H. P. Reid -Local Agent

NEGRO EXTENSION WORK
COUNTY AGENT WORK

*Approved
Dec 22/26*

*Wm. B. ...
District Agent*

Table of Contents

Working under one Advisory Board and four organized communities drawn up by Mr. D.C. Jones in the program of work for the year of nineteen hundred and twenty-five.

Factors considered in working out the program of work - - - - -	2
Results of Demonstrations - - - - -	2
Soil Improvement - - - - -	2
Junior Work and Results - - - - -	3
Rural Engineering - - - - -	3
Results - - - - -	4

Factors Considered in Working out The Program of Work

Since I found a program work for the county's benefit along better crops and soil improvement, through the use and practice of rotating cover crops, it has been my idea and policy to get as many farmers as possible to sow cover crops this fall for the chief reason to have winter grazing and green manure for spring plowing.

The factors to be considered in this program of work are soil improvement, better and more corn, more hay, better poultry and hogs.

Demonstrations

Corn

Sixteen corn demonstrations were conducted this year and all met with great success. The general average of the sixteen demonstrations showed an increase of seventeen bushels per acre. This is more than three of the farmers ever raised. Those that had a greater yield were the farmers who gave the corn the benefit of a cover crop of crimson clover. There were ten farmers that got the benefit of crimson clover. Mr. Walter Weaver is one who used crimson clover and the statement was made, never raised so much corn on a small quantity of fertilizer before in all my life. I shall always sow clover to fertilize my corn in the spring. You want have any trouble in getting me to show other farmers and I shall tell everybody I know. This man's yield was fifty-four bushels to the acre.

Soil Improvement

The farmers this fall are further a head than ever as far as soil improvement is concerned. There are twenty-one farmers already that have a good start with cover crops. Twelve with rye for to benefit the land for peanuts. They have experienced a number of years of single rotation

of peanuts and corn. They never considered a crop of any kind could be grown during the winter months that would benefit the soil and keep the single rotation from sapping all the vitality out the soil. They are giving the cover crops a chance at their land and the cover crops are going to give the stock, cows and hogs a chance to make good use of it this winter.

Junior Work

The junior work came from ~~one~~^{many} organized clubs in which five out of the six exhibited at the State and County Fair. The practical results from the instructions given the junior unit was greatly seen at both Fairs. There were nineteen prizes won at the State Fair by the five clubs. The high amount in single prizes was won by the first with peanuts. The first premium for peanuts was four dollars and this was won by George Cross of Whaleyville. The junior work held its grounds wonderful also at the County Fair. They took eight prizes and the showing they made were noticed by all visitors. It was said and noticed by everybody that the exhibits adult and junior work excelled all other fair exhibits that had ever been to Suffolk Tidewater Fair Grounds.

The ~~club~~ club is a girls' poultry club. They did not exhibit at the County Fair, but the results worked out fine at a ninety-days test given the demonstrations. Girls started out with one and a half pound chick and those who followed instructions during the ninety day period found themselves with chickens ready to lay weighing from five to six pounds. They figured a net profit running from seven-five to one dollar and a quarter per chicken.

Prizes won by the junior club work amounted to forty-two dollars and fifty cents. This was the largest amount of money received by this county for Fair exhibits.

Rural Engineering

There is a great demand coming from all parts of this county for home water supply. All farmers seem to take great delight in responding to this necessity. The simple reason is that it saves time and labor by securing the water from the well to and in the house. This kind of work is growing faster in demand than any other demonstration that is being on in this county. Already there have been pumps installed in kitchens and sinks set in for the kitchen use. There are calls

here and there when can I get some help with my water supply. There have been ten water supplies already completed and six on the way. This condition has already made the house wife proud of her kitchen and never fears anything along the kitchenwork, because she has all the water she wants right at hand, This in her kitchen means cleaner food, better conveniences for washing, no lugging of water through the cold and rain. It is a necessity that everybody is benefited by its conveniences.

Results

Since the home water supply has been introduced to this county one farmer, and a leader of his community, has carried the water supply a little further. He has added a bathroom outfit to his house with a septic tank for sewage disposal. This is made possible by having an elevated tank to furnish the house with proper amount of water. This tank happens to be erected just at the side of a pumphouse that was build for this purpose.

Everybody envies him of such a convenience and before long I expect to see a number of them seeking their way in to more of our farm houses. This is the first of its kind erected in our rural district. The farmer says he would not take the world for it. It is owned by Mr. W. W. Walden of Little Flocks Community.

COOPERATIVE EXTENSION WORK IN AGRICULTURE AND HOME ECONOMICS

and State Agricultural Colleges
Cooperating

Extension Service,
Office of Cooperative Extension Work,
Washington, D. C.

ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is to be used by county extension agents, such as county agricultural agent, home demonstration agent, club agent, and negro agent, reporting on their respective lines of work.

State Virginia County Roanoke
Report of Howard P. Peil County Local Agent Agent.
From Dec. 1, 1924 to Nov. 30, 1925.

If agent has not been employed entire year, indicate exact period. Agents resigning during the year should make out this report before quitting the service.

READ DEFINITIONS, PAGES 3 AND 4

COOPERATIVE EXTENSION WORK
COUNTY AGENT WORK

Approved:

Date

Dec. 9/25 Howard P. Peil
State or District Supervisor.

Date

State Extension Director.

SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT.

The annual report should be a review, analysis, interpretation, and presentation to the people of the county, the State, and the Nation of the sum total of the extension activities in each county for the year and the results obtained by the county extension agent assisted by the subject-matter specialists. The making of such a report is of great value to the county extension agent and the people of the county in showing the progress made during the year as a basis for future plans. It is of vital concern also to the State and Nation as a measure of rural progress and a basis for intelligent legislation and financial support.

Separate statistical and narrative reports are desired from each county extension agent in charge of a line of work, such as county agent, home demonstration agent, boys' and girls' club agent, and negro agent. Where an assistant agent has been employed a part or all of the year, a report on his or her work should be included with the report of the leader in charge of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked. Where two or more extension agents are employed in a county, each in charge of a line of work, care should be exercised to avoid including the same data in the statistical report of more than one agent.

At least four copies of the annual report should be made: One copy for the county officials, one copy for the agent's files, one copy for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. *The report to the Washington office should be sent through the State extension office.*

NARRATIVE SUMMARY.

The narrative report should be a statement in orderly fashion and arranged under appropriate subheadings, of the work done, methods used, and results obtained under each project, as well as of the general work accomplished. Every statement should be clear-cut, concise, forceful, and, where possible, reinforced with ample data from the statistical summary. In the preparation of the part of the report relative to each project, the results reported in the statistical summary for the project should be analyzed, conclusions drawn, and recommendations made. The report may well be illustrated with photographs, maps, diagrams, blue prints, or copies of charts and other forms used in demonstration work. Full credit should be given to all cooperating agencies. The lines should be single-spaced, with double space between the paragraphs, and reasonably good margins left. The pages should be numbered in consecutive order.

The following outline is suggestive of how the narrative report may be clearly and systematically presented:

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT.

- I. Cover and title page.
- II. Table of contents.
- III. Status of county extension organization.
 - (1) Form of organization—changes and development.
 - (2) Function of local people, committees, or project leaders in developing the program of work.
 - (3) General policies, including relationships to other organizations.
- IV. Program of work, goals established, methods employed, and results achieved.
 - (1) Factors considered and methods used in determining program of work.
 - (2) Project activities and results.

<ol style="list-style-type: none"> (a) Soils (b) Farm crops (c) Horticulture (c) Home gardens Beautification of home grounds (d) Forestry (e) Rodents, predatory animals, and birds. (f) Animal husbandry (g) Dairy husbandry (g) Home dairy (h) Poultry husbandry (h) Home poultry 	}	(including diseases and insects).
---	---	-----------------------------------

SUGGESTIVE OUTLINE OF ANNUAL NARRATIVE REPORT—Continued.

IV. Program of work, etc.—Continued.

(2) Project activities and results—Continued.

- (a) Rural engineering.
- (b) Rural engineering—home.
- (j) Agricultural economics, including farm management and marketing.
- (k) Home marketing.
- (l) Foods.
- (m) Nutrition.
- (n) Clothing.
- (o) Home management.
- (p) Home furnishings.
- (q) Home health and sanitation.
- (r) Community activities.
- (s) Miscellaneous.

V. Outlook and recommendations, including suggestive program of work for next year.

VI. Summary of activities and accomplishments, preferably of one or two typewritten pages only, placed at the beginning or end of the narrative report.

STATISTICAL SUMMARY.

To supplement the narrative part of the report, and in order that comparable State and National summaries may be made, it is necessary to include a statistical summary of the work in each county. The following form has been prepared to insure uniformity of reporting. In addition to the questions asked under each subdivision of the report, space is provided to add further data if desired. The statistical summary will grow naturally out of the field and office records.

DEFINITIONS OF TERMS USED IN THIS REPORT.

1. A PROGRAM OF WORK is a definitely outlined plan for extension work.
2. A PROJECT is a definite, systematic, organized plan for carrying out some phase of the extension program of work, providing for what is to be done, how much, when, where, how, and by whom.
3. MISCELLANEOUS WORK includes work which has not yet become a regular part of the program of work—work other than project work.
4. A COMMUNITY, for the purposes of this report, may be any one of the several units into which the county is divided for purposes of conducting organized extension work.
5. A PROJECT LEADER OR LOCAL LEADER is a person, selected because of his or her special interest and fitness, who functions as a leader in advancing some phase of the local program of extension work.
6. A DEMONSTRATION is an example designed to show the practical application of an established fact. Demonstrations as contemplated in this report are of two kinds, method demonstrations and result demonstrations.
 - A method demonstration is a demonstration given by an extension worker or other trained leader to a group for the purpose of showing them how to carry out a practice. Synonym: Lecture demonstration. Examples: Demonstrations of canning, mixing of spray materials, and culling of poultry.
 - A result demonstration is a demonstration carried on by a farmer, farm woman, boy, or girl under the direction of the extension service, involving a substantial period of time, records of results, and comparisons. Examples: Child-feeding, corn-culture, and orchard-management demonstrations.
7. A DEMONSTRATOR is a farmer, farm woman, boy, or girl who, under the direction of the extension service, conducts a result demonstration.
8. MEMBERS COMPLETING should include those who have satisfactorily finished the work outlined for the current year.
9. A DEMONSTRATION MEETING is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.
10. A TRAINING MEETING is a meeting at which project leaders or local leaders are trained to carry on extension activities in their respective communities.
11. AN OFFICE CALL OR TELEPHONE CALL is a visit or call by a farmer or other person seeking agricultural or home economics information, as a result of which some definite assistance or information is given.
12. A FARM VISIT is a call at a farm by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farmer regarding his work, or the better practice prevailing in his neighborhood.
13. A HOME VISIT is a call at a home by the agent at which some definite information is given or concrete plan of work outlined, or some valuable information obtained from the farm-woman regarding her work, or the better practice prevailing in her neighborhood.
14. DAYS IN OFFICE should include time spent by the county agent in his office, at county agent conferences, and any other work directly related to office administration.
15. DAYS IN FIELD should include all days spent on official duty other than those spent in office.
16. LETTERS WRITTEN should include all single letters on official business.

DEFINITIONS OF TERMS USED IN THIS REPORT—Continued.

- 17. A FARMERS' INSTITUTE is one of a series of meetings of one to two days' duration, arranged by a central State farmers' institute agency, at which agricultural and home-economics problems are discussed, usually by outside speakers employed for the purpose.
- 18. AN EXTENSION OR MOVABLE SCHOOL is an itinerant school usually of two to six days' duration where practical but systematic instruction is given to persons not resident at the college. AN EXTENSION SMOKE COURSE differs from an extension school in that it is usually held at the college or other educational institution and usually for a longer period of time, but not exceeding two weeks.
- 19. RECORDS consist of definite information filed in the county office that will enable the agent to verify the data on extension work included in this report.
- 20. FARM OR HOME PRACTICE ADOPTED is a new or improved practice adopted on a farm or in a home during the year as a result of extension teaching. Examples: Spraying of potatoes for disease, canning of fruits and vegetables, use of balanced rations, and hat making.

GENERAL ACTIVITIES.

Report only this year's extension activities and results that are supported by records.

If an assistant agent has been employed during the year, include his or her work with that of the agent.

1. List below the names, titles, and periods of service of the county extension agents whose work is included in this report.

<i>Howard P. Peck</i> Agent	3	111
<i>D. E. Jones</i> Asst. Agent	9	

2. Number of communities in county where extension work should be conducted. P 2

3. Number of above communities in which the extension program has been cooperatively worked out by extension agents and people concerned. 4 3

4. Number of voluntary county, community, or local leaders actively engaged in forwarding the extension program with— 4

(a) Juniors	10
(b) Adults	28

5. Number of clubs carrying on extension work: 5

(a) Junior	7
(b) Adult	4

6. Membership in above clubs:

(a) Boys	81	(c) Men	38
(b) Girls	14	(d) Women	

7. Number of club members completing: 7

(a) Boys	48	(c) Men	27
(b) Girls		(d) Women	

8. Number of members in junior club work for four or more years: 8

(a) Boys	11
(b) Girls	

GENERAL ACTIVITIES—Continued.

9. Number of junior judging or demonstration teams trained		9
10. Number entering college this year who have been club members		10
11. Total number of farm visits ¹ made in conducting extension work		11
12. Number of different farms visited		12
13. Total number of home visits made in conducting extension work		13
14. Number of different homes visited		14
15. Number of calls ² relating to extension work	(a) Office	15
	(b) Telephone	
16. Number of days agent spent in office		16
17. Number of days agent spent in field		17
18. Number of individual letters written		18
19. Number of fairs at which extension exhibits were made	(a) Community	19
	(b) County	
20. Training meetings ³ held for local leaders	(a) Number	20
	(b) Leaders in attendance	
21. Method and result demonstration meetings ³ held (do not include meetings reported in number 20)	(a) Number	21
	(b) Attendance	
22. Farmers' institutes ³ held	(a) Number	22
	(b) Attendance	
23. Extension schools ³ and short courses held	(a) Number	23
	(b) Attendance	
24. Junior club encampments held:		24
(a) Number		
(b) Attendance by club members	(1) Boys	
	(2) Girls	
(c) Total attendance		
25. Other extension meetings attended and not previously reported	(a) Number	25
	(b) Attendance	
26. Number of meetings at which were shown	(a) Lantern slides	26
	(b) Motion pictures	
	(c) Charts	

[Use space below to include other important data.]

¹ Do not count the same visit as both a farm visit and a home visit.
² See definition on page 3.

PROGRAM SUMMARY

List below information on each project of the program of work for the year. If an assistant agent has been employed during the year, include his or her time with that of the agent. This page should not be filled out until the questions on the following pages have been answered.

Title of project	Number of cooperative parties participating ¹	Number of local leaders assisting ¹	Days expenditures budgeted	Days agent devoted to projects

FARM-DEMONSTRATION WORK.

SOILS.¹

Report only this year's extension activities and results that are supported by records.

45. Number of method demonstrations given. (See definition 6, page 3.)	5	45
46. Number of result demonstrations started or under way. (See definition 6, page 3.)	1	46
47. Number of result demonstrations completed or carried through the year.	1	47
48. Number of acres involved in these completed demonstrations		48
49. Number of farms adopting improved practices in the use of commercial fertilizer this year		49
50. Tons involved in preceding question		50
51. Number of farms taking better care of farm manures this year	17	51
52. Number of farms using lime or limestone for the first time		52
53. Tons of lime or limestone so used		53
54. Number of farms plowing under cover or other green manure crops for the first time	1	54
55. Acres of cover and green manure crops so plowed under	2	55
56. Total number of different farms adopting improved practices, relative to the soils work reported on this page. (Include questions 47, 49, 51, 52, and 54 less duplications.)	10	56

[Use space below to include other important data relating to soils.]

¹ For drainage, irrigation, land clearing, and terracing see "Rural Engineering," page 16.

LEGUMES AND FORAGE CROPS.

Report only this year's extension activities and results that are supported by records.

[Use space below to list the principal products handled in cooperative marketing associations reported above.]

COMMUNITY ACTIVITIES AND MISCELLANEOUS—HOME.

Report only this year's extension activities and results that are supported by receipts.

Do not list information which has been previously reported on page 18.

Use this page to include work on any other home-economics project not included in the preceding pages, such as recreation, basket making, and similar work, i. e., any other information that can be reported statistically and that will help to give a complete account of the year's work.

Item	(a) ¹	(b) ²	(c) ¹
