and stressed the use of lime. More than three hundred tons have been applied on meadows and pastures within the last year. Selecting and purchasing better sires and having each demonstrator to purchase or breed to purebred sires. The beef cattle have been greatly increased.

The Agent has urged farmers to take out of cultivation their steep and hilly land and place it in grass, planting forest trees on some of the steeper and rougher slopes. More than one hundred and twenty-five acres have been planted in forest trees such as locusts and white pines on this type of land.

SOIL CONSERVATION:

Through the leadership of the County Agent we have worked with seven hundred and seventy-five (775) farmers on soil conservation, getting better farm plans, stressing the seeding of more cover crops, such as crimson clover, rye, and barley, liming and phosphating meadows and pastures, turning under green manure crops, planting and thinning forest timber land and placing one hundred and twenty-five (125) or more farms under crop rotation plans, educating the farmers of the importance of doing better farming by the use of seeding more grasses, legumes, phosphating, planting forest trees and growing more small fruits.

HOME GARDENS:

The County Agent has worked with more than five hundred (500) farmers with the help of the vocational agricultural teachers, WPA, NYA, and the Farm Security Administration supervisors in having these farm homes to grow an all-year-around garden, which we think is one of the best projects for "live at home".

SMALL FRUITS:

The County Agent, with the help of Specialist, has organized in the county a small fruit project in which fifty acres are now planted in strawberries and raspberries. Visiting these small fruit farms from time to time, stressing cultivation, fertilization, mulching, picking, grading, and marketing said fruits, a result of which this year a number of farmers have received a good profit from their projects. The Agent and Specialist are still working with farmers in trying to make small fruits a major project in the county.

GROWING CERTIFIED SEEDS:

The Agent has worked with demonstration farmers, soil conservation farmers, and 4-H Club members stressing the importance of growing certified seeds, such as corn, red clover, potatoes, etc., and we have an increased number of farmers carrying out these practices.

COMMERCIAL VEGETABLES:

The Agent, with the aid of specialists, Farm Security Administration, other Federal Agencies, and the Agricultural Board has set up two major projects in the county, growing Irish potatoes and Kale, and securing markets for same.

REFORESTATION:

The County Agent has worked with the Forestry Service, University of Virginia, through the local CCC Camp and has been successful in planting more than one hundred and twenty-five (125) acres of locust, white and short-leaf pine and yellow poplar during the past year and is now working with the Tennessee Valley Authority in the watershed area in our county in securing trees.

Proper thinning of forest trees, fencing and protecting against forest fires has been practiced, which the Agent and Soil Conservation committeemen think is one of the most outstanding pieces of work that can be done in our mountain county.

SUMMARY:

The County Agent thinks that this narrative report shows the work and accomplishments of the following County Agent work in Dickenson County for the past year: 4-H Club Work, Area Demonstration Farms, Unit Demonstration Farms, Agronomy, Soil Conservation, Home Gardens, Small Fruits, Growing Certified Seeds, Commercial Vegetables, and Reforestation.

16-2225

State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT

The annual report should be a summary, with analysis and interpretations, for presentation to the people of the county, the State, and the Nation of the extension activities in each county for the year, and the results obtained by the county extension agents assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agents and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support of extension work.

At least four copies of the annual report should be made: One copy for the county official, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

STATISTICAL SUMMARY

Where two or more agents are employed in a county they should submit a single statistical report showing the combined activities and accomplishments of all county extension agents employed in the county during the year. Results obtained through assistance rendered agents by specialists should also be included. This report shows, insofar as possible, the part each agent has taken in forwarding the extension program. The county totals should be the sum of the activities and accomplishments of individual agents minus duplications due to two or more agents participating in the same activity or accomplishment. The county totals, when properly recorded, show the progress made in the county during the year in forwarding the entire extension program. Negro men and women agents should prepare a combined statistical report separate from that of the white agents.

The statistical summary should be a report of this year's activities and results that can be verified by records on file in the county office. Where records are not available careful estimates are desired. Such estimates should be marked "Est."

NARRATIVE SUMMARY

A separate narrative report is desired from the leader of each line of work, such as county agricultural agent, home demonstration agent, boys' and girls' club agent, and Negro agent. Where an assistant agent has been employed during a part or all of the year, the report of his or her work should be included with the report of the leader of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked.

The narrative report should summarize and interpret, under appropriate subheadings, the outstanding results accomplished and the extension methods used for each project. Every statement should be clear, concise, forceful, and, where possible, reinforced with necessary data from the statistical summary. Use a descriptive style of writing, giving major accomplishments first under each project. Give extension methods fully relating to outstanding results only, and where practicable illustrate with photographs, maps, diagrams, blueprints, or copies of charts and other forms used. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs and reasonably good margins. The pages should be numbered in consecutive order.

The following outline is merely suggestive of how the narrative report may be clearly and systematically presented. Each agent should prepare an outline to fit the situation and the work to be reported.

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT

- I. Cover and title page.
- II. Table of contents.
- III. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning of the narrative report.
- IV. Changes in county extension organization made during the year to improve regular procedures or to meet emergencies.
- V. County extension program.
 - (1) Problems determining extension program.
 - (2) Influence of State and National agricultural agencies operating in county upon extension program.
 - (3) Activities and results.

Under appropriate headings present in some detail for each major problem or line of work the goals set up, the methods used, the cooperation received, the coordination effected, the results achieved, and the significance of these results in terms of problem solution.
- VI. Outlook and recommendations.

TERMINOLOGY

To insure reports which convey the intended meaning to others and to facilitate the compilation of satisfactory national statistics on extension, it is extremely important that terms be used in accordance with accepted definitions. The following definitions of extension terms have been approved by the United States Department of Agriculture and the Association of Land Grant Colleges and Universities. Agents should read these definitions before starting to write the annual reports.

DEFINITIONS OF EXTENSION TERMS

1. An extension program is a statement of the specific projects to be undertaken by the extension agents during a year or a period of years.
2. A plan of work is a definite outline of procedure for carrying out the different phases of the program. Such a plan provides specifically for the means to be used and the methods of using them. It also shows what, how much, when, and where the work is to be done.
3. A community is a more or less well-defined group of rural people with common interests and problems. Such a group may include those within a township, trade area, or similar limits. For the purpose of this report a community is one of the several units into which a county is divided for conducting organized extension work.
4. A project leader, local leader, or committeeman is a person who, because of special interest and fitness, is selected to serve as a leader in advancing some phase of the local extension program. A project leader may be either an organization or a subject-matter leader.
5. Demonstrations as contemplated in this report are of two kinds—method demonstrations and result demonstrations. A method demonstration is a demonstration given by an extension worker or other trained leader for the purpose of showing how to carry out a practice. Example: Demonstrations of how to can fruits and vegetables, mix spray materials, and cull poultry.
A result demonstration is a demonstration conducted by a farmer, home maker, boy, or girl under the direct supervision of the extension worker, to show locally the value of a recommended practice. Such a demonstration involves a substantial period of time and records of results and comparisons, and is designed to teach others in addition to the person conducting the demonstration. Example: Demonstrating that the application of fertilizer to cotton will result in more profitable yields, that underweight of certain children can be corrected through proper diet, that the use of certified seed in growing potatoes is a good investment, or that a large farm business results in a more efficient use of labor.
The adoption of a farm or home practice resulting from a demonstration or other teaching activity employed by the extension worker as a means of teaching is not in itself a demonstration.
6. A result demonstrator is an adult, a boy, or a girl who conducts a result demonstration as defined above.
7. A cooperator is a farmer or home maker who agrees to adopt certain recommended practices upon the satisfaction of an extension worker. The work is not directly supervised by the extension agent and records are not required, but reports on the success of the practices may be obtained.
8. A 4-H Club is an organized group of boys and/or girls with the objective of demonstrating improved practices in agriculture or home economics, and of providing desirable training for the members.
9. 4-H Club members enrolled are those boys and girls who actually start the work outlined for the year.
10. 4-H Club members completing are those boys and girls who satisfactorily finish the work outlined for the year.
11. A demonstration meeting is a meeting held to give a method demonstration or to start, improve, or further a result demonstration.
12. A leader-training meeting is a meeting at which project leaders, local leaders, or committeemen are trained to carry on extension activities in their respective communities.
13. An office call is a call by person by an individual or a group seeking agricultural or home-economic information, as a result of which some definite assistance or information is given. A telephone call differs from an office call in that the assistance or information is given or received by means of the telephone. Telephone calls may be either incoming or outgoing.
14. A farm or home visit is a call by the agent at a farm or home at which some definite information relating to extension work is given or obtained.
15. Days in office should include time spent by the county extension agent in the office, at annual and other extension conferences, and on any other work directly related to office administration.
16. Days in field should include all days spent on official duty other than "days in office."
17. Letters written should include all original letters on official business. (Duplicated letters should not be included.)
18. An extension school is a school usually of 2 to 6 days' duration, arranged by the Extension Service, where practical instruction is given to persons not residents at the college. An extension short course differs from an extension school in that it is usually held at the college or another educational institution and usually for a longer period of time.
19. Records consist of definite information on file in the county office that will enable the agent to verify the data on extension work included in this report.
20. The county extension association or committee is that county organization, whether a membership or a delegate body, which is recognized officially in the conduct of extension work in the county.

GENERAL ACTIVITIES

Report Only This Year's Extension Activities and Results That Can Be Verified

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report. Include time of assistants with that of regular agent.

AGENT	Total months of service this year	Days devoted to work with adults	Days devoted to work with 4-H Club and other youth	Total days in office	Total days in field
	(a)	(b)	(c)	(d)	(e)
(Name) Home demonstration agent					
Asst. home demonstration agent	(1)				
4-H Club agent					
Assistant county agent in charge of club work	(2)				
<u>F. F. Fisher</u> Agricultural agent	(3)	12	374.5 200	15	118.5
Assistant agricultural agent					171.0

2. County extension association or committee:

- (a) Agricultural extension:
 (1) Name Bushman C. A. C. P. (2) Number of members 1247
- (b) Home demonstration:
 (1) Name _____ (2) Number of members _____
- (c) 4-H Club:
 (1) Name Childress 4-H Club, Jenkins 4-H Club (2) Number of members 104
3. Number of communities in county where extension work should be conducted 10
4. Number of above communities in which the extension program has been planned cooperatively by extension agents and local committees 9
5. Number of different voluntary county or community project leaders or committeemen actively engaged in forwarding the extension program:
 (a) Adult work (1) Men 10 (2) Women _____
 (b) 4-H Club work (1) Men 1 (2) Women 1
 (3) Older club boys _____ (4) Older club girls _____
6. Number of different paid local leaders engaged in agricultural-conservation and adjustment programs (a) Men 3 (b) Women _____
7. Number of clubs or other groups organized to carry on adult home demonstration work _____
8. Number of members in such clubs or groups _____

ITEM	Home demonstration agents (a)	4-H Club agents (b)	Agricultural agents (c)	County total (d)
9. Number of 4-H Clubs			<u>2</u>	<u>2</u>
10. Number of different 4-H Club members enrolled	(1) Boys ²		<u>48</u>	<u>48</u>
	(2) Girls ²		<u>56</u>	<u>56</u>
11. Number of different 4-H Club members completing	(1) Boys ²		<u>22</u>	<u>22</u>
	(2) Girls ²		<u>26</u>	<u>26</u>

12. Number of different members enrolled in 4-H Club work for:⁴

MEMBERS	1st year	2d year	3d year	4th year	5th year	6th year and over
(a) Boys	<u>16</u>	<u>23</u>	<u>6</u>	<u>3</u>		
(b) Girls	<u>17</u>	<u>22</u>	<u>11</u>	<u>6</u>		

¹ County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or membership.

² Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on pages 7 to 24, minus duplications due to the same boy or girl carrying on two or more subject-matter lines of work. Do not include boys and girls enrolled late in the year in connection with the succeeding year's program.

³ Same as footnote 2 but refers to completions instead of enrollments.

⁴ The total for this question should agree with county total, question 11.

SUMMARY OF EXTENSION INFLUENCE FOR YEAR

It is highly desirable for extension workers to consider the proportion of farms and farm homes in the county which have been definitely influenced to make some substantial change in farm or home operations as a result of the extension program for men, women, boys, and girls. It is recognized that this information is very difficult for agents to report accurately, so a conservative estimate based upon such records, surveys, and other sources of information as are available will be satisfactory. Such estimates should be marked "Est."

Include results of emergency activities as well as the regular extension program.

35. Number of farms in county	2268	35
36. Number of farms on which changes in practices have definitely resulted from the agricultural extension program	40	36
37. Number of farm homes in which changes in practices have definitely resulted from the home demonstration program		37
38. Number of other homes in which changes in practices have definitely resulted from the home demonstration program		38
39. Number of farm homes with 4-H Club members enrolled	16	39
40. Number of other homes with 4-H Club members enrolled	11	40
41. Total number of different farm families influenced by some phase of the extension program (Include questions 35, 37, and 39, minus duplications.)	520	41
42. Total number of different other families influenced by some phase of extension program (Include questions 38 and 40; minus duplications.)	53	42

* County total should equal sum of preceding three columns minus duplications due to two or more agents participating in the same activity or accomplishment.

NOTE.—Questions 18-34 refer to the total number of different activities conducted this year. The totals should equal the sums of the corresponding information reported on following pages minus duplications where the same activity relates to two or more lines of work.
